An inspection of the premises on October 17, 2019, indicates that certain repeat violation(s) of the City of Port Orange Code exist. This correspondence will serve as official notification that the below stated violation(s) must be corrected immediately.

Briefly stated, the property is in violation of the following:

Chapter 42, (Nuisances), Article II (Garbage, junk, and undergrowth), Section 42-26 (Cleanliness of property generally-duty of owner), (d) (Maintenance of improved residential lots) of the City of Port Orange Code of Ordinances: The owner of an improved lot in a residential zone with lot sizes of one acre or less shall keep such lot free and clear of all fallen trees and limbs. All weeds, grass and undergrowth shall be cut to a height not exceeding ten inches. **(h)** Abutting property owner maintenance of parkages. It shall be the duty of every owner of real property within the city to at all times cause to be cut and mowed the grass and weeds, and to cause to be cut and trimmed the flowers, vines, shrubbery, and trees not exceeding six feet in height, in a manner that protects and promotes the public health, safety and welfare and presents an aesthetically pleasing appearance in those areas of the parkage most nearly abutting their properties. Parkages abutting improved residential or commercial lots shall be maintained as provided in **subsection (d)** of this section for improved residential lots. Parkages abutting unimproved residential lots shall be maintained as provided in **subsection (e)** of this section for the maintained portion of unimproved residential lots. "Parkage" is that space between the private property lot or survey line of the property owner and the paved or graded portion of the public street adjacent thereto and includes that area between a sidewalk and street. Every property owner shall also have the duty of removing any refuse or other debris existing within the adjacent parkage, but the placement of refuse for collection in a manner and in containers specified by other provisions of this Code is not prohibited.

- The initial inspection of this property found high weeds and grass. To correct the violation, the entire property needs to be mowed and trimmed, and all debris blown back onto the property.

You have previously (within the past five years) been found by the Special Magistrate to have violated the above referenced code section(s) on September 11, 2019 under Case No. 19-0750.

A fine up to \$5,000 per day per violation for a repeat violation may be assessed by the Special Magistrate.

Once you have caused the violation(s) to be corrected, you must request a re-inspection by the Code Enforcement Officer to determine whether the property is in compliance.

This case shall be presented to the Special Magistrate even if the violation(s) has been corrected prior to the scheduled hearing date below.

NOTICE OF HEARING AS TO REPEAT VIOLATION(S) ALLEGED

An inspection of the premises on September 21, 2018, indicates that certain violation(s) of the City of Port Orange Code exists.

Code Enforcement met with the Store Manager in July regarding an upcoming inspection and went over what needed to be corrected. The commercial inspection with landscape plans started on September 21, 2018. The manager was sent an email with the landscape plan and corrections to be made on October 4, 2018 and given 45 days to correct the violations from that date. A re-inspection was done on January 3, 2019, resulting in non-compliance, and with no progress being made towards compliance.

This correspondence will serve as official notification that the below stated violation(s) must be corrected by **March 21, 2019**.

Briefly stated, the property is in violation of the following:

City of Port Orange Code of Ordinances, Chapter 14 Buildings and Building Regulations, Article VII Commercial Property Maintenance Standards:

Sec. 14-314. - Landscaping and buffers—Maintenance criteria.

(a) *Approved landscape plans.* All properties which developed under specifically approved landscape plans shall be required to maintain the materials shown on such plans according to subsection (d) below, within the following parameters:

(1) *Trees.* All trees shall be maintained as shown on the plans. Replacement trees, if necessary, must meet the size criteria of section 14-315, and must be from the same general category, i.e., shade trees, understory trees, palms, etc. In buffering applications, evergreen trees may be replaced only with evergreen species.

(2) *Shrubs.* All shrubs shall be maintained as shown on the plans. Required buffer shrubs shall be grown to and maintained at a minimum height of five feet, with regular trimming and pruning to foster dense growth. Shrubs required

along parking areas shall be maintained at a minimum height of three feet. Other shrubs shall be maintained at a reasonable mature height for the species.

(3) *Lawns*. Lawns shall be maintained as shown on the plans. Alternative living ground covers may be utilized as desired. Approved mulch materials may be used in designated lawn areas:

- a. To accommodate new or expanded planting areas and their natural growth.
- b. In natural areas or areas of heavy shade where lawn maintenance has been unsuccessful.
- c. In limited areas subject to foot traffic where maintenance has been unsuccessful.

(4) *Natural areas*. Natural areas shall be left generally undisturbed, with no removal of natural material except for weeds and dead material. Natural areas may be underbrushed and sodded or mulched with city approval.

(5) *Other planting areas*. Other planting areas shown on the plans shall be maintained with similar materials to those originally specified. Annual flower beds may be converted to permanent material with at least a two-month flowering period, or material with berries, colorful flower bracts, or variegated foliage to simulate the original design intent.

(d) *Required maintenance and anticipated growth and coverage*. The following criteria shall be used to evaluate the maintenance and growth of all landscape plantings:

(1) Existing trees preserved during development shall be maintained so as to provide the greatest opportunity for survival. Such maintenance shall include, as necessary, the following activities:

- a. Trimming and pruning to reduce stress.
- b. Soil aeration.
- c. Deep root fertilization.

(2) Landscape plantings shall be maintained based on accepted professional practices to include regular irrigation, fertilization, pest control, weed control, and trimming and pruning.

(3) Reasonable growth shall be based on accepted industry standards.

(4) All trees and shrubs shall be trimmed so as not to interfere with pedestrian and vehicle movements.

(5) Mulched areas shall be maintained so as to provide solid coverage and reasonable weed control.

(6) Natural areas shall be kept free of garbage, trash and other foreign materials. Dead material shall be removed and replaced as required by this article. Natural area edges and other disturbed areas shall be mulched or sodded with weed growth controlled.

(7) Irrigation systems must be maintained in proper working order to provide 100 percent coverage of planted landscaped areas.

- According to the requirements listed on the provided site plan all plants, shrubs, trees, must be provided and maintained as per plan and within the standards listed above.

Sec. 14-315. - Same—Replacement criteria.

(a) *Landscape plantings*. When the material required to be maintained under this article dies or fails to meet standards for reasonable growth, it shall be replaced with the same or similar material meeting the minimum specification of the zoning code.

(b) *Buffer plantings*. When material required to be maintained as part of a specific buffer shown on an approved plan or mandated by code at the time of development dies or fails to meet standards for reasonable growth, it shall be replaced with material as close in size and fullness as similar adjacent materials planted at the same time. However, the following upper limits shall apply to replacement material:

- (1) Replacement shade trees will be no larger than four-inch caliper, 20 feet in height (except palms).
- (2) Replacement understory trees will be no larger than two-inch caliper, 12 feet in height (except palms).
- (3) Replacement shrubs will be no larger than four feet in height.

(c) *Natural areas*. When material in natural areas required to be maintained by this article dies or is removed, it shall be replaced with the same or similar materials from the city's approved list of native plants and meeting minimum zoning code specifications. However, where natural areas are specifically designed to act as a required buffer, the requirements of subsection (b) above shall apply.

- According to the requirements listed on the provided site plan all plants, shrubs, trees, must be provided and maintained as per plan and within the standards listed above.

Sec. 14-317. - Parking, sidewalk and driveway areas.

(a) *Maintenance criteria*.

(1) *Parking lot striping, fire lane and traffic control markings*. All striping and markings required by the original site plan, the Manual of Uniform Traffic Control Devices (MUTCD), or other city codes must meet minimum visibility standards and shall conform to the design standards of the MUTCD.

(2) *Traffic and parking control signage.* All signage required by the site plan, the MUTCD, and other city codes shall be maintained according to accepted standards.

(3) *Pavement surfaces.* All sidewalk and road pavement surfaces shall be maintained to be free of cracks, potholes and other defects posing a hazard to pedestrian and vehicle safety, and shall be patched, seal coated, or resurfaced as required to maintain the structural integrity of the pavement base and surface. Vegetation shall be trimmed to provide sign visibility per the MUTCD.

(4) *Storage of products or materials.* Designated parking, sidewalk and driveway areas shall not be used for the storage or sale of products or materials of any type. Products or materials unloaded in designated service areas and loading zones shall be moved indoors or into approved outside storage areas within 24 hours.

(b) *Construction standards:*

(1) All maintenance activities shall utilize materials and specifications equal to or exceeding those required for new construction of similar facilities.

(2) All traffic sign installations shall conform to the standards of the MUTCD.

- The parking lot needs to be resurfaced and all deficiencies repaired. All parking lot markings need to be repainted. Any stop signs or the like need to be kept clean and legible, not blocked by any vegetation, and if faded or broken, must be replaced in accordance with the standards of the MUTCD. All outside storage including but not limited to pallets, pallets of compacted cardboard, mini storage pods, product in the parking lot, a water cage, miscellaneous items in the rear of the building, etc. need to be removed and properly stored.

Sec. 14-318. - Other property improvements; maintenance criteria.

(c) *Walls and fences.* All walls and fences shall be maintained in accordance with the zoning chapter of the land development code and the following standards:

(1) Fences and walls shall be painted, stained or otherwise maintained as originally designed.

(2) Fences and walls shall be kept free of unpermitted signs, posters and graffiti.

(3) Fences and walls shall be maintained in their original upright position, with all gates in good operating condition.

(d) *Trash, litter and debris.* All sites shall be maintained so as to be free of trash and litter of any type, except in an approved dumpster or can. Paved areas shall be kept free of built-up silt and dirt.

- The blue section of wall behind the sign on the face of the building needs to be re-painted. The building and wall need to be pressure washed and painted if needed following the pressure washing. All trash and debris must be cleaned up and removed from the site.

Chapter 42 (Nuisances), Article II (Garbage, Junk and Undergrowth), Section 42-32 (Storage of vehicles, furniture, etc.), of the City of Port Orange Code of Ordinances: No owner of property within the city shall permit the storage of vehicles or parts of vehicles, furniture, appliances or other personal property upon the premises, except in an enclosed building.

- The initial inspection of this property found a very large amount of outside storage (pallets, pallets of compacted cardboard, mini storage pods, product in the parking lot, a water cage, miscellaneous items in the rear of the building, etc.). To correct the violation, the outside stored items must be properly stored inside an enclosed building, or in the exterior storage cage in the back of the building.

Failure to comply after this date may result in the commencement of appropriate code enforcement action and/or possible fine of up to \$1,000.00 per day for a first violation, \$5,000.00 per day per violation for a repeat violation, and up to \$15,000.00 per violation if the code enforcement board or special magistrate finds the violation to be irreparable or irreversible in nature.

If the violation is corrected and then recurs, or if the violation is not corrected by the specified time for correction by the Code Compliance Inspector, the case shall be presented to the **Special Magistrate** on the date set forth below, even if the violation has been corrected prior to this scheduled hearing.

The burden shall rest upon the Respondent to request a re-inspection by the Code Enforcement Officer to determine whether the property is in compliance.

An inspection of the premises on February 18, 2019, indicates that certain violation(s) of the City of Port Orange Code exists.

A re-inspection was done on June 3, 2019, resulting in non-compliance. Most recent inspection, on July 15, 2019, resulted in non-compliance.

This correspondence will serve as official notification that the below stated violation(s) must be corrected by August 25, 2019.

Briefly stated, the property is in violation of the following:

1. City of Port Orange Code of Ordinances Chapter 42 Article 2 Section 42-26. - Cleanliness of property generally—Duty of owner.

- (d) Maintenance of improved residential lots.** The owner of an improved lot in a residential zone with lot sizes of one acre or less shall keep such lot free and clear of all fallen trees and limbs. All weeds, grass and undergrowth shall be cut to a height not exceeding ten inches. However, nothing in this subsection shall be construed to require natural areas located within larger improved lots to be cut to a height less than ten inches within such natural areas.

- Initial inspection found the property to be overgrown in the back yard. All overgrown areas in the back yard need to be cut back and mowed.

2. Chapter 3, Section 303 Swimming Pools, Spas, and Hot Tubs of the 2015 International Property Maintenance Code as adopted per Chapter 14, Article II of the City of Port Orange Code of Ordinances,

303.1 Swimming Pools. Swimming pools shall be maintained in a clean and sanitary condition, and in good repair.

303.2 Enclosures. Private swimming pools, hot tubs, and spas, containing water more than 24 inches (610 mm) in depth shall be completely surrounded by a fence or barrier not less than 48 inches (1219 mm) in height above the finished ground level measured on the side of the barrier away from the pool. Gates and doors in such barriers shall be self-closing and self-latching. Where

the self-latching device is not less than 54 inches (1372 mm) above the bottom of the gate, the release mechanism shall be located on the pool side of the gate. Self-closing and self-latching gates shall be maintained such that the gate will positively close and latch when released from an open position of 6 inches (152 mm) from the gatepost. No existing pool enclosure shall be removed, replaced, or changed in a manner that reduces its effectiveness as a safety barrier. **Exemption:** *Spas or hot tubs with a safety cover that complies with ASTM F 1346 shall be exempt from the provisions of this section.*

- The initial inspection of this property found a green pool, and no fence around the property to secure the pool. To correct the violation, the pool needs to be cleaned and sanitized or covered with an approved pool cover, and the pool needs to be secured, with a minimum of a 48 inch barrier (fence or enclosure) around the pool.

3. City of Port Orange Land Development Code, Chapter 10 Clearing, Grading, and Stormwater Management, Article 1 Clearing and Grading, Section 1 Purpose and Intent, The purpose of this article is to provide specific criteria for allowable clearing and grading in order to prevent flooding, to avoid drainage impacts on adjoining properties, and to limit damage to the environment and to the waterways within the city. Specific review criteria for evaluation of drainage modifications are located in article II of this chapter.

4. City of Port Orange Land Development Code, Chapter 10 Clearing, Grading, and Stormwater Management, Article 1 Clearing and Grading, Section 2 Permits Required for change of Grade. It is hereby unlawful for any person to change or modify the grade of any land without obtaining a change of grade permit in accordance with the provisions of this chapter. The following procedure shall apply for unsubdivided property or subdivided lots with no approved development or building plan. However, the provisions of article II of this chapter shall supersede the following for those activities requiring a stormwater management permit as reflected in article II of this chapter.

- The initial inspection found there to be evidence through City documentation that the rear yard swale was partially filled in. The rear yard swale/elevation needs to be inspected and should any area be inconsistent with the original or permitted grade, it needs to be corrected by bringing the swale back to its original design.

Failure to comply after this date may result in the commencement of appropriate code enforcement action and/or possible fine of up to \$1,000.00 per day for a first violation, \$5,000.00 per day per violation for a repeat violation, and up to \$15,000.00 per violation if the code enforcement board or special magistrate finds the violation to be irreparable or irreversible in nature.

If the violation is corrected and then recurs, or if the violation is not corrected by the specified time for correction by the Code Compliance Inspector, the case shall be presented to the **Special Magistrate** on the date set forth below, even if the violation has been corrected prior to this scheduled hearing.

The burden shall rest upon the Respondent to request a re-inspection by the Code Enforcement Officer to determine whether the property is in compliance.
