INTRODUCTION

Under the 1985 Growth Management Act, local governments are mandated to plan for the availability of public facilities and services to support development and the impacts of such development. The purpose of the Capital Improvements Element (CIE) and the Capital Improvements Schedule (Schedule) is to identify the capital improvements that are needed to implement the Comprehensive Plan and ensure that the adopted Level of Service (LOS) Standards are achieved and maintained for concurrency related facilities.

The 2005 Growth Management Act requires the Schedule to be financially feasible. As defined by Chapter 163.3164(32) F.S., in order for a Schedule to be financially feasible it must demonstrate that sufficient revenues are currently available or will be available from committed funding sources for the first 3 years, or will be available from committed or planned funding sources for years 4 and 5. These revenues must be adequate to fund the projected costs of the capital improvements identified in the comprehensive plan necessary to ensure that adopted LOS standards are achieved and maintained within the period covered by the 5-year Schedule. The requirement that LOS standards be achieved and maintained does not apply if the proportionate-share process set forth in Chapter 163.3180(12) and (16), F.S., is used.

This Element, intended to demonstrate the financial feasibility of the City of Port Orange's Comprehensive Plan, commences in the fiscal year ~~2013/14~~2014/15 and identifies potential projects for the initial five-year planning period. Individual Capital Improvement needs identified in this Element are, for the most part, those improvements which cost \$25,000 or more and are generally non-recurring purchase items. The capital improvements identified in the other Elements of this Comprehensive Plan are listed with a brief description in Table 1 along with their estimated cost, funding source, and projected year of expenditure. The improvements are listed by type of service, related to the various Elements of the Comprehensive Plan. As required by Section 9J-5.016, F.A.C., the Capital Improvements Element addresses existing and future capital improvements needed for at least the first five fiscal years after the adoption of the comprehensive plan. Therefore, Table 1 lists improvements identified for the years ~~2014 – 2019~~2015-2020.

The capital improvements projects listed in Table 1 are not inclusive of all anticipated capital expenditures by the City during the designated time period. For the most part, the list of improvements has been limited to the capital projects required to meet or maintain adopted LOS standards or implement the Goals, Objectives, and Policies of the Comprehensive Plan. Improvements on a smaller scale (generally under \$25,000 in cost) are outlined in the City's five-year Capital Improvement Program and annual budget as they are needed over time. Tables 1A-E, provided as a supplement to Table 1, list specific improvements to the City's water and sewer system, as well as specific street resurfacing projects for the years ~~2014 – 2019~~2015-2020, and current transportation proportionate fair-share agreements.

A traffic signal is required to ensure safe, efficient traffic flow given the number of turning movements and traffic volumes at this location. A signal warrant analysis study was prepared for Volusia County in December 2008 that recommended signalization of the intersection. The signal will be constructed with mast arms. Estimated project cost is \$2,400,000. Currently, \$1,725,000 has been funded in previous fiscal years. This project is proposed as a 4 lane divided curb and gutter section designed to Volusia County standards. It is composed of 1600' of 4 lane roadway and 800' of improvements in the existing 2-3 lane section to the south of Hidden Lakes Drive, including turn lanes and transition tapers in the existing Yorktowne Blvd. and Hidden Lakes section. This project involves adding 2 lanes to the existing 2-lane Williamson Blvd. roadway from the north boundary of the Pavilion project north to Townwest Blvd., a 0.53-mile section. Project cost estimates are based on construction of an additional 2 travel lanes within the existing right-of-way with minimal impact to the existing roadway. The new construction will require stormwater treatment and it will be necessary to acquire an estimated 1-acre of off-site property for this purpose. (Consistent w/ Comp Plan: Transp. Objective 2.6, 2.7, 2.13, and 2.14)

This project involves construction of a 1/2-mile 2-lane divided roadway extending Coraci Blvd. 2600' from the south limits of Coquina Cove III to Carmody Lake Drive within the existing undeveloped right-of-way. Drainage improvements are projected to be constructed in the right-of-way. This will serve as an alternate route and reliever route for traffic generated by the Forest Lakes subdivision and to a lesser extent to Coquina Cove and reduce impacts on Taylor Road. This roadway is indicated as a future collector road in the Comprehensive Plan. (Consistent w/ Comp Plan: Transp. Objective 2.7, 2.10, and 2.14)

This project is proposed as a 4-lane divided curb and gutter section designed to the Volusia County standards. The roadway design is complete and was done in conjunction with the Nautica Lakes development. This improvement is required to complete the Yorktowne Boulevard connection between Hidden Lakes Drive and Willow Run Boulevard. (Consistent w/ Comp Plan: Transp. STAFF REPORT

CASE NO. 14-27500001

Comprehensive Plan Capital Improvements Element -
2014 Annual Update

REQUEST: Update and amend the Comprehensive Plan Capital Improvements Element (CIE) in accordance with Florida Statutes

APPLICANT: City of Port Orange

STAFF RECOMMENDATION: **Approval** of the annual CIE update

STAFF CONTACT: Penelope Cruz, AICP, Principal Planner
(386) 506-5671

PLANNING COMMISSION DATE: November 20, 2014

INTRODUCTION:

State law requires that local governments update their Comprehensive Plan Capital Improvements Element (CIE) every year to show that they have funded or planned to fund the public facility improvements needed to support their population¹. These facilities include water, sewer, stormwater, solid waste, roads, parks, and schools. All of the required public facilities meet the City's adopted level of service standards. Therefore, these proposed amendments to the CIE primarily include improvements that will help maintain the level of service standards into the future.

PURPOSE:

Under the 1985 Growth Management Act, local governments are mandated to plan for the availability of public facilities and services to support development and the impacts of such development. The purpose of the CIE and the 5-year Capital Improvements Schedule is to identify the capital improvements needed to implement the Comprehensive Plan and ensure the adopted Level of Service (LOS) Standards for concurrency-related facilities are achieved and maintained.

DISCUSSION:

The amendments to the CIE include the updated Schedule (copied from the City's adopted FY 2014/15 – 2019/20 Capital Improvements Program) and other amendments to update data related to the Schedule and other statutorily required information, such as excerpts from the Transportation Planning Organization's (TPO) Transportation Improvements Program (TIP) and the Volusia County School District Five-Year Work Program (Exhibit A, Tables 5 and 6).

The CIE Schedule includes projects required to meet or maintain adopted LOS standards for concurrency-related facilities or implement the Goals, Objectives, and Policies of the Comprehensive Plan (Exhibit A). The concurrency management system for the City of Port Orange is established by policy in the City's Comprehensive Plan,

¹ Ch. 163.3177(3) F.S.

and administered through regulations contained within the City's Land Development Code.

The City is required to monitor the cumulative effect of all approved Development Orders and Development Permits on the capacity of public facilities. This obligation is met through individual concurrency reviews of development proposals and the annual Concurrency Management Report (CMR). The City's concurrency review evaluates the following public facilities and services:

- Transportation
- Sanitary Sewer
- Potable Water
- Stormwater Drainage
- Solid Waste
- Recreation
- Public Schools

The 2014 CMR identified that all public facilities and services subject to concurrency are at sufficient levels. The CMR also identified improvements that are planned or programmed to ensure that the City continues to maintain the adopted LOS.

RECOMMENDATION:

Staff recommends **approval** of the adoption of the 2014 CIE Annual Update.

CITY COUNCIL AGENDA ITEM

REQUESTED COUNCIL MEETING DATE 12/09/2014

Consent item: No

SUBJECT: First Reading - Ordinance No. 2014-32 - Comprehensive Plan Amendment (Small Scale) *Urban High Density Residential (8-16 units/acre)* to *Commercial* for 1040 Herbert St. Case No. 14-20000001

DEPARTMENT: Community Development

RECOMMENDED MOTION: Approve Ordinance No. 2014 - 32 to change the Future Land Use designation for ± 0.68 acres from *Urban High Density Residential (8 – 16 units per acre)* to *Commercial*.

SUMMARY:

Planning Commission Action (11/20/14): Recommended Approval

The applicant is requesting to change the Future Land Use (FLU) designation from *Urban High Density Residential (8-16 units/acre)* to *Commercial* for ± 0.68 acres (amendment area) of an overall ± 4.54 -acre property. The ± 0.68 -acre amendment area is located west of the intersection of Herbert Street and Nova Road. The remaining ± 3.86 acres are not included in the proposed amendment and would retain the current *Urban High Density Residential* FLU designation.

If the proposed FLU amendment is approved, the applicant intends to rezone the property from High Density Multi-family Residential (R-3H) to Highway Commercial (HC) and combine the property with the existing Circle K parcel as well as the vacant parcel located south of the Circle K. The applicant then intends to demolish the existing 2,400 square foot convenience store and four fuel dispensers and redevelop the expanded site with a 4,400 square foot new convenience store with up to 16 fueling dispensers along with associated site improvements. The proposed Circle K will be similar to the store being reconstructed at Nova Road and Spruce Creek Road.

Small Scale Comprehensive Plan Amendment /
Circle K
CASE NO. 14-20000001

REQUEST: Change the Future Land Use designation of approximately 0.68 acres from *Urban High Density Residential* (8 – 16 units per acre) to *Commercial*

LOCATION: 1040 Herbert St. (Figure 1 – Location Map)

OWNER: Arrington Developers of Florida LLC

APPLICANT: Ryan Plate, Circle K

STAFF RECOMMENDATION: **Approval**

STAFF CONTACT: Gwen Perney, Senior Planner (386) 506-5673

PLANNING COMMISSION DATE: November 20, 2014

PROPERTY OVERVIEW:

The proposed amendment is to change the Future Land Use (FLU) designation from *Urban High Density Residential (8-16 units/acre)* to *Commercial* for $\pm$ 0.68 acres (amendment area) of an overall $\pm$ 4.54-acre property. The $\pm$ 0.68-acre amendment area is located west of the intersection of Herbert Street and Nova Road. The remaining $\pm$ 3.86 acres are not included in the proposed amendment and would retain the current *Urban High Density Residential* designation.

The subject property is located along Herbert Street, west of the existing Circle K convenience store and gas station. The property is currently undeveloped. If the proposed FLU amendment is approved, the applicant intends to rezone the property from High-Density Multi-Family Residential (R-3H) to Highway Commercial (HC) and combine the property with the existing Circle K parcel as well as the vacant parcel located south of the Circle K. The applicant then intends to demolish the existing 2,400 square foot convenience store, four fuel dispensers and redevelop the expanded site with a 4,400 square foot new convenience store with up to 16 fueling dispensers along with associated site improvements. The proposed Circle K will be similar to the store being reconstructed at Nova Road and Spruce Creek Road.

Figure 1. Location Map

**DISCUSSION:**

According to the City's Comprehensive Plan, "*Commercial* land uses are those that provide for the retail sale of items and services to the general public. These areas consist of shopping centers, retail stores, restaurants, automobile service facilities, personal services, offices, and similar uses." The City has planned for and designated commercial nodes at intersections of major roads in the Future Land Use Element of the Comprehensive Plan. In this case, the subject property is part of a Neighborhood Commercial node located at the intersection of Herbert Street and Nova Road. The node classification was determined based on the classification of the adjacent roadways and size of the surrounding neighborhoods. Neighborhood Commercial nodes are intended to serve the convenience needs of neighborhood areas within a ± 1 mile radius.

The current adopted and proposed Future Land Use (FLU) designation is identified on Exhibit "A". The current zoning classification of the adjacent properties and the subject property (R-3H) are identified on Exhibit "B".

PROPOSED AMENDMENT:

The proposed amendment is to change the FLU designation for ± 0.68 acres from *Urban High Density Residential* (8-16 units/acre) to *Commercial*. Table 1 identifies the maximum allowable density/intensity by the current and proposed FLU designations

Table 1. Current & Proposed Future Land Uses – Density/Intensity by Category

	Current FLU	Proposed FLU	Net Change in FLU
	[theoretical max dwelling units (DU)/sq.ft.]		
Commercial (0.3 FAR ⁽¹⁾)	0	8,676 sq. ft.	+8,676 sq.ft.
Urban High Density Residential (8-16 units/acre)	10 DU	0 DU	-10 DU
TOTAL	10 DU 0 sq.ft.	0 DU 8,676 sq.ft.	-10 DU + 8,676 sq. ft.

**The subject property is located in a designated Neighborhood Commercial node, which has a maximum Floor Area Ratio (FAR) of 0.3.*

INFRASTRUCTURE IMPACT ASSESSMENT

In accordance with standard practice from the Florida Department of Economic Opportunity (DOE) and other review agencies, an impact comparison analysis of the proposed amendment has been completed based upon the theoretical maximum development potential under the current future land use designation versus the designation proposed. The following seven public facilities and services were examined (Table 2):

1. Transportation
2. Sanitary Sewer
3. Potable Water
4. Solid Waste
5. Stormwater Drainage
6. Recreation
7. Schools

Table 2. Impact Analysis (Theoretical Max.)

Notes:

1. Population: 2.25 persons per household (per 2010 Census)
2. Transportation: ITE Trip Generation Manual, 9th Edition
3. Sanitary Sewer: 160 gallons per day per Equivalent Residential Unit; 1/10 gallon per square foot per day of non-residential development
4. Potable Water: 180 gallons per day per Equivalent Residential Unit; 1/10 gallon per square foot per day of non-residential development
5. Solid Waste: 3.21 pounds per person per day; 10 pounds per 1,000 square feet per day of non-residential development
6. Stormwater Drainage: LOS standard = 25 year, 24 hour event. Drainage system will be designed to meet the requirements of the Land Development Code.
7. Rec. & Open Space: 7 acres/1,000 persons (0.007 acres/person)

**The subject property is located in a designated Neighborhood Commercial node, which has a maximum Floor Area Ratio (FAR) of 0.3.*

TRANSPORTATION

A slight increase in the number of daily and p.m. peak hour trips is likely as a result of the proposed FLU amendment. Based on the Institute of Transportation Engineers Manual, the proposed *Commercial* designation could generate an additional 28 p.m. peak hour trips and 312 daily trips.

Similar to other developments within the City, the developer may be required to submit a traffic study at the time a site plan is submitted to fully assess the impacts of the proposed development on the surrounding roadway network and to identify any improvements that might be needed.

According to the latest traffic counts for Nova Road and Herbert Street, there is sufficient capacity on these roads for traffic estimated to be generated by future development of this property (Table 3).

SANITARY SEWER

The City has available sewer capacity to accommodate the proposed land use change. The City's adopted LOS standard for sanitary sewer is 160 gallons per day per Equivalent Residential Unit (ERU) and 1/10 gallon per square foot per day of non-residential development. Using these standards, the proposed FLU designation would theoretically generate less wastewater per day.

POTABLE WATER

The City has available well and Consumptive Use Permit (CUP) capacity to serve the proposed land use change. The City's adopted LOS standard for potable water is 180 gallons per day per ERU and 1/10 gallon per square foot per day of non-residential development. Using these standards, the proposed FLU designation would theoretically demand less potable water per day.

SOLID WASTE COLLECTION

There is available capacity at the landfill to address the City's solid waste disposal needs. Solid waste generated within the City is delivered to the Volusia County landfill, a 3,000-acre Class I landfill with a projected life span to the year 2050. The City's collection standard is 1,350 residential units per curbside collection crew, per day, a weight standard of 3.21 pounds per person per day, and 10 lbs. per 1,000 square feet of non-residential development per day. Using these standards, the proposed FLU designation would theoretically generate 10 more pounds of solid waste per day.

STORMWATER DRAINAGE

There is no anticipated impact to the City's drainage system from the proposed land use change. Stormwater management in the City deals with both quality and quantity. The City's adopted LOS standard for stormwater is the 25-year, 24-hour storm event. More specifically, the stormwater facilities must be capable of treating and conveying the runoff from such a storm without causing flooding of adjacent properties or polluting any receiving water bodies. In addition, the Comprehensive Plan and Land Development Code require that there be no net loss of stormwater retention function as a result of development. The site must have the same ability to store and discharge water after development as it does before development occurs. Any future redevelopment of the property will be required to address stormwater retention on the property in accordance with these City standards.

RECREATION AND OPEN SPACE

There is no anticipated impact to the City's recreational facilities or parkland from the proposed FLU amendment. The development of this property with commercial uses would not require additional parkland or recreation facilities because it is a non-residential use.

SCHOOLS

There is a reduction in impact to school facilities as a result of the FLU amendment not having a residential component.

REVIEW CRITERIA AND STAFF FINDINGS

1. *The land use proposal is consistent with the goals, objectives, and policies of the adopted Port Orange Comprehensive Plan.*

Staff finding: The proposed FLU amendment is generally consistent with the Goals, Objectives, and Policies of the City's Comprehensive Plan. The proposed land use category meets the locational criteria for the *Commercial* designation of being located at a designated Neighborhood Commercial Node at the intersection of roadways (Exhibit "C"). All public facilities have adequate capacity to accommodate the proposed land use change.

2. *Amendments shall not result in incompatible land use designations for adjacent parcels or a neighborhood. Compatibility shall be determined by scale of development, intensity, density, and type of use, and the juxtaposition of uses.*

Staff finding: The proposed FLU amendment is consistent with the adjacent properties and will be part of the designated Herbert Street/Nova Road Neighborhood Commercial Node. The subject property will be joined with a property currently designated *Commercial* and adjacent to property designated *High-Density Residential (8 – 16 units per acre)* and *Commercial*. There will be a slight increase in overall commercial area at the node, but it will continue to be buffered by *Urban High Density Residential* land use to the west.

3. *An amendment shall not result in negative economic, social, or other impacts to the City of Port Orange.*

Staff finding: Based on the infrastructure impact analysis, all public facilities have adequate capacity to accommodate the proposed amendment. The proposed amendment would allow for commercial development where residential is currently allowed. The proposed land use is anticipated to reduce the impact on potable water, sanitary sewer, recreation, and public school facilities. A minimal impact on roadways and solid waste is projected; however, capacity exists for the increase in traffic and solid waste.

4. *An amendment shall be approved only if the parcel can subsequently be developed in full compliance with any and all applicable standards of the Port Orange Land Development Code.*

Staff finding: No development plans are currently proposed; however, future development of the property will be required to comply with all applicable standards of the Port Orange Land Development Code. A separate application is being reviewed concurrently to rezone the subject property to Highway Commercial (HC) zoning.

5. *An amendment shall not increase the clearance time for evacuation of the population in the Hurricane Vulnerability Zone above six hours.*

Staff finding: The subject property does not lie within the Hurricane Vulnerability Zone. The proposed amendment will not negatively impact the clearance time for evacuation of the population in the Hurricane Vulnerability Zone.

STAFF RECOMMENDATION

Staff recommends **approval** of the request to change the Future Land Use designation of approximately 0.68 acres of land from *Urban High Density Residential* to *Commercial*, and transmittal to the Florida Department of Economic Opportunity, the Volusia Growth Management Commission and other review agencies for review.

CASE NO. 14-60000005

REQUEST: Rezone ± 0.68 acres from High Density Residential (R-3H) to Highway Commercial (HC)

LOCATION: 1040 Herbert Street (Location map – Page 2)

OWNER: Arrington Developers of Florida LLC

APPLICANT: Ryan Plate, Circle K

STAFF RECOMMENDATION: **Approval**

STAFF CONTACT: Gwen Perney, Senior Planner (386) 506-5673

PLANNING COMMISSION DATE: November 20, 2014

DISCUSSION:

The applicant is requesting to rezone ± 0.68 acres (amendment area) of an overall ± 4.54 -acre property from High Density Residential (R-3H) to Highway Commercial (HC). The ± 0.68 -acre amendment area is located west of the intersection of Herbert Street and Nova Road. The remaining ± 3.86 acres are not included in the proposed amendment and would retain the current R-3H zoning designation.

The subject property is located along Herbert Street, west of the existing Circle K convenience store and gas station. The property is currently undeveloped. If the rezoning is approved, the applicant intends to combine the property with the existing Circle K parcel as well as the vacant parcel located south of the Circle K. The applicant then intends to demolish the existing 2,400 square foot convenience store and four fuel dispensers to redevelop the expanded site with a 4,400 square foot new convenience store with up to 16 fueling dispensers along with associated site improvements. The proposed Circle K will be similar to the store being reconstructed at Nova Road and Spruce Creek Road.

All future development plans will require a detailed technical review by the staff Development Review Committee (DRC) to determine consistency with all Land Development Code requirements. As part of the review process, stormwater retention, traffic generation, landscaping, buffering, and parking will be addressed in accordance with the City standards in the LDC.

The rezoning request was reviewed according to the criteria established in Chapter 3, Section 7 of the LDC in terms of consistency with the Comprehensive Plan and consistency with the surrounding land uses and zoning.

Figure 1. Location Map

**COMPATIBILITY WITH SURROUNDING USES AND ZONING:**

The requested HC zoning district is intended to provide for highway oriented businesses. The proposed zoning is compatible with the surrounding properties that have either the same zoning (HC) or designated for high-density (up to 16 units per acre) multi-family residential uses (See Table 1 & Exhibit "A"). If approved, the applicant intends to add the ±0.68 acre parcel to the existing Circle K site oriented toward Nova Road.

Table 1. Surrounding properties

Direction	Land Use	Zoning District
North	Herbert St. right-of-way & Single-Family Residential	R-8SF
South	Commercial	HC
East	Commercial	HC
West	Multi-Family Residential (16 units per acre)	R-3H

CONSISTENCY WITH COMPREHENSIVE PLAN:

Concurrent with this rezoning application, the applicant is requesting to change the Future Land Use (FLU) designation of the amendment area (± 0.68 acres) from *Urban High Density Residential (8-16 units/acre)* to *Commercial* (Exhibit "B"). According to the City's Comprehensive Plan, "Commercial land uses are those that provide for the retail sale of items and services to the general public. These areas consist of shopping centers, retail stores, restaurants, automobile service facilities, personal services, offices, and similar uses."

The City has planned for and designated commercial nodes at intersections of major roads in the Future Land Use Element of the Comprehensive Plan (Exhibit "C"). In this case, the subject property is part of a Neighborhood Commercial Node located around the intersection of Nova Road and Herbert Street. Neighborhood Commercial Nodes are intended to serve the convenience needs of neighborhood areas within a ± 1 mile radius.

RECOMMENDATION:

Staff recommends **approval** of the request to rezone ± 0.68 acres located at 1040 Herbert Street from High Density Multi-Family Residential (R-3H) to Highway Commercial (HC), subject to approval of the FLU amendment [Case No. 14-20000001].

CITY COUNCIL AGENDA ITEM

REQUESTED COUNCIL MEETING DATE 12/09/2014

Consent item: No

SUBJECT: Waters Edge, Phase XII Subdivision Plat located north of Pioneer Trail,
west of Waters Edge Phase VIII, east of Airport Road
Case No. 14-50000005

DEPARTMENT: Community Development

RECOMMENDED MOTION: Approve minor changes to the Waters Edge, Phase XII Subdivision plat originally approved by City Council in 2007.

SUMMARY:

PLANNING COMMISSION ACTION 11/20/14: Recommended Approval

SUMMARY: In 2007, City Council approved the Final Plat and Plans for Phase XII of the Waters Edge subdivision, which is the last phase of a 12 phase master planned subdivision. This Phase consists of 98 individual single-family lots, new public rights-of-way, and common areas for open space, conservation, and stormwater retention. Construction of the subdivision infrastructure began in early 2014 and is nearly complete. The property owner intends to record the plat and begin construction of single-family homes on the lots in early 2015.

The property owner has requested minor changes to the plat originally approved by the City Council in 2007. According to the Land Development Code, minor changes to a plat that has not been recorded must be reviewed through the same process as the original review of the plat. The minor changes are as follows:

1. The Drainage and Maintenance Easement for the lake front lots has been changed from 24-feet 6-inches to 20 feet. The 20-foot drainage and maintenance easement is consistent with the drainage and maintenance easements shown on the 11 previously recorded Waters Edge subdivision plats and about 700 lake front lots within the Waters Edge subdivision, dating back to the late 1990's. The change is also consistent with the easement width approved in 2005 as part of the 4th Amendment to the Waters Edge Master Development Agreement;
2. A Landscape and Irrigation Maintenance Easement is graphically shown on Lot 12 and 13 and Note 23 has been added to provide the Waters Edge at Port Orange Homeowners Association the right to maintain landscaping and irrigation within the easement;
3. The name of a public right-of-way has been changed from "Calistoga Way" to "Zantila Way"; and
4. The name of the entity that owns the property and the Homeowners Association have been changed to reflect their current names.

STAFF REPORT

Waters Edge, Phase XII Subdivision Plat

CASE NO. 14-50000005

REQUEST:	Update on minor changes to the Waters Edge, Phase XII Subdivision Plat
PROPERTY OWNER:	Intervest at Waters Edge LTD
APPLICANT:	Dick Smith, Intervest Construction, Inc.
PROJECT LOCATION:	North of Pioneer Trail, west of Waters Edge Phase VIII, and east of Airport Road (See Exhibit "A")
RECOMMENDATION:	Approval
STAFF CONTACT:	Tim Burman, Planning Manager (386) 506-5675
CITY COUNCIL DATE:	December 9, 2014

In 2007, the City Council approved the Final Plat and Plans for a 36.2 acre subdivision. The subdivision consists of 98 individual single-family lots, new public rights-of-way, and common area for open space, conservation, and stormwater retention. Construction of the subdivision infrastructure began in early 2014 and is nearly complete. The property owner intends to record the plat and begin construction of single-family homes on the lots in early 2015.

The property owner has requested minor changes to the plat approved by the City Council in 2007. According to the Land Development Code, minor changes to a plat that has not been recorded must be reviewed through the same process as the original review of the plat. Therefore, the proposed minor changes to this plat will need to be reviewed by the Planning Commission and reviewed and approved by the City Council before it is recorded. The minor changes are as follows:

1. The Drainage and Maintenance Easement for the lake front lots has been changed from 24-feet 6-inches to 20 feet. The 20-foot drainage and maintenance easement is consistent with the drainage and maintenance easements shown on the 11 previously recorded Waters Edge subdivision plats and about 700 lake front lots within the Waters Edge subdivision, dating back to the late 1990's. The change is also consistent with the easement width approved in 2005 as part of the 4th Amendment to the Waters Edge Master Development Agreement;
2. A Landscape and Irrigation Maintenance Easement is graphically shown on Lot 12 and 13 and Note 23 has been added to provide the Waters Edge at Port Orange Homeowners Association the right to maintain landscaping and irrigation within the easement;
3. The name of a public right-of-way has been changed from "Calistoga Way" to "Zantila Way"; and
4. The name of the entity that owns the property and the Homeowners Association have been changed to reflect their current names.

If the Planning Commission does not have any objections to the minor changes, staff will proceed with updating the City Council. Once the City Council has been updated, the property owner can move forward with recording the subdivision plat.

RECOMMENDATION:

3. The Chamber shall notify the City if sufficient staff, facilities and equipment necessary to deliver the agreed upon services cannot be maintained. Failure to notify the City of any such deficiencies, or to adequately provide the services described above, may be considered a breach of this Agreement and a ground for termination under Article III.
4. The Chamber shall use its best effort to obtain all supplies and services for use in the performance of this Agreement at the lowest practicable cost.
5. The Chamber shall provide these services at 3431 Ridgewood Avenue, Port Orange, Florida 32119.

ARTICLE II PAYMENTS

1. The City shall pay to the Chamber a sum not to exceed Twenty Thousand and 00/100 Dollars (\$20,000.00), such sum being the total compensation to be paid by the City for services rendered under this Agreement.
2. The City shall render reimbursement payments quarterly, based upon receipt of an itemized invoice for the previous quarter showing the services rendered as outlined on Attachment A.
3. The Chamber shall request payment pursuant to City fiscal procedures.
4. The Chamber expressly understands that the above sum constitutes the absolute maximum amount to be paid by the City under this Agreement.
5. The Chamber understands that it is liable for and accepts responsibility for repayment of any funds disbursed under the terms of this Agreement which may, as a result of audit, be deemed disbursed in error for failure to follow applicable City rules or regulations.

ARTICLE III TERM OF AGREEMENT AND TERMINATION

1. The term of this Agreement shall be October 1, 2014, through September 30, 2016.
2. Either party may terminate this Agreement thirty (30) days after receipt by the other party of written notice of intent to terminate. In the event of termination, the City shall pay for services rendered, prorated to the date of termination. If payments are made to the Chamber before services are rendered, the Chamber shall remit to the City all excess money paid, prorated to the date of termination.

It is further agreed that in the event City funds to finance all or part of this Agreement do not become available, the obligations of each party hereunder may be terminated upon no less than twenty-four (24) hours' notice in writing to the other party. Said notice shall be delivered by certified mail, telegram or in person. The City shall be the final authority as to the availability of funds and as to how any available funds will be allocated among its various service providers.
4. Unless the Chamber's breach is excused, the City may, by written notice of breach to the Chamber, terminate the whole or any part of this Agreement in any of the following circumstances:

a. If the Chamber fails to provide services called for by this Agreement within the time specified herein or any extension thereof; or

The Chamber shall continue the performance of this Agreement to the extent not terminated under the provisions of this clause. Waiver by the City of breach of any provisions of the Agreement shall not be deemed to be a waiver of any other or subsequent breach and shall not be construed to be a modification of the terms of this Agreement.

5. After receipt of a notice of termination and except as otherwise directed, the Chamber shall:

a. Stop working under the Agreement on the date and to the extent specified in the notice of termination.

b. Place no further orders or subcontracts for materials, services or facilities, except as may be necessary for completion of such portion of the work under the Agreement as is not terminated.

1. The parties deem the services to be rendered by the Chamber to be personal in nature. The Chamber shall not assign any rights or duties under this Agreement to any other party without prior written permission of the City. If the Chamber attempts to assign any rights or duties without prior written permission of the City, this Agreement may be declared void by the City and the Chamber thereupon agrees to remit to the City all payments made pursuant to this Agreement for the entire term of the Agreement.

2. The Chamber shall not enter into subcontracts for any of the work contemplated under this Agreement without obtaining prior written approval of the City which shall be attached to the original Agreement and subject to such conditions and provisions as the City may deem necessary; provided, however, that notwithstanding the foregoing, unless otherwise provided herein, such prior written approval shall not be required for purchase by the Chamber of such articles, supplies, publications, equipment and services which are both necessary and incidental to the performance of the work required under this Agreement; and provided further, however, that no provision of this clause and no such approval by the City of any subcontracts shall be deemed in any event or manner to provide for the incurrence of any obligation of the City in addition to the total agreed upon price.

Pledge of Allegiance

Roll Call:	Present:	Councilman Bob Ford Councilman Drew Bastian Councilman Dennis Kennedy Vice Mayor Donald Burnette Mayor Allen Green
	Also Present:	David Harden, Interim City Manager Margaret T. Roberts, City Attorney Robin Fenwick, City Clerk

DISCUSSION ITEM

4. Meeting Objectives

David Harden, Interim City Manager, provided details of the meeting objectives for this meeting, including the City's drainage basins and major outfalls; the City's current Stormwater Plan; the City's limitations on resources; and the berm deleted from the Dunlawton Ave. drainage and reclaimed water augmentation. Direction will be needed from Council.

5. Drainage System Overview

- a. Drainage Basins and Major Outfalls
- b. Halifax Canal Sub-basins
- c. 2009 and 2014 rain events impacted structures

Andrew Giannini, QLH, reviewed historical information regarding the Halifax Drainage District. The last Stormwater Plan for the City was in 1990.

6. Stormwater Plans Overview

- a. 1990 Stormwater Master Plan
- b. 2010 CDM-Nova Canal Flood Control and Integrated Water Resource Program (East Volusia Regional Water Authority Plan)
- c. Stormwater Master Plan 2015

Brad Blais, QLH, discussed the 2010 CDM-Nova Canal Flood Control Program. Mr. Blais advised that the work will be costly and the law does not allow a project to hurt properties downstream. It is a complicated process.

7. City Stormwater Resources

a. Staff and equipment

Mike Silvey, Interim Public Works Director, provided details of the Public Works Staff and equipment in 2004 versus 2014. He also discussed the workload on the Staff.

Mr. Harden said not street sweeping has caused issues in the canals and drainage systems.

b. Financial Resources

Mr. Harden discussed the financial resources from 2004 versus 2014. Capital, debt service, and other operating expenses were all up in 2014 compared to 2004, yet personnel expense was down.

8. Dunlawton Avenue Drainage Improvements and Halifax Canal Reclaimed Water Augmentation Project

Mr. Giannini provided details of the Dunlawton Drainage Project, which was mostly paid by grant funds.

PUBLIC COMMENTS

Scott Webb, citizen, expressed his concern with flooding in his area that did not happen in the past. He doesn't understand why this area was allowed to be developed.

Mike Gardner, citizen, discussed his concerns with the Dunlawton Drainage Project. He would like his question of why and when the berm was removed from the plans.

Jim Cameron, Daytona Regional Chamber, asked where the solutions were listed for the improvement of the flow of the pipes and canals that was mentioned in the newspaper recently. Mr. Blais said the design team provided solutions that never moved forward because of the costs.

Newton White, citizen, believes the few inches would have made a big difference and would have kept the water out of his house and many others.

Phil Klema, citizen, discussed his experience with pumping stations.

Ted Nofall, citizen, asked if the Dunlawton flooding is going to be discussed at this meeting or in a different meeting. Mayor Green said during this meeting. Councilman Ford asked for a special workshop specifically on Dunlawton flooding problems.

Mr. Noftall doesn't agree with the City's Charter relating to the City Manager's authority to hire/fire Department Heads. He believes Council should have input.

Mayor Green asked Mr. Giannini to discuss the removal of the berm. Mr. Giannini said the berm was shortened because of the grade of the area. The berm wasn't needed in that area. Mr. Blais said it didn't make sense to build a berm north because the grade was higher than the proposed berm already.

Rick Straka, citizen, has had a flooding problem in the parking lot since the Nova Road expansion.

Margaret Patterson, citizen, asked why no one was there to turn the pumps on and manage the rain event. She is disappointed that there were no protocols. The new drainage canal in front of her home at 628 Ruth Street does not drain.

Mary Johnson, citizen, believes the flooding is getting worse over the years. Cars were flooded on Moonstone Court and surrounding area. She said Ken Parker, former City Manager, advised her that her area is not important because it is not east of I-95.

Audrey Pence, citizen, said there is no drainage in her area. She asked that someone look at Eddy Lane and surrounding areas.

Tom Menocal, citizen, suggested Council prioritize the projects that are needed. He'd like the funds allocated to the Cypress Head Golf Course renovations be re-allocated to drainage projects.

Nicholas Klimas, citizen, asked for assurances that he will not flood again. Mayor Green said there's no way to make those assurances.

Mark Schaefer, citizen, believes this event was different and something didn't work right.

CITY COUNCIL DISCUSSION AND POLICY DIRECTION

Councilman Kennedy doesn't understand why Dunlawton Avenue has been closed in these recent storms but wasn't for many years prior.

Councilman Bastian asked for options relating to the berm. Mr. Giannini said flap gates would be needed but they become non-functional during storm events because of debris. Discussion was held regarding options, including raising Dunlawton Avenue.

Vice Mayor Burnette would like to see an operational review to fix the procedural problems that occurred. He would also like to see a full review of the drainage maintenance program. He asked that Staff provide the recommendations that will make an impact within the next 12-18 months. Council needs to provide clear direction. He

wants an assessment of the properties currently owned by the City that could be used as retention ponds, and possibly look at other properties to be purchased for water retention. He would like Staff to work with neighboring communities for a plan to fix the flooding problems. He asked for a financial accounting of the drainage fund.

Councilman Ford agreed with Vice Mayor Burnette's request for an operational review. He believes the water levels are changing in the city. He wants to ensure the new developments do not affect the water on other properties. He is not opposed to working with other cities to help resolve the flooding issues but he believes that is a slow process. He is not interested in another study. He wants a plan and would be agreeable to a peer review of the City's drainage system. He believes this is the first of many workshops. He urged Council to prioritize with houses that were underwater and the berm. He would like a study relating to the berm.

Mayor Green reminded all of the FPL easement along the properties, as well as the continual cuts.

Mr. Harden has already asked the City Attorney to research the issue with the ownership to the property at the berm area. He also advised that the protocol for the operations side has already been dealt with. It is still being tweaked.

ADJOURNMENT: 8:22 p.m.

Mayor Allen Green

Robin Fenwick, CMC
City Clerk

CITY COUNCIL AGENDA ITEM

REQUESTED COUNCIL MEETING DATE 12/09/2014

Consent item: Yes

SUBJECT:

Purchase of Fleet Vehicles and Equipment for FY 2015

DEPARTMENT: Public Works

RECOMMENDED MOTION: To approve the purchase of all cars and trucks, excluding line 57 vehicle number 1458, using Florida State and Florida Sheriffs Association contracts as shown on the Fleet Purchase Summary for a total cost not to exceed \$890,731.49, and authorizing the Mayor & City Clerk to execute contract documents, as necessary.

SUMMARY: The FY 2015 Vehicle Replacement list attached shows vehicle and equipment needs with the user departments and recommends use of Florida State Term Contracts 25100000-15-01, 070-700-11-2b & 760-000-10-1 and Florida Sheriffs Association Contracts 14-22-0904 & 14-12-0904, to purchase replacement cars and trucks. These contracts have been negotiated by the State of Florida and the Florida Sheriffs Association on behalf of all Florida government agencies and are used by most counties and municipalities in Florida to achieve greater buying power. An example from last year was a new Ford 4x4 Super Cab Pickup that was purchased using the Sheriffs Association contract. The City paid the contract price of \$22,919.50 compared to a sticker price listed on the vehicle of \$32,555.00, saving the City approximately 30% of the MSRP.

The truck listed on line 57, the turf maintenance equipment and the accessory equipment will be brought to Council at a later date.

The Florida Sheriffs Association will serve as the "Contract Administrator" in the solicitation process and the administration of the resulting contract. The purpose of this bid is to establish a twelve (12) month contract, beginning October 1, 2014 and ending September 30, 2015, with manufacturer's authorized dealers for the purchase of 2014/15 vehicles and equipment on a "no trade-in basis".

It is our practice to give consideration to the prices offered, but the Office of the Sheriff is not required by law to accept the lowest priced proposal and may reject any or all of the proposals without recourse. Nothing in this proposal in any way obligates the participating Sheriff's Offices for any payment for any activity or costs incurred by any vendor in responding to this proposal.

3.0 VEBA

VEBA is Florida Sheriffs Association's Vehicle Bid Award System. Access to the system requires a Login and User Password. To obtain a Login and password, dealers must complete the annual registration form provided on the FSA website. Once approved, the dealer will receive their Login and a Temporary Password. Dealers are required to change their initial password at the time of their first login.

ALL prospective bidders are encouraged to download and review the instructions located on the home page of the VEBA website each year to obtain the most current terms and conditions of the contract as well as instructions for entering bid specifications and pricing.

Questions regarding the use of the VEBA website should be addressed to the FSA Cooperative Bid Coordinator. Login and password questions should be addressed to support@liquifusion.com

3.1 AMENDMENTS TO SOLICITATION DOCUMENTS

The Contract Administrator retains the right to issue amendments to the solicitation as appropriate and necessary. Notice of any amendment will be posted on the VEBA website. Bidders are responsible for monitoring the VEBA website for new or updated information concerning the bid.

3.2 ADDITIONS AND DELETIONS

The Contract Administrator reserves the right to add or delete any items from this bid or resulting contract(s) when deemed to be in the best interest of FSA and the participating eligible users.

3.3 SPECIFICATION EXCEPTIONS, OMISSIONS OR ERRORS

Specifications are based on the most current manufacturer literature available. Bidders should immediately notify the Contract Administrator of any defects in the specifications or required submittal documents. All notifications of defect must be in writing and timely submitted.

Bidders are required to indicate in their bid submissions those options which require additional equipment or model upgrade to obtain the original option. Bidder must also identify those options that are available as a part of a package or group. The factory codes listed in the "Prices" section of the Special conditions must be used.

Failure of a bidder to comply with these provisions will result in bidders being held responsible for all cost required to bring the vehicle into compliance with the contract specifications.

3.4 OPTION PRICING REV 8/14

Prices for options submitted by the dealer for Emergency Vehicle Lighting and equipment, shall include all applicable fees and charges not including installation. Motorcycle pricing will include installation. No additional charges or fees are admissible.

The bidder shall offer a discount which shall be at or below Manufacturer's Standard Retail Pricing (MSRP) or manufacturers published catalog price for any factory add options included in the bid submission and in resulting customer orders, if awarded. The amounts of discounts for each particular add option shall be decided by the bidder.

FLORIDA SHERIFFS ASSOCIATION

Contract Terms and Conditions **Rev 8/29/14**

When calculating upgrades, the total recognized MSRP (see definitions 2.6) for an item (that is not a manufacturer's free flow option for the base specification) is calculated as the differential between the dealer costs on the representative base vehicle versus total MSRP of the requested FSA option modifying the vehicle.

When add options listed are included in the base vehicle, bidder must submit options as "Included" or "STD". Bidder must use proper factory codes for all factory add options. Options available through the factory **MUST** be bid and supplied to Customer as factory options unless requested otherwise in writing by the Customer.

Options are intended to add or delete equipment and/or features from the base vehicle specification, and to allow for an upgrade or downgrade to a manufacturer's model with a slightly different engine size or horsepower, and as such, should not be made available for purchase separate from the base vehicle. Bidders shall **NOT** use add or delete options to create a piece of equipment that is entirely different than the base unit called for in the specification, or any other options that do not meet the intention of options as stated above.

Bidder must indicate in their bid submission any option requiring the purchase of other options, and also indicate options that are a part of another option. The codes listed in the "Prices" section of the Special Conditions must be used.

The use of "Options" to facilitate the sale of an alternate Manufacturer's product which is outside the scope of the written base specification will be construed as non-compliant and their bid will be rejected, in whole or part by the FSA Bid Coordinator.

Example: Bidder **CANNOT** include option upgrades that result in the selling of a vehicle or truck on one specification that is offered as a separate specification in the bid solicitation. For example, a contractor who is awarded the bid for 25,500 lb. GVWR Cab & Chassis cannot upgrade this item through an add option to a 30,000 lb. GVWR Cab & Chassis in order to circumvent the bid award winner for the 30,000 lb. GVWR Cab & Chassis.

3.5 REQUESTS FOR ADDITIONAL INFORMATION OR CLARIFICATION

Bidders are encouraged to examine the specifications carefully. In case doubt should arise as to the meaning or intent of any items contained in the specifications, inquiry should be made to the FSA Contract Administrator prior to the Pre-Bid Conference via e-mail or at the pre-bid conference in person. Telephone clarifications will not be accepted, and no clarification will be accepted after the date listed in the Bid Calendar. ALL request for information from bidders and FSA responses will be will be posted on the VEBA website by the date listed on the Bid Calendar.

The submission of a bid shall indicate that the bidder thoroughly understands the terms of the specifications.

3.6 FINANCIAL RESPONSIBILITY

Bidder affirms by his or her signature on the contract signature page that he or she:

- Has fully read and understands the scope, nature, and quality of work to be performed or the services to be rendered under this bid, and has the adequate facilities and personnel to fulfill such requirements;

FLORIDA SHERIFFS ASSOCIATION

Contract Terms and Conditions **Rev 8/29/14**

- Accepts the financial responsibility associated with this bid, and declares that he or she has the access to capital (in the form of liquidity or credit lines) in order to meet the financial demands of such award.
- In assessing financial responsibility, contractor shall consider items such as the specifications bid, the zones bid, and the quantity of specifications bid, as well as timing of payment from customers, which can be 45 days from receipt of invoice;
- Assumes full responsibility that all vehicles delivered to the customer are free and clear of all outside liens, encumbrances, security interests apart from the dealer floor plan or other dealer inventory finance security interest.

3.7 COLLUSION

Dealerships and their representatives may submit multiple bids without conflict of "Collusion" as long as the bid submitted is not from the same manufacture and product line. Dealerships which share the same ownership may submit multiple bids also without conflict of collusion as long as the bidders are not in the same region, with the same manufacturer and product line. See 1.47 Collusion.

3.8 SUBMITTAL OF BID

Bidders must submit their bid electronically via the Florida Sheriffs Association Vehicle Bid Award System (VEBA), located at <http://veba.flsheriffs.org> without exception. See 3.0

In addition to their submission of specifications through the VEBA website, bidders who intend to bid on police units (specifications 1-9) are also required to submit their light bar package pricing through a separate document housed on the VEBA website.

Bidders not placing a bid on the police units may also bid any part of the light bar package (such as "Al Carte" items and "Corner Strobes") to be used for other specifications. Pricing submitted in this document will be entered one time, and such pricing will apply to the entire bid specifications for which these items are sold as add options. Bids submitted for the above referenced specifications for police units that do not submit light bar package pricing will be rejected as non-responsive.

Any bidder who offers emergency lighting and equipment (red, blue or any combination) to be installed on any vehicle or equipment, must provide evidence of EVT certification for installation. This includes any third party up fitting. Example: a truck that may be used in the fire department to support the operation that requires public safety lighting and equipment.

Bidders must bid a requested FSA option first by offering the requested item if available from the factory. If this option is satisfied by the addition of a manufacturer's package that contains other items then it must be indicated in the comments and verifiable via audit. Furthermore, if the package offered to satisfy the request requires another factory option then that also must be indicated and referenced in the available optional equipment spaces. If the item is a package and available as a free flowing option to the base vehicle then the manufacturer's MSRP governs and by definition becomes the ceiling price. If the item is a package that changes the manufacturer's model number then the recognized MSRP computation will govern and define the ceiling price.

FLORIDA SHERIFFS ASSOCIATION

Contract Terms and Conditions **Rev 8/29/14**

Prices are to be rounded to the nearest dollar. Bids can be entered more than once; however, only the last bid entered into the system will be considered in the award process. Bids not submitted within the system will be rejected.

Each bidder is responsible for ensuring that his bid is submitted before the deadline outlined in the Bid Calendar. Late bids will not be considered and the system will not accept bids after the due date and time specified in the Bid Calendar. See 2.17 Late Bids.

In addition to submitting the bid via the VEBA system, one original and one (1) exact copy (includes divider tabs) of the bid package in separate 3-ring VIEW binders (not report folders) must be delivered or mailed to the attention of:

Becky Keillor, Cooperative Bid Coordinator
Florida Sheriffs Association
2617 Mahan Drive
Tallahassee, Florida 32308
bkeillor@flsheriffs.org

The electronic cover sheet must be completed with dealership name, contact person, telephone number and mobile phone number, and bidder shall check the appropriate box indicating whether the submittal is an Original or Copy. The cover sheet must be placed in the front cover of the view binder.

Separate bid packages must be submitted for each individual dealership for which a bid was submitted through VEBA. The bid package must include:

- A printed copy of the submitted bid (printed after final bid submission takes place)
- Manufacturer's print-out (Ford - "Dora"; General Motors - "GM Autobook"; or approved equivalent) for each vehicle on which a bid is submitted. The Manufacturer's print-out shall indicate an order code for the Manufacturer's base model, all standard equipment, and any optional components required to provide the base vehicle as outlined in the bid solicitation. Dealer installed aftermarket components are required to meet the base vehicle specified must be identified, in writing, on the printout.
- For specifications or units that do not produce a manufacturer's print-out, bid package must include manufacturer's documentation that includes standard equipment and such other information that provides verification that such item meets the base specification.
- Pricing Sheet for Emergency Vehicle Lighting (if applicable)
- Contract Signature page. Bidder must complete the Signature Page in its entirety, and must indicate by signature on the form that bidder has read and understands the provisions contained in this Invitation to Bid.
- Bidder will check the appropriate box indicating whether the submittal is an Original or Copy. All bids must show the company name and be manually signed (no rubber stamps, facsimile signatures, etc.) in ink by a dealer principal and an employee who has the authority for bid submission if such employee is not a dealer principal. Unsigned bids will be rejected.

FLORIDA SHERIFFS ASSOCIATION

Contract Terms and Conditions **Rev 8/29/14**

- The bid package must be received at the Florida Sheriffs Association according to the date and time specified in the Bid Calendar. Failure to meet all submission requirements by the dates indicated in the Bid Calendar will result in rejection of the bid. See 2.17 Late Bids.
- By virtue of its bid submission, Contractor acknowledges its obligation to sell vehicles in all zones for which it is awarded.

3.9 BID OPENING AND ELECTRONIC POSTING OF NOTICE OF INTENDED AWARD

Bids will be opened on the date and time indicated in the Bid Calendar and will be evaluated thereafter. Although prices will not be read, bidders may attend, but it is not a requirement.

The FSA Cooperative Bid Coordinator will electronically post the initial bid tabulation results and any and all awards on the VEBA website according to the time outlined in the Bid Calendar.

If the posting of the initial bid tabulation results is delayed, in lieu of posting the notice on the date indicated on the Bid Calendar, the FSA Cooperative Bid Coordinator will post a notice of the delay and a revised date for posting of results.

3.10 BID EVALUATION CRITERIA

Eligible responsive bids will be evaluated to determine if all contract bid requirements are met. Bids that do not meet all contract requirements of this solicitation or fail to provide all required information, documents, or materials may be rejected as nonresponsive.

Bidder must have the necessary facilities, personnel and expertise, and must be prepared, if requested by the FSA Contract Administrator, to present evidence of such experience, including evidence of EVT certified technicians to perform installation of emergency lighting for applicable specifications.

The FSA Contract Administrator reserves the right to investigate or inspect at any time during the bid award process and the contract period as to, whether the product, qualifications, or facilities offered by Bidder meet the contract requirements.

Bidders whose bids, past performance, or current status do not reflect the capability, integrity or reliability to fully and in good faith perform the requirements of the contract may be rejected as non-responsive. The FSA Contract Administrator may use discretion in determining which bids meet the contract requirements of this solicitation, and which respondents are responsive and responsible.

The FSA Contract Administrator may use discretion in accepting or rejecting any and all bids, or separable portions thereof, and to waive any minor irregularity, technicality, or omission if determined that doing so will serve the best interest of the local government agencies of the State of Florida. LAPD LAW ENFORCEMENT VEHICLE TEST AND EVALUATION PROGRAM <http://www.lasdhq.org/sites/car-test/2013.pdf>

Preface from LAPD Evaluation Report

"The Los Angeles County Sheriff's Department first implemented its police vehicle testing program in 1974. Since that time, our department has become nationally recognized as a major source of information relative to police vehicles and their use. It is our goal to provide law enforcement agencies with the information they require to successfully evaluate those vehicles currently being offered for police service.

The Los Angeles County Sheriff's Department is proud to publish this information, via the internet, to all law enforcement agencies. Since the inception of our vehicle testing program in 1974, we have continually refined our efforts in this area in order to provide the law enforcement community with the most current information available. During the 1997 model year testing, the Sheriff's department expanded its existing criteria to include an urban or "city street" pursuit course. This course consists of multiple city block distances punctuated by the various types of turns normally found in most inner city environments. The "city street" course is designed to simulate the conditions encountered by most officers working in typical urban communities. The test is only conducted on vehicles offered with a factory "Police Package".

Since many law enforcement agencies buy "non-pursuit" vehicles, we also test vehicles offered in a "Special Service" configuration when offered by the Manufacturers. These vehicles are tested in a similar fashion as "Police Package" vehicles however we do not subject them to the city street pursuit course. The booklet is not intended as a recommendation for any specific vehicle contained within.

The Sheriff's Department conducts the vehicle testing program in order to accomplish two primary goals. To provide law enforcement agencies with the data necessary to assist those in the vehicle selection process, and to provide the various vehicle manufacturers with the input necessary to better meet the needs of law enforcement.

We recognize the fact that individual agency needs can be influenced by cost, operational considerations and other factors.

Our testing process is designed to address the law enforcement officer's operational requirements in terms of vehicle performance, vehicle safety, and comfort. The fleet maintenance interest is addressed by

FLORIDA SHERIFFS ASSOCIATION

Contract Terms and Conditions Rev 8/29/14

performing an extensive mechanical evaluation on each vehicle submitted. Each test is designed and executed to simulate actual field conditions as closely as possible.

The vehicles being tested are driven on city streets and interstates, as well as the performance track, by law enforcement personnel. The maneuvers duplicated during the electronic test procedures are those encountered in actual patrol and emergency operations which the law enforcement officer may encounter in the field. Interpretation of test results is the responsibility of each agency. The importance with which each individual phase is weighted is a subjective decision which should be made by each agency based upon that agency's needs."

4.3 SPECIAL SERVICE VEHICLES (SSV):

We are pleased to announce that the Florida Sheriffs Association and the Florida Association of Counties has successfully conducted its 22nd statewide competitive bid for vehicles which includes police rated, administrative, motorcycles, utility vehicles, trucks & vans. **This contract is effective beginning October 1, 2014 through September 30, 2015, as long as vehicles are available through fleet.**

In addition, bids will be extended and guaranteed to any other entities approved by manufacturers to participate in this contract.

In order to ensure quality service for our user agencies, we are requesting each of you to notify the Florida Sheriffs Association regarding any problems encountered in working with the awarded dealers. Any issues, including but not limited to, receipt of confirmation of order, delivery problems and communication problems, should be reported to us by e-mail at dterpak@flsheriffs.org. This information will be considered in future bid awards in order to ensure that agencies are receiving the level of service required of dealers who wish to participate in this program.

All interested parties who wish to purchase from this contract may do so by following these simple procedures:

ORDERING INSTRUCTIONS

1. Contact the awarded dealership listed in the zone from which you wish to purchase and advise them of your interest to purchase from **Bid No. 14-22-0904**. They will assist you with the placement of your order and answer any questions you may have regarding the

vehicles purchased through this program. **You can only purchase from a dealer who is listed as a winner of one of the four zones for the vehicle you wish to purchase. However, you may purchase from any awarded dealer within any zone (additional delivery fees may apply).**

Agencies ordering a FORD, GENERAL MOTORS, CHRYSLER, or TOYOTA product, please be advised that you must use the appropriate FIN CODE/FAN CODE for the Florida Sheriffs Association in order to obtain the manufacturer's concessions. Also, you must use your FIN CODE/FAN CODE as a secondary number. For further assistance call the Fleet Customer Information Center for your appropriate manufacturer.

Manufacturer	Type Code	FSA Code	Fleet Center Contact Numbers	
FORD	FIN CODE	QE065	1-800-34-FLEET	(1-800-343-5338)
GENERAL MOTORS	FAN CODE	917872	1-800-FLEET OP	(1-800-353-3867)
CHRYSLER	FAN CODE	49313	1-800-999-FLEET	(1-800-999-3533)
TOYOTA	FIN CODE	GE159	1-800-732-2798	

2. **YOU MUST send a copy of the original purchase order (including FSA's Contract No. 14-22-0904) submitted to the participating dealer by mail or electronically to:**

Florida Sheriffs Association
P. O. Box 12519
Tallahassee, Florida 32317-2519
ATTN: Becky Keillor, Cooperative Bid Coordinator
bkeillor@flsheriffs.org

3. **Basic information required on all purchase orders** is listed in this Bid Award Announcement. Purchase orders lacking the required basic information listed may result in the delay of placement and/or confirmation of orders. **NOTE: The agency is responsible for obtaining a "Confirmation of Order" from the respective dealership. Dealers are required to complete a "Confirmation of Order" and send it to the purchaser within fourteen (14) calendar days after receipt of purchase order. Purchasers are encouraged to contact the dealer if a "Confirmation of Order" has not been received within a reasonable time.**

Purchasers are reminded that the issuance of a purchase order does not in itself guarantee the placement of an order.

4. Agencies which elect to purchase from this contract will incur the following administrative fees:
- **POLICE RATED, ADMINISTRATIVE, UTILITY VEHICLES, TRUCKS & VANS** – Dealers have included a three-quarter of one percent (.075) administrative fee in the base price and all add options that are listed. The three quarters of one percent (.075) will also be included in any additional equipment (add options) the dealers quote to the governmental agencies.
5. In order to ensure quality service for our user agencies, we are requesting that you notify the Florida Sheriffs Association regarding any problems encountered in working with the awarded dealers. Any issues, including but not limited to, receipt of confirmation of order, delivery problems and communication problems, should be reported to us by e-mail at dterpak@flsheriffs.org. This information will be considered in future bid awards in order to ensure that agencies are receiving the level of service required of dealers who wish to participate in this program.
6. Add/delete options might include a superscript listed by the Order Code. The purpose of the superscript is to identify which options correlate to a specific dealer. Superscripts will be a number between 1 and 4, and will correspond as follows:

- 1 = Western zone dealer
- 2 = Northern zone dealer

- 3 = Central zone dealer
- 4 = Southern zone dealer

If a dealer has been awarded more than one zone, they will only have one superscript number assigned, and it will be the lowest numerical number that applies to their awarded zones. For example, if a dealer is awarded the northern and southern zones, their add/delete options for both zones will be represented by a “2” superscript.

Options are intended to add or delete equipment and/or features from the base vehicle specification, and to allow for an upgrade or downgrade to a manufacturer’s model with a slightly different engine size or horsepower, and as such, will not be made available for purchase separate from the base vehicle.

IMPORTANT NOTE: The manufacturers produce limited quantities of police rated vehicles and orders are processed on a first come first serve basis while quantities last. **To be on the safe side, we are advising all agencies to place their orders for police rated vehicles as soon as possible to ensure delivery of product.**

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

BASE PRICE:	\$23,986.00	\$23,814.00	\$23,733.00	\$23,775.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$26,010.00	\$26,281.00	\$26,229.00	\$26,298.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$28,728.00	\$28,498.00	\$28,720.00	\$29,083.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

The GMC Yukon (TC15706) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$33,914.00	\$33,768.00	\$33,668.00	\$33,743.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

BASE PRICE:	\$34,477.00	\$34,327.00	\$34,227.00	\$34,159.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

The Freightliner Sprinter (F2CA144) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$32,541.00	\$32,541.00	\$32,541.00	\$32,541.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

UTILITY CARGO VAN SPECIFICATION #32

2015 Ram Promaster Van (VF1L11)

The Ram Promaster Van (VF1L11) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$23,382.00	\$23,671.00	\$23,671.00	\$23,671.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$38,474.00	\$38,974.00	\$38,774.00	\$39,274.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$18,274.00	\$18,174.00	\$18,037.00	\$18,072.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.
