FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON PICKUP TRUCK - 4X4 SPECIFICATION #44

2015 Toyota Tundra Long Bed (8327)

The Toyota Tundra Long Bed (8327) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$27,091.00	\$26,841.00	\$27,085.00	\$27,410.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

1/2 TON EXTENDED CAB PICKUP TRUCK - 4X2 SPECIFICATION #45

2015 Chevrolet Silverado 1500 (CC15753)

The Chevrolet Silverado 1500 (CC15753) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$19,758.00	\$19,578.00	\$19,278.00	\$19,566.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON EXTENDED CAB PICKUP TRUCK - 4X2 SPECIFICATION #45

2015 Ford F-150 (X1C)

The Ford F-150 (X1C) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$18,580.00	\$19,000.00	\$18,998.00	\$19,100.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON EXTENDED CAB PICKUP TRUCK - 4X2 SPECIFICATION #45

2015 GMC Sierra 1500 (TC15753)

The GMC Sierra 1500 (TC15753) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$20,080.00	\$19,875.00	\$19,700.00	\$19,975.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON EXTENDED CAB PICKUP TRUCK - 4X2 SPECIFICATION #45

2015 Nissan Titan S King Cab (34115)

The Nissan Titan S King Cab (34115) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$19,872.00	\$19,672.00	\$19,859.00	\$20,249.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

- a. Four wheel anti-lock brake ABS system.

7. **TIRES AND WHEELS:**

- a. Manufacturer's standard tires and wheels.
- b. Full size spare tire and rim, if available.

8. **CHASSIS, FRAME, CAB:**

- a. Manufacturer's standard colors, factory painted. Colors to be determined by individual agencies.
- b. Manufacturer's standard fuel tank.
- c. Manufacturer's standard front and rear bumpers.
- d. Manufacturer's standard bed.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON EXTENDED CAB PICKUP TRUCK - 4X4 SPECIFICATION #46

2015 Chevrolet Silverado 1500 (CK15753)

The Chevrolet Silverado 1500 (CK15753) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$23,123.00	\$22,923.00	\$22,723.00	\$22,826.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON EXTENDED CAB PICKUP TRUCK - 4X4 SPECIFICATION #46

2015 Ford F-150 (X1E)

The Ford F-150 (X1E) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	Northern	Central	★ Southern
BASE PRICE:	\$22,059.00	\$22,559.00	\$22,444.00	\$22,599.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON EXTENDED CAB PICKUP TRUCK - 4X4 SPECIFICATION #46

2015 GMC Sierra 1500 (TK15753)

The GMC Sierra 1500 (TK15753) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$23,313.00	\$23,108.00	\$22,933.00	\$23,208.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON EXTENDED CAB PICKUP TRUCK - 4X4 SPECIFICATION #46

2015 Nissan Titan (34215)

The Nissan Titan (34215) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	★Northern	★Central	Southern
BASE PRICE:	\$22,240.00	\$22,080.00	\$22,236.00	\$30,582.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON EXTENDED CAB PICKUP TRUCK - 4X4 SPECIFICATION #46

2015 Toyota Tundra Double Cab (8339)

The Toyota Tundra Double Cab (8339) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$26,798.00	\$26,552.00	\$26,798.00	\$28,076.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

ALL ITEMS FACTORY INSTALLED UNLESS OTHERWISE INDICATED

INSTRUCTIONS: Listed above, you will find the model numbers of the vehicles that will be included in this year's contract.

1. **ENGINE:**

- a. Manufacturer's minimum 6 cylinder gasoline engine, alternator, battery and cooling package.

2. **TRANSMISSION/AXLES:**

- a. Manufacturer's standard automatic transmission and axles.

3. **PERFORMANCE ITEMS:**

- a. Manufacturer's standard power steering.
- b. Manufacturer's standard gauges.

4. **COMFORT ITEMS:**

- a. Manufacturer's standard air conditioning with 134A system.
- b. Manufacturer's standard tinted glass all around.
- c. Manufacturer's standard AM/FM stereo.
- d. Heavy duty rubber floor covering instead of carpet.
- e. Manufacturer's standard production seats. Purchaser will select color at time of order.
- f. Keys: two (2) per vehicle, single key locking system, (each vehicle keyed differently).

5. **SAFETY ITEMS:**

- a. Dual outside mirrors and inside rearview mirror.
- b. Interior dome lights with left and right door activated switches.
- c. Manufacturer's standard air bags.

6. **BRAKES:**

- a. Four wheel anti-lock brake ABS system.

7. **TIRES AND WHEELS:**

- a. Manufacturer's standard tires and wheels.
- b. Full size spare tire and rim, if available.

8. **CHASSIS, FRAME, CAB:**

- a. Manufacturer's standard colors, factory painted. Colors to be determined by individual agencies.
- b. Manufacturer's standard fuel tank.
- c. Manufacturer's standard front and rear bumpers.
- d. Manufacturer's standard bed.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X2 SPECIFICATION #47

2015 Chevrolet Silverado 1500 (CC15543)

The Chevrolet Silverado 1500 (CC15543) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$22,322.00	\$22,247.00	\$21,872.00	\$22,253.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X2 SPECIFICATION #47

2015 Ford F-150 (W1C)

The Ford F-150 (W1C) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$20,744.00	\$21,200.00	\$21,078.00	\$21,299.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

The GMC Sierra 1500 (TC15543) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$22,522.00	\$22,502.00	\$22,402.00	\$22,427.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X2 SPECIFICATION #47

2015 Nissan Titan (36115)

The Nissan Titan (36115) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$21,898.00	\$21,750.00	\$21,878.00	\$22,393.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X2 SPECIFICATION #47

2015 Toyota Tundra Short Bed (8259)

The Toyota Tundra Short Bed (8259) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$28,269.00	\$28,069.00	\$27,987.00	\$28,169.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X4 SPECIFICATION #48

2015 Ram 1500 (DS6L98)

The Ram 1500 (DS6L98) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$25,749.00	\$25,745.00	\$25,749.00	\$25,749.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X4 SPECIFICATION #48

2015 Ford F-150 (W1E)

The Ford F-150 (W1E) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	Northern	Central	Southern
BASE PRICE:	\$24,298.00	\$24,547.00	\$24,668.00	\$24,799.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

The GMC Sierra 1500 (TK15543) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$25,313.00	\$25,163.00	\$24,863.00	\$25,113.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X4 SPECIFICATION #48

2015 Nissan Titan (36215)

The Nissan Titan (36215) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	★Northern	Central	Southern
BASE PRICE:	\$24,468.00	\$24,318.00	\$24,449.00	\$32,726.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1/2 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X4 SPECIFICATION #48

2015 Toyota Tundra Short Bed (8359)

The Toyota Tundra Short Bed (8359) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$30,534.00	\$30,284.00	\$30,428.00	\$30,872.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

3/4 TON PICKUP TRUCK - 4X2 SPECIFICATION #49

2015 Chevrolet Silverado 2500 HD (CC25903)

The Chevrolet Silverado 2500 HD (CC25903) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$22,327.00	\$22,227.00	\$21,827.00	\$21,958.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON PICKUP TRUCK - 4X2 SPECIFICATION #49

2015 Ram 2500 (DJ2L62)

The Ram 2500 (DJ2L62) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$21,175.00	\$21,213.00	\$21,175.00	\$21,213.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON PICKUP TRUCK - 4X2 SPECIFICATION #49

2015 Ford F-250 SD (F2A)

The Ford F-250 SD (F2A) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$19,676.00	\$19,676.00	\$19,631.00	\$20,431.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON PICKUP TRUCK - 4X2 SPECIFICATION #49

2015 GMC Sierra 2500 HD (TC25903)

The GMC Sierra 2500 HD (TC25903) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$22,803.00	\$22,753.00	\$22,453.00	\$22,753.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

3/4 TON PICKUP TRUCK - 4X4 SPECIFICATION #50

2015 Chevrolet Silverado 2500 HD (CK25903)

The Chevrolet Silverado 2500 HD (CK25903) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$24,433.00	\$24,333.00	\$23,933.00	\$24,279.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON PICKUP TRUCK - 4X4 SPECIFICATION #50

2015 Ram 2500 (DJ7L62)

The Ram 2500 (DJ7L62) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$23,347.00	\$23,479.00	\$23,347.00	\$23,479.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON PICKUP TRUCK - 4X4 SPECIFICATION #50

2015 Ford F-250 SD (F2B)

The Ford F-250 SD (F2B) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$22,441.00	\$22,441.00	\$22,581.00	\$23,254.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON PICKUP TRUCK - 4X4 SPECIFICATION #50

2015 GMC Sierra 2500 HD (TK25903)

The GMC Sierra 2500 HD (TK25903) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$24,916.00	\$24,866.00	\$24,566.00	\$24,791.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

3/4 TON EXTENDED CAB PICKUP TRUCK - 4X2 SPECIFICATION #51

2015 Ford F-250 SD (X2A)

The Ford F-250 SD (X2A) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$21,776.00	\$21,776.00	\$21,963.00	\$22,589.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON EXTENDED CAB PICKUP TRUCK - 4X2 SPECIFICATION #51

2015 Chevrolet Silverado 2500 HD Double Cab 2WD (CC25953)

The Chevrolet Silverado 2500 HD Double Cab 2WD (CC25953) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$24,006.00	\$23,556.00	\$23,856.00	\$23,833.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON EXTENDED CAB PICKUP TRUCK - 4X2 SPECIFICATION #51

2015 GMC Sierra 2500 HD Double Cab 2WD (TC25953)

The GMC Sierra 2500 HD Double Cab 2WD (TC25953) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$24,555.00	\$24,505.00	\$24,405.00	\$24,655.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

3/4 TON EXTENDED CAB PICKUP TRUCK - 4X4 SPECIFICATION #52

2015 Ford F-250 SD (X2B)

The Ford F-250 SD (X2B) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$24,549.00	\$24,549.00	\$24,446.00	\$25,246.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON EXTENDED CAB PICKUP TRUCK - 4X4 SPECIFICATION #52

2015 Chevrolet Silverado 2500 HD Double Cab 4WD (CK25953)

The Chevrolet Silverado 2500 HD Double Cab 4WD (CK25953) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$26,086.00	\$25,636.00	\$25,936.00	\$26,154.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

- a. Manufacturer's standard colors, factory painted. Colors to be determined by individual agencies.

- b. Manufacturer's standard fuel tank.
- c. Manufacturer's standard front and rear bumpers.
- d. Fleetside long bed.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X2 SPECIFICATION #53

2015 Chevrolet Silverado 2500 HD (CC25943)

The Chevrolet Silverado 2500 HD (CC25943) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$25,231.00	\$24,781.00	\$25,081.00	\$25,103.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X2 SPECIFICATION #53

2015 Ram 2500 (DJ2L92)

The Ram 2500 (DJ2L92) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	Northern	★ Central	★ Southern
BASE PRICE:	\$22,930.00	\$23,005.00	\$23,019.00	\$23,019.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X2 SPECIFICATION #53

2015 Ford F-250 SD (W2A)

The Ford F-250 SD (W2A) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	★Northern	Central	Southern
BASE PRICE:	\$23,003.00	\$23,003.00	\$23,137.00	\$23,799.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X2 SPECIFICATION #53

2015 GMC Sierra 2500 HD (TC25943)

The GMC Sierra 2500 HD (TC25943) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$25,860.00	\$25,810.00	\$25,710.00	\$25,960.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

- a. Manufacturer's standard colors, factory painted. Colors to be determined by individual agencies.
- b. Manufacturer's standard fuel tank.
- c. Manufacturer's standard front and rear bumpers.
- d. Fleetside long bed.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X4 SPECIFICATION #54

2015 Chevrolet Silverado 2500 HD (CK25943)

The Chevrolet Silverado 2500 HD (CK25943) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$27,333.00	\$26,883.00	\$27,183.00	\$27,424.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X4 SPECIFICATION #54

2015 Ram 2500 (DJ7L92)

The Ram 2500 (DJ7L92) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$25,137.00	\$25,209.00	\$25,209.00	\$25,209.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X4 SPECIFICATION #54

2015 Ford F-250 SD (W2B)

The Ford F-250 SD (W2B) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$25,776.00	\$25,776.00	\$25,820.00	\$26,589.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

3/4 TON 4-DOOR CREW CAB PICKUP TRUCK - 4X4 SPECIFICATION #54

2015 GMC Sierra 2500 HD (TK25943)

The GMC Sierra 2500 HD (TK25943) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$27,972.00	\$27,922.00	\$27,822.00	\$28,072.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

1 TON PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #55

2015 Chevrolet Silverado 3500 HD (CC35903)

The Chevrolet Silverado 3500 HD (CC35903) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$23,820.00	\$23,370.00	\$23,670.00	\$23,880.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #55

2015 Dodge Ram 3500 (D23L62)

The Dodge Ram 3500 (D23L62) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$26,069.00	\$26,275.00	\$26,275.00	\$26,275.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #55

2015 Ford F-350 SD (F3C)

The Ford F-350 SD (F3C) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$22,116.00	\$22,116.00	\$22,116.00	\$22,916.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

ALL ITEMS FACTORY INSTALLED UNLESS OTHERWISE INDICATED

INSTRUCTIONS: Listed above, you will find the model numbers of the vehicles that will be included in this year's contract.

1. **ENGINE:**

- a. Manufacturer's standard engine, alternator, battery and cooling package.

2. **TRANSMISSION/AXLES:**

- a. Manufacturer's standard automatic transmission.
- b. Manufacturer's standard drive axle ratio for engine and transmission combination.
- c. Limited slip differential on 4-wheel drive.

3. **PERFORMANCE ITEMS:**

- a. Manufacturer's standard power steering.
- b. Manufacturer's standard gauges.

4. **COMFORT ITEMS:**

- a. Manufacturer's standard air conditioning with 134A system.
- b. Manufacturer's standard tinted glass all around.
- c. Manufacturer's standard AM/FM stereo.
- d. Heavy duty rubber floor covering instead of carpet.
- e. Manufacturer's standard production seats. Purchaser will select color at time of order.
- f. Keys: two (2) per vehicle, single key locking system, (each vehicle keyed differently).

5. **SAFETY ITEMS:**

- a. Manufacturer's standard outside mirrors and inside rearview mirror.
- b. Interior dome lights with left and right door activated switches.
- c. Manufacturer's standard air bags.

6. **BRAKES:**

- a. Four wheel anti-lock brake ABS system.

7. **TIRES AND WHEELS:**

- a. Manufacturer's standard tires and wheels.
- b. Conventional spare tire mounted underbody.

8. **CHASSIS, FRAME, CAB:**

- a. Manufacturer's standard colors, factory painted. Colors to be determined by individual agencies.
- b. Manufacturer's standard fuel tank.
- c. Manufacturer's standard front and rear bumpers.
- d. Fleetside long bed.

1 TON PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #56

2015 Chevrolet Silverado 3500 HD (CK35903)

The Chevrolet Silverado 3500 HD (CK35903) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	★ Northern	Central	Southern
BASE PRICE:	\$25,216.00	\$24,766.00	\$25,066.00	\$25,891.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #56

2015 Ram 3500 (D28L62)

The Ram 3500 (D28L62) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$26,700.00	\$26,749.00	\$26,749.00	\$26,749.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #56

2015 Ford F-350 SD (F3D)

The Ford F-350 SD (F3D) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	Northern	★ Central	★ Southern
BASE PRICE:	\$24,858.00	\$24,858.00	\$24,858.00	\$25,657.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #56

2015 GMC Sierra 3500 HD (TK35903)

The GMC Sierra 3500 HD (TK35903) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$26,446.00	\$26,396.00	\$26,296.00	\$26,446.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

1 TON EXTENDED CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #57

2015 Ford F-350 SD (X3C)

The Ford F-350 SD (X3C) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$24,126.00	\$24,126.00	\$24,234.00	\$24,626.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON EXTENDED CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #57

2015 Chevrolet Silverado 3500 HD (CC35953)

The Chevrolet Silverado 3500 HD (CC35953) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$26,123.00	\$25,673.00	\$25,973.00	\$26,184.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON EXTENDED CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #57

2015 GMC Sierra 3500 HD (TC35953)

The GMC Sierra 3500 HD (TC35953) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$26,643.00	\$26,593.00	\$26,493.00	\$26,643.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

ALL ITEMS FACTORY INSTALLED UNLESS OTHERWISE INDICATED

INSTRUCTIONS: Listed above, you will find the model numbers of the vehicles that will be included in this year's contract.

1. **ENGINE:**

- a. Manufacturer's standard engine, alternator, battery and cooling package.

2. **TRANSMISSION/AXLES:**

- a. Manufacturer's standard automatic transmission.
- b. Manufacturer's standard drive axle ratio for engine and transmission combination.
- c. Limited slip differential on 4-wheel drive.

3. **PERFORMANCE ITEMS:**

- a. Manufacturer's standard power steering.
- b. Manufacturer's standard gauges.

4. **COMFORT ITEMS:**

- a. Manufacturer's standard air conditioning with 134A system.
- b. Manufacturer's standard tinted glass all around.
- c. Manufacturer's standard AM/FM stereo.
- d. Heavy duty rubber floor covering instead of carpet.
- e. Manufacturer's standard production seats. Purchaser will select color at time of order.
- f. Keys: two (2) per vehicle, single key locking system, (each vehicle keyed differently).

5. **SAFETY ITEMS:**

- a. Manufacturer's standard outside mirrors and inside rearview mirror.
- b. Interior dome lights with left and right door activated switches.
- c. Manufacturer's standard air bags.

6. **BRAKES:**

- a. Four wheel anti-lock brake ABS system.

7. **TIRES AND WHEELS:**

- a. Manufacturer's standard tires and wheels.
- b. Conventional spare tire mounted underbody.

8. **CHASSIS, FRAME, CAB:**

- a. Manufacturer's standard colors, factory painted. Colors to be determined by individual agencies.

- b. Manufacturer's standard fuel tank.
- c. Manufacturer's standard front and rear bumpers.
- d. Fleetside long bed.

1 TON EXTENDED CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #58

2015 Ford F-350 SD (X3D)

The Ford F-350 SD (X3D) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$26,966.00	\$26,966.00	\$26,966.00	\$27,552.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON EXTENDED CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #58

2015 Chevrolet Silverado 3500 HD (CK35953)

The Chevrolet Silverado 3500 HD (CK35953) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$28,233.00	\$27,783.00	\$28,083.00	\$28,314.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON EXTENDED CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #58

2015 GMC Sierra 3500 HD (TK35953)

The GMC Sierra 3500 HD (TK35953) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$28,755.00	\$28,705.00	\$28,605.00	\$28,755.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

1 TON 4-DOOR CREW CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #59

2015 Chevrolet Silverado 3500 HD (CC35943)

The Chevrolet Silverado 3500 HD (CC35943) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$27,425.00	\$26,975.00	\$27,275.00	\$27,510.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON 4-DOOR CREW CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #59

2015 Ram 3500 (D23L92)

The Ram 3500 (D23L92) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$28,217.00	\$28,259.00	\$28,259.00	\$28,259.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON 4-DOOR CREW CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #59

2015 Ford F-350 SD (W3C)

The Ford F-350 SD (W3C) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$25,852.00	\$25,852.00	\$25,856.00	\$26,352.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON 4-DOOR CREW CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X2 SPECIFICATION #59

2015 GMC Sierra 3500 HD (TC35943)

The GMC Sierra 3500 HD (TC35943) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$27,972.00	\$27,922.00	\$27,822.00	\$27,972.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

ALL ITEMS FACTORY INSTALLED UNLESS OTHERWISE INDICATED

INSTRUCTIONS: Listed above, you will find the model numbers of the vehicles that will be included in this year's contract.

1. **ENGINE:**

- a. Manufacturer's standard engine, alternator, battery and cooling package.

2. **TRANSMISSION/AXLES:**

- a. Manufacturer's standard automatic transmission.
- b. Manufacturer's standard drive axle ratio for engine and transmission combination.
- c. Limited slip differential on 4-wheel drive.

3. **PERFORMANCE ITEMS:**

- a. Manufacturer's standard power steering.
- b. Manufacturer's standard gauges.

4. **COMFORT ITEMS:**

- a. Manufacturer's standard air conditioning with 134A system.
- b. Manufacturer's standard tinted glass all around.
- c. Manufacturer's standard AM/FM stereo.
- d. Heavy duty rubber floor covering instead of carpet.
- e. Manufacturer's standard production seats. Purchaser will select color at time of order.
- f. Keys: two (2) per vehicle, single key locking system, (each vehicle keyed differently).

5. **SAFETY ITEMS:**

- a. Manufacturer's standard outside mirrors and inside rearview mirror.
- b. Interior dome lights with left and right door activated switches.
- c. Manufacturer's standard air bags.

6. **BRAKES:**

- a. Four wheel anti-lock brake ABS system.

7. **TIRES AND WHEELS:**

- a. Manufacturer's standard tires and wheels.
- b. Conventional spare tire mounted underbody.

8. **CHASSIS, FRAME, CAB:**

- a. Manufacturer's standard colors, factory painted. Colors to be determined by individual agencies.
- b. Manufacturer's standard fuel tank.
- c. Manufacturer's standard front and rear bumpers.
- d. Fleetside long bed.

1 TON 4-DOOR CREW CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #60

2015 Chevrolet Silverado 3500 HD (CK35943)

The Chevrolet Silverado 3500 HD (CK35943) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$29,565.00	\$29,115.00	\$29,415.00	\$29,640.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON 4-DOOR CREW CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #60

2015 Ram 3500 (D28L92)

The Ram 3500 (D28L92) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$29,956.00	\$29,999.00	\$29,999.00	\$29,999.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON 4-DOOR CREW CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #60

2015 Ford F-350 SD (W3D)

The Ford F-350 SD (W3D) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	★ Western	★ Northern	★ Central	★ Southern
BASE PRICE:	\$28,567.00	\$28,567.00	\$28,567.00	\$29,122.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

1 TON 4-DOOR CREW CAB PICKUP TRUCK (DUAL REAR WHEEL) - 4X4 SPECIFICATION #60

2015 GMC Sierra 3500 HD (TK35943)

The GMC Sierra 3500 HD (TK35943) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$30,085.00	\$30,035.00	\$29,935.00	\$30,085.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

A. **AUTHORITY** – Upon affirmative action taken by the State of Florida, Department of Management Services, a Contract has been executed between the State of Florida and the above designated Contractors. The Certification of Contract is not a contract, but is used when a large number of contractors are covered under the same contract. It allows the Department to display a single version of the contract and lists the contractors included under that agreement.

State Term Contract
No. 25100000-15-01
2015 Model Motor Vehicles

B. EFFECT – The Contract was entered into to provide economies in the purchase of motor vehicles by all State of Florida agencies and institutions. Therefore, in compliance with Section 287.042, Florida Statutes, all purchases of these commodities shall be made under the prices, terms and conditions of the Contract and with the Contractors specified.

C. ORDERING INSTRUCTIONS – All purchase orders shall be issued in accordance with the attached ordering instructions. Products or services ordered shall not exceed the prices indicated.

All Contract purchase orders shall show the State Purchasing Contract number, product number, quantity, description of item, with unit prices extended and purchase order totaled. (This requirement may be waived when purchase is made by a blanket purchase order.)

D. CONTRACTOR PERFORMANCE – Agencies shall report any vendor failure to perform according to the requirements of this Contract on Complaint to Vendor, form PUR7017. Should the vendor fail to correct the problem within a prescribed period of time, then form PUR7029, Request for Assistance, is to be filed with this office.

E. SPECIAL AND GENERAL CONDITIONS – Special and general conditions are enclosed for your information. Any restrictions accepted from the supplier are noted on the ordering instructions.

Kelley J. Scott

Chief Procurement Officer

State Term Contract
No. 25100000-15-01
2015 Model Motor Vehicles

Between

The Florida Department of Management Services

and

{Contractor's name}

This Contract is between the State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), an agency of the State of Florida with offices at 4050 Esplanade Way, Tallahassee, FL 32399-0950, and {Contractor's name} (Contractor) with offices at {Contractor's address}.

The Contractor responded to the Department's Invitation to Bid (ITB), No: 01-25100000-V, 2015 Model Motor Vehicles. The Department has decided to accept the Contractor's bid and enter into this Contract in accordance with the terms and conditions of the ITB.

Accordingly, and in consideration of the mutual promises contained in the Contract, the Department and Contractor agree as follows:

I. Scope of Work

The purpose of this State Term Contract (Contract) is to provide an instrument for governmental entities within the state of Florida to use for the acquisition of Motor Vehicles. It is intended that purchases under this agreement will meet the needs of state agencies and other Eligible Users in the performance of the respective entities' core responsibilities.

II. Contract Term

The term of the Contract will be for one (1) year, and shall begin on November 17, 2014 or on the last date in which it is signed by all parties, whichever is later.

III. Contract

This Contract, together with the following attached documents (exhibits), set forth the entire understanding of the parties and supersedes all prior agreements, whether written or oral, with respect to such subject matter.

All exhibits attached to this Contract are incorporated in their entirety and form part of this Contract. The Contract has the following exhibits:

- a) Exhibit A: ITB 01-25100000-V including any issued addendums.

State Term Contract
No. 25100000-15-01
2015 Model Motor Vehicles

- b) Exhibit B: Contractor Pricing as provided in the bid response submitted on October 21, 2014.

In case of conflict, the documents shall have priority in the order listed below:

- a) This Contract
- b) Exhibit A: ITB 01-25100000-V with Addenda
- c) Exhibit B: Contractor Pricing

IV. Amendments

No oral modifications to this Contract are acceptable. All modifications to this Contract must be in writing and signed by both parties.

Notwithstanding the order listed in section III herein, amendments issued after the Contract is executed may expressly change the provisions of the Contract. If they do so expressly, then the most recent of them will take precedence over anything else that is part of the Contract.

VI. Contract Notices

In addition to the provisions in section 38 of Form PUR 1000 (10/06), contract notices may be delivered by email to the Contractor's designated contact person as prescribed in section VII.

VII. Contract Management

The Department employee who is primarily responsible for maintaining the Contract administration file, and also serves as the Department's Contract Manager, shall be as follows:

Sharita Newman
Associate Category Manager
Department of Management Services
4050 Esplanade Way, Suite 360
Tallahassee, FL 32399-0950
Telephone (850) 488-4946
Fax: (850) 414-6122
Email: Sharita.Newman@dms.myflorida.com

The Department may appoint a different Contract Manager, which shall not constitute an amendment to the Contract, by sending written notice to Contractor. Any communication to the Department relating to the Contract shall be addressed to the Department's Contract Manager.

State Term Contract
No. 25100000-15-01
2015 Model Motor Vehicles

The Contractor shall assign one individual to serve as the designated contact person for this Contract. All questions and customer service issues concerning this Contract shall be directed to the Contractor's designated contact person. It will be the Contractor's designated contact person's responsibility to coordinate with necessary state agency and other Eligible User personnel as required, to answer questions and resolve issues. The Contractor must provide written notice to the Department if a new employee is designated as the contact person for this Contract.

EXHIBIT A

Addendum # 1:
Invitation To Bid
FOR
2015 Model Motor Vehicles
ITB No: 01-25100000-V
October 07, 2014

The Department amends the above mentioned solicitation as noted below. In the event of a conflict between previously released information and the information contained herein, the information herein shall control. The information included in this addendum is now made part of this solicitation.

Failure to file a protest within the time prescribed in section 120.57(3), Florida Statutes, or failure to post the bond or other security required by law within the time allowed for filing a bond shall constitute a waiver of proceedings under chapter 120, Florida Statutes.

Any protest must be timely filed with the Department of Management Services' Agency Clerk.

The purpose of this addendum is to revise the solicitation as follows:

1 Vendor Questions & Department Answers

The Department has received questions from the vendor community through the MFMP Sourcing Tool. The questions and answers to those questions are found at Attachment 1 to Addendum 1.

2 Changes to the Invitation To Bid

Changes are indicated by underline/~~strikethrough~~.

Section 2.3.3 of the Invitation To Bid 25100000-15-V, "2015 Model Motor Vehicles" is amended to read as follows:

"2.3.3 Part 3 - References

Provide a minimum of three references from governmental agencies in Florida, or Other Eligible Users in Florida, or governmental agencies outside the State of Florida that purchased provided motor Vehicles from the Bidder. Submit legible copies of the purchase orders or invoices exceeding \$100,000 for each reference that individually or collectively exceed \$100,000.00 which identify motor Vehicles sold to the reference during the period July 1, 2012, through June 30, 2014. The purchase order or invoice must include the following:"

Section 1 Introduction

1.1 Bid

The State of Florida Department of Management Services, Division of State Purchasing (Department) is issuing this Invitation to Bid (ITB) to replace the current state term contract (STC) for Motor Vehicles.

The Department intends to solicit for, and enter into contracts with, responsive and responsible Contractors according to the criteria defined herein, for the provision of commodities and contractual services described within this solicitation under the authority and criteria established by section 287.057, Florida Statutes (F.S.).

Rule 60A-1.044, Florida Administrative Code (F.A.C.), defines an STC as “indefinite quantity contracts competitively procured by the Department pursuant to s. 287.057, F.S., available for use by Other Eligible Users.”

This solicitation will be administered using the MyFloridaMarketPlace (MFMP) Sourcing Tool. Vendors interested in submitting a reply must comply with all of the terms and conditions described in this ITB. Information about submitting a reply can be found in Instructions to Respondents, section 2 of this solicitation.

1.2 Solicitation Objective

The current STC for Motor Vehicles has an estimated average annual spending volume of approximately \$25 million dollars. Estimated spending volume is for informational purposes only and should not be construed as representing actual, guaranteed, or minimum purposes under any new contract. Customers include state agencies and Other Eligible Users as defined by Rule 60A-1.005, F.A.C. The Department intends to award contracts to bidders who provide the lowest, responsive, responsible evaluated price for a Representative Model, including, if applicable, Original Equipment Manufacturer (OEM) Options and Identified Aftermarket Options. The Department reserves the right to award to multiple bidders for a Representative Model or to make no award for a Representative Model, as determined to be in the best interest of the State.

1.3 Term

The term of the contract will be one (1) year with no option for renewal. The contract shall be effective on November 1, 2014, and the contract shall end on October 31, 2015.

1.4 Timeline of Events

The table below contains the timeline of events for this solicitation. Bidders should become familiar with the Timeline of Events. The dates and times within the Timeline of Events may be subject to change. It is the responsibility of the Bidder to check for any changes. All changes to the Timeline of Events will be made through an addenda to the solicitation and noticed on the Vendor Bid System and within the MFMP Sourcing Tool.

Timeline of Events	Event Time (EST)	Event Date
ITB posted in the VBS and in the MFMP Sourcing Tool.	10:00 AM	9/25/2014
Deadline to submit questions via the MFMP Sourcing Tool Q&A Board.	2:00 PM	10/02/2014
Department's anticipated posting of answers to Bidders' questions within the MFMP Sourcing Tool.		10/07/2014
Deadline to submit bid and all required documents in MFMP Sourcing Tool.	2:00 PM	10/21/2014
Bid Opening-4050 Esplanade Way Suite 360K, Tallahassee, Florida 32399	2:01 PM	10/21/2014
Anticipated date to post Notice of Intent to Award.	2:00 PM	10/28/2014
Anticipated contract start date.	12:00 AM	11/01/2014
Anticipated Mandatory Post Award Meeting with Awarded Vendors (Section 4.21)	2:00 PM	11/15/2014

1.5 Order of Precedence for Solicitation

In the event of conflict, the conflict will be resolved in the following order of priority (highest to lowest):

- Addenda to Solicitation, if issued
- Introduction
- Description of Scope
- Special Instructions
- General Instructions
- Special Contract Requirements
- General Contract Requirements
- Attachments

1.6 Procurement Officer

The Procurement Officer is the sole point of contact from the date of release of this ITB until 72 hours after the contract award is made.

Procurement Officer for this ITB is:

Claudia Cooper

Associate Category Manager

Florida Department of Management Services

Division of State Purchasing

4050 Esplanade Way, Suite 360

Tallahassee, FL 32399-0950

Phone: (850) 488-8440

Email: Claudia.Cooper@dms.myflorida.com

1.7 Limitation on Contact with Government Personnel (S. 287.057(23), F.S.)

Respondents to this solicitation or persons acting on their behalf may not contact, between the release of this solicitation and the end of the 72-hour period following the agency posting the Notice of Intended Award, excluding Saturdays, Sundays, and state holidays, any employee or officer of the executive or legislative branch concerning any aspect of this solicitation, except in

writing to the Procurement Officer or as provided in the solicitation documents. Violation of this provision may be grounds for rejecting a response.

1.8 ITB Process

The ITB is a method of competitively soliciting a commodity or contractual service pursuant to section 287.057(1)(a), F. S. The Department posts an ITB on the Vendor Bid System (VBS) to initiate the process and also posts solicitation in the MFMP Sourcing Tool.

Vendors may submit questions in writing to the Procurement Officer via the MFMP Sourcing Tool by the date listed in section 1.4; Timeline of Events. Bids must be submitted by the deadline listed in the Timeline of Events. The Department will open the bids in a public meeting. Once the Department has evaluated the bids, the Department will post a notice of Intended Award on the VBS.

1.8.1 Question Submission

The Department will entertain written questions regarding the solicitation or the procurement process submitted through the MFMP Sourcing Tool for a limited period of time as specified in the Timeline of Events. The purpose of this question period is to promote the respondent's full understanding of the solicitation requirements by providing written binding answers to questions about the solicitation.

In order to submit a question, respondents must be registered in MFMP Sourcing and able to access the "Messages" tab in the solicitation dashboard. For information about registering with MFMP Sourcing, please see section 2.2; Special Instructions. The Department will not respond to questions submitted through any other format or medium (telephone calls, emails, letters, etc.).

Questions submitted via the "Messages" tab within the MFMP Sourcing Tool must be RECEIVED NO LATER THAN the time and date reflected on the Timeline of Events. Questions shall be officially answered via addenda as stated in the Timeline of Events. The Department shall not be bound by any verbal information or by any written information that is not contained within the solicitation documents or formally noticed and issued by the Department's contracting personnel.

1.8.2 Addenda to the ITB

The Department may modify this ITB by issuing addenda. Addenda, if issued, shall be posted on the VBS and the MFMP Sourcing Tool. Bidders are responsible for checking the VBS and sourcing tool for changes and updates to the solicitation

1.8.3 Modification or Withdrawal of Bid

Bidders are responsible for the content and accuracy of their bid. Bidders may modify or withdraw their bid at any time **prior** to the bid due date in accordance with the Timeline of Events. For instructions on how to modify or withdraw bids refer to the link: [MFMP Vendor Toolkit](#) or for technical assistance please select this link: [MFMP Vendor Help](#) or call (866) 352-3776.

1.8.4 Disclosure of Bid Contents

All documentation produced as part of the ITB will become the exclusive property of the Department and will not be returned to the Bidder unless it is withdrawn prior to the bid opening in accordance with section 1.8.3.

1.9 Contract Formation

The Department intends to enter into a contract with the awarded Bidder(s) pursuant to section 2.5; Basis of Award. The contract shall be composed of the following: General Contract Conditions ([PUR 1000](#)), Special Contract Conditions, Description of Scope, the pricing sheet submitted by the Bidder and additional documentation (as required). No additional documents submitted by a Bidder may be incorporated in the contract unless it is specifically identified and incorporated by reference in the attached contract document.

Balance of page intentionally left blank

Section 2 Instructions to Respondents

This section contains instructions to Bidders on how to submit a Bid. The instructions come in two parts; general instructions and special instructions.

2.1 General Instructions

The [PUR 1001](#), The General Instructions to Respondents, is incorporated by reference and provided via the link below:

<http://www.dms.myflorida.com/content/download/10026/48851/file/06%20-%20PUR%201001%20General%20Instructions%20to%20Respondents.pdf>

In the event any conflict exists between the Special Instructions and General Instructions to Respondents, the Special Instructions shall prevail.

2.2 Special Instructions

2.2.1 MFMP Registration

In order to bid, Bidders must have a current Vendor registration and be active for “Sourcing Events” within the link: MFMP Vendor Information Portal Website.

2.2.2 How to Submit a Bid

Submit responses to this solicitation via the MyFloridaMarketPlace Sourcing Tool by selecting this link: [MFMP Sourcing 3.0 Login](#). Bidders must have a current Vendor registration and be active for “Sourcing Events” within the link [MFMP Vendor Information Portal](#). Download the MFMP Participation Instructions to Bidder, for detailed instructions on how to participate within the MFMP Sourcing Tool 3.0.

Include all appropriate pricing, discounts, documents, forms, files, question responses, and information responses located within the MFMP Sourcing Tool for the solicitation in Bids. All required or requested pricing, discounts, documents, forms, files, question responses, and information responses are to be entered electronically in the MFMP Sourcing Tool during this solicitation as indicated.

2.2.3 Sourcing Tips and Training

After logging into MFMP Sourcing 3.0, “My Events” lists all events the Vendor already chose to “Join” (i.e., you intend to submit a formal response). “Public Events” lists those events associated with the Vendor’s registered commodity codes listed in their Vendor Information Portal (VIP) accounts, but the Vendors have not yet “Joined.” Joining an event moves the event from “Public Events” to “My Events,” allows the Vendor to submit questions about the event, and alerts Vendors to any associated updates (e.g., addenda, event edits, etc.).

To respond to a solicitation, respondents must review and accept the electronic agreement on the “Review and Accept Agreement” page. Click the radio button next to, “I accept the terms of this agreement.”

When responding, save work frequently – at intervals less than 20 minutes. Sourcing 3.0 automatically times out after 20 minutes of inactivity. Any unsaved information may be lost when the system times out. Clicking the “Save” button within Sourcing 3.0 only saves your

solicitation responses.

To transmit responses to the State, Vendors must click “Submit Entire Response.” After clicking the “Submit Entire Response” button, Vendors are responsible to verify and validate any submitted response in Sourcing 3.0 to ensure their responses are accurate and complete prior to the bid closing time.

Vendors should allow sufficient time, prior to the Solicitation event period closing, to address any errors and resubmit revised responses.

To validate responses, please do the following before the Solicitation period ends:

Click the “Response History” link to confirm that your “submitted” response is visible, and, therefore, formally submitted.

Confirm that a status of “Accepted” displays next to your submitted response.

Click on the Reference number of your submitted bid response to review the submission.

Please check the following:

- Text boxes – Is your entire answer viewable?
- Yes/No questions – Are the displayed answers correct?

For technical assistance, contact the MFMP Customer Service Desk (CSD) at (866) 352-3776 or by email at VendorHelp@MyFloridaMarketPlace.com. For additional information regarding Vendor online training or to view MFMP Sourcing training documents select the hyperlink, [MFMP Vendor Toolkit](#).

2.2.4 Who May Respond

Motor Vehicle Manufacturers or Dealers, who are registered with and considered to be in good standing by the Florida Department of State, may respond. To be eligible for award, a Bidder is to satisfy the requirements, specifications, terms, and conditions of the solicitation and demonstrate their capability to perform a statewide Contract in the State of Florida, and are authorized by the Florida Department of State to do business in the State of Florida.

2.2.5 Bidder Qualification Questions

Submit a Yes/No response to the following Qualification Questions within the MFMP Sourcing Tool. Bidders are to meet and respond to the qualifications identified in the following Qualification Questions in order to be considered responsive. The Department may not evaluate bids from Bidders who answer “No” to any of the Qualification Questions.

2.2.5.1 Does the Bidder certify that the person submitting the bid is authorized to respond to this ITB on Bidder’s behalf?

2.2.5.2 Does Bidder certify that it is not a Convicted Vendor or Discriminatory Vendor as defined in sections 7 and 8 of the PUR 1001?

2.2.5.3 Does Bidder certify compliance with section 9 of the PUR 1001?

2.2.5.4 Does Bidder certify that it is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List?

2.2.5.5 Does Bidder certify that it will, if awarded, submit to the Department, at least annually, the completed signed Preferred Pricing Affidavit as required in section 4.16 of this solicitation?

2.2.5.6 Does Bidder certify that it will, if awarded, submit monthly to the Department a Motor Vehicle Contract Sales report, as required in section 4.26 of this solicitation?

2.2.5.7 Does Bidder certify that, if awarded, it has (1) full-service repair facility in Florida from which the commodities bid may be installed, serviced, and repaired under warranty and the terms of the Contract, as required in section 3.1 of this solicitation?

2.2.5.8 Does Bidder certify that they have carefully and thoroughly reviewed their bids or prices on the Price Sheet (Attachment A) for accuracy and completeness?

2.2.5.9 Does the bidder certify that they have read and understand the requirements stated in section 1.8.3, Modification or Withdrawal of Bid?

2.3 Contents of Bid

Organize Bids in parts as directed below. Submit all the information requested in each part below through the [MFMP Sourcing Tool](#). Failure to submit all of the requested information in 2.3.1 through 2.3.6 (Part 1 through Part 6) below, in the format required under this ITB, may result in a determination of Bidder non-responsiveness. Label each response with the appropriate section number (and part number) below:

2.3.1 Part 1 - Company Information

Complete the Vendor Information Form (Attachment I) to include all of the below:

2.3.1.1 Company name and address.

2.3.1.2 Name, title, phone number and email of person within the company responsible for administering the contract.

2.3.1.3 Federal ID Number

2.3.1.4 Internet website address

2.3.2 Part 2 - Current Manufacturer's Certification Submission

Submit one current, completed Manufacturer's Certification form for each Manufacturer represented. (Attachment J)

2.3.3 Part 3 - References

Provide a minimum of three references from governmental agencies or Other Eligible Users in Florida that purchased provided motor Vehicles from the Bidder. Submit legible copies of the purchase orders or invoices exceeding \$100,000 for each reference which identify motor Vehicles sold to the reference during the period July 1, 2012, through June 30, 2014. The purchase order or invoice must include the following:

- 2.3.3.1** The customer's business name,
- 2.3.3.2** The name and telephone number of a contact person for the customer,
- 2.3.3.3** The date of the purchase order and/or invoice, and
- 2.3.3.4** The specific Vehicle model(s) and total price.

2.3.4 Part 4 - Relevant Past Performance

Provide a synopsis of the five most recent large volume Vehicle contracts (which are similar to this ITB) in which your organization provided motor Vehicles. Include the following information:

- 2.3.4.1** Contract number;
- 2.3.4.2** Term of the contract;
- 2.3.4.3** The name and telephone number of the customer's contact person;
- 2.3.4.4** Number of Vehicles sold by your organization under the contract;
- 2.3.4.5** Average number of your organization's personnel assigned to contract; and
- 2.3.4.6** The final overall sales received by your organization under the contract.

2.3.5 Part 5 - Price Sheet Submission

Download the Price Sheet (Attachment A-Contractor's Pricing Sheet), complete and upload it within the MFMP Sourcing Tool.

2.3.5.1 The Price Sheets are contained within a separate Microsoft Excel™ workbook. The workbook contains six (6) separate Commodity Code Group Price worksheets, each with individual lines (rows) for each related Representative Model (listed in alphabetical order by brand name, and then by Vehicle size/variation/configuration and divided into sub-groups for organizational purposes) and are as follows:

- 2.3.5.1.1** Police Vehicles
- 2.3.5.1.2** Automobiles or Cars
- 2.3.5.1.3** Mini-Vans or Vans
- 2.3.5.1.4** Light Trucks or Sport Utility Vehicles
- 2.3.5.1.5** Product and Material Transport Vehicles
- 2.3.5.1.6** Passenger Motor Vehicles

2.3.5.2 Each of the six (6) separate Commodity Code Group Price Sheets shall include the following:

- 2.3.5.2.1** Line No.,
- 2.3.5.2.2** Representative Model,
- 2.3.5.2.3** Alternate Fuel Capability,
- 2.3.5.2.4** Organization name,
- 2.3.5.2.5** Base Vehicle Price (\$##,###)
- 2.3.5.2.6** OEM Options Discount (##.##%) field,
- 2.3.5.2.7** Estimated lead-time in Days (###) field,
- 2.3.5.2.8** Manufacturer's Last Order Date (###/###/####),

2.3.5.2.9 Evaluated price (Score) as automatically calculated per section 2.5; Basis for Award, and

2.3.5.2.10 Up to eleven (11) Identified Aftermarket Options (of various descriptions) Price (\$##,###). Special Note: Aftermarket options are not authorized on all Representative Models.

2.3.5.3 Respond to as many of the provided Representative Models (with their associated fields) as you may choose to bid, but provide only one bid per Representative Model. Supply all related information for each Representative Model in the appropriate areas and formats required on the Price Sheets. Each Representative Model consists of the following fields:

- 2.3.5.3.1** Organization name;
- 2.3.5.3.2** Base Vehicle Price (\$##,###);
- 2.3.5.3.3** OEM Options Discount (##.##%);
- 2.3.5.3.4** Estimated Lead-time in Days (###); and

2.3.5.3.5 Up to eleven (11) Identified Aftermarket Options (of various descriptions) Price (\$##,###). Special Note: Aftermarket options are not authorized on all Representative Models. Fields will be blacked out where the field does not apply.

2.3.5.4 Follow the instructions and formats noted in the Price Sheet instructions. The blue cells on each of the Price Sheets, are the places where the Bidder may enter specific Representative Models (with their associated fields) and where the Bidder is required to supply accurate and complete information per section 4.4, Pricing. These blue cells on the Price Sheets contain bracketed notes providing instructions and requirements to assist the Bidder in providing the required information in the required format. The orange colored cells on the Price Sheets, automatically calculate the evaluated prices (Score) for each Representative Model, OEM options, and Identified Aftermarket Options which the Department will use in selecting Contractors for award in accordance with section 2.5; Basis of Award.

2.3.5.5 When entering a bid for a Representative Model, complete all applicable fields including OEM options and aftermarket options. If you do not wish to bid a specific Representative Model, leave the line (row) and cells untouched or blank (do not delete the row).

Enter a value of zero dollars and zero cents (“\$0.00”) for Representative Models that do not include an associated OEM Options Discount and any associated and/or required Identified Aftermarket Options, or the bid for that Representative Model may be rejected as non-responsive. Values entered for OEM Options or Identified Aftermarket Options without bidding the associated Base Vehicle Price may be rejected as non-responsive.

All bids will be to provide the base Representative Models. All Prices will be in U.S. Dollars, whole (\$USD; e.g., \$99,999); all Discounts shall be a positive percentage to the one-hundredth decimal place (%; e.g., 99.99%); all dates will be in full standard numerical format (e.g., mm/dd/yyyy); and all Numbers shall be a positive in standard numerical format (e.g. ###,###).

Bids that do not meet or exceed the solicitation’s requirements, specifications, general and specific contract requirements, or are not listed or referenced as a Representative Model in the applicable solicitation documents, may be rejected as non-responsive.

2.3.6 Part 6 – Other information

2.3.6.1 Current Department of State Registration Form

Submit a copy of the Bidder’s registration with the Florida Department of State, which authorizes the company to do business in the State of Florida.

2.3.6.2 Out-of State Preference Letter from Attorney (if applicable)

Any Bidder who states that its “principal place of business” is outside of this state must submit with its bid a written opinion of an attorney at law, licensed to practice law in that foreign state, that contains information explaining the preferences, any or none, granted by the law of that state to its own business entities whose principal place(s) of business are in that foreign state in the letting of any or all public contracts. For the purpose of this ITB, “principal place of business” means the state in which the Bidder’s high level officers direct, control, and coordinate the Bidder’s activities.

2.3.6.3 Preferred Pricing Affidavit (Attachment D)

Submit a completed and signed copy of the Preferred Pricing Affidavit.

2.3.6.4 Certification of Drug-Free Workplace

Bidder must submit a completed and signed copy of the Certification of Drug-Free Workplace (Attachment C).

2.3.6.5 Savings /Price Reduction

The Bidder/Respondent is required to furnish the percent (%) savings in prices offered compared to retail, list, published or other usual or customary prices that would be paid by the purchaser without the benefit of a contract resulting from this bid. Attachment E, Savings/Price Reductions is provided to facilitate the Bidders response to this requirement. The Bidder is required to submit this form with its bid, and at the time of any renewals or extensions.

2.4 Evaluation Criteria

The Department shall review bidder responses using the criteria listed in 2.2.5 Bidder Qualification Questions to determine responsiveness. Bids that do not meet all requirements of

the solicitation or fail to provide all required information, documents, or materials may be rejected as non-responsive. Bidder's responses, past performance, or current status that do not reflect the capability, integrity, or reliability to fully and in good faith perform the requirements of a Contract may be rejected as non-responsive. At its sole discretion the Department will determine which responses meet the requirements of this solicitation, and which Bidders are responsive and responsible.

2.5 Basis of Award

The Contract(s) shall be awarded to the responsive, responsible Vendor(s) that submits the lowest responsible evaluated price for each individual Representative Model including, if applicable, OEM Options and Identified Aftermarket Options. Bidders may submit bids for multiple Representative Models; however, Bidder may not submit more than one bid for each individual Representative Model. The Department reserves the right to award to multiple bidders for a Representative Model or to make no award for a Representative Model, as determined to be in the best interest of the State.

Multiple awards may be made to up to two bidders for each individual Representative Model if the evaluated price (Score) of the second bidder is within seven percent (7%) or less of the lowest evaluated bidder. The Department reserves the right to accept or reject any and all bids, and to waive any minor irregularity, technicality, or omission if the Department determines that doing so will serve the State's best interest.

2.5.1 Commodity Code 25101702, Police Vehicles; Sub-Group A, Line No. 1 shall be calculated as follows:

Formula: $B + ((B \times 0.10) \times (1 - O)) = \text{Evaluated Price}$

Where:

B = Base Vehicle Price offered. Note: All Prices [Credits] must be in U.S. Dollars, whole (e.g., \$99,999).

O = OEM Options Discount offered. Note: All Discounts must be a positive percentage to the one-hundredth decimal place (e.g., 99.99%).

2.5.2 Commodity Code 25101702, Police Vehicles; Sub-Group A, Line Nos. 2, 3, 4, 5 and 6 shall be calculated as follows:

Formula: $B + ((B \times 0.10) \times (1 - O)) + A_R = \text{Evaluated Price}$

Where:

B = Base Vehicle Price offered. Note: All Prices [Credits] must be in U.S. Dollars, whole (e.g., \$99,999).

O = OEM Options Discount offered. Note: All Discounts must be a positive percentage to the one-hundredth decimal place (e.g., 99.99%).

AR = Required Identified Aftermarket Option Price offered. Note: All Prices [Credits] must be in U.S. Dollars, whole (e.g., \$99,999). Additional Note: The Required Identified Aftermarket Option is contained in the first column to the right of the Evaluated price column in the Price Sheets.

2.5.3 Commodity Code 25101702, Police Vehicles; Sub-Group B, All lines, Police Vehicles; Sub-Group C, All lines, Police Vehicles; Sub-Group D, Line Nos. 1, 2, 3 and 4 shall be calculated as follows:

Formula: $B + ((B \times 0.08) \times (1 - O)) = \text{Evaluated Price}$

Where:

B = Base model price offered. Note: All Prices [Credits] must be in U.S. Dollars, whole (e.g., \$99,999).

O = OEM Options Discount offered. Note: All Discounts must be a positive percentage to the one-hundredth decimal place (e.g., 99.99%).

2.5.4 Commodity Code 25101702, Police Vehicles; Sub-Group D, Line No. 5 shall be calculated as follows:

Formula: $B + ((B \times 0.08) \times (1 - O)) + AR = \text{Evaluated Price}$

Where:

B = Base Vehicle Price offered. Note: All Prices [Credits] must be in U.S. Dollars, whole (e.g., \$99,999).

O = OEM Options Discount offered. Note: All Discounts must be a positive percentage to the one-hundredth decimal place (e.g., 99.99%).

AR = Required Identified Aftermarket Option Price offered. Note: All Prices [Credits] must be in U.S. Dollars, whole (e.g., \$99,999). Additional Note: The Required Identified Aftermarket Option is contained in the first column to the right of the Evaluated Price column in the Price Sheets.

2.5.5 Commodity Code Group Nos.:

2.5.5.1 25101702; Police Vehicles; Sub-Group E; all lines

2.5.5.2 25101503; Automobiles or Cars; Sub-Group A; all lines

2.5.5.3 25101505; Mini-Vans or Vans; Sub-Groups A, B, and C, all lines

2.5.5.4 25101507; Light Trucks or Sport Utility Vehicles; Sub-Groups A and B; all lines

2.5.5.5 25101500; Passenger Motor Vehicles; Sub-Group A; all lines

Shall all be calculated as follows:

Formula: $B + ((B \times 0.025) \times (1 - O)) = \text{Evaluated Price}$

Where:

B = Base Vehicle Price offered. Note: All Prices [Credits] must be in U.S. Dollars, whole (e.g., \$99,999).

O = OEM Options Discount offered. Note: All Discounts must be a positive percentage to the one-hundredth decimal place (e.g., 99.99%).

2.5.6 Commodity Code Group Nos.: 25101507; Light Trucks or Sport Utility Vehicles; Sub-Groups C, D, E, F, G, and H; all lines and 25101600; Product and Material Transport Vehicles; Sub-Groups A and B; all lines shall be calculated as follows:

Formula: $B + ((B \times 0.05) \times (1 - O)) = \text{Evaluated Price}$

Where:

- B =** Base Vehicle Price offered. Note: All Prices [Credits] must be in U.S. Dollars, whole (e.g., \$99,999).
- O =** OEM Options Discount offered. Note: All Discounts must be a positive percentage to the one-hundredth decimal place (e.g., 99.99%).

Note: All Evaluated Prices of \$0.00, showing error codes, or that do not include the Base Vehicle Price offer, OEM Options Discount offer, and Required Identified Aftermarket Option Price offer, as required, may be rejected as non-responsive. If there is a conflict between these instructions and the pricing sheet, these instructions shall control.

2.6 Preference to Florida Vendors

If the lowest bid is submitted by a Bidder whose principal place of business is located outside the State of Florida, preference shall be applied consistent with section 287.084, F.S.

2.7 Tie Bids

In the event that the Department's evaluation results in identical evaluations of replies, the Department will select a Bidder based on the criteria identified in Rule 60A-1.011, F.A.C.

2.8 Rejection of Bids

Bids that do not meet all requirements, specifications, terms, and conditions of the solicitation or fail to provide all required information, documents, or materials may be rejected as non-responsive. Bidders whose bids, past performance, or current status do not reflect the capability, integrity, or reliability to fully and in good faith perform the requirements of a contract may be rejected as not responsible. The Department reserves the right to determine which bids meet the requirements of this solicitation, and which bidders are responsive and responsible.

2.9 Redacted Submissions

The following section supplements section 19 of the [PUR 1001](#). If Bidder considers any portion of the documents, data or records submitted in response to this solicitation to be confidential, proprietary, trade secret or otherwise not subject to disclosure pursuant to Chapter 119, F.S., the Florida Constitution or other authority, Bidder must mark the document as "Confidential" and simultaneously provide the Department with a separate redacted copy of its response and briefly describe in writing the grounds for claiming exemption from the public records law, including the specific statutory citation for such exemption. This redacted copy shall contain the Department's solicitation name, number, and the Bidder's name on the cover, and shall be clearly titled "Redacted Copy." The Redacted Copy should only redact those portions of material that the Bidder claims is confidential, proprietary, trade secret or otherwise not subject to disclosure.

In the event of a request for public records pursuant to Chapter 119, F.S., the Florida Constitution or other authority, to which documents that are marked as confidential are responsive, the Department will provide the Redacted Copy to the requestor. If a requestor asserts a right to the Confidential Information, the Department will notify the Bidder such an assertion has been made. It is the Bidder's responsibility to assert that the information in question is exempt from disclosure under Chapter 119, F.S., or other applicable law. If the Department becomes subject to a demand for discovery or disclosure of the Confidential Information of the Bidder in a legal proceeding, the Department shall give the Bidder prompt notice of the demand prior to releasing the information (unless otherwise prohibited by applicable law). The Bidder shall be responsible for defending its determination that the redacted portions of its response are confidential, proprietary, trade secret, or otherwise not

subject to disclosure.

By submitting a bid, the Bidder agrees to protect, defend, and indemnify the Department for any and all claims arising from or relating to the Bidder's determination that the redacted portions of its reply are confidential, proprietary, trade secret, or otherwise not subject to disclosure. If Bidder fails to submit a redacted copy of information it claims is confidential, the Department is authorized to produce the entire documents, data, or records submitted to the Department in answer to a public records request for these records.

2.10 Additional Information

By submitting a bid, Bidder certifies that it agrees to and satisfies all criteria specified in the ITB. The Department may request, and Bidder shall provide, supporting information or documentation. Failure to supply supporting information or documentation as required and requested will result in disqualification of the bid.

Balance of page intentionally left blank

Section 3 Description of Scope

The purpose of this State Term Contract is to provide governmental entities within the State of Florida the ability to acquire new and unused 2015 Motor Vehicles. Purchases under this agreement will meet the needs of state agencies and Other Eligible Users in the performance of the respective entities' core responsibilities. Contractors shall provide Motor Vehicles in accordance with the specifications contained herein.

3.1 Full-Service Repair Facilities

The Contractor must have a minimum of one (1) Full-Service Repair Facility in Florida from which the commodities bid may be installed, serviced, and repaired under warranty and comply with the terms of the Contract, if awarded.

If awarded, the Contractor may be required by the Department to submit additional information deemed important by the Department regarding the Full-Service Repair Facilities during the term of the Contract. Additionally, the Department may require written verification from each Full-Service Repair Facility indicating their willingness to honor all applicable Contract requirements, specifications, terms, and conditions for the duration of the Contract.

3.2 Hours of Operation

With the exception of State recognized holidays the Contractor shall maintain hours of operation and be available Monday through Friday, 8 a.m. to 5 p.m. (ET) for the management of this Contract.

3.3 Commodities Title and Registration

Applicable awarded Vehicles delivered under the Contract shall be titled and registered by the Contractor in accordance with Chapters 319 and 320, Florida Statutes. The Contractor shall send any necessary form(s) that must be signed by an authorized representative of the Customer with the awarded commodity(ies) upon delivery, and the Contractor shall obtain any necessary signature(s) and complete the titling and registration process for the Eligible User in a timely manner.

In the event the Customer is permitted by statute, law, rule, ordinance, code, policy, and procedure to obtain Title and Registration independent of the Contractor, and chooses to obtain Title and Registration independent of the Contractor, the Customer shall notify the Contractor in writing of this decision no later than three (3) business days following receipt of the Acknowledgement of Order form. However, the Customer will then be obligated to Title and Register the awarded Commodity per applicable statute, law, rule, ordinance, code, policy, and procedure, and the Contractor shall provide any documents necessary for the Customer to do so.

For applicable awarded Vehicles, Customers may elect to transfer an existing license plate, or may choose to obtain a new license plate. Should a Customer elect to transfer an existing license plate, please note that this is the standard default order type and does not require specific notation on the Purchase Order. All related fees listed in Ceiling Prices and Charges and Fees (refer to sections 4.4.1 and 4.4.2) are included in the Base Equipment Net Price. Should a Customer elect to obtain a new license plate in lieu of transferring their old license plate, or if the awarded Commodity is an addition to their fleet and requires a new license plate, the Purchase Order should include a notation and an additional amount to cover the cost of a new license plate. The Contractor is not required to obtain new license plates for the Customer

unless there is a notation and a new license plate fee is included on the Purchase Order. All related charges and fees (see section 4.4.2), except the new license plate cost, are included in the Base Equipment Net Price

The Customer's Purchase Order notation for a new license plate must include the request for a new license plate, what type of license plate is required, and a Issuing Officer's name, title, and telephone number should there be any questions.

The Contractor may obtain special plates such as "State", "County", or "City" from most county tax offices, but agency plates such as "DOT", "DC", "DEP", etc. must be obtained from the Department of Highway Safety and Motor Vehicles, Division of Motor Vehicles, in Tallahassee, Florida.

3.4 Transportation and Delivery

This section supersedes and replaces General Conditions Section 11, PUR 1000, Transportation and Delivery.

Delivery of the awarded new, unused Vehicles is defined as receipt of the awarded new Vehicle at the Customer's place of business or designated location, or if the Customer chooses, at the Contractor's place of business. The Contractor must give the ordering Customer a minimum of twenty-four hours' notice prior to Delivery. Deliveries will be received only between 8:00am and 3:00pm (Customer's local time) on the Customer's normal business days.

Deliveries of awarded new Vehicles is made by either private or common carrier transport; or where delivery may be accomplished by driving the self-propelled Motor Vehicle with less than one thousand (1,000) odometer miles at delivery, the self-propelled Motor Vehicle may, with the Customer's prior approval, be driven under supervision to the delivery location. The Contractor must make every effort to minimize the number of odometer miles at delivery. At the Customer's option, Motor Vehicles with more than one thousand (1,000) odometer miles at delivery may be rejected or \$0.50 per mile in excess of one thousand (1,000) odometer miles may be deducted from the invoice and payment. The Contractor must comply with the Manufacturer's break-in requirements and all applicable traffic and safety laws.

All self-propelled Motor Vehicles delivered by the Contractor to the Customer shall contain no less than one-quarter (1/4) tank of fuel as indicated by the fuel gauge at the time of delivery. At the Customer's option, Motor Vehicles with less than one-quarter (1/4) tank of fuel at delivery may be rejected or \$4.00 per gallon, up to one-quarter of the Motor Vehicle's designated fuel tank capacity, may be deducted from the invoice and payment.

The Contractor will perform the standard Manufacturer's Pre-Delivery Inspection, and is responsible for delivering an awarded Vehicle that is properly serviced, clean, and in first class operating condition. Pre-Delivery service, at a minimum, shall include the following:

3.4.1 Complete lubrication of operating chassis, engine, and mechanisms with Manufacturer's recommended grades of lubricants;

3.4.2 Check / Fill all fluid levels to assure proper fill;

3.4.3 Adjust engine(s) / motor(s) / drive(s) to proper operating condition(s);

- 3.4.4** Inflate tires (including any spares) to proper pressures;
- 3.4.5** Check to assure proper operation of all accessories, gauges, lights, and mechanical and hydraulic Features;
- 3.4.6** Clean equipment, if necessary, and remove all unnecessary tags, stickers, papers, etc.; and
- 3.4.7** Assure that the Motor Vehicle is completely assembled (unless otherwise noted in the specification) including Representative Model, OEM Options (if applicable), Identified Aftermarket Options (if applicable), and thoroughly tested and ready for operation upon Delivery.
- All awarded Vehicles will be delivered with each of the documents listed below completed and included. Deliveries that do not include the above forms and publications, or that have forms that have been altered, or are not properly completed, may be refused.
- 3.4.8** Copy of the Manufacturer's Pre-Delivery Inspection form, which meets or exceeds the requirements herein;
- 3.4.9** Copy of the ordering Customer's Purchase Order;
- 3.4.10** Copy of the applicable Contract specification(s) and Price Sheet information;
- 3.4.11** Copy of the Manufacturer's Invoice(s) for each awarded Commodity, including individual Representative Model, OEM Options, and Identified Aftermarket Options, in the shipment;
- 3.4.12** Manufacturer's Window Sticker(s), if applicable;
- 3.4.13** Manufacturer's Certificate of Origin, if applicable;
- 3.4.14** Manufacturer's Operator Manual, and (if not included in the operator manual) one (1) each of the Manufacturer's lubrication and maintenance instructions;
- 3.4.15** Copy of the Manufacturer's Standard Warranty Certifications;
- 3.4.16** Sales Tax Exemption Form, if applicable;
- 3.4.17** Temporary Tag and twenty (20) day Extension Tag, if applicable; and DHSMV 82040, Application for Certificate of Title and Vehicle Registration, if applicable.

Awarded Vehicles requiring post-Manufacturer, Dealer installed OEM Options and Identified Aftermarket Options must be delivered FOB Destination to any point within the State of Florida within thirty calendar days after receipt of the awarded Vehicles from the Manufacturer(s).

Awarded Vehicles requiring post-Manufacturer Identified Aftermarket Options for body installation must be delivered FOB Destination to any point within the State of Florida within forty-five calendar days after receipt of the awarded Vehicle from the Manufacturer(s).

Prices include all charges for packing, handling, freight, distribution, and delivery. These transportation and delivery requirements also apply to the re-delivery of an awarded Vehicle that was previously rejected upon initial delivery.

3.5 Acceptance

Transportation and Delivery of the Vehicle(s), does not constitute acceptance. Final acceptance and authorization of payment shall be given by the Customer only after a thorough inspection indicates that the Vehicle(s) is undamaged and meets the Contract requirements, specifications, terms, and conditions.

Inspection and acceptance will be the Customer's responsibility and occur at the location of the Customer's specified delivery location. Title and risk of loss or damage to all Vehicles shall be the responsibility of the Contractor until acceptance by the Customer. The Contractor shall be responsible for filing, processing, and collecting all damage claims.

The Customer, within three (3) business days of delivery, will thoroughly inspect the Vehicle(s) received for acceptance. The Customer will record any evidence of visible damage on all copies of the delivering carrier's bill of lading and report concealed damage within 15 business days of delivery to the Contractor. The Contractor will remedy the defect(s) or be responsible for reimbursing the Manufacturer's local authorized service Vendor or others selected by the Customer to remedy the defect(s). The Contractor shall initiate such required service or adjustments within two (2) business days following notification by the Customer. The Vehicle(s) will not be accepted until all service or adjustments are satisfactory and the Vehicle(s) is re-delivered in acceptable condition. The costs of any Transportation and Delivery, required as part of the initial or any re-deliveries due to error or damage are the responsibility of the Contractor.

3.6 Representative Model, OEM Option, and Identified Aftermarket Option Specifications

Representative Model, OEM Option, and Identified Aftermarket Option Specifications (Specifications) are included in this Contract section by reference. The Department provided Specifications may be found via their individual lists or links from within Price Sheets. The Department Specifications are based on the best information available to the Department at the time the specifications were developed. Where available, Representative Model and OEM Option specifications were developed based on known Customer needs and using Chrome Systems, Inc.'s Carbook Fleet Edition with the latest data version available at the time of the individual specifications creation. Where available, Identified Aftermarket Option specifications were created based on known Customer needs and the respective manufacturer's data.

Any conflict between the Department Specifications and the Manufacturer's specification will be resolved in favor of the Department Specifications.

3.6.1 Commodity Code Groups

The contract consists of Motor Vehicles divided into six (6) commodity code groups related to the United Nations Standard Products and Services Code® (UNSPSC®). Each of the six (6) Commodity Code Groups are reflected within the Bid Price Sheets. The commodity code groupings contain a list of applicable Representative Models (listed in alphabetical order by brand name, and then by Vehicle size/variation/configuration) with detailed descriptions (e.g., model year, make, model, trim level, etc.).

3.6.2 Representative Model Specifications

Each of the six (6) Commodity Code Groups provided in the Price Sheets contains a unique link within the Commodity Code Groups Description to the specification for the Representative Models within that specific Commodity Code Group.

3.6.3 OEM Options

Each of the Representative Model Specifications (noted above) contains a related OEM Options Specifications sub-section.

3.6.4 Identified Aftermarket Options

Each of the Commodity Code Groups provided in Price Sheets, contains up to eleven (11) Identified Aftermarket Option columns; each with unique links to specific Identified Aftermarket Options Specifications applicable to that specific Commodity Code Group.

3.7 Condition of Vehicles and Equipment

All Vehicles and equipment provided under the Contract must be designed, constructed, equipped, and installed to be fully suitable for their intended use, purpose, and service. The Vehicle and optional equipment must be new and unused (other than as specified in section 3.4, Transportation and Delivery) for the current Manufacturer's model year or later, as Department approved. All Vehicles must meet the requirements, specifications, terms, and conditions herein.

3.8 Luxury or Sport Vehicles or Features

Unless otherwise indicated within the individual Representative Model, OEM Option, or Identified Aftermarket Option Specification, no luxury or sports Vehicles will be considered or permitted. The Department, in its sole determination, shall determine what a luxury is or sport Vehicle. To date, the Department has determined: luxury or sports Vehicle brands shall include, but are not limited to, the following brands, types and components:

3.8.1 Acura, Alfa Romeo, Audi, Aston Martin, Bentley, BMW, Bugatti, Cadillac, Ferrari, Infiniti, Jaguar, Koenigsegg, Lamborghini, Land Rover, Lexus, Lincoln, Lotus, Maserati, Maybach, Mercedes-Benz, Pagani, Porsche, Rolls-Royce, and Spyker.

3.8.2 Coupes, two-seaters, supercars, cabriolets, convertibles (soft top or hardtop), roadsters, grand-tourers, and signature or specialty editions.

3.8.3 Leather upholstery (seats or interior), sunroofs and moon roofs

3.9 Dealer Advertising

No Contractor or Dealer advertising or identification (name, logos, etc.) is permitted on the Representative Model, OEM Options, Identified Aftermarket Options, or Components. Vehicle Manufacturer advertising or identification (name, model, logos, etc.) may be permitted on the respective Vehicles if such advertising or identification is a Manufacturer's standard on the specific Vehicle. The Department, at its sole discretion, will determine what is Contractor or Dealer advertising or identification, what is Vehicle Manufacturer's advertising or identification, and what advertising or identification is acceptable. The Contractor will remove all unacceptable advertising or identification.

3.10 Options (OEM or Identified Aftermarket), Features, and Components

All Representative Models, OEM options, Identified Aftermarket Options must be manufactured by a recognized manufacturer of the commodity provided. Where a Representative Model is

specified for an OEM option, Feature, or Component, only the specified Representative Model may be offered and provided. All Options, Features, and Components, either Manufacturer, Port, or Dealer installed, must be new and meet the requirements, specifications, terms, and conditions herein, and are subject to prior Department approval. All OEM Options, Identified Aftermarket Options, Features, and Components of the Representative Model, as specified by the Department and ordered by the Customer, shall be fully assembled and installed by the Motor Vehicle Manufacturer, except as follows:

3.10.1 If the Option, Feature, or Component is specified as a Port installed Option or Dealer installed Option by the Motor Vehicle Manufacturer; or

3.10.2 If the Option, Feature, or Component is not available from the Motor Vehicle Manufacturer, the Option, Feature, or Component may be assembled by its respective Manufacturer and installed by the Contractor, and

3.11 Federal and State Standards

It is the intent of the Department that all specifications herein are in full and complete compliance with all United States of America and State of Florida laws, requirements, and regulations applicable to the type and class of Vehicle and contractual services being provided. This includes, but is not limited to, Federal Motor Equipment Safety Standards, Occupational Safety and Health Administration, Environmental Protection Agency Standards, and State of Florida laws, requirements, and regulations that apply to the type and class of Vehicle and contractual services being provided. In addition, any applicable Federal or State legislation that should become effective during the term of the Contract, regarding the Vehicles and contractual services shall immediately become a part of the Contract. The Contractor must meet or exceed any such requirements of the laws and regulations. If an apparent conflict exists, the Contractor must contact the Contract Manager immediately. Delivery of non-conforming Vehicles and contractual services shall be cause for default proceedings and / or Contract termination.

3.12 Acceptable Publications

The Department may request and the Bidder shall provide, within three (3) business days of any request, acceptable and supporting information or documentation relative to its product. Acceptable and supporting information or documentation includes, but is not limited to:

3.12.1 Manufacturer's Computer Printouts (e.g., Chrysler's "DIAL SYSTEM", Ford's "DORA", GM's "AutoBook", or Department approved equivalent);

3.12.2 MSRP list. The MSRP and MSRP list may not be custom or solely developed, created, maintained, altered, revised, changed, or utilized for purposes of the solicitation and resulting contract (reference 4.3.12, MSRP)

3.12.3 Manufacturer's Standard Warranties;

3.12.4 Chrome Systems, Inc.'s PC Carbook applications, PC Carbook Plus and Carbook Fleet Edition; and

3.12.5 The Manufacturer's official fleet or retail websites.

3.13 Manufacturer's Last Order Date and Vehicle Change

The Manufacturer's Last Order Date is the final date on which the Manufacturer stops producing the model year of a Vehicle which meets the requirements, specifications, terms, and conditions

of the Contract.

The Contractor shall notify the Department of a contracted Vehicle Manufacturer's Last Order Date in writing (email or fax is acceptable) and received by the Contract Manager no later than thirty (30) calendar days prior to the effective date of the Manufacturer's Last Order Date. In the event the Manufacturer should give less than thirty (30) calendar days' notice of a Last Order Date to the Contractor, the Contractor shall notify by telephone, email, and letter, the Contract Manager no later than the next business day. When available, the Contractor agrees to immediately provide copies of the Manufacturer's notice of the Manufacturer's Last Order Dates to the Contract Manager upon request. Upon notification of Manufacturer's Last Order Date, the Department may unilaterally update the applicable Manufacturers' Last Order Date, fields within the Price Sheets, as it deems is in the best interest of the State and will best assist Customers.

Contractor shall immediately notify the ordering Customer's representative(s) of the Manufacturer's Last Order Date by telephone and using the Acknowledgement of Order Form. Upon receipt of the required telephone notification and Acknowledgement of Order form notifying the Customer of the Manufacturer's Last Order Date, the Customer may cancel the Purchase Order without penalty, or maintain the Purchase Order knowledgeable of the risk of potential non-Delivery without recourse. All Purchase Orders received and maintained after proper Customer notification of a Manufacturer's Last Order Date shall be subject to awarded Commodity availability.

After the Manufacturer's Last Order Date, the Contractor may provide, a new model year of the awarded Commodity, which meets the specifications herein, at the existing Contract Prices, discounts, requirements, terms, and conditions.

Should the Contractor wish to replace any awarded Vehicle they are currently awarded on the Contract with another Vehicle due to a result of a Manufacturer's Last Order Date, product revision, product alteration, product addition, or product technical improvement, the Contractor will offer, in writing, the intended replacement Vehicle to the Department for consideration. The intended replacement Vehicle must meet or exceed the Contract requirements, specifications, terms, and conditions. Additionally, the intended replacement Vehicle offered must be at the same or a lower current Price or at the same or a higher discount as the existing awarded Vehicle. The Contractor shall provide any documents necessary for the Department to fully evaluate the Contractor's request. The Department, at its sole discretion, will accept or reject the intended replacement Vehicle offered. Should the Department reject the intended replacement Vehicle offered, or if there is no intended replacement Vehicle offered for an awarded Vehicle that is no longer available, the Department may, at its sole discretion, delete the award or delete the award and award the Vehicle to the next lowest responsive and responsible Contractor, or assign the award to another Vendor.

3.14 Performance Bond

If deemed necessary, the Customer may require the Contractor to furnish (without additional cost) a performance bond, a negotiable irrevocable letter of credit or other form of security for the faithful performance of providing the required items specified on Customer Purchase Order against this Contract. Determination of the appropriateness and amount of any bond requirement, is the sole responsibility, and at the sole discretion, of the Customer. The performance bond will be capped at one (1) million dollars, or 10% of the expected value of any resultant contract or purchase order, whichever is lower.

3.15 Ordering Instructions

The following is a description of activities that should occur when ordering a Vehicle. The Department may unilaterally amend the Ordering Instructions as it deems is in the best interest of the State.

3.15.1 Vehicle Needs

Agencies and Other Eligible Users of this Contract shall communicate their Vehicle needs and requirements to the designated Contractor representatives identified in this contract. The customer is encouraged to seek more than one quote, where available.

3.15.2 Price Quotes

The Contractor prepares and submits to the Agency or Other Eligible User a price quote for the requested Vehicle(s) using the Contract Price Quote Form (PQF), as revised 08-2014 (Attachment F). All requested Representative Models(s) Vehicles, OEM Options, Identified Aftermarket Options and Non-Identified Aftermarket Options shall be itemized on the PQF. The price quoted for the Representative Models(s) Vehicles, OEM Options, Identified Aftermarket Options shall not exceed the Contractor's bid prices and discounts. This PQF shall be completed by the Vendor and returned to the Customer within 2 business days.

The Customer may negotiate with the Contractor to establish a fixed price lower than MSRP or a discount percentage of MSRP for those required "Non-Identified Aftermarket Items".

3.15.3 DMS Approval (State Agency Only)

The Customer will develop a justification to support price reasonableness and complete the DMS Fleet Management Form MP6301- Request for Purchase of Mobile Equipment (Attachment H). Submit this form with the PQF and forward to the DMS Bureau of Fleet Management for approval.

3.15.4 Purchase Order

The Customer will process a Purchase Order using normal procurement processes. The Purchase Order will include a copy of the approved PQF. All orders submitted by Eligible Users of the Contract shall be placed using a Purchase Order. Purchase Orders issued by Other Eligible Users shall be in accordance with the Ordering Instructions, Prices, Discounts, requirements, specifications, terms, and conditions of the Contract. The Contractor and the Eligible User agree to the following:

3.15.4.1 Under the Contract, State Agencies and Other Eligible Users may only place and Contractors shall only accept Purchase Orders for Vehicles the Contractor is awarded.

3.15.4.2 Other Eligible Users are responsible for including the following information on and with the Purchase Order, for each Vehicle ordered:

3.15.4.2.1 Eligible User's issuing officer and contact information;

3.15.4.2.2 Contractor Information from the Ordering Instructions

3.15.4.2.3 State Term Contract Number and Name;

3.15.4.2.4 Representative Base Model Vehicle Information: Commodity Code and Line Number (###-###-##), base description, and price (per Section 4.4); Note: Specify paint/finish color if other than the OEM's standard white (or other standard color if white is not available from the Manufacturer). OEM Option Information (if applicable, individually listed): Manufacturer's Option Code and Description, OEM Option MSRP, OEM Option Discount, and OEM Option Net Price or OEM Option MSRP Credit (as applicable, per sections 4.4.1 and 4.4.2). Note: State Agencies must include a copy of the applicable Price Quote Form (per section 3.15.2, Price Quotes) and accompanying OEM Option MSRP List with any submitted Requisition.

3.15.4.2.5 Identified Aftermarket Option Information (if applicable, individually listed): Identified Aftermarket Option Description and Identified Aftermarket Option Price (per sections 4.4.1, Ceiling Prices and 4.4.2, Charges and Fees);

3.15.4.2.6 New License Plate Fee (if applicable, per section 3.3, Commodities Title and Registration); and

3.15.4.2.7 Any Eligible User special instructions, requirements, specifications, terms, and conditions;

3.15.4.2.8 The total cost for the Representative Base Model Vehicle, OEM Option(s) (if any), Identified Aftermarket Option(s) (if any), and New License Plate Fee (if applicable).

3.15.4.2.9 Contractor will place all orders received with the Manufacturer(s) within seven (7) calendar days after receipt of the Purchase Order unless the Contractor has the Representative Model, OEM Option(s) (if applicable), Identified Aftermarket Option(s) (if applicable) ordered in their possession. All orders placed with the Manufacturer(s) shall be made in full compliance with the requirements, specifications, terms, and conditions herein

3.15.4.2.10 Contractor shall honor all Purchase Orders received during the Contract period and which precede the Manufacturer's Last Order Date (see Section 3.13, Manufacturer's Last Order Date and Vehicle Change, for specific requirements, terms, and conditions) for Commodities the Contractor is currently awarded. This may require the provision of the next new model year of the awarded Commodity, which meets the specifications herein, at the existing Contract Prices, Discounts, requirements, terms, and conditions

3.15.4.2.11 Contractor, from receipt of the Purchase Order until Delivery is made to the ordering Eligible User, shall promptly notify the Eligible User of any potential Delivery delays. Additionally, the Contractor must promptly advise the ordering Eligible User if their order may not be delivered prior to the end of the Eligible User's Fiscal Year (State Agency's Fiscal Year ends June 30). Note: Evidence of intentional delays in Delivery shall be cause for default proceedings and/or Contract termination.

3.15.5 Acknowledgement of Order

The Acknowledgement of Order Form (Attachment G) shall be used by the Contractor to notify the ordering Customer within five (5) business days of receipt of the Purchase Order for Vehicles and equipment awarded under the Contract in accordance with either 3.15.5.1 or 3.15.5.2 below:

3.15.5.1 Accept Order

Contractor agrees to deliver the awarded Vehicle(s) and equipment listed on the Purchase Order under the prices, discounts, requirements, specifications, terms, and conditions of the Contract and Purchase Order. The Contractor must mail, email, or fax the fully completed Acknowledgement of Order Form (Attachment G) to the Customer office within five (5) business days from the date the Contractor receives the Purchase Order. Failure of the Contractor to provide the ordering Customer the Acknowledgement of Order form within five (5) business days from the date the Contractor received the Purchase Order will be considered acceptance of the order by default, which, if necessary, shall require the provision of the next new model of the Vehicle, which meets the requirements, specifications, terms, and conditions herein. The Contractor must provide on the form:

3.15.5.1.1 the estimated delivery date of the ordered Representative Model, including if applicable, OEM and Identified Aftermarket Options, and

3.15.5.1.2 the Manufacturers' order confirmation information, unless the Contractor has the Representative Model in stock, and

3.15.5.1.3 the OEM and Identified Aftermarket Option(s) in their possession, if applicable,

3.15.5.2 Production Cutoff Notification

Provide notification to the Customer that an awarded Commodity's Manufacturer's Last Order Date is past under the Contract and the Contractor is unable to provide the next new model year of the awarded Commodity at the Contract Prices, Discounts, requirements, specifications, terms and conditions. The Customer will have the option to cancel the Purchase Order without penalty, or maintain the Purchase Order knowledgeable of the risk of potential non-delivery without recourse. See section 3.13, Manufacturer's Last Order Date and Vehicle Change, for specific Manufacturer's Last Order Date requirements, terms, and conditions.

3.16 Manufacturer as the Contractor

If the Contractor is the Manufacturer (not a Dealer) of the Commodities awarded, they may also include specific Dealer information in the Ordering Instructions in the provided locations. The Manufacturer, as Contractor, who elects to also include specific Dealer information within the Ordering Instructions is also required to appropriately register the listed Dealers as locations under the Contractor's Vendor registration in the State of Florida Vendor Registration System (Vendor Information Portal hyperlink).

The Manufacturer as Contractor is fully responsible for compliance with all the prices, discounts, requirements, specifications, terms, and conditions of the Contract and for any actions or inactions of the Dealer(s) they include in the Ordering Instructions. Contractor agrees that DMS controls which statewide contracts appear in MFMP and that DMS may elect at any time to remove any Contractor's offering from MFMP.

3.17 Contractor's Company Information and Contacts

The Contractor shall submit its completed Vendor Information Form (section **2.3.1-Part 1, Company Information, Attachment I**.) The Contractor shall appoint a "Designated Contact Point", and alternate, to interface with customers, respond to customer service issues, and respond to questions. It will be the Designated Contact Point's responsibility to coordinate with necessary Customer personnel as required. Awarded Contractors shall update the Vendor Information Form and submit to the Department.

Balance of page intentionally left blank

Section 4 Contract Conditions

4.1 General Contract Requirements

The General Instructions to Respondents, PUR 1000 (General Contract Conditions) is incorporated by reference and provided via a link below.

<http://www.dms.myflorida.com/content/download/1907/8062/version/9/file/1000.doc>

4.2 Special Contract Requirements

The Special Contract Requirements are provisions that relate directly to the performance of this contract.

4.3 Definitions

4.3.1 Identified Aftermarket Option(s)

A new and unused component, feature, or configuration specified by the Department as equipment for the Base Vehicle Representative Model specification, that is intended for the specific Vehicle and meets the requirements, specifications, terms, and conditions herein, and is installed to or uninstalled from the Base Vehicle Representative Model by the awarded Contractor.

4.3.2 Representative Model, Base Vehicle(s), Motor Vehicle(s), or Vehicle(s)

A Department specified commodity, which meets the requirements, specifications, terms, and conditions herein, and may include components, features, and configurations different than those provided by a Manufacturer, Port, and Dealer on their standard base version of the Commodity.

4.3.3 Commodity (ies)

A tangible good, which may or may not meet the specifications herein. Commodity under this contract is the Representative Base Model Vehicle and any OEM or Identified Aftermarket items associated with each Representative Base Model Vehicle.

4.3.4 Commodity Code(s)

The State of Florida specified numeric code for classifying Commodities and contractual services which meet specific requirements, specifications, terms, and conditions herein. Florida has adopted the United Nations Standard Products and Services Code (UNSPSC) for classifying commodities and services.

4.3.5 Confidential Information

Any portion of a Bidder's documents, data, or records disclosed relating to its response that the Bidder claims is confidential and not subject to disclosure pursuant to chapter 119, Florida statutes, the Florida Constitution, or any other authority that is clearly marked "Confidential".

4.3.6 Component, Feature or Configuration

An element, piece, part, module, package, element group, piece group, parts group, module group, or package group of a Commodity, Representative Model, OEM Option, Identified Aftermarket Option, or Representative Base Model Vehicle.

4.3.7 Contract

The agreement that results from this competitive procurement, if any, between the Department and the Contractor identified as providing the best value to the State. (This definition replaces the definition in the PUR 1000).

4.3.8 Contractor(s)

The Vendor that has been awarded and contracts to sell new Vehicles and/or contractual services, which meet the requirements, specifications, terms, and conditions herein, to an Agency or Eligible User.

4.3.9 Dealer(s)

A Manufacturer's certified representative authorized by the Manufacturer to market, sell, provide, and / or service specific Vehicles and/or services.

4.3.10 Department

The Florida Department of Management Services.

4.3.11 MSRP

An acronym for the Manufacturer's Suggested Retail Price. It represents the Manufacturer's recommended retail selling price, list price, published price, or other usual and customary price that would be paid by the purchaser for specific commodity without benefit of a Contract resulting from the solicitation, if awarded.

4.3.12 Non-Identified Aftermarket Options(s)

An optional new and unused component not specified, feature, or configuration not included in the Base Representative Vehicle Model specifications or options identified by the Department but may be installed to or uninstalled from the State of Florida Representative Base Model Vehicle by the Manufacturer, Dealer, Port, or Eligible User, if ordered by the Eligible User.

4.3.13 OEM or Manufacturer(s)

The Original Equipment Manufacturer or original producer of a Commodity and/or service.

4.3.14 OEM Option(s)

A Motor Vehicle Manufacturer's new and unused optional component, feature, or configuration not specified by the Department as standard on the Representative Model, and which is intended for the specific Representative Model. The equipment meets the requirements, specifications, terms, and conditions herein, and is installed to or uninstalled from the Representative Model by the Manufacturer, Port, and/or Dealer, as specified by the Manufacturer.

4.3.15 OEM Options MSRP Credit

A price of the OEM Option that will result in a negative number.

4.3.16 Eligible User

As defined in Rule 60A-1.005, Florida Administrative Code.

4.3.17 Other Eligible User

An "eligible user" as defined in Rule 60A-1.005, Florida Administrative Code that does not fit the definition of "Agency" under section 287.012(1), Florida Statutes.

4.3.18 Procurement Officer, Contract Manager, or Contract Administrator

The Buyer's contracting personnel, as identified in Section 1.6 or as amended by the Department.

4.3.19 Representative Model(s)

A Manufacturer's name, trade name, brand name, make name, model name, model number, catalog number, or other information listed by the Department herein, which, if properly equipped per the requirements, specifications, terms, and conditions, may meet or exceed the applicable requirements, specifications, terms, and conditions herein.

4.3.20 State

The State of Florida.

4.3.21 State Term Contract

A term contract that is competitively procured by the Department pursuant to section 287.057, Florida Statutes, and that is used by agencies and Other Eligible Users pursuant to section 287.056, Florida Statutes.

4.3.22 Vendor(s)

The entity that believes itself capable and is in the business of providing a Commodity and / or service similar to those within the solicitation, and may or may not respond to the solicitation.

4.4 Pricing

The Contractor shall adhere to the prices submitted in the completed Price Sheets, which are incorporated by reference into the Contract.

4.4.1 Ceiling Prices

The Representative Base Model Vehicle Price, individual OEM Options Net Price or OEM Options MSRP credit, and the Identified Aftermarket Option Price for each Representative Model described in the Price Sheets, will be the not-to-exceed Ceiling Price during the Contract period.

4.4.2 Charges and Fees

In addition to total profit, the Ceiling Prices established for the Base Vehicle Price, OEM Options Net Prices (after the OEM Option Discount is applied to the MSRP) or OEM Options MSRP Credits, and the Identified Aftermarket Option Prices bid are inclusive of all charges and fees, including the following:

4.4.2.1 Administrative

4.4.2.2 Environmental

4.4.2.3 Title Application and Registration

4.4.2.4 Plate Transfer

4.4.2.5 Preparation

4.4.2.6 Handling

4.4.2.7 Freight

4.4.2.8 Shipping

4.4.2.9 Delivery to any point within the State of Florida

4.4.2.10 Warranty

4.4.2.11 Any other charges or fees necessary to deliver the Representative Model according to the requirements, specifications, terms, and conditions, exclusive of taxes.

4.4.2.12 Installation (For Options).

4.4.3 The OEM Options Discount

The discount percentage, listed for the Representative Model's OEM Options, shall be the minimum discount percentage applied off the current MSRP (Price, not Credit) for OEM Options during the Contract period. If an OEM Option has a positive MSRP (e.g., \$1.00), then the OEM Option Discount (e.g., 10.00%) will provide a lower OEM Option Net Price for the individual OEM Option (e.g., \$1.00 MSRP – 10.00% OEM Options Discount = \$0.90 OEM Option Net Price); OEM Options Net Prices shall be rounded to the nearest whole cent; OEM Options MSRP Credits will be as stated in the MSRP list.

4.5 Sales Literature / Technical Information

During the Term of the Contract, the Contractor shall supply printed Sales Literature and Technical Information to Other Eligible Users upon request, unless the literature and information requested is available on the Contractor's or Manufacturer's web site. If the literature and information is available on the Contractor's web site, the Contractor shall direct the requesting Eligible User to its specific website location.

4.6 Routine Communications

All routine communications and reports related to this STC shall be addressed to the Department Contract Manager. Communications relating to a specific order should be addressed to the contact person identified in the purchase order below. Written communications may be by e-mail, regular mail, or other reliable delivery service.

4.7 Electronic Invoicing

The following provisions apply in addition to section 15, of the [PUR 1000](#). The Contractor shall supply electronic invoices in lieu of hard copy invoices for those transactions processed through

MFMP. Contractor agrees, upon Department's request, to establish electronic invoicing within 90 days of written request.

For the purposes of this section, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider of MFMP, a State Contractor, the right and license to use, reproduce, transmit, distribute, and publicly display within the system the information outlined above. In addition, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider the right and license to reproduce and display within the system the Contractor's trademarks, system marks, logos, trade dress, or other branding designation that identifies the products made available by the Contractor under the contract.

Electronic invoices shall be submitted to the Customer through the Ariba Network (AN) in one of the three mechanisms listed below.

4.7.1 cXML (commerce eXtensible Markup Language)

This standard establishes the data contents required for invoicing via cXML within the context of an electronic environment. This transaction set can be used for invoicing via the AN for catalog and non-catalog goods and services. The cXML format is the Ariba preferred method for electronic invoicing.

4.7.2 EDI (Electronic Data Interchange)

This standard establishes the data contents of the Invoice Transaction Set (810) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used for electronic invoicing via the AN for catalog and non-catalog goods and services.

4.7.3 PO Flip via AN

The online process that allows Contractors to submit invoices via the AN for catalog and non-catalog goods and services. Contractors have the ability to create an invoice directly from their Inbox within their AN account by simply "flipping" the PO into an invoice. This option does not require any special software or technical capabilities.

4.8 Return of Funds

The Contractor shall return to the Customer any overpayments made to the Contractor due to unearned funds or funds disallowed that were disbursed to the Contractor by the Customer and any interest attributable to such funds pursuant to the terms and conditions of this contract. In the event that the Contractor or its independent auditor discovers that an overpayment has been made, the Contractor shall repay the overpayment immediately without notification from the Customer. In the event that the Customer first discovers an overpayment has been made, the Customer will notify the Contractor in writing of such findings. Should repayment not be made within 30 days, the Contractor will be charged interest at the lawful rate of interest on the outstanding balance after Customer notification or Contractor discovery.

4.9 Financial Consequences for Nonperformance

The State reserves the right to withhold payment or implement other appropriate remedies, such as contract termination or nonrenewal, when the Contractor has failed to perform under or comply with the provisions of this contract. When or if the Contractor fails to perform under or comply with provisions of this contract, the Contractor has ten (10) calendar days from receipt of Complaint to Vendor Form to comply as instructed within the notice. An amount of \$500.00 may be assessed for each day the Contractor is delinquent after the ten (10) day notice period ends, and that amount may be withheld from a Contractor's invoice. The rights and remedies of the

State in this paragraph are not considered penalties and are in addition to any other rights and remedies provided by law. **(Reference section 4.26, Contract Reporting)**

4.10 Compliance with Laws, Rules, Codes, Ordinances, and Licensing Requirements

The Contractor shall comply with all laws, rules, codes, ordinances, and licensing requirements that are applicable to the conduct of its business, including those of Federal, State, and local agencies having jurisdiction and authority. For example, Chapter 287 F.S., and Rule Chapter 60A of the Florida Administrative Code govern the contract. The Contractor shall comply with Section 274A of the Immigration and Nationality Act, the Americans with Disabilities Act, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. Violation of any laws, rules, codes, ordinances, or licensing requirements shall be grounds for contract termination or nonrenewal of the contract.

4.11 Insurance Requirements

During the Contract term, the Contractor at its sole expense shall provide commercial insurance of such a type and with such terms and limits as may be reasonably associated with the Contract, which, as a minimum, shall be: workers' compensation and employer's liability insurance per Florida statutory limits, as legislatively amended, during the life of this contract, covering all employees engaged in any Contract work; commercial general liability coverage on an occurrence basis in the minimum amount of \$1,000,000 (defense cost shall be in excess of the limit of liability), naming the State insurance covering all Vehicles, owned or otherwise as an additional insured; and automobile liability, used in the Contract work, with minimum combined limits of \$1,000,000, including hired and non-owned liability, and \$10,000 medical payment. Providing and maintaining adequate insurance coverage is a material obligation of the Contractor and is of the essence of the Contract. Upon request, the Contractor shall provide certificate of insurance. The Contract shall not limit the types of insurance Contractor may desire to obtain or be required to obtain by law. The limits of coverage under each policy maintained by the Contractor shall not be interpreted as limiting the Contractor's liability and obligations under the Contract. All insurance policies shall be through insurers authorized to write policies in Florida.

4.12 Notice of Legal Actions

The Contractor shall notify the Department of any legal actions filed against it for a violation of any laws, rules, codes ordinances, or licensing requirements within 30 days of the action being filed. The Contractor shall notify the Department of any legal actions filed against it for a breach of a contract of similar size and scope to this contract within 30 days of the action being filed. Failure to notify the Department of a legal action within 30 days of the action shall be grounds for termination or nonrenewal of the contract.

4.13 Public Records

4.13.1 Access to Public Records

The Contractor shall allow public access to all documents, papers, letters, or other material made or received by the Contractor in conjunction with the Contract, unless the records are exempt from Article I, Section 24(a), Florida Constitution or section 119.07(1), F.S. The Department may unilaterally terminate the Contract if the Contractor refuses to allow public access as required in this section.

4.13.2 Redacted Copies of Confidential Information

If Contractor considers any portion of any documents, data, or records submitted to the Department to be confidential, proprietary, trade secret or otherwise not subject to disclosure

pursuant to Chapter 119, F.S., the Florida Constitution or other authority, Contractor must – upon request, provide the Department with a separate redacted copy of the information it claims as Confidential and briefly describe in writing the grounds for claiming exemption from the public records law, including the specific statutory citation for such exemption. This redacted copy shall contain the Contract name and number, and shall be clearly titled “Confidential.” The redacted copy should only redact those portions of material that the Contractor claims is confidential, proprietary, trade secret or otherwise not subject to disclosure.

4.13.3 Request for Redacted Information

In the event of a public records or other disclosure request pursuant to Chapter 119, F.S., the Florida Constitution or other authority, to which documents that are marked as “Confidential” are responsive, the Department will provide the Contractor-redacted copies to the requestor. If a requestor asserts a right to the Confidential Information, the Department will notify the Contractor such an assertion has been made. It is the Contractor’s responsibility to assert that the information in question is exempt from disclosure under Chapter 119, F.S., or other applicable law. If the Department becomes subject to a demand for discovery or disclosure of the Confidential Information of the Contractor under legal process, the Department shall give the Contractor prompt notice of the demand prior to releasing the information labeled “Confidential” (unless otherwise prohibited by applicable law). Contractor shall be responsible for defending its determination that the redacted portions of its response are confidential, proprietary, trade secret, or otherwise not subject to disclosure.

4.13.4 Indemnification for Redacted Information

Contractor shall protect, defend, and indemnify the Department for any and all claims arising from or relating to Contractor’s determination that the redacted portions of its response are confidential, proprietary, trade secret, or otherwise not subject to disclosure. If Contractor fails to submit a redacted copy of information it claims is Confidential, the Department is authorized to produce the entire documents, data, or records submitted to the Department in answer to a public records request or other lawful request for these records

4.13.5 Public Records Clause for Department Contracts

If, under this contract, the Contractor is providing services and is acting on behalf of the Department as provided under section 119.011(2), F.S., the Contractor, subject to the terms of section 287.058(1)(c), F.S., and any other applicable legal and equitable remedies, shall:

4.13.5.1 Keep and maintain Public Records that ordinarily and necessarily would be required by the Department in order to perform the service.

4.13.5.2 Provide the public with access to Public Records on the same terms and conditions that the Department would provide the records and at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

4.13.5.3 Ensure that Public Records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

4.13.5.4 Meet all requirements for retaining Public Records and transfer, at no cost, to the Department all public records in possession of the Contractor upon termination of the contract and destroy any duplicate Public Records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the Department in a format that is compatible with the information technology systems of the Department.

4.14 Cancellation

The Department may unilaterally cancel this Contract for refusal by the service provider to comply with this section by not allowing public access to all documents, papers, letters, or other material made or received by the Contractor in conjunction with the Contract, unless the records are exempt from Article 1, Section 24(a), Florida Constitution and Chapter 119.07(1), F.S.

4.15 Intellectual Property

The parties do not anticipate that any Intellectual Property will be developed as a result of this contract. However, any Intellectual Property developed as a result of this contract will belong to and be the sole property of the state. This provision will survive the termination or expiration of this contract.

4.16 Preferred Pricing Affidavit Requirement

The Department will provide the Preferred Pricing Affidavit, (Attachment D), for completion by an authorized representative of the Contractor attesting that the Contractor is in compliance with the preferred pricing provision in section 4(b) of the [PUR 1000](#) form. The Contractor agrees to submit to the Department, at least annually, the completed Preferred Pricing Affidavit.

4.17 Records Retention

The Contractor shall retain sufficient documentation to substantiate claims for payment under the Contract and all other records, electronic files, papers, and documents that were made in relation to this the Contract. Contractor shall retain all documents related to this Contract in compliance with the rules of the Florida Department of State.

4.18 Gifts

The Contractor agrees that it will not offer to give or give any gift to any State of Florida employee. This Contractor will ensure that its sub-contractors, if any, will comply with this provision.

4.19 Vendor Ombudsman

A Vendor Ombudsman, whose duties include acting as an advocate for Vendors who may be experiencing problems in obtaining timely payment(s) from a state agency, may be contacted at (850) 413-5516, or by calling the Department of Financial Services Consumer Hotline at 1-800-342-2762.

4.20 Monitoring by the Department

The Contractor shall permit all persons who are duly authorized by the Department to inspect and copy any records, papers, documents, facilities, goods, and services of the Contractor that are relevant to this Contract, and to interview clients, employees, and sub-contractor employees of the Contractor to assure the Department of satisfactory performance of the terms and conditions of this Contract. Following such review, the Department will deliver to the Contractor a written report of its finding, and may direct the development, by the Contractor, of a corrective action plan. This provision will not limit the Department's termination rights.

4.21 Mandatory Post Award Meeting

The Mandatory Post Award Meeting is a collaborative discussion between the Department's Contract Manager and the awarded Contractors with respect to Contractors' approach to fulfilling their contractual obligations with the Department's expectations for each Contractor. The goal is to verify complete understanding of the Contract requirements at the outset of the Contract and to ensure that the Contractors' report sales appropriately and that reports are submitted in a timely manner. The Mandatory Post Award Meeting may be held at the time and date stated Section 1.4, Timeline of Events. The Department reserves the right to reschedule the Mandatory Post Award Meeting if necessary, and will send a notice to the awarded Contractors' of the rescheduled date and time.

4.22 Scrutinized Company List

Contractor certifies that it is not listed on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to s. 215.473, F.S. Pursuant to section 287.135(5), F.S., Contractor agrees the Department may immediately terminate this contract for cause if the Contractor is found to have submitted a false certification or if Contractor is placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List during the term of the Contract.

4.23 Business Review Meetings

The Department reserves the right to schedule business review meetings as frequently as necessary. The Department will provide the format for the Contractor's agenda. Prior to the meeting, the Contractor shall submit the completed agenda to the Department for review and acceptance. The Contractor shall address the agenda items and any of the Department's additional concerns at the meeting. Failure to comply with this section may result in the Contract being found in default and termination of the Contract by the Department or nonrenewal of the Contract.

4.24 E-Verify

Pursuant to State of Florida Executive Order Number 11-116, Contractor is required to utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment of all new employees hired by the Contractor during the Contract term. Also, Contractor shall include in related subcontracts a requirement that sub-contractors performing work or providing services pursuant to the Contract utilize the E-Verify system to verify employment of all new employees hired by the sub-contractor during the Contract term.

4.25 MFMP Transaction Fee

The awarded Vendor(s) will be required to pay the required transaction fees as specified in section 14 of the PUR 1000, unless an exemption has been requested and approved prior to the award of the contract pursuant to rule 60A-1.032 of the Florida Administrative Code.

4.26 Contract Reporting

4.26.1 Motor Vehicle Contract Sales Reports (Contract Deliverable)

The Contractor agrees to submit a Motor Vehicle Sales Report (Attachment B) on a monthly basis to the DMS Contract Manager. Initiation and submission of the Motor Vehicle Sales Report is the responsibility of the Contractor without prompting or notification from the DMS Contract Manager. A monthly Motor Vehicle Sales Report is required even if Vendor has zero sales to report for that month.

Monthly Reporting periods should coincide with the contract term and should begin the month following contract execution. Reports are due ten (10) working days after the end of the reporting period. An amount of \$500.00 may be assessed for each day the Contractor is delinquent after the ten (10) day period. (**Reference section 4.9, Financial Consequences**)

Each monthly Motor Vehicle Sales Report shall include:

4.26.1.1 Contractor's Name and contact information

4.26.1.2 Detail of time period covered by the included data

4.26.1.3 Consistent Customer names: state agencies, as well as, OEU's.

4.26.1.4 Item(s) description

4.26.1.5 Total sales including base price and option(s) price

4.26.2 Transaction Fee Reports

The Contractor is required to submit monthly Transaction Fee Reports in electronic format. Reports are due ten (10) working days after the end of the reporting period. For information on how to submit Transaction Fee Reports online, please reference the detailed fee reporting instructions and Vendor training presentations available online at the Transaction Fee Reporting and Vendor Training subsections under Vendors on the MFMP website: [MFMP Transaction Fee and Reporting](#). Assistance is also available with the Transaction Fee Reporting System from the MFMP Customer Service Desk at the email address hyperlink: [MFMP Customer Service Desk Email](#), or telephone 866-FLA-EPRO (866-352-3776) between the hours of 8:00 AM to 5:30 PM Eastern Time.

4.26.3 Diversity Reporting

The State of Florida is committed to supporting its diverse business industry and population through ensuring participation by minority, women, and veteran owned business enterprises in the economic life of the State. The State of Florida Mentor Protégé Program connects minority-, women-, and veteran business enterprises with private corporations for business development mentoring. We strongly encourage firms doing business with the State of Florida to consider this initiative. For more information on the Mentor Protégé Program, please contact the Office of Supplier Diversity at (850) 487-0915 or email: osdhelp@dms.myflorida.com.

Upon request, the Contractor shall report to the Department, spend with certified and other minority business enterprises. These reports will include the period covered, the name, minority code and Federal Employer Identification Number of each minority Vendor utilized during the

period, commodities and services provided by the minority business enterprise, and the amount paid to each minority Vendor on behalf of each purchasing agency ordering under the terms of this Contract.

4.27 Contract Termination

The Department may terminate the Contract if the Contractor: 1.) fails to comply with all terms and conditions of this Contract; 2.) fails to produce each deliverable within the time specified by the Contract; or, 3.) fails to abide by any statutory, regulatory, or licensing requirement. Rule 60A-1.006(3), F.A.C., governs the procedure and consequences for default. The rights and remedies of the Department in this clause are in addition to any other rights and remedies provided by law or under the Contract. Upon receipt of notice of termination, the Contractor shall, unless the notice directs otherwise, immediately discontinue all activities authorized hereunder. The Contractor shall not be entitled to recover any cancellation charges or lost profits. (Reference section 4.9, Financial Consequences and section 3.14, Performance Bond)

4.28 Force Majeure

Except for the payment of money due, neither party shall be deemed in breach or default of this Contract in the event that either party fails to perform pursuant to the terms and conditions of the Contract and the failure is caused by, or is in connection with, force majeure. The party suspending performance shall give prompt notice to the other party and shall attempt to cure promptly the cause for such suspension. Upon cessation of the cause for suspension, performance shall resume (or commence) as soon as reasonably practicable, unless otherwise agreed to by the parties. Notwithstanding any other provision of this contract the parties agree that the settlement of strikes, lockouts or other industrial disturbances shall be entirely within the discretion of the particular party involved.

For purposes of this Contract, the term "force majeure" shall mean acts or events beyond the control of the parties, including, but not limited to, acts of God, strikes, lockouts, or other industrial disturbances, riots, epidemics, landslides, floods, fires, washouts, arrests and restraints, civil disturbances, explosions, breakage of or accidents to pipe lines, failure of equipment or, compliance with acts, orders, regulations or requests of any federal, state or local governmental authority, whether or not of the same class or kind, reasonably beyond the control of either party and which, by exercise of due diligence, such party is unable to overcome.

In the event a force majeure condition exists, or the potential exists for such condition, the Contractor shall inform the Department of the problem at the earliest practical time and present a plan for return to normal service.

4.29 Additional Provisions

The provisions of ss. 287.058(1)(a) and (b), F.S., are hereby incorporated by reference.

CITY OF PORT ORANGE PIGGYBACK AGREEMENT

This Piggyback Agreement is entered to this ____ day of _____, 20__, by and between the **CITY OF PORT ORANGE**, a Florida municipal whose principal address is 1000 City Center Circle, Port Orange, Florida 32129 (the "City") and **ALAN JAY CHEVROLET-CADILLAC, INC.** ("Contractor"), a Florida corporation whose principal address is 441 U.S. 27 North, Sebring, Florida 33872 (collectively "the Parties").

WHEREAS, on the 17th day of November, 2014, Contractor entered into Contract No. 25100000-15-1 with the State of Florida, Department of Management Services ("Department"), Division of State Purchasing ("Division"), an agency of the State of Florida, pursuant to Solicitation No. 01-25100000-V (the "State of Florida Agreement"); and

WHEREAS, the State of Florida Agreement provides for a term commencing on November 17, 2014 and continuing until November 17, 2015; and

WHEREAS, by entering into this Piggyback Agreement, Contractor agrees to honor the terms of the State of Florida Agreement for the acquisition of motor vehicles purchased by the City of Port Orange; and

WHEREAS, a copy of Solicitation No. 01-25100000-V and the State of Florida Agreement are available in the Office of the City Clerk, City Hall, 1000 City Center, Port Orange, Florida 32129; and

WHEREAS, the Port Orange City Council has determined that the execution of this Contract is beneficial to the citizens of the City of Port Orange.

For good and valuable consideration, conditions and promises, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Initial Term. This Contract shall be effective commencing on the last date this Contract is signed by the Parties, and continuing until November 17, 2015.

2. Contractor Obligation. Contractor agrees to sell motor vehicles to the City at the unit prices set forth in the State of Florida Agreement, except as modified herein and attached hereto as Exhibit "1". Contractor agrees that all pricing shall remain valid for the duration of this Agreement. Contractor shall not deliver goods or services without a written purchase order, signed by an authorized agent of the City of Port Orange. Contractor shall cause goods to be delivered to the City in the most expedient, cost effective manner. All items shall be shipped to the City of Port Orange designated facility identified in each purchase order, FOB Inside Delivery. Contractor shall bear the risk of loss for goods delivered under this Contract from the time of shipping to the City until delivered at the destination specified by the City for delivery.

3. Authorization for Services. This Contract standing alone does not authorize the purchase of any vehicle or require the City to place any orders for vehicles. Exhibit "1" attached hereto is for informational purposes only, and no order shall be commenced until issuance of a written Purchase Order from the City to the Contractor at the direction of the City Manager.

4. City Obligations. The City agrees to compensate Contractor at the unit prices set forth in the State of Florida in an amount subject to a limit up to but not to exceed One Hundred Ninety-Five Thousand Seventy-Five

and No/100 Dollars (\$195,075.00) during the term of this Contract. The City shall make payment on all invoices in accordance with the Local Government Prompt Payment Act as set forth in Sections 218.70 through 218.79, Florida Statutes, as amended.

5. Termination for Convenience of the City

(a) The parties agree that the City may terminate this Contract, or any work or delivery required hereunder, from time to time either in whole or part, whenever the City Manager of Port Orange shall determine that such termination is in the best interest of the City.

(b) Termination, in whole or in part, shall be effected by delivery of a Notice of Termination signed by the City Manager or his designee, mailed or delivered to the Contractor, and specifically setting forth the effective date of termination.

(c) Upon receipt of such Notice, the Contractor shall:

- (i) cease any further deliveries or work due under this Contract, on the date, and to the extent, which may be specified in the Notice;
- (ii) place no further orders with any subcontractors except as may be necessary to perform that portion of this Contract not subject to the Notice;
- (iii) terminate all subcontracts except those made with respect to contract performance not subject to the Notice;
- (iv) settle all outstanding liabilities and claims which may arise out of such termination, with the ratification of the Finance Director of Port Orange; and
- (v) use best efforts to mitigate any damages which may be sustained by the Contractor as a consequence of termination under this clause.

(d) After complying with the provisions of subparagraph (c), above, the Contractor shall submit a termination claim, in no event later than six (6) months after the effective date of termination, unless one or more extensions of three (3) months each are granted by the Finance Director.

(e) The Finance Director, with the approval of the City Manager, shall pay from the using department's budget, reasonable costs of termination, including a reasonable amount for profit on supplies or services delivered or work completed. In no event shall this amount be greater than the original contract price, reduced by any payments made prior to Notice of Termination, and further reduced by the price of the supplies not delivered or the services not provided. This Contract shall be amended accordingly, and the Contractor shall be paid the agreed amount.

(f) In the event that the parties cannot agree on the whole amount to be paid to the Contractor by reason of termination under this clause, the Finance Director shall pay the Contractor the amounts determined as follows, without duplicating any amounts which may have already been paid under the preceding paragraph of this clause:

- (i) With respect to all Contract performance prior to the effective date of Notice of Termination, the total of:
 - (1) the cost of work performed or supplies delivered;
 - (2) the cost of settling and paying any reasonable claims as provided in paragraph (c) (iv), above;

(3) a sum as profit on (a) determined by the Finance Director to be fair and reasonable.

(ii) The total sum to be paid under (i) above shall not exceed the contract price, as further reduced by the contract price of work or supplies not terminated.

(g) In the event that the Contractor is not satisfied with any payments which the Finance Director shall determine to be due under this clause, the Contractor may appeal any claim to the City Council in accordance with Paragraph 20 of this contract concerning disputes.

6. Termination for Convenience for Subcontractors. In accordance with the termination for the convenience of the City provision of this contract, the Contractor shall include similar provisions in any subcontract, and shall specifically include a requirement that subcontractors make all reasonable efforts to mitigate damages which may be suffered. Failure to include such provisions shall bar the Contractor from any recovery from the City whatsoever of loss or damage sustained by a subcontractor as a consequence of termination for convenience.

7. Termination for Default. Either party may terminate this Contract, without further obligation, for the default of the other party or its agents or employees with respect to any agreement or provision contained herein.

8. Examination of Records

(a) The Contractor agrees that the City, or any duly authorized representative, shall, until the expiration of five (5) years after final payment hereunder, have access to and the right to examine and copy any pertinent books, documents, papers and records of the Contractor involving transactions related to this Contract.

(b) The Contractor further agrees to include in any subcontract for more than \$10,000 entered into as a result of this Contract, a provision to the effect that the subcontractor agrees that the City or any duly authorized representative shall, until the expiration of five (5) years after final payment under the subcontract, have access to and the right to examine and copy any pertinent books, documents, papers and records of such contractor involved in transactions related to such subcontract, or this Contract. The term subcontract as used herein shall exclude purchase orders for public utility services at rates established for uniform applicability to the general public.

(c) The period of access provided in subparagraphs (a) and (b) above for records, books, documents and papers which may relate to any arbitration, litigation, or the settlement of claims arising out of the performance of this contract or any subcontract shall continue until any appeals, arbitration, litigation or claims shall have been finally disposed of.

9. Public Records Compliance. Contractor shall comply with public records laws as set forth in Chapter 119, Florida Statutes, and shall specifically:

(a) Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the service.

(b) Provide the public with access to public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed the cost provided in Section 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Meet all requirements for retaining public records and transfer to the City, at no cost, all public records in possession of the Contractor upon termination of the Contract and destroy any duplicate public

records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the City.

If Contractor does not comply with a public records request, the City shall enforce the contract provisions in accordance with the contract.

10. Termination for Non-Appropriation of Funds

(a) If funds are not appropriated for any succeeding fiscal years subsequent to the one in which this contract is entered into, for the purpose of this Contract, then the City may terminate this Contract upon thirty (30) days prior written notice to the Contractor. Should termination be accomplished in accordance with this Section, the City shall be liable only for payments due through the date of termination.

(b) The City agrees that should it terminate in accordance with this Section, it shall not obtain services which are substantially equal to or similar to those for which this contract was entered into. This provision shall survive any termination of the Contract.

11. Insurance. Contractor shall maintain insurance during the life of this Contract. Contractor shall provide to the City a certificate of insurance identifying the City of Port Orange as an additional insured. For workers' compensation coverage, the bidder's insurance certificate shall include the insurer's waiver of subrogation in lieu of naming the city as an additional insured for workers' compensation.

Policies other than Workers' Compensation shall be issued by insurers licensed and/or duly authorized under Florida Law to do business in the State of Florida and all insuring companies are required to have a minimum rating of "A" in the "Best Key Rating Guide" published by A.M. Best & Company, Inc. Policies for Workers' Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.572. Contractor shall not commence work under this Agreement until the City has received a certificate or certificates of insurance and endorsement evidencing the required insurance. Contractor shall provide the City written notice of cancellation, nonrenewal or any other changes in coverage no later than ten (10) days prior to the effective date of the change.

The City reserves the right to increase insurance coverage as determined for higher risk contracts and shall reimburse the Contractor for the reasonable additional costs of increased coverage.

Insurance	Standards	Comments
Workers' Compensation <u>Limits:</u> <u>Additional Coverage:</u>	Coverage A - Statutory Coverage B - \$100,000 All States (Broad Form) Voluntary Compensation	If the contract requires work on or about navigable waters, require Longshoreman's and Harbor Workers' Coverage. If vessels involved, require Jones Act coverage with limits of \$500,000.

Comprehensive Business, Automobile Liability to include all automobiles.	<u>Limits:</u>	Auto Liability Body Injury: \$100,000 each person \$300,000 each occurrence. Property Damage Liability \$100,000 each occurrence.	Or \$500,000 Combined Single Limit for Bodily Injury and Property Damage
<u>Additional Coverage:</u>		Non-Owned, Hired Car	
Property Insurance — Builders Risk.	<u>Limits:</u>	Buildings — Completed value of contract.	If the Contract requires handling or installation of Owner's equipment, coverage should be furnished on "All Risk" form, including transit and Owner shall be named.
<u>Additional Coverage:</u>		"All Risk" coverage on latest ISO form or its equivalent. Permission granted to occupy. Owner named as insured AIMA	
Professional Liability (Errors & Omissions)	<u>Limits:</u>	Coverage — \$1,000,000 minimum	

12. A Contract for the purchase of supplies shall be governed by the City of Port Orange Code of Ordinances, as amended, and such supplies shall be deemed "goods," as defined therein.

13. Assignability of Contract. Neither this contract, nor any part hereof, may be assigned by the Contractor to any other party without the express written approval of the City Council.

14. Modifications or Changes to this Contract

(a) Change Orders. The Department Head, with the concurrence of the City's signatory as required by the City's Purchasing Policy, shall without notice to any sureties, have the authority to order changes in this Contract which affect the cost or time of performance. Such changes shall be ordered in writing specifically designated to be a change order. Such orders shall be limited to reasonable changes in the services to be performed or the time of the performance. The City will not be held liable for any changes which have not been properly authorized and approved in accordance with this Contract.

(b) If any change under this clause causes an increase or decrease in Contractor's cost of, or time required for the performance of the work hereunder, Contractor shall receive an equitable adjustment in accordance with subparagraph (d), which shall include all compensation to the Contractor, or the City, of any kind in connection with such change, including all costs and damages related to or incidental to such change. Contractor need not perform any work described in any change order unless it has received a certification from the City that there are funds budgeted and appropriated sufficient to cover the cost of such changes.

(c) Contractor need not perform any work described in any change order unless it has received a certification from the City that there are funds budgeted and appropriated sufficient to cover the cost of such changes.

(d) No claim for changes ordered hereunder shall be considered if made after final payment in accordance with the Contract.

15. Sovereign Immunity. The City expressly retains all rights, benefits and immunities of sovereign immunity in accordance with Section 768.28, Florida Statutes. Notwithstanding anything set forth in any section of

this Contract to the contrary, nothing in this Contract shall be deemed as a waiver of immunity or limits of liability of the City beyond any statutory limited waiver of immunity or limits of liability which may have been adopted by the Florida Legislature or may be adopted by the Florida Legislature and the cap on the amount and liability of the City for damages regardless of the number or nature of claims in tort or equity shall not exceed the dollar amount set by the legislature for tort. Nothing in this Contract shall inure to the benefit of any third party for the purpose of allowing any claim against the City which would otherwise be barred under the Doctrine of Sovereign Immunity or operation of law.

16. Warranties. Contractor warrants that (1) the supplies to be provided to the City pursuant to this Contract are fit and sufficient for the purpose intended; (2) the supplies are merchantable, of good quality, and free from defects, whether patent or latent, in material or workmanship, and (3) the supplies sold to the City pursuant to this Contract conform to the standards required by this Contract.

Contractor further warrants that Contractor has title to the supplies provided, and that the supplies are free and clear of all liens encumbrances, and security interests. All warranties made in this Contract, together with service warranties and guarantees, shall run to the City and its successors and assigns.

17. Additional Warranties. Contractor further expressly warrants that materials and workmanship are warranted from defect for a one-year period. This is a minimum acceptable warranty.

18. Inspection

(a) All supplies (which term throughout this clause includes without limitation raw materials, components, intermediate assemblies, and their products) shall be subject to inspection and test by the City, to the extent practicable at all times and places including the place of manufacturer, and in any event prior to acceptance.

(b) In the event any supplies or lots of supplies are defective in material or workmanship, or otherwise not in conformity with the requirements of this Contract, the City shall have the right either to reject them (with or without instructions as to their disposition) or to require their correction. Supplies or lots of supplies which have been rejected or required to be corrected shall be removed or, if permitted or required by the Finance Director, corrected in place by and at the expense of Contractor promptly after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirement of correction is disclosed. If Contractor fails promptly to remove such supplies or lots of supplies which are required to be removed or promptly to replace or correct such supplies or lots of supplies, the City may either (i) by contract or otherwise replace or correct such supplies and charge Contractor the cost for such replacement or correction; or (ii) may terminate this Contract for default as provided in the clause of this Contract entitled "Termination for Default." Unless Contractor corrects or replaces such supplies within the delivery schedule, the Finance Director may require the delivery of such supplies at a reduction in price, which is equitable under the circumstances. Acceptance or rejection of the supplies shall be made as promptly as practicable after delivery, except as otherwise provided in this Contract. Failure to inspect and accept or reject supplies shall neither relieve Contractor from responsibility for such supplies as are not in accordance with the Contract requirements nor impose liability on the City therefor.

(c) The inspection and test by the City of any supplies or lots thereof does not relieve Contractor from any responsibility regarding defects or other failures to meet the Contract requirements, which may be discovered prior to acceptance. Except as otherwise provided in this Contract, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

19. Contract Administration. The Public Works Director shall perform contract administration of this Contract. For notice provisions, see the paragraph below entitled "Notice."

20. Liability for Loss or Damage. Contractor shall be liable for any loss of, or damage to, City property caused by the negligence, recklessness, or intended wrongful misconduct of Contractor, his/its agents, servants and employees and shall indemnify and save the City harmless against all actions, proceedings, claims, demands, costs, damages and expenses, including attorney's fees, by reason of any suit or action brought for any actual or alleged injury to or death of any person or damage to property other than City property, resulting from the performance of the Contract by Contractor, his/its agents, servants and employees. Contractor shall submit a full written report to the Finance Director within twenty-four (24) hours following the occurrence of such damage, loss or injury.

21. Non-discrimination. During the performance of this Contract, Contractor agrees as follows:

(a) Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, disability, marital status, age or national origin, except where such is a bona-fide occupational qualification reasonably necessary to the normal operation of Contractor. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause. Contractor agrees and fully supports and complies with the Americans with Disabilities Act of 1990.

(b) Contractor shall state in all solicitations or advertisements for employees placed by or on behalf of Contractor that Contractor is an equal opportunity employer.

(c) Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient compliance with this provision. Contractor shall include the provisions of the foregoing subparagraphs (a), (b), and (c) in every subcontract or purchase order of over \$10,000 so that the provisions will be binding upon each subcontractor or vendor.

22. Disputes. The Finance Director, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to Contractor, shall decide disputes with respect to this Contract in the first instance. The decision shall be final and binding unless, within thirty-(30) days from the date of such decision, Contractor mails or otherwise furnishes to the Finance Director a written appeal addressed to the City Manager. The decision by the City Manager shall be final and binding unless, within ten (10) days from the date of receipt of the decision of the City Manager, appeal is made to the City Council. The decision of the City Council shall be final and binding unless set aside by a court of competent jurisdiction as fraudulent, capricious, arbitrary, or so grossly erroneous as necessary to imply bad faith, or not to be supported by any evidence. Pending a final determination of a properly appealed decision of the Finance Director, Contractor shall proceed diligently with the performance of this Contract in accordance with that decision.

23. Force Majeure. Neither party shall be liable for any delay in performance or failure to perform any obligation hereunder if, and to the extent that, such failure or delay is caused by an event of Force Majeure. Force Majeure shall mean any act, event or condition that is beyond the party's reasonable control, that materially and adversely affects the party's ability to perform its obligations hereunder, and that is not the result of the party's willful neglect, error, omission or failure to exercise reasonable due diligence.

24. Controlling Law. **THIS CONTRACT CONTAINS IMPORTANT MATTERS AFFECTING LEGAL RIGHTS AND IS ACCEPTED AND ENTERED INTO IN FLORIDA AND ANY QUESTION REGARDING ITS VALIDITY, CONSTRUCTION, ENFORCEMENT, OR PERFORMANCE SHALL BE GOVERNED BY FLORIDA LAW. ANY LEGAL PROCEEDING ARISING FROM OR IN ANY WAY REGARDING THE AGREEMENT SHALL HAVE ITS VENUE LOCATED EXCLUSIVELY IN THE CIRCUIT COURT OF VOLUSIA COUNTY, FLORIDA, AND THE PARTIES HEREBY EXPRESSLY CONSENT AND SUBMIT THEMSELVES TO THE PERSONAL JURISDICTION AND VENUE OF THE COURT.**

25. Additional Provisions

(a) As may have been outlined in State of Florida Agreement and any attachments or exhibits to this Contract whether delivered herewith or subsequently approved as a part hereof, such as drawings or technical specifications prepared in the performance of this work.

(b) For the purposes of this Contract, any reference in the State of Florida Agreement to "Department," or "Division," or "State of Florida" or "State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), an agency of the State of Florida" shall be construed to mean the "City of Port Orange."

(c) In the event of a conflict between the State of Florida Agreement and this Contract, this Contract with the City of Port Orange shall control.

26. Integration. This Contract and the documents incorporated herein by reference shall constitute the whole agreement between the parties. There are no promises, terms, conditions, or obligations other than those contained herein, and this Contract shall supersede all previous communications, representations, or agreements, written or verbal, between the parties hereto.

27. Notice. For purposes of this agreement, notices shall be sent as follows:

City: City of Port Orange
Attention: City Manager
1000 City Center Circle
Port Orange, Florida 32129
(386) 506-5501

Copy to: City of Port Orange

(863) 381-3411 – Mobile
(863) 402-4221 – Facsimile
chris.wilson@alanjay.com

Any notice or other communication given under the Contract will be in writing and delivered by hand, sent by facsimile (provided acknowledgement of receipt thereof is delivered to the sender), sent by certified, registered mail, or sent by any nationally recognized overnight courier service to the addresses provided herein. The parties may, from time to time and at any time, change their respective addresses and each will have the right to specify as its address any other address by at least 10 days written notice to the other party.

28. Contract Construction. This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original but all of which together shall constitute one and the same instrument. The delivery by facsimile or e-mail of an executed copy of this Agreement shall be deemed valid as if an original

signature was delivered. No contract shall be formed between Contractor and the City until the City signs this Agreement.

29. Authority to Sign. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

CITY OF PORT ORANGE PIGGYBACK AGREEMENT

This Piggyback Agreement is entered to this ____ day of _____, 20__, by and between the **CITY OF PORT ORANGE**, a Florida municipal whose principal address is 1000 City Center Circle, Port Orange, Florida 32129 (the "City") and **ALAN JAY FORD LINCOLN MERCURY, INC.** ("Contractor"), a Florida corporation whose principal address is 3201 U.S. 27 South, Sebring, Florida 33870 (collectively "the Parties").

WHEREAS, on the 17th day of November, 2014, Contractor entered into Contract No. 25100000-15-1 with the State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), an agency of the State of Florida, pursuant to Solicitation No. 01-25100000-V (the "State of Florida Agreement"); and

WHEREAS, the State of Florida Agreement provides for a term commencing on November 17, 2014 and continuing until November 17, 2015; and

WHEREAS, on the 1st day of October, 2014, Contractor entered into Contract with the Florida Sheriff's Association, pursuant to Bid No. 14-22-0904 (the "FSA Agreement"); and

WHEREAS, the FSA Agreement provides for a term commencing on October 1, 2014 and continuing through September 30, 2015, as long as vehicles are available through fleet; and

WHEREAS, by entering into this Piggyback Agreement, Contractor agrees to honor the terms of the State of Florida Agreement and the FSA Agreement for the acquisition of motor vehicles which includes police rated, administrative, motorcycles, utility vehicles, trucks and vans purchased by the City of Port Orange; and

WHEREAS, a copy of Solicitation No. 01-25100000-V, the State of Florida Agreement, Bid No. 14-22-0904 and the FSA Agreement are available in the Office of the City Clerk, City Hall, 1000 City Center, Port Orange, Florida 32129; and

WHEREAS, the Port Orange City Council has determined that the execution of this Contract is beneficial to the citizens of the City of Port Orange.

For good and valuable consideration, conditions and promises, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Initial Term. This Contract shall be effective commencing on the date of execution by the Parties.
2. Contractor Obligation. Contractor agrees to sell motor vehicles to the City at the unit prices set forth in the State of Florida Agreement, except as modified herein and attached hereto as Exhibit "1". Contractor agrees that all pricing shall remain valid for the duration of this Agreement. Contractor shall not deliver goods or services without a written purchase order, signed by an authorized agent of the City of Port Orange. Contractor shall cause goods to be delivered to the City in the most expedient, cost effective manner. All items shall be shipped to the City of Port Orange designated facility identified in each purchase order, FOB Inside Delivery. Contractor shall bear the risk of loss for goods delivered under this Contract from the time of shipping to the City until delivered at the destination specified by the City for delivery.

3. Authorization for Services. This Contract standing alone does not authorize the purchase of any vehicle or require the City to place any orders for vehicles. Exhibit "1" attached hereto is for informational purposes only, and no order shall be commenced until issuance of a written Purchase Order from the City to the Contractor at the direction of the City Manager.

4. City Obligations. The City agrees to compensate Contractor at the unit prices set forth in the State of Florida in an amount subject to a limit up to but not to exceed Three Hundred Forty-Seven Thousand One Hundred Twenty-Seven and 50/100 Dollars (\$347,127.50) during the term of this Contract. The City shall make payment on all invoices in accordance with the Local Government Prompt Payment Act as set forth in Sections 218.70 through 218.79, Florida Statutes, as amended.

5. Termination for Convenience of the City

(a) The parties agree that the City may terminate this Contract, or any work or delivery required hereunder, from time to time either in whole or part, whenever the City Manager of Port Orange shall determine that such termination is in the best interest of the City.

(b) Termination, in whole or in part, shall be effected by delivery of a Notice of Termination signed by the City Manager or his designee, mailed or delivered to the Contractor, and specifically setting forth the effective date of termination.

(c) Upon receipt of such Notice, the Contractor shall:

- (i) cease any further deliveries or work due under this Contract, on the date, and to the extent, which may be specified in the Notice;
- (ii) place no further orders with any subcontractors except as may be necessary to perform that portion of this Contract not subject to the Notice;
- (iii) terminate all subcontracts except those made with respect to contract performance not subject to the Notice;
- (iv) settle all outstanding liabilities and claims which may arise out of such termination, with the ratification of the Finance Director of Port Orange; and
- (v) use best efforts to mitigate any damages which may be sustained by the Contractor as a consequence of termination under this clause.

(d) After complying with the provisions of subparagraph (c), above, the Contractor shall submit a termination claim, in no event later than six (6) months after the effective date of termination, unless one or more extensions of three (3) months each are granted by the Finance Director.

(e) The Finance Director, with the approval of the City Manager, shall pay from the using department's budget, reasonable costs of termination, including a reasonable amount for profit on supplies or services delivered or work completed. In no event shall this amount be greater than the original contract price, reduced by any payments made prior to Notice of Termination, and further reduced by the price of the supplies not delivered or the services not provided. This Contract shall be amended accordingly, and the Contractor shall be paid the agreed amount.

(f) In the event that the parties cannot agree on the whole amount to be paid to the Contractor by reason of termination under this clause, the Finance Director shall pay the Contractor the amounts determined as follows, without duplicating any amounts which may have already been paid under the preceding paragraph of this clause:

- (i) With respect to all Contract performance prior to the effective date of Notice of Termination, the total of:
 - (1) the cost of work performed or supplies delivered;
 - (2) the cost of settling and paying any reasonable claims as provided in paragraph (c) (iv), above;
 - (3) a sum as profit on (a) determined by the Finance Director to be fair and reasonable.
- (ii) The total sum to be paid under (i) above shall not exceed the contract price, as further reduced by the contract price of work or supplies not terminated.

(g) In the event that the Contractor is not satisfied with any payments which the Finance Director shall determine to be due under this clause, the Contractor may appeal any claim to the City Council in accordance with Paragraph 20 of this contract concerning disputes.

6. Termination for Convenience for Subcontractors. In accordance with the termination for the convenience of the City provision of this contract, the Contractor shall include similar provisions in any subcontract, and shall specifically include a requirement that subcontractors make all reasonable efforts to mitigate damages which may be suffered. Failure to include such provisions shall bar the Contractor from any recovery from the City whatsoever of loss or damage sustained by a subcontractor as a consequence of termination for convenience.

7. Termination for Default. Either party may terminate this Contract, without further obligation, for the default of the other party or its agents or employees with respect to any agreement or provision contained herein.

8. Examination of Records

(a) The Contractor agrees that the City, or any duly authorized representative, shall, until the expiration of five (5) years after final payment hereunder, have access to and the right to examine and copy any pertinent books, documents, papers and records of the Contractor involving transactions related to this Contract.

(b) The Contractor further agrees to include in any subcontract for more than \$10,000 entered into as a result of this Contract, a provision to the effect that the subcontractor agrees that the City or any duly authorized representative shall, until the expiration of five (5) years after final payment under the subcontract, have access to and the right to examine and copy any pertinent books, documents, papers and records of such contractor involved in transactions related to such subcontract, or this Contract. The term subcontract as used herein shall exclude purchase orders for public utility services at rates established for uniform applicability to the general public.

(c) The period of access provided in subparagraphs (a) and (b) above for records, books, documents and papers which may relate to any arbitration, litigation, or the settlement of claims arising out of the performance of this contract or any subcontract shall continue until any appeals, arbitration, litigation or claims shall have been finally disposed of.

9. Public Records Compliance. Contractor shall comply with public records laws as set forth in Chapter 119, Florida Statutes, and shall specifically:

(a) Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the service.

(b) Provide the public with access to public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed the cost provided in Section 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Meet all requirements for retaining public records and transfer to the City, at no cost, all public records in possession of the Contractor upon termination of the Contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the City.

If Contractor does not comply with a public records request, the City shall enforce the contract provisions in accordance with the contract.

10. Termination for Non-Appropriation of Funds

(a) If funds are not appropriated for any succeeding fiscal years subsequent to the one in which this contract is entered into, for the purpose of this Contract, then the City may terminate this Contract upon thirty (30) days prior written notice to the Contractor. Should termination be accomplished in accordance with this Section, the City shall be liable only for payments due through the date of termination.

(b) The City agrees that should it terminate in accordance with this Section, it shall not obtain services which are substantially equal to or similar to those for which this contract was entered into. This provision shall survive any termination of the Contract.

11. Insurance. Contractor shall maintain insurance during the life of this Contract. Contractor shall provide to the City a certificate of insurance identifying the City of Port Orange as an additional insured. For workers' compensation coverage, the bidder's insurance certificate shall include the insurer's waiver of subrogation in lieu of naming the city as an additional insured for workers' compensation.

Policies other than Workers' Compensation shall be issued by insurers licensed and/or duly authorized under Florida Law to do business in the State of Florida and all insuring companies are required to have a minimum rating of "A" in the "Best Key Rating Guide" published by A.M. Best & Company, Inc. Policies for Workers' Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.572. Contractor shall not commence work under this Agreement until the City has received a certificate or certificates of insurance and endorsement evidencing the required insurance. Contractor shall provide the City written notice of cancellation, nonrenewal or any other changes in coverage no later than ten (10) days prior to the effective date of the change.

The City reserves the right to increase insurance coverage as determined for higher risk contracts and shall reimburse the Contractor for the reasonable additional costs of increased coverage.

Insurance	Standards	Comments
Workers' Compensation <u>Limits:</u> <u>Additional Coverage:</u>	Coverage A - Statutory Coverage B - \$100,000 All States (Broad Form) Voluntary Compensation	If the contract requires work on or about navigable waters, require Longshoreman's and Harbor Workers' Coverage. If vessels involved, require Jones Act coverage with limits of \$500,000.
Comprehensive General Liability (including Completed Operations and Contractual Liability) <u>Limits:</u>	Combined Single Limit Bodily Injury and Property damage \$500,000 occurrence \$1,000,000 Aggregate	When the Contract work on or under Railroad rights of way or properties, the Contractor shall take out and maintain during the life of the Contract, Railroad protective liability and property damage insurance in amounts as requested by the Railroad.
Comprehensive Business, Automobile Liability to include all automobiles. <u>Limits:</u> <u>Additional Coverage:</u>	Auto Liability Bodily Injury: \$100,000 each person \$300,000 each occurrence. Property Damage Liability \$100,000 each occurrence. Non-Owned, Hired Car	Or \$500,000 Combined Single Limit for Bodily Injury and Property Damage
Property Insurance — Limits: Builders Risk. Additional Coverage:	Buildings — Completed value of contract. "All Risk" coverage on latest ISO form or its equivalent. Permission granted to occupy. Owner named as insured AIMA	If the Contract requires handling or installation of Owner's equipment, coverage should be furnished on "All Risk" form, including transit and Owner shall be named.
Professional Liability — Limits: (Errors & Omissions)	Coverage — \$1,000,000 minimum	

12. A Contract for the purchase of supplies shall be governed by the City of Port Orange Code of Ordinances, as amended, and such supplies shall be deemed "goods," as defined therein.

13. Assignability of Contract. Neither this contract, nor any part hereof, may be assigned by the Contractor to any other party without the express written approval of the City Council.

14. Modifications or Changes to this Contract

(a) Change Orders. The Department Head, with the concurrence of the City's signatory as required by the City's Purchasing Policy, shall without notice to any sureties, have the authority to order changes in this Contract which affect the cost or time of performance. Such changes shall be ordered in writing specifically designated to be a change order. Such orders shall be limited to reasonable changes in the services to be

performed or the time of the performance. The City will not be held liable for any changes which have not been properly authorized and approved in accordance with this Contract.

(b) If any change under this clause causes an increase or decrease in Contractor's cost of, or time required for the performance of the work hereunder, Contractor shall receive an equitable adjustment in accordance with subparagraph (d), which shall include all compensation to the Contractor, or the City, of any kind in connection with such change, including all costs and damages related to or incidental to such change. Contractor need not perform any work described in any change order unless it has received a certification from the City that there are funds budgeted and appropriated sufficient to cover the cost of such changes.

(c) Contractor need not perform any work described in any change order unless it has received a certification from the City that there are funds budgeted and appropriated sufficient to cover the cost of such changes.

(d) No claim for changes ordered hereunder shall be considered if made after final payment in accordance with the Contract.

15. Sovereign Immunity. The City expressly retains all rights, benefits and immunities of sovereign immunity in accordance with Section 768.28, Florida Statutes. Notwithstanding anything set forth in any section of this Contract to the contrary, nothing in this Contract shall be deemed as a waiver of immunity or limits of liability of the City beyond any statutory limited waiver of immunity or limits of liability which may have been adopted by the Florida Legislature or may be adopted by the Florida Legislature and the cap on the amount and liability of the City for damages regardless of the number or nature of claims in tort or equity shall not exceed the dollar amount set by the legislature for tort. Nothing in this Contract shall inure to the benefit of any third party for the purpose of allowing any claim against the City which would otherwise be barred under the Doctrine of Sovereign Immunity or operation of law.

16. Warranties. Contractor warrants that (1) the supplies to be provided to the City pursuant to this Contract are fit and sufficient for the purpose intended; (2) the supplies are merchantable, of good quality, and free from defects, whether patent or latent, in material or workmanship, and (3) the supplies sold to the City pursuant to this Contract conform to the standards required by this Contract.

Contractor further warrants that Contractor has title to the supplies provided, and that the supplies are free and clear of all liens encumbrances, and security interests. All warranties made in this Contract, together with service warranties and guarantees, shall run to the City and its successors and assigns.

17. Additional Warranties. Contractor further expressly warrants that materials and workmanship are warranted from defect for a one-year period. This is a minimum acceptable warranty.

18. Inspection

(a) All supplies (which term throughout this clause includes without limitation raw materials, components, intermediate assemblies, and their products) shall be subject to inspection and test by the City, to the extent practicable at all times and places including the place of manufacturer, and in any event prior to acceptance.

(b) In the event any supplies or lots of supplies are defective in material or workmanship, or otherwise not in conformity with the requirements of this Contract, the City shall have the right either to reject them (with or without instructions as to their disposition) or to require their correction. Supplies or lots of supplies which have been rejected or required to be corrected shall be removed or, if permitted or required by the Finance Director, corrected in place by and at the expense of Contractor promptly after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirement of correction is disclosed. If Contractor fails promptly to remove such supplies or lots of supplies which are required to be removed or promptly to replace or correct such

supplies or lots of supplies, the City may either (i) by contract or otherwise replace or correct such supplies and charge Contractor the cost for such replacement or correction; or (ii) may terminate this Contract for default as provided in the clause of this Contract entitled "Termination for Default." Unless Contractor corrects or replaces such supplies within the delivery schedule, the Finance Director may require the delivery of such supplies at a reduction in price, which is equitable under the circumstances. Acceptance or rejection of the supplies shall be made as promptly as practicable after delivery, except as otherwise provided in this Contract. Failure to inspect and accept or reject supplies shall neither relieve Contractor from responsibility for such supplies as are not in accordance with the Contract requirements nor impose liability on the City therefor.

(c) The inspection and test by the City of any supplies or lots thereof does not relieve Contractor from any responsibility regarding defects or other failures to meet the Contract requirements, which may be discovered prior to acceptance. Except as otherwise provided in this Contract, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

19. Contract Administration. The Public Works Director shall perform contract administration of this Contract. For notice provisions, see the paragraph below entitled "Notice."

20. Liability for Loss or Damage. Contractor shall be liable for any loss of, or damage to, City property caused by the negligence, recklessness, or intended wrongful misconduct of Contractor, his/its agents, servants and employees and shall indemnify and save the City harmless against all actions, proceedings, claims, demands, costs, damages and expenses, including attorney's fees, by reason of any suit or action brought for any actual or alleged injury to or death of any person or damage to property other than City property, resulting from the performance of the Contract by Contractor, his/its agents, servants and employees. Contractor shall submit a full written report to the Finance Director within twenty-four (24) hours following the occurrence of such damage, loss or injury.

21. Non-discrimination. During the performance of this Contract, Contractor agrees as follows:

(a) Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, disability, marital status, age or national origin, except where such is a bona-fide occupational qualification reasonably necessary to the normal operation of Contractor. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause. Contractor agrees and fully supports and complies with the Americans with Disabilities Act of 1990.

(b) Contractor shall state in all solicitations or advertisements for employees placed by or on behalf of Contractor that Contractor is an equal opportunity employer.

(c) Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient compliance with this provision. Contractor shall include the provisions of the foregoing subparagraphs (a), (b), and (c) in every subcontract or purchase order of over \$10,000 so that the provisions will be binding upon each subcontractor or vendor.

22. Disputes. The Finance Director, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to Contractor, shall decide disputes with respect to this Contract in the first instance. The decision shall be final and binding unless, within thirty-(30) days from the date of such decision, Contractor mails or otherwise furnishes to the Finance Director a written appeal addressed to the City Manager. The decision by the City Manager shall be final and binding unless, within ten (10) days from the date of receipt of the decision of the City Manager, appeal is made to the City Council. The decision of the City Council shall be final and binding unless set aside by a court of competent jurisdiction as fraudulent, capricious, arbitrary, or so grossly erroneous as necessary to imply bad faith, or not to be supported by any evidence. Pending a final determination of a properly

appealed decision of the Finance Director, Contractor shall proceed diligently with the performance of this Contract in accordance with that decision.

23. Force Majeure. Neither party shall be liable for any delay in performance or failure to perform any obligation hereunder if, and to the extent that, such failure or delay is caused by an event of Force Majeure. Force Majeure shall mean any act, event or condition that is beyond the party's reasonable control, that materially and adversely affects the party's ability to perform its obligations hereunder, and that is not the result of the party's willful neglect, error, omission or failure to exercise reasonable due diligence.

24. Controlling Law. **THIS CONTRACT CONTAINS IMPORTANT MATTERS AFFECTING LEGAL RIGHTS AND IS ACCEPTED AND ENTERED INTO IN FLORIDA AND ANY QUESTION REGARDING ITS VALIDITY, CONSTRUCTION, ENFORCEMENT, OR PERFORMANCE SHALL BE GOVERNED BY FLORIDA LAW. ANY LEGAL PROCEEDING ARISING FROM OR IN ANY WAY REGARDING THE AGREEMENT SHALL HAVE ITS VENUE LOCATED EXCLUSIVELY IN THE CIRCUIT COURT OF VOLUSIA COUNTY, FLORIDA, AND THE PARTIES HEREBY EXPRESSLY CONSENT AND SUBMIT THEMSELVES TO THE PERSONAL JURISDICTION AND VENUE OF THE COURT.**

25. Additional Provisions

(a) As may have been outlined in State of Florida Agreement and any attachments or exhibits to this Contract whether delivered herewith or subsequently approved as a part hereof, such as drawings or technical specifications prepared in the performance of this work.

(b) For the purposes of this Contract, any reference in the State of Florida Agreement to "Department," or "Division," or "State of Florida" or "State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), an agency of the State of Florida" or "Florida Sheriff's Association" shall be construed to mean the "City of Port Orange."

(c) In the event of a conflict between the State of Florida Agreement and this Contract, this Contract with the City of Port Orange shall control.

26. Integration. This Contract and the documents incorporated herein by reference shall constitute the whole agreement between the parties. There are no promises, terms, conditions, or obligations other than those contained herein, and this Contract shall supersede all previous communications, representations, or agreements, written or verbal, between the parties hereto.

27. Notice. For purposes of this agreement, notices shall be sent as follows:

Any notice or other communication given under the Contract will be in writing and delivered by hand, sent by facsimile (provided acknowledgement of receipt thereof is delivered to the sender), sent by certified, registered mail, or sent by any nationally recognized overnight courier service to the addresses provided herein. The parties may, from time to time and at any time, change their respective addresses and each will have the right to specify as its address any other address by at least 10 days written notice to the other party.

28. Contract Construction. This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original but all of which together shall constitute one and the same instrument. The delivery by facsimile or e-mail of an executed copy of this Agreement shall be deemed valid as if an original signature was delivered. No contract shall be formed between Contractor and the City until the City signs this Agreement.

29. Authority to Sign. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

CITY OF PORT ORANGE PIGGYBACK AGREEMENT

This Piggyback Agreement is entered to this ____ day of _____, 20__, by and between the **CITY OF PORT ORANGE**, a Florida municipal whose principal address is 1000 City Center Circle, Port Orange, Florida 32129 (the "City") and **ALAN JAY IMPORT CENTER, INC.** ("Contractor"), a Florida corporation whose principal address is 404 Highway 27 North, Sebring, Florida 33870 (collectively "the Parties").

WHEREAS, on the 17th day of November, 2014, Contractor entered into Contract No. 25100000-15-1 with the State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), an agency of the State of Florida, pursuant to Solicitation No. 01-25100000-V (the "State of Florida Agreement"); and

WHEREAS, the State of Florida Agreement provides for a term commencing on November 17, 2014 and continuing until November 17, 2015; and

WHEREAS, by entering into this Piggyback Agreement, Contractor agrees to honor the terms of the State of Florida Agreement for the acquisition of motor vehicles purchased by the City of Port Orange; and

WHEREAS, a copy of Solicitation No. 01-25100000-V and the State of Florida Agreement are available in the Office of the City Clerk, City Hall, 1000 City Center, Port Orange, Florida 32129; and

WHEREAS, the Port Orange City Council has determined that the execution of this Contract is beneficial to the citizens of the City of Port Orange.

For good and valuable consideration, conditions and promises, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. **Initial Term.** This Contract shall be effective commencing on the last date this Contract is signed by the Parties, and continuing until November 17, 2015.

2. **Contractor Obligation.** Contractor agrees to sell motor vehicles to the City at the unit prices set forth in the State of Florida Agreement, except as modified herein and attached hereto as Exhibit "1". Contractor agrees that all pricing shall remain valid for the duration of this Agreement. Contractor shall not deliver goods or services without a written purchase order, signed by an authorized agent of the City of Port Orange. Contractor shall cause goods to be delivered to the City in the most expedient, cost effective manner. All items shall be shipped to the City of Port Orange designated facility identified in each purchase order, FOB Inside Delivery. Contractor shall bear the risk of loss for goods delivered under this Contract from the time of shipping to the City until delivered at the destination specified by the City for delivery.

3. **Authorization for Services.** This Contract standing alone does not authorize the purchase of any vehicle or require the City to place any orders for vehicles. Exhibit "1" attached hereto is for informational purposes only, and no order shall be commenced until issuance of a written Purchase Order from the City to the Contractor at the direction of the City Manager.

4. **City Obligations.** The City agrees to compensate Contractor at the unit prices set forth in the State of Florida in an amount subject to a limit up to but not to exceed Thirty-Three Thousand Eighty-Six and No/100 Dollars (\$33,086.00) during the term of this Contract. The City shall make payment on all invoices in accordance

with the Local Government Prompt Payment Act as set forth in Sections 218.70 through 218.79, Florida Statutes, as amended.

5. Termination for Convenience of the City

(a) The parties agree that the City may terminate this Contract, or any work or delivery required hereunder, from time to time either in whole or part, whenever the City Manager of Port Orange shall determine that such termination is in the best interest of the City.

(b) Termination, in whole or in part, shall be effected by delivery of a Notice of Termination signed by the City Manager or his designee, mailed or delivered to the Contractor, and specifically setting forth the effective date of termination.

(c) Upon receipt of such Notice, the Contractor shall:

- (i) cease any further deliveries or work due under this Contract, on the date, and to the extent, which may be specified in the Notice;
- (ii) place no further orders with any subcontractors except as may be necessary to perform that portion of this Contract not subject to the Notice;
- (iii) terminate all subcontracts except those made with respect to contract performance not subject to the Notice;
- (iv) settle all outstanding liabilities and claims which may arise out of such termination, with the ratification of the Finance Director of Port Orange; and
- (v) use best efforts to mitigate any damages which may be sustained by the Contractor as a consequence of termination under this clause.

(d) After complying with the provisions of subparagraph (c), above, the Contractor shall submit a termination claim, in no event later than six (6) months after the effective date of termination, unless one or more extensions of three (3) months each are granted by the Finance Director.

(e) The Finance Director, with the approval of the City Manager, shall pay from the using department's budget, reasonable costs of termination, including a reasonable amount for profit on supplies or services delivered or work completed. In no event shall this amount be greater than the original contract price, reduced by any payments made prior to Notice of Termination, and further reduced by the price of the supplies not delivered or the services not provided. This Contract shall be amended accordingly, and the Contractor shall be paid the agreed amount.

(f) In the event that the parties cannot agree on the whole amount to be paid to the Contractor by reason of termination under this clause, the Finance Director shall pay the Contractor the amounts determined as follows, without duplicating any amounts which may have already been paid under the preceding paragraph of this clause:

- (i) With respect to all Contract performance prior to the effective date of Notice of Termination, the total of:
 - (1) the cost of work performed or supplies delivered;
 - (2) the cost of settling and paying any reasonable claims as provided in paragraph (c) (iv), above;

(3) a sum as profit on (a) determined by the Finance Director to be fair and reasonable.

(ii) The total sum to be paid under (i) above shall not exceed the contract price, as further reduced by the contract price of work or supplies not terminated.

(g) In the event that the Contractor is not satisfied with any payments which the Finance Director shall determine to be due under this clause, the Contractor may appeal any claim to the City Council in accordance with Paragraph 20 of this contract concerning disputes.

6. Termination for Convenience for Subcontractors. In accordance with the termination for the convenience of the City provision of this contract, the Contractor shall include similar provisions in any subcontract, and shall specifically include a requirement that subcontractors make all reasonable efforts to mitigate damages which may be suffered. Failure to include such provisions shall bar the Contractor from any recovery from the City whatsoever of loss or damage sustained by a subcontractor as a consequence of termination for convenience.

7. Termination for Default. Either party may terminate this Contract, without further obligation, for the default of the other party or its agents or employees with respect to any agreement or provision contained herein.

8. Examination of Records

(a) The Contractor agrees that the City, or any duly authorized representative, shall, until the expiration of five (5) years after final payment hereunder, have access to and the right to examine and copy any pertinent books, documents, papers and records of the Contractor involving transactions related to this Contract.

(b) The Contractor further agrees to include in any subcontract for more than \$10,000 entered into as a result of this Contract, a provision to the effect that the subcontractor agrees that the City or any duly authorized representative shall, until the expiration of five (5) years after final payment under the subcontract, have access to and the right to examine and copy any pertinent books, documents, papers and records of such contractor involved in transactions related to such subcontract, or this Contract. The term subcontract as used herein shall exclude purchase orders for public utility services at rates established for uniform applicability to the general public.

(c) The period of access provided in subparagraphs (a) and (b) above for records, books, documents and papers which may relate to any arbitration, litigation, or the settlement of claims arising out of the performance of this contract or any subcontract shall continue until any appeals, arbitration, litigation or claims shall have been finally disposed of.

9. Public Records Compliance. Contractor shall comply with public records laws as set forth in Chapter 119, Florida Statutes, and shall specifically:

(a) Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the service.

(b) Provide the public with access to public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed the cost provided in Section 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Meet all requirements for retaining public records and transfer to the City, at no cost, all public records in possession of the Contractor upon termination of the Contract and destroy any duplicate public

records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the City.

If Contractor does not comply with a public records request, the City shall enforce the contract provisions in accordance with the contract.

10. Termination for Non-Appropriation of Funds

(a) If funds are not appropriated for any succeeding fiscal years subsequent to the one in which this contract is entered into, for the purpose of this Contract, then the City may terminate this Contract upon thirty (30) days prior written notice to the Contractor. Should termination be accomplished in accordance with this Section, the City shall be liable only for payments due through the date of termination.

(b) The City agrees that should it terminate in accordance with this Section, it shall not obtain services which are substantially equal to or similar to those for which this contract was entered into. This provision shall survive any termination of the Contract.

11. Insurance. Contractor shall maintain insurance during the life of this Contract. Contractor shall provide to the City a certificate of insurance identifying the City of Port Orange as an additional insured. For workers' compensation coverage, the bidder's insurance certificate shall include the insurer's waiver of subrogation in lieu of naming the city as an additional insured for workers' compensation.

Policies other than Workers' Compensation shall be issued by insurers licensed and/or duly authorized under Florida Law to do business in the State of Florida and all insuring companies are required to have a minimum rating of "A" in the "Best Key Rating Guide" published by A.M. Best & Company, Inc. Policies for Workers' Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.572. Contractor shall not commence work under this Agreement until the City has received a certificate or certificates of insurance and endorsement evidencing the required insurance. Contractor shall provide the City written notice of cancellation, nonrenewal or any other changes in coverage no later than ten (10) days prior to the effective date of the change.

The City reserves the right to increase insurance coverage as determined for higher risk contracts and shall reimburse the Contractor for the reasonable additional costs of increased coverage.

Insurance	Standards	Comments
Workers' Compensation <u>Limits:</u> <u>Additional Coverage:</u>	Coverage A - Statutory Coverage B - \$100,000 All States (Broad Form) Voluntary Compensation	If the contract requires work on or about navigable waters, require Longshoreman's and Harbor Workers' Coverage. If vessels involved, require Jones Act coverage with limits of \$500,000.
Comprehensive General Liability (including Completed Operations and Contractual Liability) <u>Limits:</u>	Combined Single Limit Bodily Injury and Property damage \$500,000 occurrence \$1,000,000 Aggregate	When the Contract work on or under Railroad rights of way or properties, the Contractor shall take out and maintain during the life of the Contract, Railroad protective liability and property damage insurance in amounts as requested by the Railroad.

Comprehensive Business, Automobile Liability to include all automobiles.	<u>Limits:</u>	Auto Liability Body Injury: \$100,000 each person \$300,000 each occurrence. Property Damage Liability \$100,000 each occurrence.	Or \$500,000 Combined Single Limit for Bodily Injury and Property Damage
<u>Additional Coverage:</u>		Non-Owned, Hired Car	
Property Insurance — Builders Risk.	<u>Limits:</u>	Buildings — Completed value of contract.	If the Contract requires handling or installation of Owner's equipment, coverage should be furnished on "All Risk" form, including transit and Owner shall be named.
<u>Additional Coverage:</u>		"All Risk" coverage on latest ISO form or its equivalent. Permission granted to occupy. Owner named as insured AIMA	
Professional Liability — (Errors & Omissions)	<u>Limits:</u>	Coverage — \$1,000,000 minimum	

12. A Contract for the purchase of supplies shall be governed by the City of Port Orange Code of Ordinances, as amended, and such supplies shall be deemed "goods," as defined therein.

13. Assignability of Contract. Neither this contract, nor any part hereof, may be assigned by the Contractor to any other party without the express written approval of the City Council.

14. Modifications or Changes to this Contract

(a) Change Orders. The Department Head, with the concurrence of the City's signatory as required by the City's Purchasing Policy, shall without notice to any sureties, have the authority to order changes in this Contract which affect the cost or time of performance. Such changes shall be ordered in writing specifically designated to be a change order. Such orders shall be limited to reasonable changes in the services to be performed or the time of the performance. The City will not be held liable for any changes which have not been properly authorized and approved in accordance with this Contract.

(b) If any change under this clause causes an increase or decrease in Contractor's cost of, or time required for the performance of the work hereunder, Contractor shall receive an equitable adjustment in accordance with subparagraph (d), which shall include all compensation to the Contractor, or the City, of any kind in connection with such change, including all costs and damages related to or incidental to such change. Contractor need not perform any work described in any change order unless it has received a certification from the City that there are funds budgeted and appropriated sufficient to cover the cost of such changes.

(c) Contractor need not perform any work described in any change order unless it has received a certification from the City that there are funds budgeted and appropriated sufficient to cover the cost of such changes.

(d) No claim for changes ordered hereunder shall be considered if made after final payment in accordance with the Contract.

15. Sovereign Immunity. The City expressly retains all rights, benefits and immunities of sovereign immunity in accordance with Section 768.28, Florida Statutes. Notwithstanding anything set forth in any section of

this Contract to the contrary, nothing in this Contract shall be deemed as a waiver of immunity or limits of liability of the City beyond any statutory limited waiver of immunity or limits of liability which may have been adopted by the Florida Legislature or may be adopted by the Florida Legislature and the cap on the amount and liability of the City for damages regardless of the number or nature of claims in tort or equity shall not exceed the dollar amount set by the legislature for tort. Nothing in this Contract shall inure to the benefit of any third party for the purpose of allowing any claim against the City which would otherwise be barred under the Doctrine of Sovereign Immunity or operation of law.

16. Warranties. Contractor warrants that (1) the supplies to be provided to the City pursuant to this Contract are fit and sufficient for the purpose intended; (2) the supplies are merchantable, of good quality, and free from defects, whether patent or latent, in material or workmanship, and (3) the supplies sold to the City pursuant to this Contract conform to the standards required by this Contract.

Contractor further warrants that Contractor has title to the supplies provided, and that the supplies are free and clear of all liens encumbrances, and security interests. All warranties made in this Contract, together with service warranties and guarantees, shall run to the City and its successors and assigns.

17. Additional Warranties. Contractor further expressly warrants that materials and workmanship are warranted from defect for a one-year period. This is a minimum acceptable warranty.

18. Inspection

(a) All supplies (which term throughout this clause includes without limitation raw materials, components, intermediate assemblies, and their products) shall be subject to inspection and test by the City, to the extent practicable at all times and places including the place of manufacturer, and in any event prior to acceptance.

(b) In the event any supplies or lots of supplies are defective in material or workmanship, or otherwise not in conformity with the requirements of this Contract, the City shall have the right either to reject them (with or without instructions as to their disposition) or to require their correction. Supplies or lots of supplies which have been rejected or required to be corrected shall be removed or, if permitted or required by the Finance Director, corrected in place by and at the expense of Contractor promptly after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirement of correction is disclosed. If Contractor fails promptly to remove such supplies or lots of supplies which are required to be removed or promptly to replace or correct such supplies or lots of supplies, the City may either (i) by contract or otherwise replace or correct such supplies and charge Contractor the cost for such replacement or correction; or (ii) may terminate this Contract for default as provided in the clause of this Contract entitled "Termination for Default." Unless Contractor corrects or replaces such supplies within the delivery schedule, the Finance Director may require the delivery of such supplies at a reduction in price, which is equitable under the circumstances. Acceptance or rejection of the supplies shall be made as promptly as practicable after delivery, except as otherwise provided in this Contract. Failure to inspect and accept or reject supplies shall neither relieve Contractor from responsibility for such supplies as are not in accordance with the Contract requirements nor impose liability on the City therefor.

(c) The inspection and test by the City of any supplies or lots thereof does not relieve Contractor from any responsibility regarding defects or other failures to meet the Contract requirements, which may be discovered prior to acceptance. Except as otherwise provided in this Contract, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

19. Contract Administration. The Public Works Director shall perform contract administration of this Contract. For notice provisions, see the paragraph below entitled "Notice."

20. Liability for Loss or Damage. Contractor shall be liable for any loss of, or damage to, City property caused by the negligence, recklessness, or intended wrongful misconduct of Contractor, his/its agents, servants and employees and shall indemnify and save the City harmless against all actions, proceedings, claims, demands, costs, damages and expenses, including attorney's fees, by reason of any suit or action brought for any actual or alleged injury to or death of any person or damage to property other than City property, resulting from the performance of the Contract by Contractor, his/its agents, servants and employees. Contractor shall submit a full written report to the Finance Director within twenty-four (24) hours following the occurrence of such damage, loss or injury.

21. Non-discrimination. During the performance of this Contract, Contractor agrees as follows:

(a) Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, disability, marital status, age or national origin, except where such is a bona-fide occupational qualification reasonably necessary to the normal operation of Contractor. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause. Contractor agrees and fully supports and complies with the Americans with Disabilities Act of 1990.

(b) Contractor shall state in all solicitations or advertisements for employees placed by or on behalf of Contractor that Contractor is an equal opportunity employer.

(c) Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient compliance with this provision. Contractor shall include the provisions of the foregoing subparagraphs (a), (b), and (c) in every subcontract or purchase order of over \$10,000 so that the provisions will be binding upon each subcontractor or vendor.

22. Disputes. The Finance Director, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to Contractor, shall decide disputes with respect to this Contract in the first instance. The decision shall be final and binding unless, within thirty-(30) days from the date of such decision, Contractor mails or otherwise furnishes to the Finance Director a written appeal addressed to the City Manager. The decision by the City Manager shall be final and binding unless, within ten (10) days from the date of receipt of the decision of the City Manager, appeal is made to the City Council. The decision of the City Council shall be final and binding unless set aside by a court of competent jurisdiction as fraudulent, capricious, arbitrary, or so grossly erroneous as necessary to imply bad faith, or not to be supported by any evidence. Pending a final determination of a properly appealed decision of the Finance Director, Contractor shall proceed diligently with the performance of this Contract in accordance with that decision.

23. Force Majeure. Neither party shall be liable for any delay in performance or failure to perform any obligation hereunder if, and to the extent that, such failure or delay is caused by an event of Force Majeure. Force Majeure shall mean any act, event or condition that is beyond the party's reasonable control, that materially and adversely affects the party's ability to perform its obligations hereunder, and that is not the result of the party's willful neglect, error, omission or failure to exercise reasonable due diligence.

24. Controlling Law. **THIS CONTRACT CONTAINS IMPORTANT MATTERS AFFECTING LEGAL RIGHTS AND IS ACCEPTED AND ENTERED INTO IN FLORIDA AND ANY QUESTION REGARDING ITS VALIDITY, CONSTRUCTION, ENFORCEMENT, OR PERFORMANCE SHALL BE GOVERNED BY FLORIDA LAW. ANY LEGAL PROCEEDING ARISING FROM OR IN ANY WAY REGARDING THE AGREEMENT SHALL HAVE ITS VENUE LOCATED EXCLUSIVELY IN THE CIRCUIT COURT OF VOLUSIA COUNTY, FLORIDA, AND THE PARTIES HEREBY EXPRESSLY CONSENT AND SUBMIT THEMSELVES TO THE PERSONAL JURISDICTION AND VENUE OF THE COURT.**

25. Additional Provisions

(a) As may have been outlined in State of Florida Agreement and any attachments or exhibits to this Contract whether delivered herewith or subsequently approved as a part hereof, such as drawings or technical specifications prepared in the performance of this work.

(b) For the purposes of this Contract, any reference in the State of Florida Agreement to "Department," or "Division," or "State of Florida" or "State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), an agency of the State of Florida" shall be construed to mean the "City of Port Orange."

(c) In the event of a conflict between the State of Florida Agreement and this Contract, this Contract with the City of Port Orange shall control.

26. Integration. This Contract and the documents incorporated herein by reference shall constitute the whole agreement between the parties. There are no promises, terms, conditions, or obligations other than those contained herein, and this Contract shall supersede all previous communications, representations, or agreements, written or verbal, between the parties hereto.

27. Notice. For purposes of this agreement, notices shall be sent as follows:

Any notice or other communication given under the Contract will be in writing and delivered by hand, sent by facsimile (provided acknowledgement of receipt thereof is delivered to the sender), sent by certified, registered mail, or sent by any nationally recognized overnight courier service to the addresses provided herein. The parties may, from time to time and at any time, change their respective addresses and each will have the right to specify as its address any other address by at least 10 days written notice to the other party.

28. Contract Construction. This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original but all of which together shall constitute one and the same instrument. The delivery by facsimile or e-mail of an executed copy of this Agreement shall be deemed valid as if an original

signature was delivered. No contract shall be formed between Contractor and the City until the City signs this Agreement.

29. Authority to Sign. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

CITY OF PORT ORANGE PIGGYBACK AGREEMENT

This Piggyback Agreement is entered to this ____ day of _____, 20__, by and between the **CITY OF PORT ORANGE**, a Florida municipal whose principal address is 1000 City Center Circle, Port Orange, Florida 32129 (the "City") and **DUVAL FORD, LLC** ("Contractor"), a Florida corporation whose principal address is 1616 Cassat Avenue, Jacksonville, Florida 32210 (collectively "the Parties").

WHEREAS, on the 17th day of November, 2014, Contractor entered into Contract No. 25100000-15-1 with the State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), an agency of the State of Florida, pursuant to Solicitation No. 01-25100000-V (the "State of Florida Agreement"); and

WHEREAS, the State of Florida Agreement provides for a term commencing on November 17, 2014 and continuing until November 17, 2015; and

WHEREAS, by entering into this Piggyback Agreement, Contractor agrees to honor the terms of the State of Florida Agreement for the acquisition of motor vehicles purchased by the City of Port Orange; and

WHEREAS, a copy of Solicitation No. 01-25100000-V and the State of Florida Agreement are available in the Office of the City Clerk, City Hall, 1000 City Center, Port Orange, Florida 32129; and

WHEREAS, the Port Orange City Council has determined that the execution of this Contract is beneficial to the citizens of the City of Port Orange.

For good and valuable consideration, conditions and promises, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. **Initial Term.** This Contract shall be effective commencing on the last date this Contract is signed by the Parties, and continuing until November 17, 2015.

2. **Contractor Obligation.** Contractor agrees to sell motor vehicles to the City at the unit prices set forth in the State of Florida Agreement, except as modified herein and attached hereto as Exhibit "1". Contractor agrees that all pricing shall remain valid for the duration of this Agreement. Contractor shall not deliver goods or services without a written purchase order, signed by an authorized agent of the City of Port Orange. Contractor shall cause goods to be delivered to the City in the most expedient, cost effective manner. All items shall be shipped to the City of Port Orange designated facility identified in each purchase order, FOB Inside Delivery. Contractor shall bear the risk of loss for goods delivered under this Contract from the time of shipping to the City until delivered at the destination specified by the City for delivery.

3. **Authorization for Services.** This Contract standing alone does not authorize the purchase of any vehicle or require the City to place any orders for vehicles. Exhibit "1" attached hereto is for informational purposes only, and no order shall be commenced until issuance of a written Purchase Order from the City to the Contractor at the direction of the City Manager.

4. **City Obligations.** The City agrees to compensate Contractor at the unit prices set forth in the State of Florida in an amount subject to a limit up to but not to exceed Three Hundred Fifteen Thousand Four Hundred Forty-Three and No/100 Dollars (\$315,443.00) during the term of this Contract. The City shall make payment on all

invoices in accordance with the Local Government Prompt Payment Act as set forth in Sections 218.70 through 218.79, Florida Statutes, as amended.

5. Termination for Convenience of the City

(a) The parties agree that the City may terminate this Contract, or any work or delivery required hereunder, from time to time either in whole or part, whenever the City Manager of Port Orange shall determine that such termination is in the best interest of the City.

(b) Termination, in whole or in part, shall be effected by delivery of a Notice of Termination signed by the City Manager or his designee, mailed or delivered to the Contractor, and specifically setting forth the effective date of termination.

(c) Upon receipt of such Notice, the Contractor shall:

- (i) cease any further deliveries or work due under this Contract, on the date, and to the extent, which may be specified in the Notice;
- (ii) place no further orders with any subcontractors except as may be necessary to perform that portion of this Contract not subject to the Notice;
- (iii) terminate all subcontracts except those made with respect to contract performance not subject to the Notice;
- (iv) settle all outstanding liabilities and claims which may arise out of such termination, with the ratification of the Finance Director of Port Orange; and
- (v) use best efforts to mitigate any damages which may be sustained by the Contractor as a consequence of termination under this clause.

(d) After complying with the provisions of subparagraph (c), above, the Contractor shall submit a termination claim, in no event later than six (6) months after the effective date of termination, unless one or more extensions of three (3) months each are granted by the Finance Director.

(e) The Finance Director, with the approval of the City Manager, shall pay from the using department's budget, reasonable costs of termination, including a reasonable amount for profit on supplies or services delivered or work completed. In no event shall this amount be greater than the original contract price, reduced by any payments made prior to Notice of Termination, and further reduced by the price of the supplies not delivered or the services not provided. This Contract shall be amended accordingly, and the Contractor shall be paid the agreed amount.

(f) In the event that the parties cannot agree on the whole amount to be paid to the Contractor by reason of termination under this clause, the Finance Director shall pay the Contractor the amounts determined as follows, without duplicating any amounts which may have already been paid under the preceding paragraph of this clause:

- (i) With respect to all Contract performance prior to the effective date of Notice of Termination, the total of:
 - (1) the cost of work performed or supplies delivered;
 - (2) the cost of settling and paying any reasonable claims as provided in paragraph (c) (iv), above;

(3) a sum as profit on (a) determined by the Finance Director to be fair and reasonable.

(ii) The total sum to be paid under (i) above shall not exceed the contract price, as further reduced by the contract price of work or supplies not terminated.

(g) In the event that the Contractor is not satisfied with any payments which the Finance Director shall determine to be due under this clause, the Contractor may appeal any claim to the City Council in accordance with Paragraph 20 of this contract concerning disputes.

6. Termination for Convenience for Subcontractors. In accordance with the termination for the convenience of the City provision of this contract, the Contractor shall include similar provisions in any subcontract, and shall specifically include a requirement that subcontractors make all reasonable efforts to mitigate damages which may be suffered. Failure to include such provisions shall bar the Contractor from any recovery from the City whatsoever of loss or damage sustained by a subcontractor as a consequence of termination for convenience.

7. Termination for Default. Either party may terminate this Contract, without further obligation, for the default of the other party or its agents or employees with respect to any agreement or provision contained herein.

8. Examination of Records

(a) The Contractor agrees that the City, or any duly authorized representative, shall, until the expiration of five (5) years after final payment hereunder, have access to and the right to examine and copy any pertinent books, documents, papers and records of the Contractor involving transactions related to this Contract.

(b) The Contractor further agrees to include in any subcontract for more than \$10,000 entered into as a result of this Contract, a provision to the effect that the subcontractor agrees that the City or any duly authorized representative shall, until the expiration of five (5) years after final payment under the subcontract, have access to and the right to examine and copy any pertinent books, documents, papers and records of such contractor involved in transactions related to such subcontract, or this Contract. The term subcontract as used herein shall exclude purchase orders for public utility services at rates established for uniform applicability to the general public.

(c) The period of access provided in subparagraphs (a) and (b) above for records, books, documents and papers which may relate to any arbitration, litigation, or the settlement of claims arising out of the performance of this contract or any subcontract shall continue until any appeals, arbitration, litigation or claims shall have been finally disposed of.

9. Public Records Compliance. Contractor shall comply with public records laws as set forth in Chapter 119, Florida Statutes, and shall specifically:

(a) Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the service.

(b) Provide the public with access to public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed the cost provided in Section 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Meet all requirements for retaining public records and transfer to the City, at no cost, all public records in possession of the Contractor upon termination of the Contract and destroy any duplicate public

records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the City.

If Contractor does not comply with a public records request, the City shall enforce the contract provisions in accordance with the contract.

10. Termination for Non-Appropriation of Funds

(a) If funds are not appropriated for any succeeding fiscal years subsequent to the one in which this contract is entered into, for the purpose of this Contract, then the City may terminate this Contract upon thirty (30) days prior written notice to the Contractor. Should termination be accomplished in accordance with this Section, the City shall be liable only for payments due through the date of termination.

(b) The City agrees that should it terminate in accordance with this Section, it shall not obtain services which are substantially equal to or similar to those for which this contract was entered into. This provision shall survive any termination of the Contract.

11. Insurance. Contractor shall maintain insurance during the life of this Contract. Contractor shall provide to the City a certificate of insurance identifying the City of Port Orange as an additional insured. For workers' compensation coverage, the bidder's insurance certificate shall include the insurer's waiver of subrogation in lieu of naming the city as an additional insured for workers' compensation.

Policies other than Workers' Compensation shall be issued by insurers licensed and/or duly authorized under Florida Law to do business in the State of Florida and all insuring companies are required to have a minimum rating of "A" in the "Best Key Rating Guide" published by A.M. Best & Company, Inc. Policies for Workers' Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.572. Contractor shall not commence work under this Agreement until the City has received a certificate or certificates of insurance and endorsement evidencing the required insurance. Contractor shall provide the City written notice of cancellation, nonrenewal or any other changes in coverage no later than ten (10) days prior to the effective date of the change.

The City reserves the right to increase insurance coverage as determined for higher risk contracts and shall reimburse the Contractor for the reasonable additional costs of increased coverage.

Insurance	Standards	Comments
Workers' Compensation <u>Limits:</u> <u>Additional Coverage:</u>	Coverage A - Statutory Coverage B - \$100,000 All States (Broad Form) Voluntary Compensation	If the contract requires work on or about navigable waters, require Longshoreman's and Harbor Workers' Coverage. If vessels involved, require Jones Act coverage with limits of \$500,000.
Comprehensive General Liability (including Completed Operations and Contractual Liability) <u>Limits:</u>	Combined Single Limit Bodily Injury and Property damage \$500,000 occurrence \$1,000,000 Aggregate	When the Contract work on or under Railroad rights of way or properties, the Contractor shall take out and maintain during the life of the Contract, Railroad protective liability and property damage insurance in amounts as requested by the Railroad.

Comprehensive Business, Automobile Liability to include all automobiles.	<u>Limits:</u>	Auto Liability Body Injury: \$100,000 each person \$300,000 each occurrence. Property Damage Liability \$100,000 each occurrence.	Or \$500,000 Combined Single Limit for Bodily Injury and Property Damage
<u>Additional Coverage:</u>		Non-Owned, Hired Car	
Property Insurance — Builders Risk.	<u>Limits:</u>	Buildings — Completed value of contract.	If the Contract requires handling or installation of Owner's equipment, coverage should be furnished on "All Risk" form, including transit and Owner shall be named.
<u>Additional Coverage:</u>		"All Risk" coverage on latest ISO form or its equivalent. Permission granted to occupy. Owner named as insured AIMA	
Professional Liability (Errors & Omissions)	<u>Limits:</u>	Coverage — \$1,000,000 minimum	

12. A Contract for the purchase of supplies shall be governed by the City of Port Orange Code of Ordinances, as amended, and such supplies shall be deemed "goods," as defined therein.

13. Assignability of Contract. Neither this contract, nor any part hereof, may be assigned by the Contractor to any other party without the express written approval of the City Council.

14. Modifications or Changes to this Contract

(a) Change Orders. The Department Head, with the concurrence of the City's signatory as required by the City's Purchasing Policy, shall without notice to any sureties, have the authority to order changes in this Contract which affect the cost or time of performance. Such changes shall be ordered in writing specifically designated to be a change order. Such orders shall be limited to reasonable changes in the services to be performed or the time of the performance. The City will not be held liable for any changes which have not been properly authorized and approved in accordance with this Contract.

(b) If any change under this clause causes an increase or decrease in Contractor's cost of, or time required for the performance of the work hereunder, Contractor shall receive an equitable adjustment in accordance with subparagraph (d), which shall include all compensation to the Contractor, or the City, of any kind in connection with such change, including all costs and damages related to or incidental to such change. Contractor need not perform any work described in any change order unless it has received a certification from the City that there are funds budgeted and appropriated sufficient to cover the cost of such changes.

(c) Contractor need not perform any work described in any change order unless it has received a certification from the City that there are funds budgeted and appropriated sufficient to cover the cost of such changes.

(d) No claim for changes ordered hereunder shall be considered if made after final payment in accordance with the Contract.

15. Sovereign Immunity. The City expressly retains all rights, benefits and immunities of sovereign immunity in accordance with Section 768.28, Florida Statutes. Notwithstanding anything set forth in any section of

this Contract to the contrary, nothing in this Contract shall be deemed as a waiver of immunity or limits of liability of the City beyond any statutory limited waiver of immunity or limits of liability which may have been adopted by the Florida Legislature or may be adopted by the Florida Legislature and the cap on the amount and liability of the City for damages regardless of the number or nature of claims in tort or equity shall not exceed the dollar amount set by the legislature for tort. Nothing in this Contract shall inure to the benefit of any third party for the purpose of allowing any claim against the City which would otherwise be barred under the Doctrine of Sovereign Immunity or operation of law.

16. Warranties. Contractor warrants that (1) the supplies to be provided to the City pursuant to this Contract are fit and sufficient for the purpose intended; (2) the supplies are merchantable, of good quality, and free from defects, whether patent or latent, in material or workmanship, and (3) the supplies sold to the City pursuant to this Contract conform to the standards required by this Contract.

Contractor further warrants that Contractor has title to the supplies provided, and that the supplies are free and clear of all liens encumbrances, and security interests. All warranties made in this Contract, together with service warranties and guarantees, shall run to the City and its successors and assigns.

17. Additional Warranties. Contractor further expressly warrants that materials and workmanship are warranted from defect for a one-year period. This is a minimum acceptable warranty.

18. Inspection

(a) All supplies (which term throughout this clause includes without limitation raw materials, components, intermediate assemblies, and their products) shall be subject to inspection and test by the City, to the extent practicable at all times and places including the place of manufacturer, and in any event prior to acceptance.

(b) In the event any supplies or lots of supplies are defective in material or workmanship, or otherwise not in conformity with the requirements of this Contract, the City shall have the right either to reject them (with or without instructions as to their disposition) or to require their correction. Supplies or lots of supplies which have been rejected or required to be corrected shall be removed or, if permitted or required by the Finance Director, corrected in place by and at the expense of Contractor promptly after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirement of correction is disclosed. If Contractor fails promptly to remove such supplies or lots of supplies which are required to be removed or promptly to replace or correct such supplies or lots of supplies, the City may either (i) by contract or otherwise replace or correct such supplies and charge Contractor the cost for such replacement or correction; or (ii) may terminate this Contract for default as provided in the clause of this Contract entitled "Termination for Default." Unless Contractor corrects or replaces such supplies within the delivery schedule, the Finance Director may require the delivery of such supplies at a reduction in price, which is equitable under the circumstances. Acceptance or rejection of the supplies shall be made as promptly as practicable after delivery, except as otherwise provided in this Contract. Failure to inspect and accept or reject supplies shall neither relieve Contractor from responsibility for such supplies as are not in accordance with the Contract requirements nor impose liability on the City therefor.

(c) The inspection and test by the City of any supplies or lots thereof does not relieve Contractor from any responsibility regarding defects or other failures to meet the Contract requirements, which may be discovered prior to acceptance. Except as otherwise provided in this Contract, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

19. Contract Administration. The Public Works Director shall perform contract administration of this Contract. For notice provisions, see the paragraph below entitled "Notice."

20. Liability for Loss or Damage. Contractor shall be liable for any loss of, or damage to, City property caused by the negligence, recklessness, or intended wrongful misconduct of Contractor, his/its agents, servants and employees and shall indemnify and save the City harmless against all actions, proceedings, claims, demands, costs, damages and expenses, including attorney's fees, by reason of any suit or action brought for any actual or alleged injury to or death of any person or damage to property other than City property, resulting from the performance of the Contract by Contractor, his/its agents, servants and employees. Contractor shall submit a full written report to the Finance Director within twenty-four (24) hours following the occurrence of such damage, loss or injury.

21. Non-discrimination. During the performance of this Contract, Contractor agrees as follows:

(a) Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, disability, marital status, age or national origin, except where such is a bona-fide occupational qualification reasonably necessary to the normal operation of Contractor. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause. Contractor agrees and fully supports and complies with the Americans with Disabilities Act of 1990.

(b) Contractor shall state in all solicitations or advertisements for employees placed by or on behalf of Contractor that Contractor is an equal opportunity employer.

(c) Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient compliance with this provision. Contractor shall include the provisions of the foregoing subparagraphs (a), (b), and (c) in every subcontract or purchase order of over \$10,000 so that the provisions will be binding upon each subcontractor or vendor.

22. Disputes. The Finance Director, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to Contractor, shall decide disputes with respect to this Contract in the first instance. The decision shall be final and binding unless, within thirty-(30) days from the date of such decision, Contractor mails or otherwise furnishes to the Finance Director a written appeal addressed to the City Manager. The decision by the City Manager shall be final and binding unless, within ten (10) days from the date of receipt of the decision of the City Manager, appeal is made to the City Council. The decision of the City Council shall be final and binding unless set aside by a court of competent jurisdiction as fraudulent, capricious, arbitrary, or so grossly erroneous as necessary to imply bad faith, or not to be supported by any evidence. Pending a final determination of a properly appealed decision of the Finance Director, Contractor shall proceed diligently with the performance of this Contract in accordance with that decision.

23. Force Majeure. Neither party shall be liable for any delay in performance or failure to perform any obligation hereunder if, and to the extent that, such failure or delay is caused by an event of Force Majeure. Force Majeure shall mean any act, event or condition that is beyond the party's reasonable control, that materially and adversely affects the party's ability to perform its obligations hereunder, and that is not the result of the party's willful neglect, error, omission or failure to exercise reasonable due diligence.

24. Controlling Law. **THIS CONTRACT CONTAINS IMPORTANT MATTERS AFFECTING LEGAL RIGHTS AND IS ACCEPTED AND ENTERED INTO IN FLORIDA AND ANY QUESTION REGARDING ITS VALIDITY, CONSTRUCTION, ENFORCEMENT, OR PERFORMANCE SHALL BE GOVERNED BY FLORIDA LAW. ANY LEGAL PROCEEDING ARISING FROM OR IN ANY WAY REGARDING THE AGREEMENT SHALL HAVE ITS VENUE LOCATED EXCLUSIVELY IN THE CIRCUIT COURT OF VOLUSIA COUNTY, FLORIDA, AND THE PARTIES HEREBY EXPRESSLY CONSENT AND SUBMIT THEMSELVES TO THE PERSONAL JURISDICTION AND VENUE OF THE COURT.**

25. Additional Provisions

(a) As may have been outlined in State of Florida Agreement and any attachments or exhibits to this Contract whether delivered herewith or subsequently approved as a part hereof, such as drawings or technical specifications prepared in the performance of this work.

(b) For the purposes of this Contract, any reference in the State of Florida Agreement to "Department," or "Division," or "State of Florida" or "State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), an agency of the State of Florida" shall be construed to mean the "City of Port Orange."

(c) In the event of a conflict between the State of Florida Agreement and this Contract, this Contract with the City of Port Orange shall control.

26. Integration. This Contract and the documents incorporated herein by reference shall constitute the whole agreement between the parties. There are no promises, terms, conditions, or obligations other than those contained herein, and this Contract shall supersede all previous communications, representations, or agreements, written or verbal, between the parties hereto.

27. Notice. For purposes of this agreement, notices shall be sent as follows:

City: City of Port Orange
Attention: City Manager
1000 City Center Circle
Port Orange, Florida 32129
(386) 506-5501

Copy to: City of Port Orange
Attention: Mike Silvey, Public Works Director
1000 City Center Circle
Port Orange, Florida 32129
(386) 506-5575

Contractor: Duval Ford, LLC
Attention: Richard Tackett
701 Riverside Park Place, Suite 310
Jacksonville, Florida 32204
(866) 444-6088 – Telephone

Any notice or other communication given under the Contract will be in writing and delivered by hand, sent by facsimile (provided acknowledgement of receipt thereof is delivered to the sender), sent by certified, registered mail, or sent by any nationally recognized overnight courier service to the addresses provided herein. The parties may, from time to time and at any time, change their respective addresses and each will have the right to specify as its address any other address by at least 10 days written notice to the other party.

28. Contract Construction. This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original but all of which together shall constitute one and the same instrument. The delivery by facsimile or e-mail of an executed copy of this Agreement shall be deemed valid as if an original signature was delivered. No contract shall be formed between Contractor and the City until the City signs this Agreement.

29. Authority to Sign. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

PORT ORANGE POLICE DEPARTMENT

MEMORANDUM

TO: Gerald M. Monahan Jr., Chief of Police
FROM: Sergeant Thomas W. Aiken
DATE: October 20, 2014
CC: File
FILE: TA1014.M003
SUBJECT: Biketoberfest 2014 After Action Review

Biketoberfest 2014 officially started on Thursday 10/16/14, and ran through Sunday 10/19/14. The weather was clear, with no rain storms experienced. The Volusia County area experienced a range of temperatures from the low to mid eighties during the day, with overnight lows in the sixties and low seventies.

On September 15, 2014 one Florida Department of Transportation (FDOT) Temporary Road Closure Permit, regarding the lane closures and alterations on US-1 for The Last Resort, was completed, with said Permit being issued by FDOT on September 23, 2014. The permit, design, and alterations were within Index 6I3 of the Manual on Uniform Traffic Control Devices.

On September 15, 2014 one Florida Department of Transportation (FDOT) Temporary Road Closure Permit, regarding the alteration of the roadway in front of the First Turn Steak House, was completed, with said Permit being issued by FDOT on September 23, 2014. The permit, design, and alterations were within Index 6I3 of the Manual on Uniform Traffic Control Devices.

Cones, barricades, and light towers were delivered to The Last Resort and First Turn Steak House in advance of the event. They were put into use daily at the Last Resort Bar from Thursday 10/16/14 through Saturday 10/18/14 from 12:00PM to 8:00PM, and nightly at the First Turn Steak House from Thursday 10/16/14 through Saturday 10/18/14 from 6:00PM to 9:00PM.

The Traffic Unit's work schedule was adjusted to allow for increased enforcement of traffic violations during the peak times of the event. The Traffic Sergeant and four Motor Officers were scheduled to work from 11:00-AM to 9:30-PM on the Thursday, Friday, and Saturday of the event. Auxiliary Motor Officer T. Yovanovich worked with the Traffic Unit for the three days from 10:00AM to 10:00PM.

PORT ORANGE POLICE DEPARTMENT

Places of interest within the City of Port Orange

Last Resort Bar:

- No citizen noise complaints were lodged against the business.
- Officers worked traffic details from Thursday 10/16/14 through Saturday 10/18/14.
- The traffic detail Officers were scheduled work from 12:00PM to 8:00PM daily.
- No violations or safety issues were discovered.
- No criminal activity observed during the course of the event.
- No noted camping violations observed.
- I met with the owner, Al Bulling, on Thursday 10/16/14 to discuss his normal events of Creamed Corn Wrestling and the Chopper Show. Mr. Bulling informed me that he would not be conducting those events due to low attendance numbers from prior years and the cost associated with conducting them. He may revisit having those events during Bike Week 2015.

First Turn:

- No citizen noise complaints were lodged against the business.
- Officers worked traffic details from Thursday 10/16/14 through Saturday 10/18/14 from 6:00PM to 9:00PM.
- No violations or safety issues were discovered.
- No criminal activity observed during the course of the event.
- No noted camping violations observed.

Whiskey River Saloon:

- No citizen noise complaints were lodged against the business.
- No criminal activity observed during the course of the event.
- No noted camping violation observed.

Hidden Treasure Restaurant:

- No citizen noise complaints were lodged against the business.
- No parking violations or safety issues were discovered.
- No criminal activity observed during the course of the event.

Roadside Tavern:

- Citizen noise complaints were lodged against the business on 10/17/14 and 10/18/14
- Patrol completed a check of the location again on 10/19/14. No violations or safety issues were discovered on 10/19/14.
- No criminal activity observed during the course of the event.
- No noted camping violations observed.

PORT ORANGE POLICE DEPARTMENT

Wide Open Saloon:

- No citizen noise complaints were made against the business.
- No violations or safety issues were discovered during those checks.
- No criminal activity observed during the course of the event.
- No noted camping violations observed.

Squeeze In Pub:

- No citizen noise complaints were lodged against the business.
- No violations or safety issues were discovered.
- No criminal activity observed during the course of the event.
- No noted camping violations observed.

Notable arrests during the event

No arrests were made by the Motor Unit during the event.

Notable – serious – crashes during the event

There were no serious bodily injury or fatal traffic crashes within the City of Port Orange during the event. There were a total of Sixteen (16) crashes across the City, with only three of them having reported injuries. A fourth possible injury crash (140009257) was the result of a medical event which caused the driver to have a minor crash. While no injuries are attributed to the crash, the driver was pronounced deceased at the hospital from the medical event. The crashes were dispersed across different areas throughout the City and were not indicative of any specific problem areas.

Citation Summary for the 4-day event.

Traffic citations issued by the Port Orange Police Department during the event from Thursday 10/16/14 thru Sunday 10/19/14:

- Total Citations Issued- **297**
- Traffic citations issued by the Motor Unit: **223**
- Traffic citations issued by Patrol Officers: **74**

With the Motor Unit Officers being relieved from responding to school zone assignments and non-injury traffic crashes during peak times of the event, they were afforded the opportunity to conduct sustained enforcement efforts along the Ridgewood Ave corridor. There was a decrease in the number of traffic crashes during this year's event as compared to last year's. This decrease can be attributed to the increased presence of Motor and Patrol Officers working during peak times of the event.

During various times throughout the event, I traveled to areas outside of the Ridgewood Ave corridor to assess the overall traffic flow within the City. Dunlawton Ave and Taylor Rd west of I-95 continues to have a very high concentration of vehicle traffic, which includes numerous amounts of motorcycles. This higher concentration of motorcycle traffic on Dunlawton Ave is likely due to people traveling to and from the Cabbage Patch

PORT ORANGE POLICE DEPARTMENT

Bar on Tamoka Farms Rd in Samsula. Motorcycle traffic is consistently seen traveling east and west across the Dunlawton Ave Causeway, presumably headed to the various hotels and destinations in Daytona Beach, Daytona Beach Shores, and Ponce Inlet. During enforcement efforts conducted in the 800 block of Dunlawton Ave, which has a posted 45MPH Speed Limit, there were multiple violations for excessively high speeds. Numerous drivers were cited for speeds at or around 60MPH, one at 69MPH while passing numerous vehicles, one at 84MPH, and one at 98MPH. The Roadside Tavern had a significant amount of motorcycles in the late afternoon and evening hours on all three days that the Motor Unit worked.

While the Last Resort Bar is still a destination for many motorcyclists attending Biketoberfest, we did not see the same level of motorcyclists stopping at the Last Resort as in previous years. Based on the reduced amount of motorcycle traffic along the Ridgewood Ave corridor, and the large amount of violations addressed in the Dunlawton Ave corridor, I recommend that we continue operating in the expanded areas, while still maintaining a presence along Ridgewood Ave.

The presence of the RADAR trailer on the eastbound side of the Dunlawton Ave Causeway continues to have a positive impact in reducing speeding in the area. While this area historically has been a source of the highest speeds observed, there were only a few citations issued for speed this year. The highest speed cited on the Causeway by the Traffic Unit was 70MPH.

There were **no** known citizen calls/complaints received in regards to loud motorcycle noise.

The event was staffed with one supervisor and five motor officers who worked Thursday 10/16/14 to Saturday 10/18/14 during peak times. There were no additional officers specifically assigned to assist the Traffic Unit.

Overtime/ Special Detail hours used:

The Port Orange Police Department Traffic Unit worked a total of **33.7** hours of overtime during the event, which was 23 hours less than the approved 56.7 hours. This was due to two officers calling in sick.

Special traffic details were established at The Last Resort Bar and the First Turn Steak House, with officers working a total of **33.0** special detail hours, paid for by the businesses.

CITY COUNCIL AGENDA ITEM

REQUESTED COUNCIL MEETING DATE 12/09/2014

Consent item: Yes

SUBJECT: 2014 Annual Concurrency Management Report

DEPARTMENT: Community Development

RECOMMENDED MOTION: Accept the 2014 Concurrency Management Report, as recommended by the Planning Commission.

SUMMARY: PLANNING COMMISSION ACTION 11/20/2014: Recommended acceptance of the 2014 Concurrency Management Report

SUMMARY: Concurrency is the finding that public facilities and services necessary to support a proposed development are available, or will be made available concurrently with the impacts of a development. All Florida municipalities are required to adopt and implement concurrency management systems in accordance with State law. In addition to the individual concurrency reviews for current development proposals, this report, prepared annually, is intended to monitor the cumulative effect of all approved Development Orders and Development Permits on the capacity of public facilities. Concurrency reviews evaluate a project's impact on the following seven public facilities and services:

- Transportation
- Sanitary Sewer
- Potable Water
- Stormwater Drainage
- Solid Waste
- Recreation
- Public Schools

As indicated in the report, the public facilities and services subject to concurrency review are at sufficient levels for FY 2014/2015, with the exception of one elementary school.

Since 2011, Port Orange Elementary has exceeded the LOS standards; however, this is due to the gifted program offered at this school that draws students from outside the attendance boundary and not unplanned development. In 2012, the school district developed a plan to open a third gifted center within the Port Orange elementary schools in order to address the increase in enrollment at Port Orange Elementary, as well as the anticipated increases at Cypress Creek Elementary. With this program change it is anticipated that Port Orange Elementary will meet the LOS standard in the near future.

IV.	<u>SUMMARY AND CONCLUSIONS</u>	<u>39</u>

This 2014 Concurrency Management Report was prepared by the Community Development Department, with assistance from the Finance, Parks & Recreation, Public Utilities, and Public Works Departments and Volusia County Schools.

I. EXECUTIVE SUMMARY

Concurrency is the finding that public facilities and services necessary to support new development are available, or will be made available, by the time the impacts of development are expected to occur. As mandated by State law, all municipalities must conduct concurrency reviews on development proposals and make a finding of concurrency before any development orders or permits can be issued. Concurrency reviews evaluate a project's impact on the following seven public facilities and services:

**Transportation
Sanitary Sewer
Potable Water
Stormwater Drainage
Solid Waste
Recreation
Public Schools**

The concurrency management system for the City of Port Orange is established by policy in the City's Comprehensive Plan, and administered through regulations contained within the City's Land Development Code. The Community Development Department is responsible for regularly monitoring the cumulative effect of all approved Development Orders and Development Permits on the capacity of public facilities. In addition to the individual concurrency reviews for current development proposals, this report, prepared annually, is intended to meet this obligation.

From October 1, 2013 through September 30, 2014 the Community Development Department issued Development Orders that secured capacity reservations for 173,601 square feet of new non-residential space and 282 residential units.

In review of the City's position with respect to concurrency, the public facilities and services subject to concurrency review are at sufficient levels for FY 14/15.

- Traffic: There are no roadways operating below the adopted Level-of-Service (LOS). Traffic volumes within the City have increased on some segments and decreased on other segments over the past year. Roads on the west side of I-95 will likely experience the most traffic growth in the future. Roadway improvements are planned for the next several years to keep pace with anticipated development.
- Sanitary Sewer and Potable Water: These systems continue to have capacity to support additional growth within the City. The LOS for potable water will be monitored to ensure that permitted ground water withdrawal capacity per the Consumptive Use Permit, issued to the City by St. Johns River Water Management District, is not exceeded.
- Stormwater Drainage: The LOS is being met for all drainage facilities constructed after the late 1970's with respect to being able to treat the runoff from the 25-year, 24-hour storm without causing flooding or polluting the receiving water bodies. The City continues to identify long-term solutions and implement drainage improvements to improve the overall stormwater drainage system.

- Solid Waste: Solid waste generation rates are within the adopted LOS standard; however, the generation rates have begun to increase since 2011. There was a significant increase in residential solid waste during FY 13/14, during which there was also a decrease in recycling. The City will need to monitor the amount of residential solid waste generated to determine if this is an anomaly or the start of a trend.
- Recreation and Open Space: The LOS is being met for all recreational facilities.
- Public Schools: LOS is being met for all but one of the public schools located in the Port Orange area. Since 2011, Port Orange Elementary has exceeded the LOS standards; however, this is due to the gifted program offered at this school that draws students from outside the attendance boundary and not unplanned development. In 2012 the school district developed a plan to open a third gifted center within the Port Orange elementary schools in order to address the increase in enrollment at Port Orange Elementary, as well as the anticipated increases at Cypress Creek Elementary due to residential growth. With this program change it is anticipated that Port Orange Elementary will meet the LOS standard in the near future.

II. OVERVIEW OF CONCURRENCY MANAGEMENT

Concurrency is the finding that public facilities and services necessary to support a proposed development are available, or will be made available concurrently with the impacts of a development. All Florida municipalities are required to adopt and implement concurrency management systems in accordance with State law.

The concurrency management system for the City of Port Orange is established by policy in the City's Comprehensive Plan, and administered through regulations contained within the City's Land Development Code (LDC). Local level-of-service standards (LOS) for seven types of public facilities and services have been adopted as part of the Comprehensive Plan. During the subdivision or site plan review process, the City evaluates each proposed development for its anticipated impact on these facilities and services, and makes a finding of whether approval of the project would cause these facilities or services to drop below their adopted LOS.

In general, no final Development Orders or permits may be issued for development until there is a finding that all public facilities and services included in the City's Concurrency Management System have sufficient capacity to accommodate the impacts of the development, or that improvements necessary to bring facilities up to their adopted LOS will be in place at the same time the impacts occur. Development Orders and permits include subdivision approval, site development plan approval, and the issuance of building permits.

Public Facilities and Services Subject to Concurrency Review

Concurrency review evaluates impacts on seven types of public facilities and services:

**Transportation
Sanitary Sewer
Potable Water
Stormwater Drainage
Solid Waste
Recreation
Public Schools**

If the City's concurrency review reveals a proposed development will generate impacts that exceed available capacity, the City must secure a financial or other legally binding commitment to ensure that improvements necessary to correct the anticipated deficiency will be in place concurrent with the impacts of the proposed development. Should the City and/or the developer be unable to provide such assurances, the project must be denied. Projects denied due to a failure to meet concurrency requirements, but for which all other LDC requirements have been met, can be placed on a prioritized list for approval of Development Orders once facility improvements have been made.

Concurrency Administration

The Community Development (CD) Department is responsible for coordinating all concurrency reviews by City departments. Concurrency reviews are conducted as part of the development review process for site plans and residential subdivisions. The CD Department may also conduct non-binding concurrency reviews for developments in the pre-application or conceptual plan stage.

The CD Department is also responsible for monitoring the cumulative effect of all approved Development Orders and development permits on the capacity of public facilities. The annual Concurrency Management Report is intended to meet this obligation.

From October 1, 2013 through September 30, 2014, the CD Department conducted concurrency reviews for 13 non-residential projects and 3 residential projects. During this period, Development Orders were issued (or extended) and capacity reservations were secured for a total of 173,601 square feet of new non-residential space and 282 residential units. As of September 30, 2014, there are 439,900 square feet of non-residential space and 986 residential units that remain vested but un-built from previous years (see Exhibit 1).

Exemptions from Concurrency

Three types of development are exempt from concurrency review.

1. Vested projects with valid development orders or permits issued prior to November 1, 1990;
2. Public facilities; and
3. De minimus projects.

Development Orders for projects which meet these criteria may be issued without a finding of concurrency. However, if the proposed development will impact a public facility for which a deferral or moratorium on development has been placed, then no development orders may be issued until the deficiency is corrected.

Public facilities necessary to ensure the protection of the health, safety and general welfare of the citizens of Port Orange are exempt from concurrency review. This includes all public facility construction projects in the City's Capital Improvements Program required to maintain adopted LOS standards. This means that new public facilities, such as fire stations, are not reviewed to determine whether they will generate impacts that may negatively affect the City's level of service standards.

A de minimus development has very minimal impact, if any, on the City's adopted level of service standards set forth in the Comprehensive Plan. The following criteria are used to determine if a development is de minimus:

- Development of a single-family or two-family (duplexes) dwellings on a lot of record or un-platted parcel created before April 10, 1990 is deemed to be de minimus from all Concurrency reviews.
- Development with a daily trip generation rate of less than one percent of the maximum trip volume at the adopted level-of-service on an adjacent roadway and, on non-hurricane evacuation routes, would not cause the maximum volume to be exceeded by 110 percent is deemed de minimus for purposes of assessing transportation LOS.

- Development that does not increase the number of school-age residents beyond the district-wide LOS standards established by the Volusia County School Board is deemed de minimus for purposes of assessing school levels of service.

In addition, developments in the Port Orange Town Center Transportation Concurrency Exception Area (TCEA) are exempt from the standard vehicular transportation concurrency review requirements of the LDC. The TCEA is intended to support the redevelopment objectives of the City by providing a multi-faceted strategy for maintaining acceptable overall mobility, while minimizing the need for major road improvements that would potentially alter the desired character of the Town Center. Development within the TCEA is required to comply with the mobility strategies identified by the City to ensure continued safety and efficiency of the transportation system and to mitigate the impacts of the proposed development. Little development has occurred in the area since the TCEA was adopted, and although the exemption exists, there are no transportation concurrency issues in the area.

Vested Development

Development projects which had valid development orders or permits prior to the commencement of the City's concurrency regulations on November 1, 1990 are considered vested. This also includes all vacant single-family and two-family residential lots in subdivisions platted before that time. Lots and parcels which are vested for concurrency but have not yet been constructed or built out are considered reserved, meaning that the capacity has been reserved in the concurrency system to support their eventual construction.

When completed and occupied, the vested and reserved residential development will add approximately 2,219 new citizens to Port Orange¹. The current list of remaining vested development, as of September 30, 2014, is listed in Exhibit 1, along with the developments that have current Development Orders and capacity reservations.

¹ Average household size is 2.25, per the 2010 Census. Previous census provided average household size by housing unit type (i.e. single-family, multi-family, mobile home). As of the 2010 Census, this data is no longer provided.

Adopted Level-of-Service Standards (LOS)

The adopted level-of-service standards (LOS) for public facilities subject to concurrency are established in the City of Port Orange's Comprehensive Plan and the Land Development Code. The standards for each facility and service are indicated in Part II of this report.

Capacity Reservations

If a concurrency review for a proposed development reveals that there is sufficient capacity to support it, a Development Order will be issued and capacity is reserved. Capacity reservations are made based on the date of project approval by the Community Development Department or the City Council. Capacity reservations are made in conjunction with the issuance of a final Development Order. They are valid only for the specific land use(s), densities, intensities and construction and improvement schedules as contained on the Development Order and any applicable development agreements for the property.

The issuance of a Development Order generally reserves public facility capacity for the project for one year. For Planned Unit Developments (PUD) and Planned Commercial Developments (PCD), capacity may be reserved for the first phase of the project for up to one year from the issuance of the approval. Capacity reservations for concurrency expire when the underlying Development Order or development agreement expires or is revoked.

The City Council may also reserve public facility capacity for a particular land area or specific land use, provided it is done in accordance with a specific development or redevelopment strategy identified in the Comprehensive Plan. This would include such community development objectives as providing affordable housing or diversification of the tax base.

Development Deferrals/Moratoria

If, at any time, the City's inventory of public facilities capacities indicates that a facility has dropped below its adopted LOS, then the City will cease to issue any development orders which would impact that facility. Such a deferral will continue until the adopted LOS is reestablished through facility improvements or other methods, or the adopted LOS as established in the Port Orange Comprehensive Plan is amended to reflect a lower, acceptable community standard. If improvements to a facility are not anticipated to keep pace with the demand brought about by new development, then the City may declare a development deferral or moratorium of specified duration and/or location.

III. CURRENT CAPACITIES AND LEVEL OF SERVICE

This section of the report will look at each facility subject to concurrency. First, the facility's adopted level-of-service (LOS) will be identified. Next, the current status of the facility relative to its adopted LOS will be evaluated. Lastly, the City's ability to meet the demands of new development at adopted levels-of-service during the upcoming year will be considered and a description of projected long-term improvements is provided.

TRANSPORTATION FACILITIES

Level of Service Measures

The City evaluates LOS for concurrency review purposes based on peak-hour trips for city roads and on peak-hour and daily trips for County and State roads. The City also maintains a database to evaluate peak-hour conditions at signalized intersections within the City. This allows the City to evaluate the existing and projected LOS on roadway segments and intersections so the City can target specific improvements to maintain the intersection LOS or to make improvements for specific turning movements, if necessary.

Adopted Level-of-Service Standards

Exhibit 2 lists the currently adopted level-of-service standards for roads in the City.

Exhibit 2: Adopted Roadway Level-of-Service Standards

Administrative Facility Type	LOS Standard
Strategic Intermodal System (SIS)	C
State Arterials and non-SIS roads	D
County	E
City	E

Florida Strategic Intermodal System (SIS) Roadways - LOS "C"

In Port Orange, the sole Florida Strategic Intermodal System (SIS) roadway facility is I-95. The state mandates these roads be maintained at LOS "C" or better.

State Arterials (Non-SIS Facility) & Designated Hurricane Evacuation Routes - LOS "D"

State-maintained principal arterials and hurricane evacuation routes are designated at LOS "D". Only US 1 (Ridgewood Avenue), SR 421 (Dunlawton Avenue), SR A1A and SR 5A (Nova Road) are designated with LOS "D".

All City Roads and County Arterial and Collector Facilities - LOS "E"

The City's LOS standard for city roads and the County's LOS standard for county roads is "E".

Design Capacity and Existing Level-of-Service

Exhibit 3, "Roadway Counts, Functional Classification and LOS" indicates the design capacity and adopted levels of service of various arterial and collector roadways in the City of Port Orange, existing traffic volumes, existing level-of-service, and the percentage

change in traffic volumes between October 2012 and 2013 for state and county roads and the percentage change in traffic volumes between October 2013 and September 2014 for city roads. The capacity of roadways is based on roadway characteristics for urbanized areas described in Table 1 of the 2013 Quality Level of Service Handbook published by FDOT.

Traffic Counts and Trends

There are no roadways operating below the adopted level-of-service. During 2013 and 2014, traffic counts taken throughout the city generally indicated moderate decreases on some routes and moderate increases on others (see Exhibit 3). The volumes indicated in Exhibit 3 are presented as average daily trips. The most recent daily traffic counts available were taken in 2013 for state and county roads and in the Spring of 2014 for city streets. No state or county count data was available for 2014 at the time of this report.

State Roads

After a 4 year trend of decreasing traffic volumes, the state roadway network experienced moderate increases at most count stations between 2012 and 2013. Of the 15 state count stations, 9 showed traffic volume increases, 4 showed traffic volume decreases and 2 had no change. There was an approximately 18% increase in trips on the segment of Dunlawton Avenue from Clyde Morris Boulevard to I-95. Based on the most recent traffic counts, the volume to capacity ratio for this roadway segment is 76%. Substantial capacity remains on this roadway segment, but there are concerns with some turning movements and the general traffic pattern. Staff will continue to monitor traffic volume counts in this area. A slight drop in trips in the last analysis year occurred on the segment of I-95 south of SR 421 (Dunlawton Avenue), while a slight increase in traffic volume occurred on the segment of I-95 north of the SR 421 (Dunlawton Avenue). There was a 3.28% increase in total trips on the state network within the city (from 2012-2013).

County Roads

Traffic volumes on the county roadway network within the city indicate moderate decreases on most of the count stations and slight increases on the remaining count stations. Of the 31 county count stations, 5 showed traffic volume increases and 19 showed traffic volume decreases. There was no data for 7 of the county count stations because in 2013 the county stopped taking traffic counts on city-maintained roadways that they historically counted. These 7 roadway segments will be added to the traffic counts taken by the city during FY 14/15. There was a decrease of 3.39% in total trips on the county network (from 2012-2013).

City Roads

Of the 24 city count stations included in this analysis period, 8 showed traffic volume increases and 16 showed traffic volume decreases. Overall, there was a decrease of 6.24% on the city roadway network (from 2013-2014).

Roadways Currently Not Operating Within Adopted Level-of-Service:

At this time there are no roadways operating below the adopted level-of-service.

Public or Private Improvements to the System during the Past Fiscal Year and Its Impact on Capacity and LOS:

Roadway improvements completed this past year are listed below and indicated on Exhibit 4 (see pg. 17).

Ridgewood Avenue at Dunlawton Avenue and Ridgewood Avenue at Herbert Street

The Florida Department of Transportation began traffic operation improvements to these intersections in November 2013 and the improvement were completed in the spring of 2014. This includes adding an eastbound right turn lane at the Ridgewood Avenue and Herbert Street intersection, installing mast-arm signal poles, adding an additional northbound left turn lane at the Ridgewood Avenue and Dunlawton Avenue intersection, and adding bike lanes to Ridgewood Avenue from south of Charles Street to Church Street.

Proportionate Fair-Share Ordinance

In 2006, the City Council adopted a Proportionate Fair-Share Ordinance. The City has entered into Concurrency and Fair-Share Agreements with several developers. Projects funded through the fair-share process and the status of each of these projects is listed below. As of September 30, 2014, the City has collected \$5,514,805 in proportionate fair-share funds. This represents the reconciled final cost for four of the fair-share projects which have been completed and closed out.

- Interstate 95/SR 421 interchange area (phase 1) – ***Project Completed***
- Clyde Morris Blvd/Dunlawton Avenue intersection - ***Project Completed***
- Summer Trees Road extension- ***Project Completed***
- Devon Street/Taylor Road Intersection –***Project Completed***
- Town West Boulevard/Williamson Boulevard signal – ***Design Completed for 4-way Intersection and Construction scheduled for early 2015.***

Public or Private Improvements to the System during the Current Fiscal Year (FY 14/15) and its Impact on Capacity and LOS:

Roadway improvements programmed in the current fiscal year are listed below and are indicated on the map in Exhibit 4 on page 17.

South Williamson Boulevard/Town West Boulevard Intersection

The project will add a 4-way traffic signal at the intersection along with an associated northbound right-turn lane and drainage improvements. The project has been designed and construction is expected to start in December is expected to be completed by the end of March 2015.

The City will work with Volusia County toward developing and maintaining a coordinated signal system along Williamson Boulevard, north of Taylor Road, as a way to maximize road capacity. Volusia County has conducted a corridor-specific ARTPLAN⁴ analysis for Williamson Boulevard between Beville Road (SR 400) and Taylor Road that indicates capacity throughout the corridor is greater than indicated in the FDOT LOS tables.

Herbert Street Westbound Right Turn Lane at Clyde Morris Boulevard

This project will add a westbound right turn lane to the intersection and improve movement through the intersection, specifically for vehicles turning northbound onto Clyde Morris Boulevard. Currently vehicles have to use a shared through/right and left turn lane when turning right onto Clyde Morris Boulevard. Design and permitting is underway and the turn lane is expected to be complete by the end of December 2015.

I-95 Widening

In FY 15 FDOT will begin widening I-95 from the present four lanes to six lanes from SR 44 to just south of SR 400/I-4. This will complete the widening of I-95 to six lanes throughout the County. The project will include lengthening the entrance and exit ramps at the SR 421(Dunlawton Avenue) interchange and installing lighting at the interchange to improve safety. The project will not include widening SR 421 (Dunlawton Avenue) in the interchange area.

South Williamson Boulevard Extension

The City's Comprehensive Plan anticipates the extension of South Williamson Boulevard as a four-lane, divided roadway running generally parallel with and west of Interstate 95 from the Airport Road intersection southward to Pioneer Trail. The road is planned to continue through New Smyrna Beach to State Route 44. As part of the future Woodhaven development, the developer will be responsible for ensuring the segment that ends at Pioneer Trail is constructed. The construction of this roadway is anticipated to reduce traffic on Airport Road and improve the overall LOS on this roadway segment. The extension project is expected to begin in early 2015 and be completed by December 2015. This project is included in the TPO's 2035 Long Range Transportation Plan.

Capacities Reserved for Approved but Un-built Development:

Based on the latest traffic count data no roadway segments are operating below the adopted LOS standard. According to Exhibit 1, there are 986 vested but un-built residential units, which will generate 7,778 average cumulative daily trips.² Residential trips such as these are reserved on the City's roadway system upon being approved or obtaining vesting. A net total of 439,900 square feet of non-residential construction is also vested but un-built.

² 9.52 trips per day for each single family residential unit, 4.99 per mobile home, 5.81 per duplex or townhouse and 6.65 per multi-family unit. Source: ITE Trip Generation Manual, 9th Edition.

Future Public or Private Improvements to the System and the Impact on Capacity and LOS:

The following improvements will be made to the road network in the future and will improve capacity and LOS. Roadway improvements proposed for future years are listed below and are indicated on the map in Exhibit 4 on page 17.

Taylor Road west of Summer Trees Road

The County completed an alignment study of this segment that recommended widening from Summer Trees Road to Spruce Creek Boulevard (Spruce Creek Fly-in entrance). The County completed the final design plans in March 2012 for the widening from Summer Trees Road to Forest Preserve Boulevard; however, construction has not been scheduled due to lack of funding. The City will be coordinating with the County to secure right-of-way along this segment as development occurs. This project is included in the TPO's 2035 Long Range Transportation Plan.

Williamson Boulevard (Town West Boulevard to north City Limits)

Long-term improvements will need to be programmed for the northerly segments of Williamson Boulevard north of the Pavilion at Port Orange Shopping Center upon further development of the Planned Community Westside. By widening this segment, the capacity at the adopted LOS will increase from between 16,700 and 20,300 daily trips to 33,030 daily trips. This project is included in the TPO's 2035 Long Range Transportation Plan.

Yorktowne Boulevard Extension (North)

The developer for a multi-family zoned property on the south side Willow Run Boulevard, east of Williamson Boulevard is responsible for constructing a segment of the northern Yorktowne Boulevard extension as part of the site improvements for that development. The extension will be a four-lane road extending from Willow Run Boulevard to the southern property line of the project. Development of this multi-family project has not progressed and the timing of the roadway construction is currently unknown.

The design has also been completed for the central segment of the northern Yorktowne Boulevard extension, located southeast of the B-19 canal crossing to Hidden Lake Drive. The City paid for the design of this segment and is working with the adjacent property owners to fund construction.

Collector Road Connections

Additional traffic volume is anticipated to be placed on Taylor Road and Williamson Boulevard (north of Taylor Road) by future developments. The City has planned a network of collector roads west of I-95 that will be constructed in phases as development occurs within the Planned Community Westside. These roads will be dedicated to the City as public roads.

- Coraci Boulevard will connect Town West Boulevard and the Madeline Avenue extension.
- Coraci Boulevard is planned to extend south from Town West Boulevard along the

west side of Crane Lakes PUD to Carmody Lakes Drive (Forest Lake Preserve Subdivision).

- McGinnis Avenue will link Williamson Boulevard and the Madeline Avenue extension near the Town Center area of the Planned Community Westside.
- Proposed collector Road “D” will run from east to west and connect McGinnis Avenue with Coraci Boulevard between Town West Boulevard and Madeline Avenue.

Bikeway/Pedestrian Improvements during the Past Fiscal Year:

Community Development Block Grant (CDBG) Area Sidewalk Gaps

The sidewalk project, completed in May 2014, filled gaps in the existing sidewalk network (10,227 linear feet/1.94 miles) and improved access to Port Orange Elementary School, the Adult Activity Center and other areas in the older portions of Port Orange located west of US 1, east of the FEC Railway and south of Dunlawton Avenue.

Future Bikeway/Pedestrian Improvements

The City is proceeding with several improvements to the bikeway/pedestrian network. Many of these improvements were identified in recent Safe-Routes-to-Schools studies developed in conjunction with the Volusia Transportation Planning Organization. These projects will improve the bicycle and pedestrian levels of service in areas in close proximity to schools, parks, and mobile home parks. Projects being constructed, designed or considered for immediate funding include:

- Spruce Creek Road sidewalk (west side) from Taylor Road to Central Park Boulevard – ***Construction to begin in early 2015.***
- Victoria Gardens Boulevard sidewalk from Appleview Way to Clyde Morris Boulevard – ***Design to begin in 2015***
- McDonald Road sidewalk from 6th Street to Sugar House Drive - ***Design to begin in 2015***
- Walk light improvements along Dunlawton Avenue – ***Awaiting funding***
- Spruce Creek Road sidewalk (east and west sides) from Nova Road to Angelina Court – ***Awaiting funding***
- Riverwalk shared use path/trail from Ocean Avenue to Dunlawton Avenue - ***Awaiting funding***

SANITARY SEWER

The Port Orange Sanitary Sewer System serves the City of Port Orange, Daytona Beach Shores, Ponce Inlet (wholesale), and other unincorporated areas of East Volusia County. The Port Orange collection system contains 110 standard public and 44 private pump stations and 26 “grinder” stations and an estimated 341 miles of pipeline. The collectors range in size from 8” to 30” and transmit flow back to the City’s treatment plant through a series of force mains and relatively shallow interceptors.

Adopted Level-of-Service Standard:

Residential consumption is 160 gallons per day per Equivalent Living Unit (ELU) and Commercial consumption is 1/10 gallon per sq. ft. per day of commercial, industrial, or institutional development.

Design Capacity of the Wastewater Treatment Plant and Existing LOS:

The Florida Department of Environmental Protection (FDEP) has permitted the Wastewater Treatment Plant with a maximum capacity of 12.0 million gallons per day (MGD). According to the Public Utilities Department, the present total number of sewer connections is 24,750, and the number of permitted ELU’s connected to the system is 44,476. The Wastewater Treatment Plant currently has a committed capacity of 7.12 MGD, based on FDEP permits for development. Using the City’s LOS figure of 160 gallons per ELU, the Wastewater Treatment Plant is capable of providing service to 75,000 ELU’s. Therefore, the sanitary sewer system capacity is sufficient to serve the current committed ELU’s (see Exhibit 5).

Exhibit 5: Capacity of the Wastewater Treatment Plant

	MGD*	ELU**
Maximum Capacity	12.0	75,000
Committed Capacity	7.12	44,476
Remaining Capacity	+4.88	+30,524

*MGD - Million Gallons per Day

**ELU - The water usage equivalent to one single-family dwelling.

Source: Port Orange Public Utilities Department, October 2014 and DEP Waste Treatment Plant Permit Application.

As indicated in Exhibit 6 and 7 (see next page), the wastewater generation rates had been generally decreasing from 2000 to 2011 while the City’s population was increasing, but has begun to increase slightly since 2012. However, there was a slight decrease in 2014. The increase prior to the current year could be attributed to increased infiltration of stormwater or ground water into the collection pipes, the decrease in some water conservation programs (e.g. City provision of low-flow showers heads), and the slight increase in population.

Exhibit 6 presents a summary of the actual wastewater generation throughout the entire service area since 2000 and the projections through 2025. The projections are based on

population projections in the Comprehensive Plan that was developed in 2006, prior to the recession that began in 2008. Based on the current economic conditions, the City is not anticipating to actually achieve growth at this rate, especially in the short-term.

Exhibit 6: Wastewater Generation

YEAR	AVERAGE DAILY FLOW
2000 (actual)	7.76 MGD
2001 (actual)	6.70 MGD
2002 (actual)	6.95 MGD
2003 (actual)	6.16 MGD
2004 (actual)	5.72 MGD
2005 (actual)	5.40 MGD
2006 (actual)	5.35 MGD
2007 (actual)	5.40 MGD
2008 (actual)	5.40 MGD
2009 (actual)	5.54 MGD
2010 (actual)	5.53 MGD
2011 (actual)	5.46 MGD
2012 (actual)	5.70 MGD
2013 (actual)	6.32 MGD
2014 (actual)	6.21 MGD
2015 (projected)	7.00 MGD
2020 (projected)	7.50 MGD
2025 (projected)	8.00 MGD

Exhibit 7 presents a comparison between the average daily flow and the City's population since 2000.

Exhibit 7: Average Daily Flow Compared to Population Growth

Source: Port Orange Public Utilities Department, October 2014. DEP Waste Treatment Plant Permit Application.

Capacities Reserved for Approved but Unbuilt Development and its Impact on Capacity and LOS:

It is possible to determine the per capita demand for sanitary sewer generated by reserved and vested development, given the generation rate, the future population, and the non-residential building square footage involved. According to Exhibit 1, the vested and reserved capacity includes the volume needed for 986 residential units and 439,900 SF of gross leasable non-residential space. Given a per capita generation rate of 160 gallons per day per ELU for residential and 1/10 gallon per square foot of gross building area for non-residential development, the vested and reserved development could increase the total demand by 201,750 gallons per day (0.20 MGD). Therefore, sufficient capacity exists for the vested development indicated in Exhibit 1. In addition, further demand may also be generated by growth within the service area outside of the City limits.

Reclaimed Water:

Reclaimed water is derived from wastewater that has been collected and treated and is safe to be placed back into the environment. Previously, reclaimed water was discharged into the Halifax River; however, in the early 1990's the City began to distribute reclaimed water to residents and business for irrigation. Therefore, the use of reclaimed water for irrigation reduces the amount of treated wastewater discharged into the Halifax River and reduces the amount of potable water used for irrigation.

The number of metered reclaimed water accounts within the City has continued to increase over the years with the present total number of reclaimed water accounts at 7,383 (see Exhibit 8).

Exhibit 8: Number of Reclaimed Accounts

Source: City of Port Orange Finance Department, October 2014

The continued increase in reclaimed demand is due to the following factors:

- The City requirement that developers install service connections and connect to reclaimed water lines, where available.
- Potable water irrigation meters are no longer issued.

The City currently has beneficial use of and continues to construct a 175-acre retention system, located on the Central Recharge Wellfield property (see Exhibit 9), which consists of two lakes. The lakes are used to store excess reclaimed water during the wetter parts of the year and then help to supplement the system during dry periods of the year. Phase 1 of this project (75-acres) was completed in 2006 and work on Phase 2 is on-going. Phase 2 includes an expansion for additional overflow storage, which will add approximately 90 million gallons of storage volume by allowing water to be stored to a higher elevation.

Exhibit 9: 175-acre Retention System at the Central Recharge Wellfield

Proposed Public or Private Improvements to the System in the Current Fiscal Year and its Impact on Capacity and LOS:

Funds permitting, the Public Utilities Department has planned for the construction of the Williamson Boulevard Regional Lift Station. This lift station will be located north of the Sawgrass Point subdivision at the City's storage tank property and serve as a re-pumping station for current and future development located south of Taylor Road and west of I-95. The new pump station is needed for improved functioning of the system and to provide increased capacity for future planned developed (such as the Woodhaven development).

Potable Water

The Port Orange water utility currently serves the following areas:

- City of Port Orange
- City of Daytona Beach Shores (south of Thames Avenue)
- Town of Ponce Inlet (wholesale account)
- Wilbur-By-The-Sea (unincorporated area)
- Other non-designated unincorporated areas

Adopted Level-of-Service Standard:

- (1) Consumption :
 - Residential is 180 gallons per day per ELU
 - Commercial, industrial, or institutional development is 1/10 gallon per sq. ft. per day
- (2) System Minimum Pressure : 20 pounds per square inch during fire flow
- (3) Storage Provided: 50% of peak daily flow
- (4) Well Capacity: Peak day flow with two wells out of service
- (5) Norm. Operating Pressure: 60-70 pounds per square inch (psi)
- (6) Water Plant Capacity: Adequate for peak daily; three-year lead-time for planned expansion
- (7) High Service Pumping: Peak hour with largest pump out of service
- (8) Water Quality: Meet State/Federal drinking water standards

Design Capacity of Potable Water Treatment Facilities, Consumptive Use Permit, and Existing LOS:

The Garnsey Water Treatment Plant provides the City with a water quality supply that meets all applicable State and Federal standards. The plant was constructed in 1981 and has undergone two upgrades since that time. The plant currently has a capacity of 15.0 MGD and consists of four high-service fixed-speed pumps and two variable-speed pumps that provide adequate water supply to all portions of the service area.

There are two concurrency measures related to potable water: plant capacity and water supply capacity. Regarding plant capacity, there are presently 28,111 potable water connections, equivalent to 38,826 ELUs (Equivalent Living Unit). Based on an LOS standard of 180 gallons per ELU, the capacity currently committed is 6.99 MGD. Therefore, the Water Treatment Plant capacity is sufficient (15.0 MGD) to serve the current number of ELUs at current peak flow rates (see Exhibit 10).

Exhibit 10: Remaining Capacity at the Garnsey Water Treatment Plant

	MGD*	ELU**
Maximum Plant Capacity	15.00	83,333
Committed Capacity	6.99	38,826
Remaining Capacity	8.01	44,507

*MGD- Million Gallons Per Day

**ELU - The water usage equivalent to one single-family dwelling.

Source: Port Orange Public Utilities Department, October 2014

The second measure is water supply capacity. While the City has the technical capability to pump up to 15 million gallons per day from its wells, the Consumptive Use Permit (CUP) issued by the St. John's River Water Management District limits how much water the city can actually pump out of the ground. The CUP is a 20-year permit that was issued in 2002 and will expire in 2022. The 2015 permitted average daily groundwater withdrawal is 8.38 MGD and the maximum permitted peak day withdrawal is 12.57 MGD. The maximum groundwater withdrawal permitted by the CUP in years 2021 and 2022 is 13.46 MGD.

Exhibit 11 shows the actual average and peak daily flow in 2014 and the permitted average and peak daily flow allowed by the CUP in 2015. Based upon this measure, the City is below the maximum water withdrawal allowed by the CUP.

Exhibit 11: Permitted and Actual Average Daily Flow and Peak Flow

	2014	2015
Permitted Average Daily Flow	8.25 MGD	8.38 MGD
Actual Average Daily Flow	5.77 MGD	N/A
Permitted Peak Daily Flow	12.38 MGD	12.57 MGD
Actual Peak Daily Flow	7.05 MGD	N/A

MGD- Million Gallons per Day

Source: Port Orange Public Utilities Department, October 2014

As indicated in the graph in Exhibit 12, the increase in average daily flow has correlated with population growth. From 2008 to 2010 and then again from 2011 to 2012, the average daily flow increased slightly while the City's population has generally been constant. There has been a decrease in demand since 2013 although there was a slight increase in population.

Exhibit 12: Average Daily Flow Compared to Population Growth

Source: Port Orange Public Utilities Department, October 2014

Existing Potable Water Storage Capabilities:

During times of peak flow, portions of the service area, primarily on the barrier island, are subject to greatly increased water demands. Demand requirements are met by ground storage tanks located at the north and south ends of Peninsula Avenue. When demand subsides, water is no longer pumped from the storage tanks and they are refilled to normal operating levels. This allows the peak flow requirements to be met efficiently, so that demand at the treatment plant remains fairly constant. The adopted LOS standard for water storage is 50% of average daily flow. With an average daily flow of 5.77 MGD in 2014, the LOS standard water storage volume would be 2.89 MGD. Present potable water storage facilities for the Port Orange system can accommodate 4.50 MG. Therefore, the City has sufficient surplus storage capacity to support new development.

Existing Minimum Water Pressure:

The existing water pressure fluctuates from an absolute low of 40 psi (non-fire flow) to a high of 70 psi with the normal operating pressure being between 60 and 70 psi. The system's minimum pressure during fire flow³ is presently 20 psi, which also meets the City's adopted LOS standards. Therefore, the water pressure meets the adopted LOS.

Existing Well Capacities:

The City has two well fields; The Central Recharge Well Field and the Eastern Well Field, with a cumulative water production capacity of approximately 11.5 MGD (see Exhibit 13):

- The Central Recharge Well Field (Western Well field) is located west of the City, south of I-4 and is the primary source of the City's potable water supply (approximately 70%). This well field contains 27 wells.
- The Eastern City Well Field is located off Clyde Morris Boulevard and contains 13 secondary wells. These wells supply approximately 30% of the total flow.

Exhibit 13: Location Map of the City's Well Field Sites

³ Fire flow is the quantity of water measured in gallons per minute (gpm) that is needed to extinguish a fire involving a particular building, block, area or material.

Exhibit 14 shows the number of wells needed to supply the raw water peak daily flow demand in 2014. The number of wells required includes an allowance for two wells out of service, which is within the adopted LOS standard.

Exhibit 14: Raw Water Supply Wells Required for the Port Orange Service Area

Year	Permitted Peak Day Demand	# of Wells Required*	Wells Available	Excess (+) or Deficiency
2015	12.57 MGD	24	40	16

* Average output for each well is 0.527 MGD

Source: Port Orange Public Utilities Department, October 2014

Capacities Reserved for Approved but Unbuilt Development and its Impact on Capacity and LOS:

According to Exhibit 1, the vested and reserved capacity includes the volume needed for 986 residential units and 439,900 SF of gross leasable non-residential space. Given a consumption rate of 180 gallons per day per ELU and 1/10 gallon per square foot of gross building area for non-residential development, the vested and reserved development could increase the total demand by 221,470 gallons per day (0.22 MGD). Therefore, sufficient capacity exists for the vested development indicated in Exhibit 1. In addition, further demand may also be generated by growth within the water service area outside of the City limits.

Proposed Public Improvements to the System in the Current Fiscal Year and its Impact on Capacity and LOS:

No capacity improvements are anticipated during FY 14/15.

STORMWATER DRAINAGE

For the purpose of stormwater management, the City is divided into 13 drainage basins, with each basin divided into a number of sub-basins. The City has utilized both structural and non-structural elements to accomplish the objective of controlling the volume, rate of flow, and pollutant load of post-development runoff. Retention and detention basins are structural elements designed to remove pollutants, attenuate post-development discharge in well-drained areas, and encourage percolation and retention of discharge volume. The City is also implementing non-structural methods of flood-damage mitigation, such as increased regulation of development in flood-prone areas through participation in the National Flood Insurance Program and purchasing flood-prone areas for use as green space.

Adopted Level-of-Service Standard:

The City's adopted level-of-service (LOS) standard for stormwater management is the 25-year, 24-hour storm event. The City adopted this LOS standard in the late 1970's. Since the late 1970's, all drainage facilities must be able to treat the runoff from the 25-year, 24-hour storm without causing flooding or polluting the receiving water bodies. Additionally, the City requires that the post-development 100-yr, 24-hour storm event peak discharge from a given piece of property does not exceed the 100-yr, 24-hour pre-development peak flow.

Existing Level-of-Service:

Drainage facilities that were constructed after the LOS for stormwater management was adopted are operating at the adopted LOS standard. The City maintains the existing LOS by regulating the effects of future development, maintaining the existing system, and creating capital improvement projects targeting older areas of the City built prior to LOS requirements.

The City's Land Development Code provides minimum standards for stormwater management to control runoff, reduce water-borne pollution, preserve critical water resources, facilitate recharge of the aquifer, and prevent erosion, sedimentation and flooding. This is accomplished by requiring stormwater management permits for new developments to ensure they meet or exceed the minimum LOS standard, responding to citizen complaints, and coordinating with other jurisdictions to identify areas in need of improvements within the Port Orange system.

Public or Private Improvements to the System during the Past Fiscal Year and Impacts on Capacity and LOS:

Staff continued to perform ongoing maintenance of the drainage system including street sweeping, removal of sediment from inlets and pipes, ditch maintenance (including mowing, cleaning, restoration and seeding and plant removal), slip-lining aging clay and metal pipes, and erosion repairs.

SR 421 (Dunlawton) Drainage Improvements: The improvements involve the addition of a weir structure in the Halifax Canal, additional retention and a pump station.

Construction grants were obtained from the Florida Department of Transportation (FDOT) and the Florida Department of Environmental Protection (FDEP). Construction began in January 2013 and was complete in February 2014. These improvements are intended to reduce the likelihood of Dunlawton Avenue, a primary hurricane evacuation route, from being flooded and impassable during a significant rainfall event.

GIS Mapping: In FY13, City Council approved funding to create a GIS database of the City's existing stormwater system. Work began on the GIS database in January 2013 and is anticipated to be completed by Spring 2015. This will provide a digital inventory of the City's existing drainage system infrastructure, and provide an essential tool for prioritizing future drainage system rehabilitation projects. It will also provide a tool for mapping potential pollutant loading and drainage-basin specific discharges, a regulatory requirement of the National Pollutant Discharge Elimination System (NPDES) program.

Proposed Public Improvements to the System in the Current Fiscal Year and Impacts on Capacity and LOS:

In various sections of the City, existing storm drainpipes will be evaluated and, if needed, the pipes will be lined to prevent failure and to extend the life of the pipe. Other ongoing maintenance of the drainage system will include street sweeping, removal of sediment from inlets and pipes, ditch maintenance, and erosion repairs.

Drainage Pipe Rehabilitation: Multiple city-wide locations (e.g. the Hamlet, Brandy Hills, Cambridge) were identified in the Capital Improvements Program (CIP) to slip-line aging clay and metal pipes, thus extending the useful life of these pipes. This is an ongoing multi-year project.

Cambridge Canal Improvements: Located in the southeast quadrant of Volusia County, the Cambridge Canal conveys drainage from over 1,400 acres within the City of Port Orange. Residential neighborhoods encompass nearly the entire basin, and the area has a history of severe flooding. The September 2004 hurricanes dropped more than 15 inches of rainfall on the Cambridge Canal Basin. As a result, over 200 homes were reported to have had water above the finished floor elevation.

After a thorough analysis, the City implemented conveyance upgrades to address drainage issues and the tidal influences of the Halifax River. Following construction of the improvements, Port Orange experienced an extreme storm event in May 2009 when the City received over 30 inches of rainfall over a five day period. The Cambridge improvements performed well with the exception of a section of the canal which could not keep up with the flow coming into the canal. Several homes were flooded in the area upstream due to the canal's limited conveyance capacity.

The City is correcting this conveyance deficiency by widening and hardening the Cambridge Canal's banks for a ±5,000 feet length to alleviate flooding upstream due to the narrow canal. Grant funding was received from the State of Florida for the first phase of a two or more phase project. The Phase 1 improvements span the distance from the Spruce Creek Road culvert to the Trailwood Drive bridge where it enters the

retention pond area and were completed in June 2014. In September 2014, the City received approximately 8 inches of rainfall within 12 hours and no homes were flooded in the Cambridge area.

The Phase 2 improvement to the canal will span from Taylor Road to Spruce Creek Road. Plans have been completed and ready to go out for bid by the end of 2014. The Phase 2 improvements are expected to be completed by 2016. The improvements consist of widening and hardening the canal banks and improving the existing pump station by installing an automatic debris rake that can be set up to operate and remove storm debris from the inlet of the pump station. During storm events, City crews were hand clearing the debris that had blocked the screen at the inlet of the pump station during dangerous high wind periods. The City would like to reduce the probability of an accident and upstream flooding due to a blocked pump station by installing the automatic rake. The installation of the debris rake is part of the second phase of the project.

Gladys White Acres Storm/Sanitary Improvements: City Staff from multiple departments are evaluating the potential for stormwater management and sanitary sewer improvements to the Gladys White Acres subdivision, an area bounded by Spruce Creek Road to the east, Dahlford Road to the west, Newton Road on the north and Renner Road on the south. Portions of the area qualify for the use of Community Development Block Grant (CDBG) funding.

City's Stormwater Master Plan Update:

The City's Stormwater Master Plan was created in 1990, but has not been updated on a city-wide basis since. Objective 1, Policy 1.1 of the Comprehensive Plan Drainage Sub-Element indicates the City shall update the drainage plan every five years. While updates have been prepared for specific basins, the system as a whole has not been re-examined since 1990 when the plan was first created. The update is schedule to begin in early 2015 and will identify corrective measures to alleviate existing deficiencies in the system and proactively plan new improvements needed to accommodate future development. It will help prioritize spending for future capital drainage projects. This is necessary to ensure that level-of-service standards for stormwater drainage are maintained.

Other Stormwater Programs:

National Pollutant Discharge Elimination System (NPDES): The City is currently in the second year of the third five year permit cycle. The Total Maximum Daily Loads (TMDL) program is part of the statewide Watershed Management Program (WMP) administered by the Florida Department of Environmental Protection (FDEP). The program is based on a five-phase cycle that rotates through Florida's basins. The five phases are: Initial Base Assessment, Coordinated Monitoring, Data Analysis and TMDL Development, Basin Management Plan Development, and Implementation of Basin Management Plan.

FEMA Community Rating System (CRS): The City is an active participant in the Federal Emergency Management Agency (FEMA) Community Rating System (CRS) program. Through participation with FEMA in administering the CRS, the City maintains and

supervises an overall floodplain management program that is intended to preserve the function of the floodplain within Port Orange. Participation in the program provides property owners with enhanced flood protection and information in compliance with FEMA guidelines. The community's designation is a 'Class 7', which means all residents within the City that currently carry FEMA flood insurance for their properties in the Special Flood Hazard Area (SFHA) qualify to receive a 15% discount on their annual FEMA flood insurance policy premium. In addition, the City participates in the Volusia County Local Mitigation Strategy (LMS) for flood control. The LMS provides a mitigation action plan that identifies areas within the city that have drainage issues that would benefit from engineered improvements.

SOLID WASTE DISPOSAL

Adopted Level-of-Service (LOS) Standard:

The City's collection standard is 1,350 residential units per curbside collection crew, per day, and a weight standard of 3.21 lbs. per capita, per day for residential; and 10 lbs. per 1,000 square feet of non-residential development per day.

The amount of solid waste generated by individuals is not something that the City can directly control; however, the City can promote recycling programs to inform residents about the benefits of reducing the amount of waste generated. There is no concurrency review for trash collection; however, the City's ability to collect and dispose of this waste is subject to concurrency review. As long as the City has sufficient financial resources to pay for private waste collection and room is available at the landfill, the City will have fulfilled its obligation to ensure that its waste is collected and disposed, regardless of the LOS standard.

Design Capacity of Solid Waste Disposal Facilities and Existing LOS:

The City of Port Orange is currently in a five-year contract (2011 to 2016) with Waste Pro to provide solid waste collection services to residents. The contract provides residents with four weekly pick-ups: two for garbage, one for recyclables, and one for yard waste. The residential and commercial solid waste collected is transported to the Volusia County Tomoka Farms Road Landfill. The capacity at the landfill is projected to be sufficient to accommodate waste from Volusia County until the year 2050. The waste collection numbers for residential and commercial customers are shown in Exhibit 15.

Exhibit 15: Residential and Commercial Waste Generation Figures (FY13/14)

	Residential	Commercial ⁴	Residential and Commercial
Solid Waste	2.95 lb. per capita, per day	1.05 lb. per capita, per day	4.00 lb. per capita, per day
Recycled Items	0.29 lb. per capita, per day	0.10 lb. per capita, per day	0.39 lb. per capita, per day
Yard Waste	0.97 lb. per capita, per day	0.34 lb. per capita, per day	1.31 lb. per capita, per day
Total	4.21 lb. per capita, per day	1.49 lb. per capita, per day	5.70 lb. per capita, per day

Source: Public Works Department, City of Port Orange, October 2014

Based on the waste collection numbers for residential and commercial customers (estimated population 57,476) from October 1, 2013 through September 30, 2014, each person in Port Orange generated on average 4.00 pounds of solid waste, 0.39 pounds of recycled items, and 1.31 pounds of yard waste every day. There was a significant increase in residential solid waste during FY 13/14 from 1.94 pounds per capita per day to 2.95 pounds. However, the FY 13/14 residential solid waste figure is still below the residential LOS standard of 3.21 pounds.

⁴ The amount of commercial recyclable items and yard waste was determined by interpolating the proportion of residential recyclable items and yard waste to the total amount of residential waste disposed.

As indicated in Exhibit 16, the amount of solid waste generated was decreasing from 2005 to 2010, but has begun to increase since 2011. Over this time period, the City's population has been generally constant. The increase in solid waste generated during 2004 and 2005 was due to the additional waste created from the three hurricanes that affected the City. There was no significant event that can be attributed to the increase in residential solid waste generation during FY 13/14. The City will need to monitor the amount of solid waste generated to determine if this is an anomaly or the start of a trend.

Exhibit 16: Solid Waste Collected Compared to Population Growth

Source: Public Works Department, City of Port Orange, October 2014

Capacities Reserved for Approved but Unbuilt Development and its Impact on Capacity and LOS:

The capacity reservations for vested and approved development identified in Exhibit 1 represent approximately 2,219 additional people and 439,900 square-feet of non-residential development. When all residential and commercial projects noted in Exhibit 1 are built, the amount of waste is estimated to increase by approximately 2,103 tons per year. The capacity at the landfill is projected to be sufficient to accommodate waste from Volusia County until the year 2050.

Proposed Public Improvements to the System in the Current Fiscal Year and its Impact on Capacity and LOS:

No significant changes in solid waste collection are anticipated during FY 14/15.

RECREATION AND OPEN SPACE

During FY 13/14, the following improvements were made to existing parks or facilities:

- The skate park was renovated, including new slopes, grind rails and one bowl was redesigned into two bowls.
- All Children's Park was expanded to include three new play apparatus for children of all abilities, new surfacing and landscaping was added, and a new splash pad installed.
- The north baseball field at Spruce Creek Road Park was renamed as L. Gale Lemerand Field and renovated to accommodate baseball for children 13 and up. The renovations included: increasing the depth of the field from 300' to 400', enlarging the base paths to 90', converting the infield from clay to grass, re-sodding the field, and installing new lighting, fencing, and a backstop.
- The scoreboards at the City Center sports complex were replaced.
- Lights were installed for the multipurpose field at Coraci Park.
- The pool deck at the YMCA was renovated and new heaters were installed for the pool.

Exhibit 17: All Children's Park Renovation and L. Gale Lemerand Field

Adopted Level-of-Service Standards:

<u>FACILITY</u>	<u>UNIT OF MEASURE</u>
Parkland	7 acres per 1,000 persons
Ball Fields	1 field per 5,000 persons
Basketball Courts	1 court per 4,000 persons
Multipurpose Fields	1 field per 3,500 persons
Tennis Courts	1 court per 4,000 persons
Neighborhood Centers	1 facility per 15,000 persons

Existing Recreational Facilities and Levels of Service:

The existing acreage of parkland and the number of recreational facilities within the City are identified in the inventory in Exhibit 18 and the status of the recreational facility levels-of-service capacities are outlined in Exhibit 19.

Exhibit 18: Recreational Facility Table

Multipurpose Fields	17 fields	25	+8 fields
Tennis Courts	15 courts	22	+7 courts
Neighborhood Centers	4 centers	9	+5 centers

Notes:

* Estimated City Population = 57,467 based on University of Florida Bureau of Economic and Business Research, and anticipated population increases (2,219) from vested and reserved development. Total population to be served = 59,686

** Refer to Exhibit 18, Recreation Facilities Inventory, for individual facility listings.

Sources: Parks and Recreation Department and Community Development Department, October 2014

Capacities Reserved for Approved but Unbuilt Development and Its Impact on Capacity and LOS:

According to the University of Florida Bureau of Economic and Business Research (BEBR), the 2014 estimated City population is 57,467. Anticipated population increases from vested and reserved residential development is approximately 2,219, which equals a total population to be served of 59,686. As indicated in Exhibit 19, the City is not deficient in any of the recreational facilities categories for the current population or additional population from vested and reserved development.

Proposed Public and Private Improvements to Recreation Facilities in the Current Fiscal Year and its Impact on Capacity and LOS:

The following improvements are planned for FY 14/15:

- *Phase 1A and 1B of Riverwalk Park* – Phase 1A (north of the Chamber of Commerce building) will consist of a kayak/canoe launch, a trailhead and restroom building, and boardwalk. Phase 1B (north of Ocean Avenue) which is anticipated to be completed in late 2015, will have parking, a splash pad and playground, an event lawn, a restroom building, shade structures, picnic pavilions, a boardwalk overlook, historical/educational signage, and an iconic feature. Phase 2 and 3 are planned for design and construction in future years.

- *Coraci Park* – Construct a 2nd multi-purpose field with lights.
- *Soccer Fields* – Re-level and re-sod the soccer fields at City Center Sports Complex and Southwinds Park.
- *Scoreboard Replacement* – Replace the scoreboard for the north field (L. Gale Lemerand Field) at Spruce Creek Road Park.
- *YMCA* – Purchase new fitness equipment and renovate the men’s locker room and lobby restroom.
- *New Passive Park* – Construct a new passive park on Ridgewood Avenue at the former site of the old Dusk to Dawn motel (4545 Ridgewood Avenue).

SCHOOLS

Adopted Level-of-Service Standard:

The uniform, district-wide LOS standards are as follows:

- Elementary: 115% of permanent FISH⁵ capacity for the concurrency service area
- K-8: 115% of permanent FISH capacity for the concurrency service area
- Middle: 115% of permanent FISH capacity for the concurrency service area
- High: 120% of permanent FISH capacity for the concurrency service area
- Special Purpose Schools: 100% of permanent FISH capacity for each school

Public or Private Improvements to the System during the Past Fiscal Year and Its Impact on Capacity and LOS:

The school district did not have any capital (capacity-related) projects scheduled in last year's five-year work plan. This is a result of significant decreases in capital revenues.

Existing Facilities:

Exhibit 20 details existing public school facilities operated by the Volusia County School Board within the City's municipal boundaries. For elementary and middle schools, the Concurrency Service Areas (CSAs) are the respective school attendance boundaries. High schools are grouped into five larger CSAs that reflect student movement between schools at this level.

The high schools located in Port Orange are part of the Halifax Planning Area CSA. All of the high schools in this CSA are shown since the LOS standard is applied to the entire CSA. So, although Spruce Creek High School is at 127% utilization, the Halifax Planning Area CSA for high schools still meets the adopted LOS of 120%.

As shown in Exhibit 20, one elementary school within Port Orange currently exceeds the LOS standards, Port Orange Elementary. School District analysis shows this to be the result of the gifted program that draws students from outside the attendance boundary, and not a result of unplanned residential growth. The school district developed a plan to open a third gifted center within the Port Orange elementary schools in order to address the increase in enrollment at Port Orange Elementary, as well as the anticipated increases at Cypress Creek Elementary due to residential growth. The 2013/14 school year started with three gifted centers in the Port Orange elementary schools, Port Orange Elementary, Cypress Creek Elementary and now, Horizon Elementary. This addition required the feeder pattern for the gifted programs to be changed. Students zoned for Sweetwater Elementary, Spruce Creek Elementary and Horizon Elementary now receive gifted services at Horizon Elementary⁶. Generally when the school district changes an attendance boundary, it allows the rising 5th

⁵ **FISH – Florida Inventory of School Houses.** An official inventory report of all district-owned facilities.

⁶ Gifted Feeder Pattern Changes: Sweetwater Elementary came out of Cypress Creek Elementary; Spruce Creek Elementary and Horizon Elementary came out of Port Orange Elementary.

graders, and their siblings, to remain at their currently enrolled school. It is anticipated that Port Orange Elementary will be meeting the LOS standard in the near future.

Student Enrollment Trends

Between school year 2007-08 and 2012-13 the Volusia County School District, along with many other school districts in Florida, experienced an unprecedented decline in student enrollment. According to the Volusia County School District, the decline has been attributed to the economic recession and the result of families with school aged children moving out of the area in search of employment and an overall decline of immigration (new people moving here). During school year 13/14 and 14/15, the Volusia County School District has experienced an increase in its student enrollment. This, along with other economic indicators, may signify that the decline in enrollment has ceased. School district staff is looking closely at its enrollments and other economic indicators prior to releasing student projections.

Proposed Public and Private Improvements to School Facilities in the Current Fiscal Year and its Impact on Capacity and LOS:

There are no capital (capacity-related) projects in the current School District five-year work plan for schools located in Port Orange. The current five-year work plan primarily includes dollars programmed for major renovations at various schools throughout the district. Next year's five-year work plan (FY15/16 – 19/20) will reflect the voter approved half cent sales tax extension.

Exhibit 20: PORT ORANGE PUBLIC SCHOOL ENROLLEMENT & CAPACITY SUMMARY REPORT

(Student enrollment projections were not provided this year by the School District for years 2015/16 through 2017/18)

IV. SUMMARY AND CONCLUSIONS

Staff finds all public facilities and services subject to concurrency review are at sufficient levels for FY 14/15. As new development and redevelopment occurs, the level of service will to be addressed along with the monitoring of all City facilities and services to ensure capacity is available.

There are no roadways operating below the adopted Level-of-Service (LOS). Traffic volumes within the City have increased on some segments and decreased on other segments over the past year. Roads on the west side of I-95 will likely experience the most traffic growth in the future. Roadway improvements are planned for the next several years to keep pace with anticipated development.

Sanitary sewer and potable water system capacity exists to support additional growth within the City. The City's Consumptive Use Permit (CUP) limits how much water can actually be withdrawn from the aquifer. As new development and redevelopment occurs, the level of service for potable water will be monitored to ensure that permitted capacity as provided for in the City's CUP is not surpassed.

The stormwater LOS requirement continues to be met. The City will continue to identify long-term solutions to improve the overall performance of the drainage system.

Solid waste generation rates are within the adopted LOS standard; however, the generation rates have begun to increase since 2011. There is no concurrency review for trash collection; however, the City's ability to collect and dispose of this waste is subject to concurrency review. As long as the City has sufficient financial resources to pay for private waste collection and room is available at the landfill, the City will have fulfilled its obligation to ensure that its waste is collected and disposed, regardless of the LOS standard.

The amount of solid waste generated by individuals is not something that the City can directly control; however, the City can promote recycling programs to inform residents about the benefits of reducing the amount of waste generated.

The adopted LOS is being met for all recreational facilities. There are surpluses for each recreation facility that will meet the adopted LOS through the planning horizon (2025).

LOS is being met for all but one of the public schools located in the Port Orange area. At this time, Port Orange Elementary exceeds the LOS standards; however, this is due to the gifted program offered at this school that draws students from outside the attendance boundary and not unplanned development. A third gifted program was added to the Port Orange area elementary schools (Horizon). With this addition, the school district anticipates Port Orange Elementary meeting the LOS standard in the near future.

CITY COUNCIL AGENDA ITEM

REQUESTED COUNCIL MEETING DATE 12/09/2014

Consent item: Yes

SUBJECT: Piggyback State Contract for Purchase of Cisco Networking Equipment

DEPARTMENT: Administrative Services

RECOMMENDED MOTION: Move approval of the purchase of Cisco networking equipment from CDW-G Inc., in an amount not to exceed \$79,668 using Florida State Contract #4322000-WSCA-14-ACS.

SUMMARY: City services are becoming increasingly dependent on 24/7/365 connectivity to the internet to provide expected citizen service results. The backbone of this connectivity is the City's core fiber optic network switch. This device interconnects every facility on the City's fiber optic ring and manages the routing of data between each workstation, server, and wireless device on the entire municipal network. The existing core network switch was purchased in 2005 for \$69,653 and is nearing end-of-life culminating in 2015 when the manufacturer will no longer provide support or maintenance.

IT staff worked with several Cisco Networking engineers to identify and develop specifications for the replacement device. As shown in the attached proposal, the equipment recommended by staff for purchase should not exceed \$79,668. The configuration, installation and management of said equipment will be performed entirely in-house by IT staff who are certified to perform such work.

Staff has also negotiated with the vendor, CDW-G Inc., to obtain a trade-in credit on the depreciated equipment being replaced. This credit, in the amount of \$2,580.97, has already been applied to the existing quotation. This amount is significantly higher than what could be expected from an auction or other form of asset disposal.

FL State Contract #4322000-WSCA-14-ACS is a participating addendum specifically for the purchase of Data Communications Products & Services led by the Western States Contracting Alliance for use by state agencies. This contract is valid through May 31, 2019.

This purchase is part of capital project ZMI050 'IT Core Switch Replacement' which was approved by City Council as part of the FY14 capital budget. The decision to delay this project until FY15 was made due to the end-of-life date of the equipment being deferred until 2015 by the manufacturer. This project is fully funded out of account #505-1000-519.64-15.

CITY OF PORT ORANGE
(State of Florida Contract Piggyback)

Eligible User ¹:	City of Port Orange, Florida
Department:	Administrative Services / Information Technology Division
State Contract Number:	4322000-WSCA-14-ACS
State Contract Description:	Data Communications Products & Services
State Contract Contractor:	Cisco Systems, Inc.
Contractor's Authorized Dealer:	CDW Government
Commodity or Service:	Information Technology Hardware
State Contract Term:	6/1/2014 – 5/31/2019
Piggyback Term:	Sixty (60) days from date of approval
Does the State Contract term expire before the end of the City's Fiscal Year?	Yes ☐ No ☒
Amount of Expenditure:	\$82,248.80
Contract Administrator:	James Hicks – Information Technology Manager
Department Head:	Donna Steinebach – Administrative Services Director
Signature:	
Date Signed:	November 13, 2014

[CA ____]

¹ Eligible User(s) include all governmental agencies. Governmental agency means any local government, or any department, commission, agency, or other instrumentality thereof. 287.042(21)(c), Florida Statutes.

PARTICIPATING ADDENDUM
WSCA-NASPO COOPERATIVE PURCHASING ORGANIZATION
DATA COMMUNICATIONS PRODUCTS AND SERVICES 14-19
Administered by the State of Utah (hereinafter "Lead State")

MASTER AGREEMENT
Cisco Systems, Inc.
Master Agreement No: AR233
(hereinafter "Contractor")

And

[State of Florida Alternate Contract Source Number 43220000-WSCA-14-ACS]
(hereinafter "Participating State/Entity")

Page 1 of 12

1. Scope: This addendum covers the Data Communications Products and Services 14-19 contracts led by the State of Utah for use by state agencies and other entities located in the Participating **State/Entity** authorized by that state's statutes to utilize **state/entity** contracts with the prior approval of the state's chief procurement official.

2. Participation: Use of specific WSCA-NASPO cooperative contracts by agencies, political subdivisions and other entities (including cooperatives) authorized by an individual state's statutes to use **state/entity** contracts are subject to the prior approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the State Chief Procurement Official.

3. Participating State Modifications or Additions to Master Agreement:

(These modifications or additions apply only to actions and relationships within the Participating Entity.)

A. Eligible Users

State agencies and other eligible users (hereinafter collectively referred to as "Eligible Users" or an "Eligible User") may make purchases from this Agreement pursuant to the terms and conditions of the Contract as modified and supplemented herein.

B. Changes and Additions to the Contract

1. Upon execution of this Alternate Contract Source (ACS) agreement, the Department of Management Services (Department) and all Eligible Users may purchase products and services under the WSCA-NASPO contract No. 7wn2002 for Data Communications Equipment & Services, Exhibit A.
2. The Department and Eligible Users acknowledge and agree to be bound by the terms and conditions of Exhibit A, except as otherwise specified in this ACS.
3. The following are modifications to Exhibit A.

PARTICIPATING ADDENDUM
WSCA-NASPO COOPERATIVE PURCHASING ORGANIZATION

- a. Prices: The prices of the ACS are set forth in the attached Exhibit B, "State of Florida Price List," and are incorporated herein.
- b. PUR 1000 Form: The Department Purchasing Form PUR 1000 is attached hereto and incorporated herein as Exhibit C.
- c. Discriminatory Vendors. An entity or affiliate placed on the discriminatory vendor list pursuant to section 287.134 of the Florida Statutes may not:
 - submit a bid on a contract to provide any goods or services to a public entity;
 - submit a bid on a contract with a public entity for the construction or repair of a public building or public work;
 - submit bids on leases of real property to a public entity;
 - be awarded or perform work as a contractor, supplier, sub-contractor, or consultant under a contract with any public entity; or
 - transact business with any public entity.
- d. Effective Date: The ACS shall become effective on the last date signed below and is coterminous with Exhibit A, unless terminated earlier by the Department. Exhibit A specifies the term as June 1, 2014 through May 31, 2019 with no renewal options identified.
- e. Vendor Registration and Transaction Fees: In order to complete any transaction between a Buyer and the Vendor, the Vendor must be registered with the Department of State, Division of Corporations (www.sunbiz.org) and in [MyFloridaMarketPlace](#). Section 287.042(1)(h), Florida Statutes, and Rule 60A-1.031, Florida Administrative Code, is hereby incorporated by reference. All transactions are subject to a transaction fee pursuant to the rule.
- f. Orders: In order to procure products and services hereunder, Eligible Users shall issue purchase orders or use a Purchasing Card which shall reference this ACS. Eligible Users are responsible for reviewing the terms and conditions of this ACS

and Exhibit A. Neither the Department nor WSCA-NASPO is a party to any purchase order issued hereunder.

- g. **Compliance with Laws:** The Contractor shall comply with all laws, rules, codes, ordinances, and licensing requirements that are applicable to the conduct of its business, including those of federal, State, and local agencies having jurisdiction and authority. By way of non-exhaustive example, Chapter 287 of the Florida Statutes and Rule 60A-1 of the Florida Administrative Code govern the ACS. By way of further non-exhaustive example, the Contractor shall comply with section 274A of the Immigration and Nationalization Act, the Americans with Disabilities Act, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. Violation of any laws, rules, codes, ordinances, or licensing requirements shall be grounds for Contract termination or nonrenewal of the contract.
- h. **Other Eligible Users:** If any additional ordinance, rule, or other local governmental authority requires additional contract language before an Eligible User can make a purchase from the ACS referenced above, in lieu of this ACS, the Eligible User is responsible for signing a separate contract with the Contractor, capturing that additional contract language.
- i. **Provisions of section 287.058, Florida Statutes:** The provisions of section 287.058(1)(a)-(c) and (g), Florida Statutes, are hereby incorporated by reference.
- j. **Public Records:** If, under this contract, the Contractor is providing services and is acting on behalf of the Department as provided under subsection 119.011(2), Florida Statutes, the Contractor, subject to the terms of paragraph 287.058(1)(c), Florida Statutes, and any other applicable legal and equitable remedies, shall:
 - (a) Keep and maintain public records that ordinarily and necessarily would be required by the Department in order to perform the service.
 - (b) Provide the public with access to public records on the same terms and conditions that the Department would provide the records and at a cost that does

not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Meet all requirements for retaining public records and transfer, at no cost, to the Department all public records in possession of the Contractor upon termination of the contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the Department in a format that is compatible with the information technology systems of the Department.

The Department may unilaterally cancel this Contract for refusal by the Service Provider to comply with this section by not allowing public access to all documents, papers, letters, or other material made or received by the contractor in conjunction with the contract, unless the records are exempt from s. 24(a) of Article I of the State Constitution and subsection 119.07(1).

- k. The State of Florida's performance and obligation to pay under this contract is contingent upon an annual appropriation by the Legislature. The vendor shall comply with section 11.062, Florida Statutes and section 216.347, Florida Statutes, prohibiting use of funds to lobby the Legislature, Judicial, or state agencies.

C. Contract Number

All purchase orders issued by Eligible Users within the State of Florida shall include the Department of Management Service's contract number, 43220000-WSCA-14-ACS, unless otherwise provided by Florida Law, statute, rule or this ACS. State agencies will not be required to submit an ACS form for purchases related to this ACS.

D. Contract Document

This ACS and its Exhibits set forth the entire agreement between the parties with respect to the subject matter of this ACS. The terms and conditions of this ACS and its exhibits shall prevail and govern in the case of any such inconsistent or additional terms.

E. Event of Dispute

In the case of an ambiguity which requires extrinsic evidence to determine the intent of the parties, the following documents shall have priority in the order set forth below:

1. This Participating Addenda
2. Exhibit B, State of Florida Price List
3. Exhibit C, PUR 1000
4. Exhibit A, State of Utah WSCA-NASPO Agreement 7wn2002, Data Communications Equipment & Services
5. Exhibit D, Preferred Pricing Affidavit

F. Intellectual Property

The parties do not anticipate that any intellectual property will be developed as a result of this ACS. However, any intellectual property developed as a result of this ACS will belong to and be the sole property of the Eligible User. This provision will survive the termination or expiration of the ACS.

G. Employment Eligibility Verification

Pursuant to State of Florida Executive Orders Nos.: 11-02 and 11-116, Contractor is required to utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment of all new employees hired by the Contractor during the ACS term. Also, Contractor shall include in related subcontracts a requirement that subcontractors performing work or providing services pursuant to the state ACS utilize the E-Verify system to verify employment of all new employees hired by the subcontractor during the ACS term.

H. State of Florida Price List

The Contractor shall provide, as Exhibit B, to the Department's Contract Administrator (Participating Entity Contact) a copy of the product and services price list, which shall be posted on the Department's website. If the Contractor's price list will be the same as the WSCA-NASPO price list, the Contract must advise the Contract Administrator and the Department will post a link on the Department's website to the price list posted on the WSCA-

NASPO website. Contractors are encouraged to provide special pricing and/or tiered discount rates applicable to State of Florida Eligible Users wherever possible.

I. Preferred Price Affidavit Requirement

The Department will provide the Preferred Pricing Affidavit, incorporated by reference as the attached Exhibit D, for completion by an authorized representative of the Contractor attesting that the Contractor is in compliance with the best pricing provision in Section 4(b) of the PUR 1000 form. The Contractor agrees to submit to the Department, at least annually, the completed Preferred Pricing Affidavit.

J. Scrutinized Company List

In executing this ACS, Contractor certifies that it is not listed on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to section 215.473, Florida Statutes. Pursuant to subsection 287.135(5), Florida Statutes, Contractor agrees the Department may immediately terminate this ACS for cause if the Contractor is found to have submitted a false certification or if Contractor is placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List during the term of the ACS.

K. Ordering Instructions

The focus is to direct the Eligible User with the proper method of purchasing the goods and/or services awarded based on direction from the Eligible User and previous experience with such commodities.

1. The Contractor agrees to meet the following requirements:

- a. Provide appropriate contact information for Eligible Users to use for product and/or service inquiries and purchases, as well as the most up-to-date product/service offering the Contractor is authorized to provide in accordance with the statewide contract; and
- b. If orders are to be sent to resellers or distributors for fulfillment then the Contractor is responsible for providing this list of authorized resellers or

distributors for use; and

c. The accuracy of this information must be maintained by Contractor throughout the duration of the ACS; and

2. Contractor must be able to accept Purchase Orders (PO) via fax, e-mail, or cXML as identified in L.1 below.

L. Electronic Invoicing

The Contractor shall supply electronic invoices in lieu of paper-based invoices for those transactions processed through the MFMP within ninety (90) days from contract effective date. Electronic invoices shall be submitted to the agency through the Ariba Supplier Network (ASN) in one of three mechanisms as listed below:

1. cXML (commerce eXtensible Markup Language)
This standard establishes the data contents required for invoicing via cXML within the context of an electronic environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog goods and services. The cXML format is the Ariba preferred method for e-Invoicing.
2. EDI (Electronic Data Interchange)
This standard establishes the data contents of the Invoice Transaction Set (810) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog goods and services.
3. PO Flip via ASN
The online process allows Contractors to submit invoices via the AN for catalog and non-catalog goods and services. Contractors have the ability to create an invoice directly from their Inbox in their AN account by simply "flipping" the PO into an invoice. This option does not require any special software or technical capabilities.

For the purposes of this section, the Contractor warrants and represents that it is

authorized and empowered to and hereby grants the State and the third party provider of MFMP, a state contractor, the right and license to use, reproduce, transmit, distribute, and publicly display within the system the information outlined above. In addition, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider the right and license to reproduce and display within the system the Contractor's trademarks, system marks, logos, trade dress, or other branding designation that identifies the products made available by the Contractor under the ACS.

The Contractor will work with the MFMP management team to obtain specific requirements for the electronic invoicing upon contract award.

M. Contract Quarterly Reports

Each Contractor shall submit a Quarterly Report in the required format electronically to the Department Contract Manager within 30 days of the end of the quarter. The Department reserves the right to require the Contractor to provide additional reports within 30 days written notice. Failure to provide the Quarterly Report or other reports requested by the Department may result in the Contractor being found in default and may result in termination of the ACS.

Initiation and submission of the Report are the responsibility of the Contractor without prompting or notification by the Contract Manager.

Sales will be reviewed on a quarterly basis. Should no sales be recorded in two consecutive contract quarters, the Department may terminate the contract.

N. Business Review Meetings

The Department reserves the right to schedule business review meetings as frequently as necessary. The Department will provide the format for the Contractor's agenda. Prior to the meeting, the Contractor shall submit the completed agenda to the Department for review and acceptance. The Contractor shall address the agenda items and any of the Department's additional concerns at the meeting. Failure to comply with this section may result in the Contractor being found in default and contract termination.

O. Commitment to Diversity in Government Contracting

The State of Florida is committed to supporting its diverse business industry and population through ensuring participation by minority-, women-, wartime-, and service-disabled veteran business enterprises in the economic life of the State. The State of Florida Mentor Protégé Program connects minority-, women-, wartime-, and service-disabled veteran business enterprises with private corporations for business development mentoring. We strongly encourage firms doing business with the State of Florida to consider this initiative. For more information on the Mentor Protégé Program., please contact the Office of Supplier Diversity at (850) 487-0915 or osdhelp@dms.myflorida.com.

Upon request, the Contractor shall report to the Department spend with certified and other minority business enterprises. These reports will include the period covered, the name, minority code and Federal Employer Identification Number of each minority vendor utilized during the period. Commodities and services provided by the minority business enterprise, and the amount paid to each minority vendor on behalf of each purchasing agency ordering under the terms of this Contract.

P. Subcontractors

The contractor may use a subcontractor in order to provide adequate network infrastructure equipment and services. All subcontractors shall be the direct responsibility of the Contractor that entered into such subcontract. The Contractor is responsible for all liability, terms and conditions within the contract. If a subcontractor is authorized to conduct business on behalf of the Contractor and the subcontractor is to receive compensation from the Contractor for its services, then any dispute between the Contractor and the subcontractor shall be resolved between the Contractor and the subcontractor. The State of Florida is not a party to any agreement entered into between the Contractor and its subcontractor(s). The Contractor shall be responsible to report all contract sales (and pay any associated MFMP transaction fees), including those of any such subcontractors and shall ensure that all such subcontractors meet the following requirements:

- Have an ACTIVE Registration with the Department of State, Division of Corporations (www.sunbiz.org)

Q. Warrant of Authority

Each person signing this Participating Addendum warrants that he or she is duly authorized to do so and to bind the respective party.

4. Lease Agreements: Agencies may lease equipment through alternative financing arrangements other than through the State of Florida Consolidated Equipment Financing Program (CEFP). This option is governed by sections 287.063 and 287.064, Florida Statutes, and Rule 69I-3, Florida Administrative Code. The Department of Financial Services (DFS) Finance and leasing Section will review proposed leases to determine compliance with all requirements and to ensure leases are economical and cost effective. The Contractor and Eligible User (working together) will be required to complete and submit to DFS the Checklist – Approval to Lease Equipment form. A copy of the form may be found at the DFS website: <http://www.myfloridacfo.com/Division/AA/Forms/default.htm>

Prior approval of the Chief Financial Officer (as defined in Section 17.001, Florida Statutes) is required for State agencies to enter into or to extend any lease or installment-purchase agreement in excess of the Category Two amount established by section 287.017 of the Florida Statutes. All State agencies are urged to review the Chief Financial Officer's latest memorandum addressing leases and deferred-payment purchases of equipment when considering the leasing or purchasing of equipment. DFS memos can be found at: <http://www.myfloridacfo.com/Division/AA/Memos/default.htm>.

ATTACHMENT A

WSCA-NASPO Master Agreement Terms and Conditions

1. AGREEMENT ORDER OF PRECEDENCE:

The Master Agreement shall consist of the following documents:

1. A Participating Entity's Participating Addendum ("PA");
2. WSCA-NASPO Master Agreement Terms and Conditions (the "Agreement" or "Master Agreement");
3. The Statement of Work;
4. The Solicitation; and
5. Contractor's response to the Solicitation.

These documents shall be read to be consistent and complementary. Any conflict among these documents shall be resolved by giving priority to these documents in the order listed above. Contractor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to this Master Agreement as an Exhibit or Attachment. No other terms and conditions shall apply, including terms and conditions listed in the Contractor's response to the Solicitation, or terms listed or referenced on the Contractor's website, in the Contractor quotation/sales order or in similar documents subsequently provided by the Contractor.

2. AMENDMENTS The terms of this Master Agreement shall not be waived, altered, modified, supplemented or amended in any manner whatsoever without prior written approval of the WSCA-NASPO Contract Administrator.

3. ASSIGNMENT/SUBCONTRACT Contractor shall not assign, sell, transfer, subcontract or sublet rights, or delegate responsibilities under this contract, in whole or in part, without the prior written approval of the WSCA-NASPO Contract Administrator, which approval will not be unreasonably withheld or delayed.

Notwithstanding the foregoing, Contractor may, with prior written consent from Participating States, which consent shall not be unreasonably withheld, enter into subcontracts with third parties as "Fulfillment Partners." Fulfillment Partners are Subcontractors who may provide products and services under this Master Agreement at the price discounts established in this Master Agreement and bill Purchasers directly for such products and services.

4. CANCELLATION The Master Agreement may be canceled by either party upon 60 days notice, in writing, prior to the effective date of the cancellation. Further, any Participating State may cancel its participation upon 30 days written notice, unless otherwise limited or stated in the special terms and conditions of this solicitation. Cancellation may be in whole or in part. Any cancellation under this provision shall not effect the rights and obligations attending orders outstanding at the time of cancellation, including any right of and Purchasing Entity to indemnification by the Contractor, rights of payment for goods/services delivered and accepted, and rights attending any warranty or default in performance in association with any order. Cancellation of the Master Agreement due to Contractor default may be immediate.

On termination, all accounts and payments will be processed according to the financial arrangements set forth herein for products delivered and/or approved services rendered to date of termination.

Rights upon Termination or Expiration

1. Upon termination or expiration of this Master Agreement or a Participating Addendum, (a) Contractor reserves the right to cease all further delivery of product or services, and (b) all outstanding invoices become due and payable within thirty (30) days of termination. If Contractor agrees to complete delivery of any further products or services due against any existing accepted Purchase Orders, then Customer shall pay for such products or services in advance within thirty (30) days.
2. Except for a termination of this Master Agreement or a Participating Addendum resulting from Customer's breach of Contractor's proprietary rights and software licensing, Confidential Information, or Export, Re-Export, Transfer and Use Controls, upon termination or expiration of this contract, Customer may continue to use, in accordance with the terms and conditions of this contract and/or the Participating Addendum, products provided to it by Contractor prior to the date of termination or expiration provided (1) payment has been made in full for such products and (2) license rights allow for such continued use.
3. In the event of any termination pursuant to this section, and unless otherwise required by law or court of competent jurisdiction, Customer shall remain obligated to comply in perpetuity with the provisions of Contractor's Software License terms, and Confidential Information.

5. CONFIDENTIALITY, NON-DISCLOSURE AND INJUNCTIVE RELIEF

5.1 Confidentiality. Each party acknowledges that it and its employees or agents may, in the course of dealing under this Master Agreement, be exposed to or acquire information that may be deemed confidential. Any and all information of any form that is marked as confidential or would by its nature be deemed confidential obtained by the receiving party or its employees or agents (the "Receiving Party") in the performance of this Master Agreement, including, but not limited to, the following "Confidential Information": (a) any Participating Entity records, (b) personnel records, and (c) information concerning individuals, is confidential information of the disclosing party (the "Disclosing Party"). Any reports or other documents or items (including software) that result from the use of the Confidential Information shall be treated in the same manner as the Confidential Information. Confidential Information does not include information that (a) is or becomes (other than by disclosure by the Disclosing Party) publicly known; (b) is furnished by the Disclosing Party to others without restrictions similar to those imposed by this Master Agreement; (c) is rightfully in the Receiving Party's possession without the obligation of nondisclosure prior to the time of its disclosure under this Master Agreement; (d) is obtained from an independent source without the obligation of confidentiality, (e) is disclosed with the written consent of Participating Entity or; (f) is independently developed by employees, agents or subcontractors of either party who can be shown to have had no access to the Confidential Information.

Neither party shall disclose the Confidential Information to any third party, except that the receiving party may disclose Confidential Information to its employees, subcontractors, or Affiliates' employees and subcontractors only: (a) on a "need to know" basis, (b) consistent with the objectives of this Master Agreement, and (c) pursuant to separate written non-disclosure terms that contractually obligate such employees and subcontractors to maintain the confidentiality of the Confidential Information.

Notwithstanding termination of this Master Agreement as described herein, the obligations of the Receiving Party with respect to Confidential Information received prior to termination shall continue for three (3) years from the date the Confidential Information was received.

Customer agrees that aspects of the Software and associated documentation, including the specific design and structure of individual programs, constitute trade secrets and/or copyrighted material of Contractor.

5.2 Non-Disclosure. The Receiving Party shall hold Confidential Information in confidence, using at least the industry standard of confidentiality, and not to copy, reproduce, sell, assign, license, market, transfer or otherwise dispose of, give, or disclose Confidential Information to third parties or use

Confidential Information for any purposes whatsoever other than the performance of this Master Agreement, and to advise each of its employees and agents of their obligations to keep Confidential Information confidential. The Receiving Party shall use commercially reasonable efforts to assist the Disclosing Party in identifying and preventing any unauthorized use or disclosure of any Confidential Information. Without limiting the generality of the foregoing, the Receiving Party shall advise the Disclosing Party immediately if the Receiving Party learns or has reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of this Master Agreement and the Receiving Party shall at its expense cooperate with the Disclosing Party in seeking injunctive or other equitable relief in the name of the Disclosing Party against any such person. Except as directed by the Disclosing Party, the Receiving Party will not at any time during or after the term of this Master Agreement disclose, directly or indirectly, any Confidential Information to any person, except in accordance with this Master Agreement, and that upon termination of this Master Agreement or at the Disclosing Party's request, the Receiving Party shall turn over to the Disclosing Party all documents, papers, and other matter in the Receiving Party's possession that embody Confidential Information. Notwithstanding the foregoing, the Receiving Party may keep one copy of such Confidential Information necessary for quality assurance, audits and evidence of the performance of this Master Agreement.

5.3 Injunctive Relief. The parties acknowledge that breach of this Section, including disclosure of any Confidential Information, may cause irreparable injury to the Disclosing Party that is inadequately compensable in damages. Accordingly, the Disclosing Party may seek injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available. The Receiving Party acknowledges and agrees that the covenants contained herein are necessary for the protection of the legitimate business interests of Participating Entity and are reasonable in scope and content.

6. DEBARMENT The contractor certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. If the contractor cannot certify this statement, attach a written explanation for review by WSCA-NASPO.

7. DEFAULTS & REMEDIES

a. The occurrence of any of the following events shall be an event of default under this Master Agreement:

- i. Nonperformance of contractual requirements; or
- ii. A material breach of any term or condition of this Master Agreement; or
- iii. Any representation or warranty by Contractor in response to the solicitation or in this Master Agreement proves to be untrue or materially misleading; or
- iv. Institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Contractor, or the appointment of a receiver or similar officer for Contractor or any of its property, which is not vacated or fully stayed within thirty (30) calendar days after the institution or occurrence thereof; or
- v. Any default specified in another section of this Master Agreement.

b. Upon the occurrence of an event of default, the non-defaulting party shall issue a written notice of default, identifying the nature of the default, and providing a period of 60 calendar days in which the defaulting party shall have an opportunity to cure the default. The non-defaulting party shall not be required to provide advance written notice or a cure period and may immediately terminate this Master Agreement in whole or in part if the non-defaulting party, in its sole discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. Time allowed for cure shall not diminish or eliminate the defaulting party's liability for damages, to the extent provided for under this Master Agreement.

Participating Addendum: If either party to a Participating Addendum (including the Lead State when acting in its sovereign capacity under this Master Agreement) materially breaches any of the provisions of a Participating Addendum, the non-breaching party may terminate the Participating Addendum as follows: (a) immediately upon providing written notice to the breaching party if the breach is not capable of being

cured, and (b) thirty (30) calendar days after providing written notice to the breaching party if the breaching party fails to cure such breach within such thirty (30) calendar day period. Notwithstanding the foregoing, a Participating Addendum may be terminated immediately by Contractor for cause in the event of Purchaser's breach of the provisions relating to Software License or Confidential Information.

The cure periods stated in the above paragraphs shall not apply to any failure(s) to perform that result from the willful or negligent acts or omissions of the aggrieved party.

c. If Contractor is afforded an opportunity to cure and fails to cure the default within the period specified in the written notice of default, Contractor shall be in breach of its obligations under this Master Agreement and Lead State shall have the right to exercise any or all of the following remedies:

- i. Exercise any remedy provided by law; and
- ii. Terminate this Master Agreement and any related Contracts or portions thereof; and
- iii. Suspend Contractor from receiving future bid solicitations; and
- iv. Suspend Contractor's performance; and
- v. Withhold payment until the default is remedied.

d. In the event of a default under a Participating Addendum, a Participating Entity shall provide a written notice of default as described in this section and have all of the rights and remedies under this paragraph regarding its participation in the Master Agreement, in addition to those set forth in its Participating Addendum.

8. DELIVERY

8.1 After receipt and acceptance by Contractor of Customer's Order(s), Contractor will use commercially reasonable efforts to ship all direct orders designated for shipment to U.S. locations within thirty (30) days for all products. Please note that the following circumstances may affect lead times: (i) new products purchased within the first three (3) months of release of the product which are subject to Contractor's then current published lead-times, (ii) third-party stand-alone products which are not a component of equipment resold by Contractor, (iii) end-of-life products where the termination of the product has been announced by Contractor, (iv) products which have been line-stopped due to software discrepancies, reconfiguration, industry-wide product shortages, or alleged infringement claims, or (v) situations where government rated orders create delays in lead-times.

Notwithstanding the foregoing, at any time when Customer states "expedite" on an order or otherwise communicates to Contractor that an order is to be expedited, Contractor shall use all commercially reasonable efforts to ensure the earliest possible delivery of such products.

8.2 Contractor will communicate scheduled shipping dates in the order acknowledgement and/or on www.cisco.com within three (3) business days after receipt of an electronic order on www.cisco.com, provided, however, that in the event such notification is not received in this time period, Customer shall notify Contractor of the non-receipt, and Contractor's sole obligation with respect to such non-receipt shall be to promptly provide the information to the Customer after such notification.

8.3 If Contractor has reason to believe that the actual shipment date will occur later than the original shipment date acknowledged by Contractor for reasons caused by Contractor, Contractor shall use commercially reasonable efforts to promptly provide additional information to Customer including by electronic posting of the expected period of delay and, upon request, of the steps available, if any, to minimize the delay. If the extended delivery date is anticipated to be more than thirty (30) calendar days beyond the originally scheduled delivery date, the parties will work in good faith to resolve any ordering issues pursuant to the order escalation process.

8.4 Shipping terms are FOB destination, shipping and handling prepaid by Contractor. The method of shipment shall be consistent with the nature of the products and hazards of transportation. Title and risk of loss shall pass to Customer upon delivery.

8.5 If Customer requests delivery of products to Customer's forwarding agent or other representative, Customer assumes responsibility for compliance with applicable export laws and regulations.

8.6 Contractor is not liable for damage or penalty for delay in delivery or for failure to give notice of delay. Contractor shall not have any liability in connection with product shipment other than as set forth in this Section.

All sales are final. Except as provided in Contractor's Limited Warranty, Contractor only permits the return of un-opened products due to Contractor's shipping or order processing error, or damage in transit. No other returns are authorized under this Master Agreement. Warranty returns will not be subject to any restocking charges.

9. FORCE MAJEURE Neither party to this Master Agreement shall be held responsible for delay or default caused by including, but not limited to, fire, riot, acts of God and/or war which is beyond that party's reasonable control. WSCA-NASPO may terminate this Master Agreement after determining such delay or default will reasonably prevent successful performance of the Master Agreement.

The obligations and rights of the excused party shall be extended on a day-by-day basis for the time period equal to the period of the excusable delay. When payments are delayed solely due to a force majeure event, late fees with respect to such payment will not accrue during the period of such force majeure event.

10. GOVERNING LAW This procurement and the resulting agreement shall be governed by and construed in accordance with the laws of the state sponsoring and administering the procurement. The construction and effect of any Participating Addendum or order against the Master Agreement(s) shall be governed by and construed in accordance with the laws of the Participating Entity's State. Venue for any claim, dispute or action concerning an order placed against the Master Agreement(s) or the effect of a Participating Addendum shall be in the Purchasing Entity's State.

11. INDEMNIFICATION

Each party to this Agreement shall defend, indemnify, and hold harmless the other, its corporate affiliates and their respective officers, directors, employees, and agents and their respective successors and assigns from and against any and all claims, losses, liabilities, damages, and expenses (including, without limitation, reasonable attorneys' fees), including without limitation those based on contract or tort, arising out of or in connection with a claim, suit, or proceeding brought by a third party based upon bodily injury (including death) or damage to tangible personal property (not including lost or damaged data) arising from the negligent or intentional acts or omissions of the indemnifying party or its subcontractors, or the officers, directors, employees, agents, successors, and assigns of any of them. In the event that the indemnified party's or a third party's negligent or intentional acts or omissions contributed to cause the injury or damage for which a claim of indemnity is being asserted against the indemnifying party hereunder, the damages and expenses (including, without limitation, reasonable attorneys' fees) shall be allocated or reallocated, as the case may be, between the indemnified party, the indemnifying party, and any other party bearing responsibility in such proportion as appropriately reflects the relative fault of such parties, or their subcontractors, or the officers, directors, employees, agents, successors, and assigns of any of them, and the liability of the indemnifying party shall be proportionately reduced.

The foregoing indemnification obligations are conditioned upon the indemnified party promptly notifying the indemnifying party in writing of the claim, suit, or proceeding for which the indemnifying party is obligated under this Subsection, cooperating with, assisting, and providing information to, the indemnifying party as reasonably required, and granting the indemnifying party the exclusive right to defend or settle such claim, suit, or proceeding; provided that any such settlement or compromise includes a release of the indemnified party from all liability arising out of such claim, suit or proceeding.

12. INDEMNIFICATION – INTELLECTUAL PROPERTY

12.1 Contractor will have the obligation to defend any claim, action, suit, or proceeding ("IPR Claim") brought against Purchaser so far as it is based on a claim that any product supplied under this Master Agreement infringes Third Party IPR (as defined below). Contractor will indemnify Purchaser against any final judgment entered in respect of such an IPR Claim by a court of competent jurisdiction and against any settlements arising out of such an IPR Claim.

Contractor's obligations to defend the IPR Claim and indemnify the Purchaser are conditional upon:

- 12.1.1 Purchaser notifying Contractor promptly in writing of the IPR Claim or threat thereof;
 - 12.1.2 Purchaser giving Contractor full and exclusive authority for the conduct of the defense and settlement of the IPR Claim and any subsequent appeal; and
 - 12.1.3 Purchaser giving Contractor all information and assistance reasonably requested by Contractor in connection with the conduct of the defense and settlement of the IPR Claim and any subsequent appeal.
- 12.2 For the purposes of this Master Agreement, "Third Party IPR" means a United States copyright existing as at the date of order or a United States patent issued as at the date of order.
- 12.3 If an IPR Claim has been made, or in Contractor's reasonable opinion is likely to be commenced, Purchaser agrees to permit Contractor, at its option and expense, either to: (a) procure for Purchaser the right to continue using the product; (b) replace or modify the product so that it becomes non-infringing; or (c) immediately terminate both parties' respective rights and obligations under this Master Agreement with regard to the product, in which case Purchaser will return the product to Contractor and Contractor will refund to Purchaser the price originally paid by Purchaser to Contractor for the product, as depreciated or amortized by an equal annual amount over three (3) years from date of original shipment.
- 12.4 Notwithstanding the foregoing, Contractor has no liability for, and Purchaser will defend and indemnify Contractor against, any IPR Claim arising from:
- 12.4.1 the combination, operation, or use of a product supplied under this Master Agreement with any product, device, or software not supplied by Contractor;
 - 12.4.2 a Claim that asserts damages based upon the amount or duration of use which Purchaser makes of the product, revenue earned by Purchaser from services it provides which utilize the product, or services offered by Purchaser to external or internal customers;
 - 12.4.3 the alteration or modification of any product supplied under this Master Agreement from and after the date such product is so supplied and such alteration or modification is not made by Contractor;
 - 12.4.4 Contractor's compliance with Purchaser's designs, specifications, or instructions; or
 - 12.4.5 Purchaser's use of the product after Contractor has informed Purchaser of modifications or changes in the product required to avoid such an IPR Claim if the alleged infringement would have been avoided by implementation of Contractor's recommended modifications or changes.

THIS SECTION STATES THE ENTIRE OBLIGATION OF CONTRACTOR AND ITS SUPPLIERS, AND THE EXCLUSIVE REMEDY OF PURCHASER, IN RESPECT OF ANY INFRINGEMENT OR ALLEGED INFRINGEMENT OF ANY INTELLECTUAL PROPERTY RIGHTS OR PROPRIETARY RIGHTS. THIS INDEMNITY OBLIGATION AND REMEDY ARE GIVEN TO PURCHASER SOLELY FOR ITS BENEFIT AND IN LIEU OF, AND CONTRACTOR DISCLAIMS, ALL WARRANTIES, CONDITIONS, AND OTHER TERMS OF NON-INFRINGEMENT WITH RESPECT TO ANY PRODUCT.

Limitation of Liability. Except for those obligations under Intellectual Property Infringement, General Indemnity, notwithstanding anything else herein, all liability of Contractor and its suppliers to any Participating Entity for claims arising under this Agreement, the applicable Participating Addendum, or otherwise shall be limited to Three Million Dollars (\$3,000,000). This limitation of liability is cumulative and not per incident.

Waiver of Consequential and Other Damages. In no event shall Contractor or its suppliers be liable for any incidental, special, indirect, or consequential damages, or lost or damaged data (except for a loss of

Purchaser data caused by Contractor's negligence), arising in tort (including negligence), or otherwise, even if Contractor or its suppliers have been informed of the possibility thereof.

13. INDEPENDENT CONTRACTOR The contractor shall be an independent contractor, and as such shall have no authorization, express or implied to bind WSCA-NASPO or the respective states to any agreements, settlements, liability or understanding whatsoever, and agrees not to perform any acts as agent for WSCA-NASPO or the states, except as expressly set forth herein.

14. INDIVIDUAL CUSTOMER Except to the extent modified by a Participating Addendum, each Participating Entity shall follow the terms and conditions of the Master Agreement and applicable Participating Addendum and will have the same rights and responsibilities for their purchases as the Lead State has in the Master Agreement, including but not limited to, any indemnity or to recover any costs allowed in the Master Agreement and applicable Participating Addendum for their purchases. Each Participating Entity will be responsible for its own charges, fees, and liabilities. The Contractor will apply the charges and invoice each Participating Entity individually.

15. INSURANCE Contractor shall, during the term of this Master Agreement, maintain in full force and effect, the insurance described in this section. Contractor shall acquire such insurance from an insurance carrier or carriers licensed to conduct business in the Participating Entity's state and having a rating of A-, Class VII or better, in the most recently published edition of Best's Reports. Failure to buy and maintain the required insurance may result in this Master Agreement's termination or at a Participating Entity's option, result in termination of its Participating Addendum.

Coverage shall be written on an occurrence basis. The limits shall be as indicated below, with no deductible for each of the following categories:

- a) Commercial General Liability covering the risks of bodily injury (including death), property damage and personal injury, including coverage for contractual liability, with a limit of \$1 million per occurrence/\$2 million general aggregate;
- b) Contractor must comply with any applicable State Workers Compensation or Employers Liability Insurance requirements.

Contractor shall pay premiums on all insurance policies.

Prior to commencement of the work, Contractor shall provide to the Participating Entity a written endorsement to the Contractor's general liability insurance policy that (i) names the Participating Entity as an additional insured, but only to the extent of liabilities falling within Contractor's indemnity obligations pursuant to the terms of this Master Agreement, and (ii) provides that the Contractor's liability insurance policy shall be primary, with any liability insurance of the Participating Entity as secondary and noncontributory.

Contractor shall furnish to Participating Entity copies of certificates of all required insurance within thirty (30) calendar days of the Participating Addendum's effective date and prior to performing any work. Copies of renewal certificates of all required insurance shall be furnished within thirty (30) days after renewal date. These certificates of insurance must expressly indicate compliance with each and every insurance requirement specified in this section. Failure to provide evidence of coverage may, at State's sole option, result in this Master Agreement's termination. In addition, should any of the required insurance be cancelled or non-renewed, Contractor shall immediately replace such insurance and provide to Participating Entity a certificate of insurance evidencing the replacement insurance.

Coverage and limits shall not limit Contractor's liability and obligations under this Master Agreement.

16. LAWS AND REGULATIONS Any and all supplies, services and equipment offered and furnished shall comply fully with all applicable Federal and State laws and regulations.

17. LICENSE OF PRE-EXISTING INTELLECTUAL PROPERTY

- 17.1 License. Conditioned upon compliance with the terms and conditions of the license granted herein or as represented in Contractor's End User License Agreement, Contractor grants to

Customer a nonexclusive and nontransferable license to use for Customer's internal business purposes the Software and the Documentation for which Customer has paid the required license fees, subject to the terms herein and Exhibit 1, End User License Agreement.

Customer's license to use the Software shall be limited to, and Customer shall not use the Software in excess of, a single hardware chassis or card or that number of agent(s), concurrent users, sessions, IP addresses, port(s), seat(s), server(s), or site(s), as set forth in the applicable Purchase Order which has been accepted by Contractor and for which Customer has paid to Contractor the required license fee.

Unless otherwise expressly provided in the documentation, Customer shall use the Software solely as embedded in, for execution on, or (where the applicable documentation permits installation on non-Contractor equipment) for communication with Contractor equipment owned or leased by Customer and used for Customer's internal business purposes. For evaluation or beta copies for which Contractor does not charge a license fee, the above requirement to pay license fees does not apply.

17.2 General Limitations. This is a license, not a transfer of title, to the Software and Documentation, and Contractor retains ownership of all copies of the Software and Documentation. Customer acknowledges that the Software and Documentation contain trade secrets of Contractor, its suppliers or licensors, including but not limited to the specific internal design and structure of individual programs and associated interface information. Accordingly, except as otherwise expressly provided under this Agreement, Customer shall have no right, and Customer specifically agrees not to:

17.2.1 transfer, assign or sublicense its license rights to any other person or entity, or use the Software on unauthorized or secondhand Contractor equipment, and Customer acknowledges that any attempted transfer, assignment, sublicense, or use shall be void;

17.2.2 except as approved in writing by Contractor, make error corrections to or otherwise modify or adapt the Software or create derivative works based upon the Software, or permit third parties to do the same;

17.2.3 reverse engineer or decompile, decrypt, disassemble, or otherwise reduce the Software to human-readable form, except to the extent otherwise expressly permitted under applicable law notwithstanding this restriction;

17.2.4 use or permit the software (other than embedded in the product) to be used to perform services for third parties, whether on a service bureau or time sharing basis or otherwise, without the express written authorization of Contractor; or

17.2.5 except and to the extent expressly required by a Participating State's applicable records laws or final court order (provided that the Participating State provides: (1) prior written notice to Contractor of such obligation and (2) the opportunity to oppose such disclosure, provision, or otherwise making available), disclose, provide, or otherwise make available trade secrets contained within the Software and Documentation in any form to any third party without the prior written consent of Contractor. Customer shall implement reasonable security measures to protect such trade secrets.

To the extent required by law, and at Customer's written request, Contractor shall provide Customer with the interface information needed to achieve interoperability between the Software and another independently created program, on payment of Contractor's applicable fee, if any. Customer shall observe strict obligations of confidentiality with respect to such information and shall use such information in compliance with any applicable terms and conditions upon which Contractor makes such information available.

17.3 Software, upgrades/updates, and additional copies.

NOTWITHSTANDING ANY OTHER PROVISION OF THIS MASTER AGREEMENT: (1) CUSTOMER HAS NO LICENSE OR RIGHT TO USE ANY ADDITIONAL COPIES OR

UPGRADES UNLESS CUSTOMER, AT THE TIME OF ACQUIRING SUCH COPY OR UPGRADE, ALREADY HOLDS A VALID LICENSE TO THE ORIGINAL SOFTWARE AND HAS PAID THE APPLICABLE FEE FOR THE UPGRADE OR ADDITIONAL COPIES; (2) USE OF UPGRADES IS LIMITED TO CONTRACTOR EQUIPMENT FOR WHICH CUSTOMER IS THE ORIGINAL END USER PURCHASER OR LESSEE OR WHO OTHERWISE HOLDS A VALID LICENSE TO USE THE SOFTWARE WHICH IS BEING UPGRADED; AND (3) THE MAKING AND USE OF ADDITIONAL COPIES IS LIMITED TO NECESSARY BACKUP PURPOSES ONLY.

17.4 Proprietary Notices. Customer agrees to maintain and reproduce all copyright and other proprietary notices on all copies, in any form, of the Software in the same form and manner that such copyright and other proprietary notices are included on the Software. Except as expressly authorized in this Agreement, Customer shall not make any copies or duplicates of any Software without the prior written permission of Contractor.

17.5 Term and Termination of License. This license granted herein shall remain effective until terminated. Customer may terminate the license at any time by destroying all copies of Software and any Documentation except as to the minimum number of copies required by law to keep for archival records purposes only. Customer's rights under this license will terminate immediately if Customer fails to comply with any material provision of this license and Contractor will give Customer notice of such non-compliance. Upon termination, Customer shall destroy all copies of Software and Documentation in its possession or control.

17.6 Customer Records. Customer grants to Contractor and its independent accountants the right to examine Customer's books, records, and accounts during Customer's normal business hours to verify compliance with this license. In the event such audit discloses non-compliance with this license, Customer shall promptly pay to Contractor the appropriate license fees, plus the reasonable cost of conducting the audit. In all other circumstances, the audit fees shall be paid by Contractor.

18. NO WAIVER OF SOVEREIGN IMMUNITY In no event shall this Master Agreement, any Participating Addendum or any contract or any purchase order issued thereunder, or any act of a Lead State or a Participating Entity, be a waiver by the Participating Entity of any form of defense or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court.

If a claim must be brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for the Participating State. This section applies to a claim brought against the Participating State only to the extent Congress has appropriately abrogated the Participating State's sovereign immunity and is not consent by the Participating State to be sued in federal court. This section is also not a waiver by the Participating State of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

19. ORDER NUMBERS Master Agreement order and purchase order numbers shall be clearly shown on all acknowledgments, shipping labels, packing slips, invoices, and on all correspondence. Any such information will be per Contractor's existing free form structure, without customization. The purchase order numbers reflect Contractor's Fulfillment Partner purchase order numbers; however, Contractor will request that its Fulfillment Partners use reasonable efforts to provide the Customer purchase order number in the free form notes.

ORDERS. Notwithstanding anything contained in the Master Agreement to the contrary:

1. Contractor reserves the right to require that purchases be made through Fulfillment Partners. Where so required by Contractor, Purchasers shall not order Products or Services directly from Contractor and shall order same from Fulfillment Partner. Purchaser shall purchase products by issuing a written or electronic Purchase Order, signed or (in the case of electronic transmission) sent by its authorized representative, indicating specific products, quantity, unit price, total

purchase price, shipping instructions, requested delivery dates, bill-to and ship-to addresses, tax exempt certifications, if applicable, and any other special instructions.

2. Any contingencies on Purchaser's Purchase Orders are not binding upon Contractor. The terms and conditions of this Master Agreement and applicable Participating Addendum prevail, regardless of any additional or conflicting terms on the Purchase Order, or other correspondence from Purchaser to Contractor and any additional or conflicting terms are deemed rejected by Contractor unless Contractor has expressly agreed to such terms in writing. Mere acceptance or processing of a Purchase Order, Order, or Order Document containing such terms shall not constitute such express consent.
3. All Purchase Orders are subject to Contractor's reasonable acceptance (including performing any related credit checks). Contractor shall use commercially reasonable efforts to accept or reject orders in writing within ten (10) days from receipt, or within three (3) business days, if orders are placed electronically.
4. Purchaser may defer product shipment up to thirty (30) days from the originally scheduled shipping date, provided written notice is received by Contractor at least ten (10) days before the originally scheduled shipping date. Cancelled orders, rescheduled deliveries, or product configuration changes made by Purchaser less than ten (10) days before the original shipping date are subject to Contractor's acceptance and a charge of fifteen percent (15%) of the total invoice amount relating to the affected Product(s). Contractor reserves the right to reschedule delivery due to configuration changes made within ten (10) days of scheduled shipment. No cancellation shall be accepted by Contractor where products are purchased with implementation services, including but not limited to design, customization, or installation services, except as may be set forth in the agreement or Statement of Work under which the services are to be rendered. Notwithstanding anything to the contrary, if Contractor is delayed in shipping the product for thirty (30) days or more from the original shipping date, the Customer may cancel the order without charge.
5. Services. Purchaser may place Purchase Orders for the various services offered by Contractor. The provision of any such services, if accepted by Contractor, shall be subject to the terms and conditions set forth in this Agreement, including the Master Services Agreement attached hereto as Exhibit 2, as well as the then-current terms of service offerings set forth on Contractor's website at <http://www.cisco.com/legal/services.html>. Contractor reserves the right to subcontract services to a third party maintenance organization to provision services for Purchaser.
6. All stated prices are exclusive of any taxes, fees, and duties or other similar amounts, however designated, and including without limitation value added, sales and withholding taxes which are levied or based upon such prices, charges, or upon this Master Agreement. Purchaser will pay sales and use taxes, if any, imposed on the Products and Services acquired under this Master Agreement, or furnish proof of its tax-exempt status upon request. Contractor will pay all other taxes based on Contractor's income or gross receipts, or personal property taxes levied or assessed on Contractor's personal property. In the event that the Purchaser is exempt from property and sales taxes, it will not be charged same.
7. Notwithstanding anything contained in the Master Agreement to the contrary, modifications which Contractor deems necessary to comply with specifications, changed safety standards or governmental regulations, to make the product non-infringing with respect to any patent, copyright, or other proprietary interest, or to otherwise improve the product may be made at any time by Contractor without prior notice to or consent of Purchaser or WSCA, and such altered product shall be deemed fully conforming. Contractor shall employ commercially reasonable efforts to announce, including by electronic posting, product discontinuance or changes other than those set forth in the previous sentence in accordance with Contractor's End-of-Life Policy, which is found at the following URL: <http://www.cisco.com/c/en/us/products/eos-eol-policy.html>. Purchaser may make a last-time purchase of such products as set forth in such policy.

20. PARTICIPANTS WSCA-NASPO is the cooperative purchasing arm of the National Association of State Procurement Officials. It is a cooperative group contracting consortium for state government

departments, institutions, agencies and political subdivisions (e.g., colleges, school districts, counties, cities, etc.) for all 50 states, the District of Columbia and the organized US territories. Obligations under this Master Agreement are limited to those Participating States who have signed a Participating Addendum where contemplated by the solicitation. Participating States incur no financial obligations on behalf of political subdivisions. Unless otherwise specified in the solicitation, the resulting award(s) will be permissive. Purchaser under a *Participating Addendum* shall have no liability to Contractor beyond funds that are appropriated and made available to the Purchaser by the applicable legislative body. If sufficient funds are not appropriated by legislative action to a Purchaser as to any future period, Purchaser may terminate its Order(s) prospectively as to such future performance impacted by and to the extent of non-appropriation, or otherwise work with Contractor to arrive at a mutually acceptable resolution of the situation. Purchaser shall notify Contractor in writing of such non-appropriation within thirty (30) calendar days of final legislative action.

21. ENTITY PARTICIPATION Use of specific WSCA-NASPO cooperative Master Agreements by state agencies, political subdivisions and other entities (including cooperatives) authorized by individual state's statutes to use state contracts are subject to the approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the respective State Chief Procurement Official.

22. PAYMENT

Upon and subject to credit approval by Contractor, payment is net thirty (30) days from invoice date. Invoices for products ordered without implementation services shall be rendered by Contractor on or after the date of delivery of such products to the Purchaser. If, at any time, Purchaser is delinquent in payment, or is otherwise in breach of this contract, Contractor may, without prejudice to other rights, withhold shipment (including partial shipments) of any order or require Purchaser to prepay for further shipments. Any sum not paid by Purchaser when due shall bear interest until paid at a rate of 1 percent per month (12 percent per annum) or the maximum legal rate, whichever is less. Purchaser grants Contractor a security interest in products purchased under this contract to secure payment for those products purchased which security interest shall expire upon full payment in accordance with the terms. If requested by Contractor, Purchaser agrees to execute financing statements to perfect this security interest. Payments may be made via a State or political subdivision "Purchasing Card" to Fulfillment Partners under this contract.

Where permitted by the law of the Participating State/Entity, lease financing is an allowable payment option under the resulting contract. The terms and conditions of the capital lease financing arrangement with Cisco Capital, or its designated and/or approved financing partner, will be set forth between the purchaser and Cisco Capital or its designated and/or approved financing partner.

23. PUBLIC INFORMATION This Master Agreement and all related documents are subject to disclosure pursuant to the Participating Entity's public information laws.

24. RECORDS ADMINISTRATION AND AUDIT The contractor will maintain, or require the maintenance of all records necessary to properly account for the payments made to the contractor for costs authorized by this Master Agreement. These records will be retained by the contractor for at least four years after the Master Agreement terminates, or until all audits initiated within the four years have been completed, whichever is later. The contractor agrees to allow WSCA-NASPO, State and Federal auditors, and state agency staff access to all the records of this Master Agreement and any order placed under this Master Agreement, for audit and inspection, and monitoring of services. Such access will be 1) with at least ten (10) business days advance written notice, during normal business hours, 3) shall not unduly interrupt or interfere with Contractor's normal business operations, and 4) in the event that such audit is conducted by a third party, such third party shall, prior to conducting such audit, execute a confidentiality agreement for the benefit of Contractor in a form reasonably satisfactory to Contractor.

25. REPORTS and ADMINISTRATIVE FEES The contractor shall submit quarterly reports to the WSCA-NASPO Contract Administrator showing the quantities and dollar volume of purchases by each participating entity.

The contractor must pay a WSCA-NASPO administrative fee of one quarter of one percent (.25%) in accordance with the terms and conditions of the Master Agreement. The WSCA-NASPO administrative fee shall be submitted quarterly and is based on sales of products and services. The WSCA-NASPO administrative fee is not negotiable. This fee is to be included as part of the pricing submitted with proposal.

Additionally, some States may require that an additional fee be paid directly to the State on purchases made by procuring entities within that State. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated in a Participating Addendum that is made a part of the Master Agreement. The contractor may adjust the Master Agreement pricing accordingly for purchases made by procuring agencies within the jurisdiction of the State. All such agreements may not affect the WSCA-NASPO administrative fee or the prices paid by the procuring agencies outside the jurisdiction of the State requesting the additional fee.

26. STANDARD OF PERFORMANCE AND ACCEPTANCE Purchaser has thirty (30) days after Product delivery to inspect the Product for external damage and for any concealed damage ("Acceptance Period"). If external or concealed damage is revealed during the Acceptance Period, then Purchaser shall notify Contractor. At Contractor's option, Contractor shall 1) repair such damage, 2) ship a replacement, or 3) refund the purchase price (upon return of the Product). After such Acceptance Period the Products shall be deemed accepted.

27. Section Intentionally Left Blank.

28. TITLE OF PRODUCT Title and risk of loss shall pass to Purchaser upon delivery. Any transfers of Embedded Software shall be per Contractor's then-current Transfer and Re-Licensing Policy.

29. WAIVER OF BREACH Failure of Lead State or Participating Entity to declare a default or enforce any rights and remedies shall not operate as a waiver under this Master Agreement or Participating Addendum. Any waiver by the Lead State or Participating Entity must be in writing. Waiver by the Lead State or Participating Entity of any default, right or remedy under this Master Agreement or Participating Addendum, or breach of any terms or requirements shall not be construed or operate as a waiver of any subsequent default or breach of such term or requirement, or of any other term or requirement under this Master Agreement or Participating Addendum.

30. WARRANTY

All products are sold with Contractor's standard limited warranty listed below:

- 30.1 **Hardware**. Contractor warrants that from the date of shipment by Contractor to Customer, and continuing for a period of the longer of (a) ninety (90) days or (b) the period set forth in the Warranty Card accompanying the product, the Hardware will be free from defects in material and workmanship, under normal use. This limited warranty extends only to the original user of the product. Customer's sole and exclusive remedy and the entire liability of Contractor and its suppliers under this limited warranty will be, at Contractor's or its service center's option, shipment of a replacement within the period and according to the replacement process described in the Warranty Card, or a refund of the purchase price, if the Hardware is returned to the party supplying it to Customer, if different than Contractor, freight and insurance prepaid. Contractor replacement parts, used in Hardware repair, may be new or equivalent to

new. Contractor's obligations hereunder are conditioned upon the return of affected products, in accordance with Contractor's then-current Return Material Authorization (RMA) procedures.

- 30.2 **Software.** Contractor warrants that from the date of delivery by Contractor to Customer (but in case of resale by a Contractor reseller, commencing not more than ninety (90) days after original shipment by Contractor), and continuing for a period of the longer of (a) ninety (90) days or (b) the period set forth in the Warranty Card accompanying the product (if any): (a) the media on which the Software is furnished will be free of defects in materials and workmanship, under normal use; and (b) the Software substantially conforms to its published specifications. The date of shipment of a product by Contractor is set forth on the packaging material in which the product is shipped. Except for the foregoing, the Software is provided AS IS. This limited warranty extends only to the Customer who is the original licensee. Customer's sole and exclusive remedy and the entire liability of Contractor and its suppliers under this limited warranty will be, at Contractor or its service center's option, repair, replacement, or refund of the Software if reported (or, upon request, returned) to the party supplying the Software to Customer, if different than Contractor. In no event does Contractor warrant that the Software is error free or that Customer will be able to operate the Software without problems or interruptions. In addition, due to the continual development of new techniques for intruding upon and attacking networks, Contractor does not warrant that the Software or any equipment, system, or network on which the Software is used will be free of vulnerability to intrusion or attack.
- 30.3 **Restrictions.** This warranty does not apply if the product (a) has been altered, except by Contractor, (b) has not been installed, operated, repaired, or maintained in accordance with instructions supplied by Contractor, (c) has been subjected to abnormal physical or electrical stress, misuse, negligence, or accident; or (d) is sold or, in the case of Software, licensed, for beta, evaluation, testing, or demonstration purposes for which Contractor does not receive a payment of purchase price or license fee.
- 30.4 **DISCLAIMER OF WARRANTY.** EXCEPT AS SPECIFIED IN THIS WARRANTY, ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS, AND WARRANTIES INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, SATISFACTORY QUALITY, OR ARISING FROM A COURSE OF DEALING, LAW, USAGE, OR TRADE PRACTICE, ARE HEREBY EXCLUDED TO THE EXTENT ALLOWED BY APPLICABLE LAW. TO THE EXTENT AN IMPLIED WARRANTY CANNOT BE EXCLUDED, SUCH WARRANTY IS LIMITED IN DURATION TO THE WARRANTY PERIOD. This disclaimer shall apply even if the above-stated warranty fails of its essential purpose.

The above warranty does not apply to any beta software, any software made available for testing or demonstration purposes, any temporary software modules or any software for which Contractor does not receive a license fee. All such software is provided AS IS without any warranty whatsoever.

31. ASSIGNMENT OF ANTITRUST RIGHTS Contractor irrevocably assigns to a Participating Entity any claim for relief or cause of action which the Contractor now has or which may accrue to the Contractor in the future by reason of any violation of state or federal antitrust laws (15 U.S.C. § 1-15 or a Participating Entity's state antitrust provisions), as now in effect and as may be amended from time to time, in connection with any goods or services provided to the Contractor for the purpose of carrying out the Contractor's obligations under this Master Agreement or Participating Addendum, including, at a Participating Entity's option, the right to control any such litigation on such claim for relief or cause of action.

Contractor shall require any subcontractors hired to perform any of Contractor's obligations, under this Master Agreement or Participating Addendum, to irrevocably assign to a Participating Entity, as third party beneficiary, any right, title or interest that has accrued or which may accrue in the future by reason of any violation of state or federal antitrust laws (15 U.S.C. § 1-15 or a Participating Entity's state antitrust provisions), as now in effect and as may be amended from time to time, in connection with any goods or services provided to the subcontractor for the purpose of carrying out the subcontractor's obligations to

the Contractor in pursuance of this Master Agreement or Participating Addendum, including, at a Participating Entity's option, the right to control any such litigation on such claim for relief or cause of action.

32. WSCA-NASPO eMARKET CENTER Awarded responders are required to participate in the WSCA-NASPO eMarket Center and, working through WSCA-NASPO's contractor (SciQuest), connect with the eMarket Center. The ideal situation would be to use either a hosted (by SciQuest) or Punchout Level 2 catalog configurations, but actual requirements will be determined by the Lead State Contract Administrator, WSCA-NASPO, WSCA-NASPO's contractor (SciQuest) and the awarded contractor, after award. Participation does not require an awarded responder to have any special level of technology or technological understanding.

Definitions

Contractor - means the person or entity delivering Products or performing services under the terms and conditions set forth in this Master Agreement.

Lead State - means the State conducting this cooperative solicitation and centrally administering any resulting Master Agreement with the permission of the Signatory States.

Master Agreement – means the underlying agreement executed by and between the Lead State, as WSCA-NASPO contract administrator, acting on behalf of WSCA-NASPO, and the Contractor, as now or hereafter amended.

Order - means any purchase order, sales order, or other document used by a Participating Entity to order the Products.

Participating Addendum - means a bilateral agreement executed by a Contractor and a Participating Entity incorporating this Master Agreement and any other additional Participating Entity specific language or other requirements ,e.g. ordering procedures specific to the Participating Entity, other terms and conditions.

Participating Entity - means a state, or other legal entity, properly authorized by a state to enter into the Master Agreement or Participating Addendum or who is authorized to order under the Master Agreement or Participating Addendum.

Product - Any equipment, software (including embedded software), documentation, or deliverable supplied or created by the Contractor pursuant to this Master Agreement.

WSCA-NASPO -is a cooperative group contracting consortium for state procurement officials, representing departments, institutions, agencies, and political subdivisions (i.e., colleges, school districts, counties, cities, etc.) for all states and the District of Columbia. WSCA-NASPO is a cooperative purchasing arm of the National Association of State Procurement Officials (NASPO).

Additional Definitions and Alternative Terms

Customer - see "Purchaser" or "Participating Entity."

Documentation – means user manuals, training materials, product descriptions and specifications, technical manuals, license agreements, supporting materials, and other information relating to Products or Advanced Services offered by Contractor, whether distributed in print, electronic, CD-ROM, or video format.

Effective Date – means June 1, 2014.

Fulfillment Partner (also referred to as "Reseller" or "Authorized Reseller") - means a third-party contractor qualified and authorized by Contractor, and approved by the Participating State under a Participating Addendum, who may, to the extent authorized by Contractor, fulfill any of the requirements of this Master Agreement including but not limited to providing Products and Services under this Master Agreement and billing Purchasers directly for such Products and Services. Contractor may, upon written

notice to the Participating State, add or delete authorized Fulfillment Partners as necessary at any time during the contract term. Fulfillment Partner has no authority to amend this Master Agreement or to bind Contractor to any additional terms and conditions.

Participating State – see “Participating Entity.”

Purchaser - (also referred to as “Customer”) means: (a) the Lead State, (b) any office, department, commission, council, board, committee, institution, legislative body, agency, public authority, public benefit corporation, other government corporation, or public educational institution of a Participating State or a Local Public Body within such Participating State, provided that such entity is authorized, under applicable laws, rules and/or regulations of the Participating State, (i) to purchase Product(s) and Services pursuant to this Master Agreement solely by execution of the applicable Participating Addendum, and (ii) to legally bind such body to the terms of such agreement solely by the issuance of a Purchase Order, Order, or Order Document in accordance with and pursuant to this Master Agreement, and (iii) has been authorized by the WSCA Contract Manager and Contractor to participate under this Master Agreement.

Purchase Order – see “Order.”

Services - “Services” means those services within the scope of this Master Agreement, to include the attached Master Services Agreement, and listed on Contractor’s then-current Global Price List, including consulting, training, installation and maintenance services, and/or other services related to the products being acquired and further described at cisco.com and which are subject to the terms of service set forth in the SOW Terms and Conditions.

(Revised March 2013)

Exhibit 1 — Additional Vendor Terms and Conditions

End User License Agreement (EULA)

Cisco Systems, Inc. or its affiliate licensing the software ("Cisco") is willing to license this software to you only upon the condition that you purchased the software from an approved source and that you accept all of the terms contained in this end-user license agreement plus any additional limitations on the license set forth in a supplemental license agreement accompanying the product, available at the time of your order, or posted on the Cisco website at www.cisco.com/go/terms (collectively, the "agreement"). To the extent of any conflict between the terms of this end-user license agreement and any supplemental license agreement, the supplemental license agreement shall apply. By downloading, installing, or using the software, you are representing that you purchased the software from an approved source and binding yourself to the agreement. If you do not agree to all of the terms of the agreement, then Cisco is unwilling to license the software to you and (a) you may not download, install, or use the software, and (b) you may return the software (including any unopened cd package and any written materials) for a full refund, or (c), if the software and written materials are supplied as part of another product, you may return the entire product for a full refund. Your right to return and refund expires 30 days after purchase from an approved source, and applies only if you are the original and registered end user purchaser. For the purposes of this end-user license agreement, an "approved source" means (a) Cisco; or (b) a distributor or systems integrator authorized by Cisco to distribute/sell Cisco equipment, software, and services within your territory to end users; or (c) a reseller authorized by any such distributor or systems integrator in accordance with the terms of the distributor's agreement with Cisco to distribute/sell the Cisco equipment software and services within your territory to end users.

Please note that the remaining license terms are addressed in the WSCA – NASPO Master Agreement Terms and Conditions.

Exhibit 2 — Additional Vendor Terms and Conditions

Master Services Agreement

This Master Services Agreement governs all Orders for Services placed under the WSCA NASPO Master Agreement Terms and Conditions ("WSCA Master Agreement").

This Agreement is entered into between Cisco Systems, Inc. ("Cisco"), a California corporation having its principal place of business at 170 West Tasman Drive, San Jose, California, 95134 and the WSCA-NASPO Cooperative Purchasing Organization LLC ("WSCA"), on behalf of their Public Sector Customers formed under the laws of United States ("Customer") having its principal place of business at State of Utah, Division of Purchasing and General Services, State Office Building, Capitol Hill, Room 3150, Salt Lake City, UT 84114-1061, United States, and is entered into as June 1, 2014.

This Master Services Agreement consists of (i) the Master Services Agreement Terms and Conditions (including the Exhibits), (ii) incorporated Sections from the WSCA NASPO Terms and Conditions and (iii) the Services Descriptions of the Services at cisco.com that the WSCA Customer may elect to purchase, which are incorporated in this Agreement by this reference.

Master Services Agreement - Terms and Conditions

1. **Definitions** are those set out in the Exhibit A, Glossary of Terms at the end of the Agreement.
2. **Scope.** This Agreement describes the terms and conditions for Purchases by Customer of Services,. Customer will be entitled to receive Services for which (i) the applicable Services fees have been paid, (ii) a valid Software license has been granted, and (iii) Customer provides information requested by Cisco such as valid serial numbers, site location, contract number, and Product type.
3. **Orders.** Terms of this Section are covered in the WSCA NASPO Terms and Conditions.
4. **Pricing.** For Direct Purchases, and subsequent Equipment List renewals, prices for Services shall be (a) those specified in Cisco's then-current Price List less any applicable contract discount in effect under the WSCA Master Agreement at the time of acceptance of the Purchase Order by Cisco, or (b) those set forth in a written price quotation submitted by Cisco or its Fulfillment Partner, if at or below the stated contract discount. All stated prices are exclusive of taxes, fees, and duties or other amounts in accordance with the WSCA Master Agreement. Any taxes related to Services purchased pursuant to this Agreement shall be paid by Customer or Customer shall present an exemption certificate acceptable to the taxing authorities. Applicable taxes shall be billed as a separate item on the invoice, to the extent possible. In the event that Customer is unable to provide valid and applicable serial number(s) for Product and Cisco agrees to provide Services, then Service fees payable by Customer shall be at Cisco's then-current time and materials or non-contract service rates.

Subject to the price discount floor established by Cisco under the WSCA Master Agreement, for Indirect Purchases, Fulfillment Partners are free to determine their resale prices unilaterally. Customer understands that no employee or representative of Cisco or anyone else has any authority to determine such resale prices, or to limit the Fulfillment Partners' pricing discretion with respect to Services.
5. **Payment.** Terms of this Section are covered in the WSCA NASPO Terms and Conditions.
6. **Invoicing.** Fees for Services, other than those for which a SOW is required, shall be invoiced in advance of delivery of Services. The timing of invoices for Services provided pursuant to a SOW shall be set forth in the respective SOW.
7. **Term and Termination.**

- (a) The term of any service order shall commence on the Effective Date of the Order and shall continue for a period of one (1) year, or such other multi-year period as set forth in the purchase order or SOW. Such term will be renewed automatically for successive one (1) year terms unless either party notifies the other of its intent to terminate at least sixty (60) days prior to the expiration of the then current term.
- (b) The term of an Equipment List shall commence on the date set forth on such.
- (c) Equipment List, which may be up to sixty (60) days following the date of Purchase Order acceptance by Cisco. The term of an Equipment List shall be for a period of one (1) year and shall be renewed automatically for successive one (1) year terms, unless either party notifies the other of its intent to terminate at least sixty (60) days prior to the expiration of the then current one (1) year term.
- (d) The term of each SOW shall be stated in the SOW.

This Master Service Agreement may be terminated in accordance on the same terms as set forth in the WSCA Master Agreement. Any Equipment List or SOW may be terminated immediately by either party upon written notice.

If Services fees are not paid when due and payment has not been received within thirty (30) days after notice from Cisco of such past due payment, Cisco may withhold the provision of Services until all amounts past due are paid in full, and/or terminate immediately this Agreement, any Equipment List, and SOW.

- (e) Cisco reserves the right to make changes to the scope and content of the Services or part thereof, including terminating the availability of a given Service, at any time upon ninety (90) days' prior notice. Such changes will become effective upon renewal of the affected Equipment Lists and SOWs. If Customer does not agree to a change of scope or content, Customer may terminate any affected Equipment List or SOW by notifying Cisco at least sixty (60) days prior to the expiration of the then current one (1) year term of the Equipment List or SOW. In such case, Cisco shall continue to provide Services until the next expiration date of the affected Equipment List or SOW.
- (f) Each Equipment List and SOW hereunder shall terminate immediately upon termination of the Agreement.
- (g) Upon termination of the Agreement, any Equipment List, or SOWs, Customer shall pay Cisco for all work performed under the affected Equipment Lists or SOWs up to the effective date of termination at the agreed-upon prices, fees, and expense reimbursement rates.
- (h) Firm orders for services under this Master Services Agreement placed and accepted prior to expiration of the contract term, (even if involving a multi-year commitment) remain valid in accordance with the contract terms which shall remain binding as to such prior orders only for the term stated therein, and shall not otherwise constitute an extension of the Master Services Agreement.

Additional terms governing Term and Termination are covered in the WSCA NASPO Terms and Conditions.

- 8. Confidentiality.** Terms of this Section are covered in the WSCA NASPO Terms and Conditions.
- 9. Warranty.** All services provided hereunder shall be performed in a workmanlike manner in accordance with industry standards expected of a company providing professional services in the networking industry. Except as specified in this section, Cisco hereby disclaims and customer waives all representations, conditions, and warranties (whether express, implied, or statutory), including without limitation, any warranty or condition (a) of merchantability, fitness for a particular purpose, non-infringement, title, satisfactory quality, accuracy, (b) arising from any course of dealing, course of performance, or usage in the industry. To the extent an implied warranty cannot be disclaimed, such warranty is limited in duration to the applicable express warranty period. Customer's sole and

exclusive remedy for breach of warranty shall be, at Cisco's option, re-performance of the services; or termination of this agreement or the applicable equipment list or SOW and return of the portion of the service fees paid to Cisco by customer for such non-conforming services.

- 10. Limitation of Liability and Consequential Damages Waiver.** Terms of this Section are covered in the WSCA NASPO Terms and Conditions.
- 11. License.** Terms of this Section are covered in the WSCA NASPO Terms and Conditions.
- 12. Ownership.** Cisco shall at all times retain all right, title, and interest in and to all pre-existing Intellectual Property owned by Cisco as of the Effective Date and all Intellectual Property in and to the Services, Cisco Products, Deliverables, and Data Collection Tools or other Intellectual Property provided or developed by Cisco or a third party on Cisco's behalf thereafter. Customer shall at all times retain all right, title, and interest in and to all pre-existing Intellectual Property owned by Customer as of the Effective Date and all Intellectual Property that is developed by Customer or by a third party on Customer's behalf thereafter without the benefit of any of Cisco's Intellectual Property. Third Party Products shall at all times be owned by the applicable third party.
- 13. Force Majeure.** Terms of this Section are covered in the WSCA NASPO Terms and Conditions.
- 14. Applicable law and Jurisdiction.** Terms of this Section are covered in the WSCA NASPO Terms and Conditions.
- 15. Export Control.** Customer shall comply with such laws and regulations governing use, export, re-export, and transfer of Cisco Products and technology and will obtain all required U.S. and local authorizations, permits, or licenses. Information regarding compliance with U.S. use, export, re-export, and transfer laws may be found at: http://www.cisco.com/www/export/compliance_provision.html.
- 16. Assignment.** Terms of this Section are covered in the WSCA NASPO Terms and Conditions.
- 17. Subcontracting.** Cisco reserves the right to subcontract Services to a third party organization including Fulfillment Partners or Servicing Subcontractors (as defined in the WSCA Master Agreement) to provide Services to Customer; provided that invoicing and/or payments will only be handled by and through Cisco and its authorized Fulfillment Partners. Any such subcontract shall not relieve Cisco of any of its obligations under this Agreement.

If Contractor or its Fulfillment Partners are using servicing subcontractors for the performance of local marketing, maintenance, and/or technical support services in accordance with the terms and conditions of this Contract, servicing subcontractors may not directly accept purchase orders or payments for products or services from Purchasers under the terms and conditions of the contract. Only Contractor or Fulfillment Partners authorized by Cisco may directly accept purchase orders, invoice, or receive payments for products or services under the terms and conditions of the contract. The authorized Purchaser has the option of choosing whether to purchase the associated OEM maintenance and/or training to support the equipment purchased.
- 18. Inventory Review.** From time-to-time Cisco may perform an inventory review of Customer's installed base and review serial numbers and other records (upon reasonable advance notice) to validate entitlement. Cisco will charge a Service fee if it finds that unauthorized Services are being provided. This Service fee includes amounts which should have been paid, interest, and attorneys' and audit fees. Attorneys' and audit fees will only be payable by the customer where the discrepancy exceeds 5 percent of the amount otherwise due and payable. Cisco requires that Customer take all necessary action (for example, disabling passwords) to ensure that any former employees and contractors do not access or use the Service.
- 19. Notices.** Notwithstanding anything contained in the Agreement to the contrary, all notices required or permitted under this Agreement will be in writing and will be deemed given: (a) when delivered personally; (b) when sent by confirmed facsimile or electronic mail (in the case of Cisco to Agreement-notice@cisco.com), (provided that the original document is placed in air mail/air courier or delivered personally, within seven (7) days of the facsimile electronic notice); (c) three (3) days after having been sent by registered or certified mail, return receipt requested, postage prepaid (or six [6]

days for international mail); or (d) one (1) day after deposit with a commercial express courier specifying next day delivery (or two (2) days for international courier packages specifying 2-day delivery), with written verification of receipt. All communications will be sent to the addresses set forth on the cover sheet of this Agreement or such other address as may be designated by a party by giving written notice to the other party pursuant to this paragraph. Notwithstanding the above, notices regarding general changes in pricing, policies, or programs may also be by posting on Cisco.com or by email or fax.

20. **Entire Agreement.** This Master Services Agreement, in addition to the general provisions of the WSCA Master Agreement pertinent to Services, is the complete agreement between the parties concerning the subject matter of this Agreement and replaces any prior oral or written communications between the parties, except as agreed between the parties. There are no conditions, understandings, agreements, representations, or warranties expressed or implied, that are not specified herein. This Agreement may only be modified by a written document executed by the parties hereto.
21. **No Waiver.** The waiver by either party of any right provided under this Agreement shall not constitute a subsequent or continuing waiver of such right or of any other right under this Agreement.
22. **Severability.** In the event that one or more terms of this Agreement becomes or is declared to be illegal or otherwise unenforceable by any court of competent jurisdiction, each such term shall be null and void and shall be deemed deleted from this Agreement. All remaining terms of this Agreement shall remain in full force and effect. Notwithstanding the foregoing, if this paragraph is invoked and, as a result, the value of this Agreement is materially impaired for either party, as determined by such party in its sole discretion, then the affected party may terminate this Agreement by written notice with immediate effect to the other.
23. **Attorneys' Fees.** In any suit or proceeding relating to this Agreement, the prevailing party will have the right to recover from the other its costs and reasonable fees and expenses of attorneys, accountants, incurred in connection with the suit or proceeding, including costs, fees, and expenses upon appeal, separately from and in addition to any other amount included in such judgment. This provision is intended to be severable from the other provisions of this Agreement, and shall survive expiration or termination and shall not be merged into any such judgment unless the judgment expressly precludes survivability.
24. **No Agency.** This Agreement does not create any agency, partnership, joint venture, or franchise relationship. No employee of either party shall be or become, or shall be deemed to be or become, an employee of the other party by virtue of the existence or implementation of this Agreement. Each party hereto is an independent contractor. Neither party shall assume or create any obligation of any nature whatsoever on behalf of the other party or bind the other party in any respect whatsoever.
25. **Counterparts.** This Agreement may be executed in two counterparts, each of which shall be deemed an original and together which shall constitute one and the same instrument. A validly executed counterpart that is delivered by one party to the other via electronic transmission (a "Counterpart Image") shall be valid and binding to the same extent as one delivered physically, provided that the valid signature is clearly visible in the Counterpart Image. In the event that a party delivers a Counterpart Image in place of an originally-executed counterpart, such party shall retain the originally-executed counterpart in its files for at least the duration of the Term hereof.
26. **Headings.** Headings of sections have been added solely for convenience of reference and shall not be deemed part of this Agreement.
27. **Survival.** Sections 5 (Payment), 7 (Term and Termination), 8 (Confidentiality), 9 (Warranty), 10 (Limitation of Liability and Consequential Damages Waiver), 11 (License), 12 (Ownership), 13 (Force Majeure), 14 (Applicable Law and Jurisdiction), 15 (Export Control), Section 18 (Inventory Review), 19 (Notices), 20 (Entire Agreement), 21 (No Waiver), 22 (Severability), 23 (Attorneys' Fees), 24 (No Agency), 27 (Survival), and the Glossary of Terms shall survive the termination or expiration of this Agreement.

Exhibit A Glossary of Terms

In addition to the Definitions set forth in the WSCA Master Agreement, the following definitions shall apply to this Services Agreement:

Additional Services means installation of new Hardware, system additions, Hardware upgrades, dispatch of a field engineer, or non-mandatory engineering changes otherwise within the scope of the WSCA Master Agreement.

Advance Replacement means shipment of replacement Field-Replaceable Unit (FRU) before receiving failed or defective FRU.

Advanced Services means the proactive Services within the scope of the WSCA Master Agreement, and as set forth in the AS Service Description(s) found at <http://www.cisco.com/go/servicedescriptions> throughout the term of the agreement and/or SOW(s) selected by the Customer. Advanced Services does not include Cisco's core maintenance services, such as SMARTnet or Software Application Services, nor does it apply to the purchase, support, or maintenance of any Products.

Advanced Services Engineer means the Cisco engineer appointed to be the main point of contact for a Customer purchasing Advanced Services.

Application Software means non-resident or standalone Software Products listed on the Price List and within the scope of the WSCA Master Agreement, that include but are not limited to Cisco Systems® Network management Software, security Software, IP telephony Software, Internet appliance Software, Cisco® Intelligent Contact Management Software, IP Contact Center Software, and Cisco Customer Interaction Suite Software.

Business Days means the generally accepted days of operation per week within the relevant region where the Services shall be performed, excluding local holidays as observed by Cisco.

Cisco.com (<http://www.cisco.com>) is the Cisco website for its suite of online services and information.

Confidential Information means proprietary and confidential Information received by Cisco or Customer in connection with the Agreement and their relationship. Such Confidential Information may include, but is not limited to, trade secrets, know how, inventions, techniques, processes, programs, schematics, Software source documents, data, Customer lists, financial information, and sales and marketing plans or information which the receiving party knows or has reason to know is confidential, proprietary, or trade secret information of the disclosing party, as well as, in the case of Cisco, any information posted on Cisco.com.

Customer as defined in the WSCA Master Agreement means the entity purchasing Services for its own internal use either directly or through a Fulfillment Partner.

Data Collection Tools means Hardware or Software tools that support Cisco's ability to provide troubleshooting on critical cases, data analysis, and report-generation capabilities.

Depot Time or Local Time means Central European Time for Services provided in Europe-Middle-East and Africa, Australia's Eastern Standard Time for Services provided in Australia, Japan's Standard Time for Services provided in Japan, and Pacific Standard Time for Services provided in all other locations.

Deliverable means, with respect to each SOW, the items specified as deliverables in the SOW.

Device Type means a Cisco supported Hardware Product (for example, Cisco Catalyst® 6509 Switch, GSR 12000, and Cisco 7200 Series Router).

Direct Purchases means purchases of Services by Customer directly from Cisco.

Documentation is user manuals, training materials, Product descriptions and specifications, technical manuals, license agreements, supporting materials, and other information relating to Products or Services offered by Cisco, whether distributed in print, electronic, CD-ROM, or video format.

Equipment List means the list of Hardware and/or Software for which Cisco provides services.

Event means notification by Customer of its performance of a planned Network Hardware, Software, or configuration change.

Feature Set Upgrade means a separately licensed and priced Software release that contains an enhanced configuration or feature set.

Field-Replaceable Unit (FRU) means any component or subassembly of an item or unit of Hardware that reasonably can be replaced at Customer's location. FRUs also may be subject to size and weight limitations.

Four-hour Response means:

- (i) For Advance Replacement Service, the four-hour time period commences upon the Cisco problem diagnosis and determination that a FRU is required and ends when the FRU is delivered onsite.
- (ii) For onsite service, the four-hour time period commences upon the Cisco problem diagnosis and determination that remedial onsite service is required and ends when Cisco personnel arrive onsite.

Fulfilment Partner means a system integrator, distributor or reseller authorized by Cisco to sell Services under the WSCA Master Agreement in a Participating State.

Hardware means tangible Cisco equipment, devices, or components made available to Customers.

Indirect Purchases means purchases of Services by Customer through a Fulfilment Partner.

Intellectual Property means any and all tangible and intangible: (i) rights associated with works of authorship throughout the world, including but not limited to copyrights, neighboring rights, moral rights, and mask works, and all derivative works thereof, (ii) trademark and trade name rights and similar rights, (iii) trade secret rights, (iv) patents, designs, algorithms, and other industrial property rights, (v) all other intellectual and industrial property rights (of every kind and nature throughout the world and however designated) whether arising by operation of law, contract, license, or otherwise, and (vi) all registrations, initial applications, renewals, extensions, continuations, divisions, or reissues thereof now or hereafter in force (including any rights in any of the foregoing).

Level 1 means support that is defined as having the necessary technical staff (Cisco or Cisco-authorized Reseller) with appropriate skill, perform installations, Remedial Hardware Maintenance, and basic Hardware and Software configuration on Cisco Products.

Level 2 means support that is defined as having the necessary technical staff with the appropriate skills to perform isolation, replication, and diagnosis of Internet-based problems on Cisco Product(s). Customer shall not report Software bugs to Cisco prior to attempting to identify the source of such bugs and testing in Customer's Network where appropriate. If the Customer cannot duplicate the bug in Customer's Network, Customer and Cisco shall cooperate in attempting to replicate and resolve related Software bugs in either Customer's or Cisco's test facility as mutually agreed. In all cases Customer will address Software bugs on a best effort basis to replicate same in Customer's Network and document activity to Cisco before seeking further resolution with Cisco's participation.

Local Time means local time on Business Days.

Maintenance Release means an incremental Software release that provides maintenance fixes and may provide additional Software functions. Cisco designates Maintenance Releases as a change in the digits to the right of the tenths digit or of the hundredths digit of the Software version number [x.x.(x) or x.x.x.(x)].

Major Release means a release of Software that provides additional software functions. Cisco designates Major Releases as a change in the ones digit of the Software version number [(x).x.x].

Minor Release means an incremental release of Software that provides maintenance fixes and additional Software functions. Cisco designates Minor releases as a change in the tenths digit of the Software version number [x.(x).x].

Network means a set of interconnected and interworking Cisco supported Hardware and Software that is implemented, operated, and supported by Customer from a single Network Operations Center (NOC).

Network Infrastructure means your core transport and aggregation Network technology (for example, metro optical, ATM/Frame Relay, IP core, and Cisco security devices including, but not limited to, Firewall, IDS, and VPN3000).

Network Infrastructure Size means the total value of Products in Customer's Network based on the global list price of the Products that Customer has purchased.

Participating State means a member of WSCA authorized under state law to participate under this Agreement who subsequently executes a Participating Addendum, or any other state or Local Public Body authorized by the WSCA Contract Manager and Cisco to be a party to the resulting Agreement who subsequently executes a Participating Addendum.

Price List means the price list for services applicable in the country where the Services are ordered or delivered.

Product means both Cisco Hardware and/or Software which are generally available.

Purchase Order or P.O. means a written or electronic order from Customer to Cisco for the Services to be provided by Cisco under this Agreement.

Remedial Hardware Maintenance means diagnosis and onsite replacement of Hardware components with FRUs.

RMA means Return Material Authorization.

Services means one or more of the services options selected by the Customer in its Purchase Order and described at: <http://www.cisco.com/go/servicedescriptions>.

Services Descriptions mean the detailed descriptions of the Services purchased by Customer which are incorporated in the MSA by reference.

Software means the software programs licensed to Customer by Cisco along with copies, Updates, or Upgrades to those software programs.

Standard Business Hours means (i) 8:00 AM to 5:00 PM, Depot time, on Business Days for replacement of failed Products and (ii) 8:00 AM to 5:00 PM, Local Time at location of the respective Cisco TAC, on Business Days for case handling of TAC calls.

Statement of Work (SOW) means the documents agreed upon by the parties that define Services and deliverables to be provided.

TAC means the Cisco Technical Assistance Center.

Technical Support Services means Services that provide both essential proactive and reactive operation and maintenance support Services identified as Technical Support Services at <http://www.cisco.com/go/servicedescriptions>.

Technology Application means specific technologies including, but not limited to, content networking, broadband, and IP telephony that do not operate at the Network Infrastructure level.

Third Party Products means third party Hardware and/or software, and all upgrades thereto, that are designated by Cisco as required for:

- (i) The operation of Application Software in conformance with Cisco applicable Application Software Documentation.
- (ii) Cisco support of the Application Software.

Transactional Advanced Services means the project related or consultancy Services sold under a Statement of Work.

Two-hour Response means:

- (i) For Advance Replacement, the two-hour time period commencing with Cisco's problem diagnosis and determination that a FRU is required and ending when the FRU is delivered onsite.

- (ii) For onsite service, the two-hour time period commencing with our problem diagnosis and determination that remedial onsite service is required and ending when Cisco personnel arrive onsite.

Update means Cisco Software Maintenance Releases, Minor Releases, and Major Releases containing the same configuration or feature set as originally acquired, unless the Customer has upgraded the applicable Hardware or Software to a configuration or feature set other than what was originally acquired, and the applicable license fee for that upgrade has been paid. Updates do not include Feature Set Upgrades.

WSCA shall mean the WSCA NASPO Contracting Alliance (WSCA). WSCA is a cooperative group contracting consortium for state government departments, institutions, agencies, and political subdivisions (i.e., colleges, school districts, counties, cities, etc.). Rights and obligations under this contract are limited to those Participating States who execute a Participating Addendum with Cisco.

“WSCA Contract Manager” or “Contract Manager” shall mean the individual state member designated as the contract manager by WSCA, currently the State of Utah, as responsible for the legal maintenance and administration of the WSCA Master Agreement, notices, reports, and any other pertinent documentation or information.

“WSCA Master Agreement” (also referred to as “Agreement” or “Contract”) shall mean the underlying purchasing agreement executed by and between WSCA-NASPO Cooperative Purchasing Organization LLC (“State”), and Cisco, as now or hereafter amended.

ATTACHMENT B – Scope of Work

The following categories are authorized under this contract:

5.2.1 DATA CENTER APPLICATION SERVICES — Application networking solutions and technologies that enable the successful and secure delivery of applications within data centers to local, remote, and branch-office users using technology to accelerate, secure, and increase availability of both application traffic and computing resources.

5.2.1.1 Virtualized Load Balancers — Virtual devices that act like a reverse proxy to distribute network and/or application traffic across multiple servers to improve the concurrent user capacity and overall reliability of applications. Capabilities should include:

- SSL (Secure Sockets Layer) Off-loading
- Caching capabilities
- Layer 4 Load Balancing
- Layer 7 Load Balancing
- Detailed Reporting
- Supports multiple load balancers in the same system for multiple groups
- Supports TLS1.2

5.2.1.2 WAN Optimization — An appliance utilizing a collection of techniques for increasing data-transfer efficiencies across wide-area networks (WAN). Capabilities should include:

- CIFS (Common Internet File System) acceleration
- Data Compression
- SSL encryption/decryption for acceleration (Optional)
- Layer 4-7 visibility
- Application Specific optimization

5.2.2 NETWORKING SOFTWARE — Software that runs on a server and enables the server to manage data, users, groups, security, applications, and other networking functions. The network operating system is designed to allow shared file and printer access among multiple computers in a network, typically a local area network (LAN), a private network or to other networks. Networking software capabilities should include:

- Restartable Process
- High availability options
- Targeted operating systems, i.e. DC, campus, core, wan, etc.
- Operating System Efficiencies

5.2.2.1 Network Management and Automation — Software products and solutions for data center automation, cloud computing, and IT systems management.

5.2.2.2 Data Center Management and Automation — Software products and solutions that capture and automate manual tasks across servers, network, applications, and virtualized infrastructure.

5.2.2.3 Cloud Portal and Automation — Software products and solutions for cloud management with policy-based controls for provisioning virtual and physical resources.

5.2.2.4 Branch Office Management and Automation — Software products and solutions for management of branch offices. Capabilities include remote troubleshooting, device management, WAN performance monitoring.

5.2.3 NETWORK OPTIMIZATION AND ACCELERATION — Devices and tools for increasing data-transfer efficiencies across wide-area networks.

5.2.3.1 Dynamic Load Balancing — An appliance that performs a series of checks and calculations to determine which server can best service each client request in order to select the server that can successfully fulfill the client request and do so in the shortest amount of time without overloading either the server or the server farm as a whole.

5.2.3.2 WAN Acceleration — Appliance that optimizes bandwidth to improve the end user's experience on a wide area network (WAN). Capabilities should include:

- CIFS acceleration

- Data Compression

- SSL encryption/decryption for acceleration (Optional)

- Layer 4-7 visibility

- Application Specific optimization

5.2.3.3 High Availability and Redundancy — Limits any disruption to network uptime should an appliance face unforeseen performance issues. Transparently redistributes workloads to surviving cluster appliances without impacting communication throughout the cluster.

5.2.4 OPTICAL NETWORKING — High capacity networks based on optical technology and components that provide routing, grooming, and restoration at the wavelength level as well as wavelength based services.

5.2.4.1 Core DWDM (Dense Wavelength Division Multiplexing) Switches — Switches used in systems designed for long haul and ultra long-haul optical networking applications.

5.2.4.2 Edge Optical Switches — Provide entry points into the enterprise or service provider core networks.

5.2.4.3 Optical Network Management — Provides capabilities to manage the optical network and allows operators to execute end-to-end circuit creation.

5.2.4.4 IP over DWDM (IPoDWDM) — A device utilized to integrate IP Routers and Switches in the OTN (Optical Transport Network).

5.2.5 ROUTERS — A device that forwards data packets along networks. A router is connected to at least two networks, commonly two LANs or WANs or a LAN and its ISP's network. Routers are located at gateways, the places where two or more networks connect, and are the critical device that keeps data flowing between networks and keep the networks connected to the Internet.

5.2.5.1 Branch Routers — A multiservice router typically used in branch offices or locations with limited numbers of users and supports flexible configurations/feature. For example: security, VoIP, wan acceleration, etc.

5.2.5.2 Network Edge Routers — A specialized router residing at the edge or boundary of a network. This router ensures the connectivity of its network with external networks, a wide area network or the Internet. An edge router uses an External Border Gateway Protocol, which is used extensively over the Internet to provide connectivity with remote networks.

5.2.5.3 Core Routers - High performance, high speed, low latency routers that enable Enterprises to deliver a suite of data, voice, and video services to enable next-generation applications such as IPTV and Video on Demand (VoD), and Software as a Service (SaaS).

5.2.5.4 Service Aggregation Routers — Provides multiservice adaptation, aggregation and routing for Ethernet and IP/MPLS networks to enable service providers and enterprise edge networks simultaneously host resource-intensive integrated data, voice and video business and consumer services.

5.2.5.5 Carrier Ethernet Routers — High performance routers that enable service providers to deliver a suite of data, voice, and video services to enable next-generation applications such as IPTV, Video on Demand (VoD), and Software as a Service (SaaS).

5.2.6 SECURITY

5.2.6.1 Data Center and Virtualization Security Products and Appliances — Products designed to protect high-value data and data center resources with threat defense and policy control.

5.2.6.2 Intrusion Detection/Protection and Firewall Appliances — Provide comprehensive inline network firewall security from worms, Trojans, spyware, key loggers, and other malware. This includes Next-Generation Firewalls (NGFW), which offer a wire-speed integrated network platform that performs deep inspection of traffic and blocking of attacks. Intrusion Detection/Protection and Firewall Appliances should provide:

- Non-disruptive in-line bump-in-the-wire configuration

- Standard first-generation firewall capabilities, e.g., network-address translation (NAT), stateful protocol inspection (SPI) and virtual private networking (VPN), etc.

- Application awareness, full stack visibility and granular control

- Capability to incorporate information from outside the firewall, e.g., directory-based policy, blacklists, white lists, etc.

- Upgrade path to include future information feeds and security threats

- SSL decryption to enable identifying undesirable encrypted applications (Optional)

5.2.6.3 Logging Appliances and Analysis Tools — Solutions utilized to collect, classify, analyze, and securely store log messages.

5.2.6.4 Secure Edge and Branch Integrated Security Products — Network security, VPN, and intrusion prevention for branches and the network edge. Products typically consist of appliances or routers.

5.2.6.5 Secure Mobility Products — Delivers secure, scalable access to corporate applications across multiple mobile devices.

5.2.6.6 Encryption Appliances — A network security device that applies crypto services at the network transfer layer - above the data link level, but below the application level.

5.2.6.7 On-premise and Cloud-based services for Web and/or Email Security — Solutions that provide threat protection, data loss prevention, message level encryption, acceptable use and application control capabilities to secure web and email communications.

5.2.6.8 Secure Access — Products that provide secure access to the network for any device, including personally owned mobile devices (laptops, tablets, and smart phones). Capabilities should include:

- Management visibility for device access

- Self-service on-boarding
- Centralized policy enforcement
- Differentiated access and services
- Device Management

5.2.7 STORAGE NETWORKING — High-speed network of shared storage devices connecting different types of storage devices with data servers.

5.2.7.1 Director Class SAN (Storage Area Network) Switches and Modules — A scalable, high-performance, and protocol-independent designed primarily to fulfill the role of core switch in a core-edge Fibre Channel (FC), FCOE or similar SAN topology. A Fibre Channel director is, by current convention, a switch with at least 128 ports. It does not differ from a switch in core FC protocol functionality. Fibre Channel directors provide the most reliable, scalable, high-performance foundation for private cloud storage and highly virtualized environments.

5.2.7.2 Fabric and Blade Server Switches — A Fibre Channel switch is a network switch compatible with the Fibre Channel (FC) protocol. It allows the creation of a Fibre Channel fabric, which is currently the core component of most SANs. The fabric is a network of Fibre Channel devices, which allows many-to-many communication, device name lookup, security, and redundancy. FC switches implement zoning; a mechanism that disables unwanted traffic between certain fabric nodes.

5.2.7.3 Enterprise and Data Center SAN and VSAN (Virtual Storage Area Network) Management — Management tools to provisions, monitors, troubleshoot, and administers SANs and VSANs.

5.2.7.4 SAN Optimization — Tools to help optimize and secure SAN performance (ie. Encryption of data-at-rest, data migration, capacity optimization, data reduction, etc.

5.2.8 SWITCHES — Layer 2/3 devices that are used to connect segments of a LAN (local area network) or multiple LANs and to filter and forward packets among them.

5.2.8.1 Campus LAN – Access Switches — Provides initial connectivity for devices to the network and controls user and workgroup access to internetwork resources. The following are some of the features a campus LAN access switch should support:

Security

- i. SSHv2 (Secure Shell Version 2)
- ii. 802.1X (Port Based Network Access Control)
- iii. Port Security
- iv. DHCP (Dynamic Host Configuration Protocol) Snooping

VLANs

Fast Ethernet/Gigabit Ethernet

PoE (Power over Ethernet)

link aggregation

10 Gb support

Port mirroring

Span Taps

Support of IPv6 and IPv4

Standards-based rapid spanning tree
Netflow Support (Optional).

5.2.8.2 Campus LAN – Core Switches — Campus core switches are generally used for the campus backbone and are responsible for transporting large amounts of traffic both reliably and quickly. Core switches should provide:

High bandwidth
Low latency
Hot swappable power supplies and fans

- Security
 - SSHv2
 - MacSec encryption
 - Role-Based Access Control Lists (ACL)

Support of IPv6 and IPv4
1/10/40/100 Gbps support
IGP (Interior Gateway Protocol) routing
EGP (Exterior Gateway Protocol) routing
VPLS (Virtual Private LAN Service) Support
VRRP (Virtual Router Redundancy Protocol) Support
Netflow Support.

5.2.8.3 Campus Distribution Switches — Collect the data from all the access layer switches and forward it to the core layer switches. Traffic that is generated at Layer 2 on a switched network needs to be managed, or segmented into Virtual Local Area Networks (VLANs), Distribution layer switches provides the inter-VLAN routing functions so that one VLAN can communicate with another on the network. Distribution layer switches provides advanced security policies that can be applied to network traffic using Access Control Lists (ACLs).

High bandwidth
Low latency
Hot swappable power supplies and fans
Security (SSHv2 and/or 802.1X)
Support of IPv6 and IPv4
Jumbo Frames Support
Dynamic Trunking Protocol (DTP)
Per-VLAN Rapid Spanning Tree (PVRST+)
Switch-port auto recovery
NetFlow Support or equivalent

5.2.8.4 Data Center Switches — Data center switches, or Layer 2/3 switches, switch all packets in the data center by switching or routing good ones to their final destinations, and discard unwanted traffic using Access Control Lists (ACLs), all at Gigabit and 10 Gigabit speeds. High availability and modularity differentiates a typical Layer 2/3 switch from a data center switch. Capabilities should include:

High bandwidth
Low latency
Hot swappable power supplies and fans

- Ultra-low latency through wire-speed ports with nanosecond port-to-port latency and hardware-based Inter-Switch Link (ISL) trunking
- Load Balancing across Trunk group able to use packet based load balancing scheme
- Bridging of Fibre Channel SANs and Ethernet fabrics
- Jumbo Frame Support
- Plug and Play Fabric formation that allows a new switch that joins the fabric to automatically become a member
- Ability to remotely disable and enable individual ports
- Support NetFlow or equivalent

5.2.8.5 Software Defined Networks (SDN) - Virtualized Switches and Routers —

Technology utilized to support software manipulation of hardware for specific use cases.

5.2.8.6 Software Defined Networks (SDN) — Controllers - is an application in software-defined networking (SDN) that manages flow control to enable intelligent networking. SDN controllers are based on protocols, such as OpenFlow, that allow servers to tell switches where to send packets. The SDN controller lies between network devices at one end and applications at the other end. Any communications between applications and devices have to go through the controller. The controller uses multiple routing protocols including OpenFlow to configure network devices and choose the optimal network path for application traffic.

5.2.8.7 Carrier Aggregation Switches — Carrier aggregation switches route traffic in addition to bridging (transmitted) Layer 2/Ethernet traffic. Carrier aggregation switches' major characteristics are:

- Designed for Metro Ethernet networks
- Designed for video and other high bandwidth applications
- Supports a variety of interface types, especially those commonly used by Service Providers
- Capabilities should include:
 - Redundant Processors
 - Redundant Power
 - IPv4 and IPv6 unicast and multicast
 - High bandwidth
 - Low latency
 - Hot swappable power supplies and fans
 - MPLS (Multiprotocol Label Switching)
 - BGP (Border Gateway Protocol)
 - Software router virtualization and/or multiple routing tables
 - Policy based routing
- Layer 2 functionality
 - Per VLAN Spanning Tree
 - Rapid Spanning Tree
 - VLAN IDs up to 4096
 - Layer 2 Class of Service (IEEE 802.1p)
 - Link Aggregation Control Protocol (LACP)

QinQ (IEEE 802.1ad)

5.2.8.8 Carrier Ethernet Access Switches — A carrier Ethernet access switch can connect directly to the customer or be utilized as a network interface on the service side to provide layer 2 services.

- Hot-swappable and field-replaceable integrated power supply and fan tray
- AC or DC power supply with DC input ranging from 18V to 32 VDC and 36V to 72 VDC
- Ethernet and console port for manageability
- SD flash card slot for additional external storage
- Stratum 3 network clock
- Line-rate performance with a minimum of 62-million packets per second (MPPS) forwarding rate
- Support for dying gasp on loss of power
- Support for a variety of small form factor pluggable transceiver (SFP and SFP+) with support for Device Object Model (DOM)
- Timing services for a converged access network to support mobile solutions, including Radio Access Network (RAN) applications
- Support for Synchronous Ethernet (SyncE) services
- Supports Hierarchical Quality of Service (H-QoS) to provide granular traffic-shaping policies
- Supports Resilient Ethernet Protocol REP/G.8032 for rapid layer-two convergence

5.2.9 WIRELESS — Provides connectivity to wireless devices within a limited geographic area. System capabilities should include:

- Redundancy and automatic failover
- IPv6 compatibility
- NTP Support

5.2.9.1 Access Points — A wireless Access Point (AP) is a device that allows wireless devices to connect to a wired network using Wi-Fi, or related standards. Capabilities should include:

- 802.11a/b/g/n
- 802.11n
- 802.11ac
- Capable of controller discovery method via DHCP (onsite controller or offsite through Cloud Architecture)
- UL2043 plenum rated for safe mounting in a variety of indoor environments
- Support AES-CCMP (128-bit)
- Provides real-time wireless intrusion monitoring and detection

5.2.9.2 Outdoor Wireless Access Points — Outdoor APs are rugged, with a metal cover and a DIN rail or other type of mount. During operations they can tolerate a wide temperature range, high humidity and exposure to water, dust, and oil. Capabilities should include:

- Flexible Deployment Options
- Provides real-time wireless intrusion monitoring and detection
- Capable of controller discovery method via DHCP (onsite controller or offsite through Cloud Architecture)

5.2.9.3 Wireless LAN Controllers — An onsite or offsite solution utilized to manage light-weight access points in large quantities by the network administrator or network operations center. The WLAN controller automatically handles the configuration of wireless access-points. Capabilities should include:

- Ability to monitor and mitigate RF interference/self-heal
- Support seamless roaming from AP to AP without requiring re-authentication
- Support configurable access control lists to filter traffic and denying wireless peer to peer traffic
- System encrypts all management layer traffic and passes it through a secure tunnel
- Policy management of users and devices provides ability to de-authorize or deny devices without denying the credentials of the user, nor disrupting other AP traffic
- Support configurable access control lists to filter traffic and denying wireless peer to peer traffic

5.2.9.4 Wireless LAN Network Services and Management — Enables network administrators to quickly plan, configure and deploy a wireless network, as well as provide additional WLAN services. Some examples include wireless security, asset tracking, and location services. Capabilities should include:

- Provide for redundancy and automatic failover
- Historical trend and real time performance reporting is supported
- Management access to wireless network components is secured
- SNMPv3 enabled
- RFC 1213 compliant
- Automatically discover wireless network components
- Capability to alert for outages and utilization threshold exceptions
- Capability to support Apple's Bonjour Protocol / mDNS
- QoS / Application identification capability

5.2.9.5 Cloud-based services for Access Points — Cloud-based management of campus-wide WiFi deployments and distributed multi-site networks. Capabilities include:

- Zero-touch access point provisioning
- Network-wide visibility and control
- RF optimization,
- Firmware updates

5.2.9.6 Bring Your Own Device (BYOD) — Mobile Data Management (MDM) technology utilized to allow employees to bring personally owned mobile devices (laptops, tablets, and smart phones) to their workplace, and use those devices to access privileged government information and applications in a secure manner. Capabilities should include:

- Ability to apply corporate policy to new devices accessing the network resources, whether wired or wireless
- Provide user and devices authentication to the network
- Provide secure remote access capability
- Support 802.1x
- Network optimization for performance, scalability, and user experience

5.3.0 UNIFIED COMMUNICATIONS (UC) — A set of products that provides a consistent unified user interface and user experience across multiple devices and media types. Unified Communications that is able to provide services such as session management, voice, video, messaging, mobility, and web conferencing. It can provide the foundation for advanced unified communications capabilities of IM and presence-based services and extends telephony features and capabilities to packet telephony network devices such as IP phones, media processing devices, Voice over IP (VoIP) gateways, and multimedia applications. Additional services, such as unified messaging, multimedia conferencing, collaborative contact centers, and interactive multimedia response systems, are made possible through open telephony APIs. General UC solution capabilities should include:

- High Availability for Call Processing
- Hardware Platform High Availability
- Network Connectivity High Availability
- Call Processing Redundancy

5.3.0.1 IP Telephony — Solutions utilized to provide the delivery of the telephony application (for example, call setup and teardown, and telephony features) over IP, instead of using circuit-switched or other modalities. Capabilities should include:

- Support for analog, digital, and IP endpoints
- Centralized Management
- Provide basic hunt group and call queuing capabilities
- Flexibility to configure queue depth and hold time, play unique announcements and Music on Hold (MoH), log in and log out users from a queue and basic queue statistics (from the phone)
- E911 Support

5.3.0.2 Instant messaging/ Presence — Solutions that allow communication over the Internet that offers quick transmission of text-based messages from sender to receiver. In push mode between two or more people using personal computers or other devices, along with shared clients, instant messaging basically offers real-time direct written language-based online chat. Instant messaging may also provide video calling, file sharing, PC-to-PC voice calling and PC-to-regular-phone calling.

5.3.0.3 Unified messaging — Integration of different electronic messaging and communications media (e-mail, SMS, Fax, voicemail, video messaging, etc.) technologies into a single interface, accessible from a variety of different devices.

- Ability to access and manage voice messages in a variety of ways, using email inbox, Web browser, desktop client, VoIP phone, or mobile phone
- Visual Voicemail Support (Optional)

5.3.0.4 Contact Center — A computer-based system that provides call and contact routing for high-volume telephony transactions, with specialist answering "agent" stations and a sophisticated real-time contact management system. The definition includes all contact center systems that provide inbound contact handling capabilities and automatic contact distribution, combined with a high degree of sophistication in terms of dynamic contact traffic management.

5.3.0.5 Communications End Points and Applications

- Attendant Consoles
- IP Phones

5.3.0.6 UC Network Management — Provides end-to-end service management for Unified Communications. Capabilities include testing, performance monitoring, configuration management, and business intelligence reporting.

5.3.0.7 Collaboration — Voice, video, and web conferencing; messaging; mobile applications; and enterprise social software.

5.3.0.8 Collaborative Video — A set of immersive video technologies that enable people to feel or appear as if they were present in a location that they are not physically in. Immersive video consists of a multiple codec video system, where each meeting attendee uses an immersive video room to “dial in” and can see/talk to every other member on a screen (or screens) as if they were in the same room and provides call control that enables intelligent video bandwidth management.

5.3.0.8.1 Content Delivery Systems (CDS) — A large distributed system of servers deployed in multiple data centers connected by the Internet. The purpose of the content delivery system is to serve content to end-users with high availability and high performance. CDSs serve content over the Internet, including web objects (text, graphics, URLs, and scripts), downloadable objects (media files, software, documents), applications (e-commerce, portals), live streaming media, on-demand streaming media, and social networks.

5.3.0.8.2 Physical Security — Technology utilized to restricting physical access by unauthorized people to controlled facilities. Technologies include:

- a. Access control systems
- b. Detection/Identification systems, such as surveillance systems, closed circuit television cameras, or IP camera networks and the associated monitoring systems.
- c. Response systems such as alert systems, desktop monitoring systems, radios, mobile phones, IP phones, and digital signage
- d. Building and energy controls

5.3.1 SERVICES — For each Category above (5.21-5.30), the following services should be available for procurement as well at the time of product purchase or anytime afterwards.

5.3.1.1 Maintenance Services — Capability to provide technical support, flexible hardware coverage, and smart, proactive device diagnostics for hardware.

5.3.1.2 Professional Services

Deployment Services

Survey/ Design Services — Includes, but not limited to, discovery, design, architecture review/validation, and readiness assessment.

Implementation Services — Includes, but not limited to, basic installation and configuration or end-to-end integration and deployment.

Optimization — Includes, but not limited to, assessing operational environment readiness, identify ways to increase efficiencies throughout the network, and optimize Customer's infrastructure, applications and service management.

Remote Management Services — Includes, but not limited to, continuous monitoring, incident management, problem management, change management, and utilization and performance reporting that may be on a subscription basis.

Consulting/Advisory Services — Includes, but not limited to, assessing the availability, reliability, security and performance of Customer's existing solutions.

Data Communications Architectural Design Services — Developing architectural strategies and roadmaps for transforming Customer's existing network architecture and operations management.

Statement of Work (SOW) Services — Customer-specific tasks to be accomplished and/or services to be delivered based on Customer's business and technical requirements.

5.3.1.3 Partner Services — Provided by Contractor's Authorized Partners/Resellers.

Subject to Contractor's approval and the certifications held by its Partners/Resellers, many Partners/Resellers can also offer and provide some or all of the Services as listed above at competitive pricing, along with local presence and support. As the prime, Contractor is still ultimately responsible for the performance of its Partners/Resellers. Customers can have the option to purchase the Services to be directly delivered by Contractor (OEM) or its certified Partners/Resellers.

5.3.1.4 Training — Learning offerings for IT professionals on networking technologies, including but not limited to designing, implementing, operating, configuring, and troubleshooting network systems pertaining to items provided under the master agreement.

In addition to the above, Cisco, through applicable [Authorized Resellers](#), is pleased to offer hosted service offerings for certain technology categories listed [above](#) (at Cisco's discretion). These hosted offerings provide WSCA-NASPO customers with an alternative way to consume the technology to best meet their needs and provide flexible payment models. These models may be well suited for customers that have limited technical staff for technology deployment and ongoing administration.

The hosted service offerings are based on Cisco [validated](#) architectures and delivered through carefully vetted and approved [Authorized Resellers](#). Due to the unique requirements of each customer, Cisco and the approved [Authorized Resellers](#) can work with the customer to understand their unique requirements and deploy hosted offerings to best meet their needs. Additional contractual terms and conditions specific to the hosted solutions may be required.

Current Cisco Systems, Inc. pricing sheets, approved by the State of Utah, can be found at the following web link:

[**VENDOR PRICING SHEETS CLICK HERE**](#)

IMPORTANT: The minimum discount percentage listed in this attachment is for general informational purposes only and may not apply to every line item authorized under this contract. For specific item pricing, please refer to the contact price list weblink provided in this document.

Vendors are required to post state specific pricing on their hosted website or through the WSCA-NASPO eMarket center as required by solicitation JP14001, in addition to the vendor pricing sheets approved and hosted by the State of Utah's master contract summary sheet. The State of Utah vendor pricing sheets will serve as the approved base price and do not include any applicable state specific administrative fees. State specific pricing, hosted on the vendor website or WSCA-NASPO eMarketcenter may reflect authorized state specific administrative fees. No other fees are authorized under this contract. Pricing audits may be conducted at any time by the State of Utah, WSCA-NASPO, or 3rd party audit provider to ensure accurate pricing.

Per Solicitation JP14001, the following pricing/product requirements and instructions apply:

1.11 Pricing Structure

Pricing Structure: Pricing for the State of Utah WSCA-NASPO Master Agreements shall be based on the Percent Discount off the current global MSRP Schedule applicable to United States customers.

1.12 Price Guarantee Period

Price Guarantee Period: The Data Communication Provider's Discount rate shall remain in effect for the term of the WSCA-NASPO Master Price Agreement.

1.13 Price Escalation

Equipment, Supplies and Services: Data Communications provider may update the pricing on their MSRP price list one time every year after the first year of the original contract term. The WSCA-NASPO Contract Administrator will review a documented request for a Price Schedule price list adjustment only after the Price Guarantee Period.

1.14 Price Reductions

In the event of a price decrease in any category of product at any time during the contract in a Provider's Price Schedule, including renewal options, the WSCA-NASPO Contract Administrator shall be notified immediately. All Price Schedule price reductions shall be effective upon the notification provided to the WSCA-NASPO Master Agreement Administrator.

1.15 Usage Reporting Requirement

All Data Communication Provider's will be required to provide quarterly usage reports to the WSCA-NASPO Contract Administrator or designee. The initiation and submission of the quarterly reports are the responsibility of the Data Communication Contract Provider. You are responsible to collect and report all sales data including your resellers and partners sales associated with your Master Agreement. There will be no prompting or notification provided by the WSCA-NASPO Contract Administrator. The quarterly usage reports are due as follows:

Quarter #1:	July 1 through September 30, due annually by November 30.
Quarter #2:	October 1 through December 31, due annually by February 28.
Quarter #3:	January 1 through March 31, due annually by May 31.
Quarter #4:	April 1 through June 30, due annually by August 31.

1.20 WSCA Administrative Fee

The Contracted Supplier must pay a WSCA-NASPO administrative fee of one quarter of one percent (.25%) in accordance with the terms and conditions of the contract. The WSCA-NASPO administrative fee shall be submitted quarterly and is based on the actual sales of all products and services in conjunction with your quarterly reports. The WSCA-NASPO administrative fee must be included when determining the pricing offered. The WSCA-NASPO administrative fee is not negotiable and shall not be added as a separate line item on an invoice.

Additionally, some WSCA-NASPO participating entities may require that an administrative fee be paid directly to the WSCA-NASPO participating entity on purchases made by purchasing entities within that State. For all such requests, the fee percentage, payment method and payment schedule for the participating entity's administrative fee will be incorporated in the Participating Addendum. Data Communications Provider will be held harmless, and may adjust (increase) the WSCA-NASPO Master Agreement pricing by the fee percentage for that participating entity accordingly for purchases made by purchasing entities within the jurisdiction of the State. All such agreements may not affect the

WSCANASPO fee or the prices paid by the purchasing entities outside the jurisdiction of the participating entities requesting the additional fee. The WSCA-NASPO quarterly administrative fee will be submitted along with the quarterly usage reports as set forth below:

Quarter #1:	July 1 through September 30, due annually by November 30.
Quarter #2:	October 1 through December 31, due annually by February 28.
Quarter #3:	January 1 through March 31, due annually by May 31.
Quarter #4:	April 1 through June 30, due annually by August 31.

5.3.2 ADDING PRODUCTS

The ability to add new equipment and services is for the convenience and benefit of WSCA-NASPO, the Participating States, and all the Authorized Purchasers. The intent of this process is to promote "one-stop shopping" and convenience for the customers and equally important, to make the contract flexible in keeping up with rapid technological advances. The option to add new product or service categories and/items will expedite the delivery and implementation of new technology solutions for the benefit of the Authorized Purchasers.

After the contracts are awarded, additional IT product categories and/or items may be added per the request of the Contractor, a Participating State, an Authorized Purchaser or WSCA-NASPO. Additions may be ad hoc and temporary in nature or permanent. All additions to an awarded Contractor or Manufacturer's offerings must be products, services, software, or solutions that are commercially available at the time they are added to the contract award and fall within the original scope and intent of the RFP (i.e., converged technologies, value adds to manufacturer's solution offerings, etc.).

5.3.2.1 New Product from Contractors — If Contractor, a Participating State, an Authorized Purchaser or WSCA-NASPO itself requests to add new product categories permanently, then all awarded Contractors (Manufacturers) will be notified of the proposed change and will have the opportunity to work with WSCA to determine applicability, introduction, etc. Any new products or services must be reviewed and approved by the State of Utah WSCA-NASPO Contract Administrator.

5.3.2.2 Ad Hoc Product Additions — A request for an ad hoc, temporary addition of a product category/item must be submitted to WSCA-NASPO via the governmental entity's contracting/purchasing officer. Ad hoc, temporary requests will be handled on a case-by-case basis. The State of Utah WSCA-NASPO Contract Administrator must also be notified and will review and approve the addition before the purchase is finalized by the end user. The State of Utah WSCA-NASPO Contract Administrator has the final approval on any Ad Hoc product additions.

5.3.2.3 Pricelist Updates — As part of each Contractor's ongoing updates to its pricelists throughout the contract term, Contractor can add new SKUs to its awarded product categories that may have been developed in-house or obtained through mergers, acquisitions or joint ventures; provided, however, that such new SKUs fall within the Contractor's awarded product categories. Updated price lists will be reviewed and approved by the State of Utah WSCA-NASPO Contract Administrator before the revised price list is considered valid.

Cisco Catalyst 4500 Series Switches

End-of-Sale and End-of-Life Announcement for the Cisco Catalyst 4500 Non-E-Series Chassis

End-of-Sale and End-of-Life Announcement for the Cisco Catalyst 4500 Non-E-Series Chassis

EOL6869

Viewing Options

Cisco announces the end-of-sale and end-of life dates for the Cisco Catalyst 4500 Non-E-Series Chassis. The last day to order the affected product(s) is July 31, 2010. Customers with active service contracts will continue to receive support from the Cisco Technical Assistance Center (TAC) as shown in Table 1 of the EoL bulletin. Table 1 describes the end-of-life milestones, definitions, and dates for the affected product(s). Table 2 lists the product part numbers affected by this announcement. For customers with active and paid service and support contracts, support will be available until the termination date of the contract, even if this date exceeds the Last Date of Support shown in Table 1.

[PDF \(245.6 KB\)](#)[Feedback](#)

Table 1. End-of-Life Milestones and Dates for the Cisco Catalyst 4500 Non-E-Series Chassis

Milestone	Definition	Date
End-of-Life Announcement Date	The date the document that announces the end of sale and end of life of a product is distributed to the general public.	January 30, 2010
End-of-Sale Date	The last date to order the product through Cisco point-of-sale mechanisms. The product is no longer for sale after this date.	July 31, 2010
Last Ship Date: HW	The last-possible ship date that can be requested of Cisco and/or its contract manufacturers. Actual ship date is dependent on lead time.	October 29, 2010
End of SW Maintenance Releases Date: HW	The last date that Cisco Engineering may release any final regular software maintenance releases or software fixes through rebuilds of Release 12.2.(50)SG or 12.2(53)SG. After this date, software maintenance releases or software fixes will be made available on subsequent software releases.	July 31, 2011
End of software maintenance releases through migration	The last date that Cisco Engineering may release any final software maintenance releases or software fixes for critical network impacting issues that have been identified by the customer to Cisco TAC and subsequently qualified via Cisco's normal evaluation process. This support will be provided according to the following terms and conditions: • Cisco TAC will first use commercially reasonable efforts to work with the	July 31, 2013

	Customer to determine the locality of impact and to find a workaround for the problem. • If an alternative workaround is not possible during the extended period of support, then Cisco will make commercially reasonable efforts to provide a bug fix solution to remedy the problem. • If despite commercially reasonable efforts Cisco is unable to provide a software based solution, it may be necessary for the Customer to remove or upgrade the impacted software based systems to correct the problem. After this date Cisco Engineering will no longer repair or maintain Releases for products listed in this announcement.	
End of Security and Vulnerability Fixes	The last date that Cisco will provide support for security vulnerabilities, defined as network-impacting security vulnerabilities that have been identified by the Customer to Cisco TAC and subsequently qualified via Cisco's normal evaluation process. Critical security and vulnerability fixes will be provided according to the following terms and conditions: • Cisco TAC will first use commercially reasonable efforts to work with the Customer to determine the locality of impact and to find a workaround for the problem. • If an alternative workaround is not possible during the extended period of support, then Cisco will make commercially reasonable efforts to provide a bug fix solution to remedy the problem. • If despite commercially reasonable efforts Cisco is unable to provide a software based solution, it may be necessary for the Customer to remove or upgrade the impacted software based systems to correct the problem.	July 31, 2013
End of Routine Failure Analysis Date: HW	The last-possible date a routine failure analysis may be performed to determine the cause of hardware product failure or defect.	July 31, 2011
End of New Service Attachment Date: HW	For equipment and software that is not covered by a service-and-support contract, this is the last date to order a new service-and-support contract or add the equipment and/or software to an existing service-and-support contract.	July 31, 2011

End of Service Contract Renewal Date: HW	The last date to extend or renew a service contract for the product.	October 26, 2014
Last Date of Support: HW	The last date to receive service and support for the product. After this date, all support services for the product are unavailable, and the product becomes obsolete.	July 31, 2015

HW = Hardware OS SW = Operating System Software App. SW = Application Software

Product Migration Options

Customers are encouraged to migrate to the Cisco Catalyst 4500 E-Series systems. The Cisco Catalyst 4500 E-Series Switch is the high-performance next-generation Cisco Catalyst 4500 Series Switch. The Catalyst 4500 E-Series Switch is ideal for Cisco Borderless Networks deployments at the access, core, and distribution layers and has been designed to address generation customer deployments such as voice and video. For more information on Cisco Catalyst 4500 E-Series systems, please go to:

http://www.cisco.com/en/US/products/hw/switches/ps4324/products_data_sheets_list.html.

Customers can use the Cisco Technology Migration Program (TMP) to trade-in products and receive credit toward the purchase of new Cisco equipment. For more information about Cisco TMP, customers should work with their Cisco Partner or Cisco account team. Cisco Partners can find additional TMP information on Partner Central at

<http://www.cisco.com/web/partners/pr11/incentive/tmp/index.html>

Customers may be able to continue to purchase the Cisco Catalyst 4500 Non-E-Series Chassis through the Cisco Certified Refurbished Equipment program. Refurbished units may be available in limited supply for sale in certain countries on a first-come, first-served basis until the Last Date of Support has been reached. For information about the Cisco Certified Refurbished Equipment program, go to: www.cisco.com/go/eos

Service prices for Cisco products are subject to change after the product End of Sale date.

The Cisco Takeback and Recycle program helps businesses dispose properly of surplus products that have reached their end of useful life. The program is open to all business users of Cisco equipment and its associated brands and subsidiaries. For more information, go to:

http://www.cisco.com/web/about/ac227/ac228/ac231/about_cisco_takeback_recycling.html

CITY COUNCIL AGENDA ITEM

REQUESTED COUNCIL MEETING DATE 12/09/2014

Consent item: Yes

SUBJECT: Purchase of Employee Health and Dental Insurances

DEPARTMENT: Administrative Services

RECOMMENDED MOTION: Move to waive formal bidding requirements for Employee Health and Dental Insurances and authorize staff to negotiate a one-year extension to the City's current contracts with Florida Health Care Plans and Florida Combined Life.

SUMMARY: The City is currently under contract with Florida Health Care Plans (FHCP) and Florida Combined Life (FCL) for employee health and dental insurances, respectively. Under the current contracts the City expends approximately 2.2 million dollars on health insurance premiums with FHCP and \$157,000 on dental insurance premiums with FCL annually. FHCP and FCL were selected through a competitive bidding process in 2014 that involved extensive input from City employees. The City has retained FHCP for its employee health insurance coverage for over two decades. One of the primary reasons expressed by employees for selecting FHCP this past year was the desire to maintain the FHCP physicians with whom the employees, their spouses and children have longstanding relationships.

The current contracts with FHCP and FCL are valid only through June 30, 2015. Unfortunately, the bid specifications prepared by the City's Agent of Record in 2014 did not clearly specify the City's desire for a multi-year contract with the awarded vendors. The bidding process generates significant administrative work for Purchasing, Legal and Human Resources, and the potential disruption associated with changing carriers is taxing on employees. Section 2-267 of the City's Purchasing Ordinance allows the requirement for formal bidding to be waived for insurance coverage.

If the City is required to bid health and dental insurance in 2015, the process will need to start in January to ensure that new contracts are in place and any changes can be communicated to employees as part of the annual open enrollment period. If Council approves the waiver of bidding requirements, staff will negotiate competitive rates and bring those back to Council as part of a one-year extension to the City's existing contracts with FHCP and FCL.

CITY COUNCIL AGENDA ITEM

REQUESTED COUNCIL MEETING DATE 12/09/2014

Consent item: Yes

SUBJECT: C.O. #2 to Hazen Construction for Water Service Line Replacements

DEPARTMENT: Public Utilities

RECOMMENDED MOTION: Move to approve Final (Deductive) Change Order #2 to the existing contract with Hazen Construction, L.L.C., for the deductive amount of \$15,951.31 on the Water Services Replacement Project 2014, approving final payment, and authorizing the Mayor and City Clerk to execute all associated documents on behalf of the City

SUMMARY: This project consisted of replacing 730 old, leaky potable water service lines within many established residential areas. Old and leaky water service lines contribute to our unbilled water each day. Services which are not replaced may also create roadway and/or sidewalk failures.

All required restoration in these residential areas is now complete and a final inspection has been conducted. Hazen Construction was very easy to work with during the course of construction producing excellent results in sometimes difficult situations. The following areas are now complete: Foxboro I, II, and III, Willow Trail Apartments, Cambridge Estates, Cambridge Villas, Tree Top, Laurelwood, and Beacon Woods.

Hazen Construction worked with us on all of the additions and deletions and adjustments necessary to get this unit price project successfully completed on time with only a minor overall cost additional to the project. These additional costs were previously outlined in Change Order #1. The final contract amount is now \$ 562,596.69, a **decrease** of \$15,951.31. See Change Order #2 attached for your approval, as well the detailed final unit price quantities listed.

Project No.: URP001 Funding Account No.: 40308005336397

PUBLIC UTILITIES

CHANGES ORDERED:

- I. GENERAL: This change order is necessary to cover changes in the work to be performed under this Contract.

The change in price and/or delivery date described, is considered to be fair and reasonable and has been mutually agreed upon in full agreement and final settlement of all claims arising out of the modification including all claims for delays and disruptions resulting from, caused by, or incident to such modifications and change orders.

- II. REQUIRED CHANGES:

CONTRACT PRICE: The contract is hereby reduced by \$15,951.31.

CONTRACT TIME: N/A

- III. JUSTIFICATION:

CONTRACT PRICE: Construction is complete for this project. This deductive change order reflects the actual quantities of work installed and resulting costs.

CONTRACT TIME: N/A

- IV. PAYMENT: Final Payment to be adjusted according to this change order.

- V. APPROVAL AND CHANGE AUTHORIZATION:

Acknowledgments:

The aforementioned change, and work affected thereby, is subject to all provisions of the original contract not specifically changed by this Change Order; and,

The change in price and/or delivery date described, is considered to be fair and reasonable and has been mutually agreed upon in full agreement and final settlement of all claims arising out of the modification including all claims for delays and disruptions resulting from, caused by, or incident to such modifications and change orders.

It is expressly understood and agreed that the approval of the Change Order shall have no effect on the original contract other than matters expressly provided herein.

CITY COUNCIL AGENDA ITEM

REQUESTED COUNCIL MEETING DATE 12/09/2014

Consent item: No

SUBJECT: Resolution No. 14-79 - Creating a City Manager Selection Citizen Advisory Committee

DEPARTMENT: Administrative Services

RECOMMENDED MOTION: To approve Resolution 14-79.

SUMMARY: RFP#14-32 called for creation of a citizen advisory committee to assist with developing the candidate profile to be used by the Executive Search Firm in recruiting a new City Manager. The attached draft resolution creates the committee and determines how and for how long the committee shall function. Based on Council's direction at the October 27th Meeting, the draft resolution provides that the advisory committee shall consist of two (2) appointments and one (1) alternate from each councilmember.

RESOLUTION NO. 14-79

A RESOLUTION OF THE CITY OF PORT ORANGE, VOLUSIA COUNTY, FLORIDA, ESTABLISHING A CITIZEN ADVISORY COMMITTEE; PROVIDING FOR PURPOSE, DUTIES AND FUNCTIONS; PROVIDING FOR APPOINTMENTS; PROVIDING FOR ORGANIZATION AND RULES OF PROCEDURE; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Port Orange has begun the search for a permanent City Manager; and

WHEREAS, the City Council has elected to engage the services of an executive search firm by publishing RFP# 14-32; and

WHEREAS, the City Council recognizes the value of community input during the selection process; and

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF PORT ORANGE, VOLUSIA COUNTY, FLORIDA:

SECTION 1. The City Council of the City of Port Orange, Florida, hereby establishes the City Manager Selection Citizen Advisory Committee as follows:

A. Purpose, Duties and Functions.

The City Manager Selection Citizen Advisory Committee ("Committee") shall provide community input regarding the candidate profile development by the Executive Search Firm. The Committee shall meet at least twice with the Executive Search Firm and provide input prior to the candidate profile being finalized by City Council. The Committee shall provide such other support and assistance for the City Council as may be requested from time to time. The

Committee shall cease to exist and disband once a City Manager has been selected by City Council, without any further action by City Council.

B. Appointments.

Each member of City Council shall appoint two (2) members to serve on the Committee. Once the initial appointments have been made, each City Council member shall select one (1) alternate. The alternates shall attend all meetings of the Committee, but shall not vote unless filling an absence created by a Committee member appointed by the same City Council Member as the alternate.

C. Organization, rules of procedure.

- a. *Officers.* The members of the Committee shall elect a chairman, and a vice-chairman to preside in the absence of the chairman. Such election shall take place at the first meeting of the Committee.
- b. *Responsibilities of chairman.* The chairman shall be responsible for the orderly running of all meetings, shall direct the preparation of all reports and shall make all necessary reports to the City Council.
- c. *Responsibilities of secretary; minutes.* The city recording secretary shall be responsible for keeping and recording minutes. A copy of the minutes of each meeting shall be kept on file in the city clerk's office.
- d. *Quorum; rules of order.* The presence of four or more members shall constitute a quorum of the Committee necessary to take action or conduct business. The Committee shall adopt Robert's Rules of Order, latest edition, or such other written rules and procedures as may be

desirable and necessary to promote and effectuate the purposes, objectives and business of the Committee in an orderly, timely and productive manner.

- e. *Compensation.* Members and alternates of the Committee shall serve without compensation but may be reimbursed for such travel, mileage, per diem or other expenses as may be authorized by the City Council.
- f. *Sunshine Law.* As an advisory Committee of the City Council, this Committee shall govern itself at all times in accordance with the Sunshine Laws of the State of Florida (F.S. § 286.011).

SECTION 2. If any article, section, subsection, sentence, clause, or provision of this resolution is held to be invalid for any reason, such holding shall not be construed to affect the remainder of this resolution.

SECTION 3. This resolution shall become effective immediately upon adoption by City Council.

A RESOLUTION OF THE CITY OF PORT ORANGE,
VOLUSIA COUNTY, FLORIDA, APPROPRIATING
OPERATING AND CAPITAL FUNDS FOR THE
CONSTRUCTION OF A SHARED-USE PATH FROM
CENTRAL PARK BOULEVARD NORTH TO TAYLOR
ROAD; SETTING FORTH REVENUES AND
EXPENDITURES; AND PROVIDING AN EFFECTIVE
DATE.

WHEREAS, the City Council has approved acceptance of Local Agency Program (LAP) Agreement FPN 430079-1-58/68-01 and Contract No. ARN84 to construct the South Spruce Creek Road Shared-Use Path from Central Park Boulevard north to Taylor Road; and

WHEREAS, the City has received the fully executed LAP agreement; and

WHEREAS, the City Council desires to appropriate the funds related to various operating and capital projects, and to set forth, appropriate and change appropriations of certain revenues and expense.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF PORT ORANGE, VOLUSIA COUNTY, FLORIDA:

Section 1. The funds for the City Capital project are hereby appropriated as set forth in Composite Exhibit A, attached hereto, which reflects revenues and corresponding expenditures for the designated project.

Section 2. The Budget item adopted in the preceding section shall govern the expenditures relating to such operations and projects for the City during the current fiscal year effective October 1, 2014 through September 30, 2015.

Section 3. Supplemental appropriations, reductions of appropriations, emergency appropriations, and interdepartmental transfers of appropriations may be effected by the City Council and the City Manager as deemed necessary in strict compliance with the procedures specified in Chapter 2, Article VI, Division 3, Code of Ordinances, City of Port Orange, Florida.

Section 4. This resolution shall become effective immediately upon adoption.

CITY COUNCIL AGENDA ITEM

REQUESTED COUNCIL MEETING DATE 12/09/2014

Consent item: No

SUBJECT: Resolution No. 14-82- Adopting New Water, Wastewater and Reclaimed Water Rates

DEPARTMENT: Finance

RECOMMENDED MOTION: Approve Resolution 14-82.

SUMMARY: In October 2013 the City hired Public Resources Management Group (PRMG) to prepare a water, wastewater and reclaimed water rate study. Representatives of PRMG will attend to present the results of their study and their recommendations which were prepared in consultation with City Finance Department staff and the City Manager. Copies of their study and the presentation they will be making to City Council are attached.

The resolution which is attached implements the recommendations of the consultant and moves toward a simpler and more equitable rate structure.

RESOLUTION NO. 14-82

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PORT ORANGE, VOLUSIA COUNTY, FLORIDA, ESTABLISHING THE PURPOSE FOR REVISED UTILITY SERVICE FEES, RATES AND CHARGES; ESTABLISHING SCHEDULE OF MONTHLY WATER CHARGES; ESTABLISHING SCHEDULE OF MONTHLY SEWER CHARGES; ESTABLISHING CHARGES AND RATES FOR RECLAIMED WATER SYSTEM; SUPERSEDING PRIOR RESOLUTIONS AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Chapter 74 of the Code of Ordinances of the City of Port Orange, Florida, provides for the establishment of certain utility fees and charges by resolution of the City Council; and

WHEREAS, said Chapter 74 requires the annual review and adjustment of utility fees and charges by the City Council, and a rate study and analysis has been completed resulting in recommended rate changes as reflected herein; and

WHEREAS, the City Council has determined that the rates reflected herein are fair and equitable and necessary to fund the proper operation of the City's water and sewer system.

WHEREAS, the City Council has found that the City of Port Orange, Florida, Land Development Code, Chapter 2, Section 2, defines "Dwelling" and further that each equivalent living unit as defined by Chapter 74 of the Code of Ordinance of the City of Port Orange, Florida, is determined by using a fixture or dwelling unit basis depending on whether the service is motel, hotel, commercial and industrial, or residential, respectively.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF PORT ORANGE, VOLUSIA COUNTY, FLORIDA:

Section 1. Purpose.

The City Council finds that adjustments are necessary to offset the change in price of labor, materials, non-operating cost, and requirements of the bond covenants.

PART A – DEVELOPMENT AND GROWTH RELATED FEES

Section 2. Development Fee Schedule – Water and Sewer Service.

The Development Fees shall be as follows:

A. Inside City Limits:

1. For each equivalent living unit connected to the system (including: single family or multiple family on a public or private utility systems):

<u>Water Service Development Fee</u>	\$ 1,555.00
<u>Sewer Service Development Fee</u>	\$ 1,540.00

2. For each campsite, space or other facility for temporary use in a campground or recreational park connected to the system:

<u>Water Service Development Fee</u>	\$ 622.00
<u>Sewer Service Development Fee</u>	\$ 616.00

3. For each motel, hotel, commercial or industrial use connected to the system:

<u>Water Service Development Fee</u>	\$1,555.00 per equivalent living unit at a minimum plus an amount computed as follows:
--------------------------------------	--

<u>NUMBER OF FIXTURE UNITS</u>	<u>AMOUNT PER FIXTURE UNIT</u>	<u>EACH FIXTURE UNIT OVER</u>
0-15	\$ 0.00	0
16-30	103.67	15
31 & Above	77.75	30

<u>Sewer Service Development Fee</u>	\$ 1,540.00 per equivalent living unit plus the following amount:
--------------------------------------	---

<u>NUMBER OF FIXTURE UNITS</u>	<u>AMOUNT PER FIXTURE UNIT</u>	<u>EACH FIXTURE UNIT OVER</u>
0-15	\$ 0.00	0
16-30	102.67	15
31 & Above	77.00	30

B. Outside City Limits:

1. For each equivalent living unit connected to the system (Including: single family or multi-family for a public or private utility systems):

<u>Water Service Development Fee</u>	\$ 1,805.00
<u>Sewer Service Development Fee</u>	\$ 1,868.00

2. For each campsite, space or other facility for temporary use in a campground or recreational park connected to the system:

<u>Water Service Development Fee</u>	\$ 722.00
<u>Sewer Service Development Fee</u>	\$ 747.00

3. For each motel, hotel, commercial or industrial use connected to the system:

Water Service Development Fee \$1,805.00 per equivalent living Unit plus the following amount:

<u>NUMBER OF FIXTURE UNITS</u>	<u>AMOUNT PER FIXTURE UNIT</u>	<u>EACH FIXTURE UNIT OVER</u>
0-15	\$ 0.00	0
16-30	120.33	15
31 & Above	90.25	30

Sewer Service Development Fee \$ 1,868.00 per equivalent living unit plus the following amount.

<u>NUMBER OF FIXTURE UNITS</u>	<u>AMOUNT PER FIXTURE UNIT</u>	<u>EACH FIXTURE UNIT OVER</u>
0-15	\$ 0.00	0
16-30	124.53	15
31 & Above	93.40	30

C. City of Daytona Beach Shores: (treatment only)

1. For each equivalent living unit connected to the system (including: single family and multi-family for public or private utility systems):

Sewer Service Development Fee \$ 956.00

2. For each motel, hotel, commercial or industrial use connected to the system:

Sewer Service Development Fee \$ 956.00 per equivalent living unit plus the following amount:

<u>NUMBER OF FIXTURE UNITS</u>	<u>AMOUNT PER FIXTURE UNIT</u>	<u>EACH FIXTURE UNIT OVER</u>
0-15	\$ 0.00	0
16-30	63.73	15
31 & Above	47.80	30

Each additional equivalent living unit occasioned by changes in property usage subsequent to the effective date of this resolution shall be subjected to a Development Fee computed in accordance with the foregoing criteria.

Section 3. Connection Charges for Water Service Potable & Reclaimed

Connection Charges

Connection charges are not refundable and are due and payable prior to connection or reconnection to the utility system.

A. Inside City Limits:

The following charges shall be required for each connection made to the utility system inside the City limits:

<u>METER SIZE</u>	<u>CONNECTION CHARGE</u>	
	<u>POTABLE</u>	<u>RECLAIMED/IRRIGATION</u>
¾ inch	\$ 605	\$ 605
1 inch	825	825
1 ½ inch	980	980
2 inch	1,905	1,535
3 inch or larger	425 + actual material & labor	

B. Outside City Limits:

The following charges shall be required for each connection made to the water system outside the City limits:

<u>METER SIZE</u>	<u>CONNECTION CHARGE</u>
	<u>POTABLE</u>
¾ inch	\$ 755
1 inch	1,030
1 ½ inch	1,225
2 inch	2,380
3 inch or larger	530 + actual material & labor

If a pressure main tap is required to complete connection, the pressure main tapping charge set forth in Section 12 of this Resolution shall be added to the connection charge. Charges for new service extensions shall be based on actual material, labor and equipment costs.

Section 4. Connection Charges for Sewer Service.

There shall be no charge for a service connection made to the sewer system if such service connection is made at the same time as construction of sewer mains and is developer-installed. However, if a service connection is required after construction of the sewer main, or if the City pays for a service connection concurrent with a line extension, then the City will provide materials and labor to bring the service main to the property line of the lot or parcel to be connected and a minimum charge of \$1,400.00 per service connection shall apply. The actual connection charge may be greater than the minimum charge if the actual cost to the City is greater than the minimum charge set forth in this section.

PART B – DEPOSITS AND VARIOUS UTILITY RELATED CHARGES**Section 5. Application and Deposits for Service.**

A. PRIMARY UTILITY METER DEPOSIT

Upon a request for utility service at a new location, including water, sewer, reclaimed and garbage, the following minimum deposit (for each meter: potable; reclaimed; or pre-existing irrigation) shall be required for each new or existing customer. Where the property has changed hands, a new deposit will be required in the name of a deed holder.

For estates where the surviving spouses' name is on the deed, the deposit will be transferred to an account in the surviving spouses' name. In cases of divorce, a new deposit will be required unless the court instructs otherwise.

MINIMUM DEPOSIT – FOR PRIMARY METER ARE AS FOLLOWS:

<u>METER SIZE</u>	<u>Owner of Property</u>	<u>Tenant</u>
¾ inch	\$ 100.00	\$ 175.00
1 inch	\$ 200.00	\$ 350.00
1 ½ inch	\$ 300.00	\$ 525.00
2 inch	\$ 760.00	\$ 1,330.00
3 inch	\$ 1,050.00	\$ 1,838.00
4 inch	\$ 1,400.00	\$ 2,450.00
6 inch	\$ 3,500.00	\$ 6,125.00
8 inch	\$ 4,200.00	\$ 7,350.00
10 inch	\$ 6,000.00	\$10,500.00

B. DEPOSITS IN ADDITION TO PRIMARY METER – AT SAME ADDRESS

In addition to the primary meter above for single family homes (owner occupied) an additional deposit will be required for an additional tenant reclaimed or potable meter. ADDITIONAL METER DEPOSITS ARE AS FOLLOWS:

<u>Meter Size</u>	<u>Owner Occupied Reclaimed Meter</u>	<u>Tenant Reclaimed or Potable Meter</u>
¾ inch	\$ 35.00	\$ 80.00
1 inch	\$ 70.00	\$ 160.00
1.5 inch	\$ 105.00	\$ 240.00
2 inch	\$ 266.00	\$ 608.00
3 inch	\$ 367.50	\$ 840.00
4 inch	\$ 490.00	\$ 1,120.00

C. Multiple Property Ownership – Single Customer - Shared Deposit – The following minimum deposit for utility (potable water and reclaimed) service shall be required for each customer owning multiple properties (In addition to Section 5A) serviced by a ¾ - inch meter or owning one (1) parcel of rental property serviced by multiple meters:

NUMBER OF UNITS OR METERS MINIMUM DEPOSIT

Three (3) or less	\$100.00
Four (4) or more	\$100.00 plus \$35.00 for each additional unit or meter over three (3)

D. For customer who has been charged the reconnect fee subsequent to a disconnect for non-payment two times within a twelve month period, or has a credit history evidencing delinquent payments on their accounts, an additional deposit equal to two (2) month's average bills shall be required. All accounts processed for discontinuation of service for non-payment shall be required to pay the reconnect fee whether service has been interrupted or not.

- E. The application shall require background and credit history information. Should an applicant refuse to provide a valid driver's license or State of Florida issued identification card the applicant shall be required to provide a credit report from a nationally recognized credit reporting company. Prior to utility service initiation, utility customers at new service locations shall provide proof of ownership or for tenants, a lease agreement showing parties to the lease.
- F. The deposits outlined in this section apply to all residential and commercial property owners and are not refundable until disposition or demolition of structures. Deposits will be applied after the initiation of the collections process. Tenant deposits will be applied or refunded as applicable.

Section 6. Portable Water Meter Charges

- A. Portable Truck Mounted Meters – Upon receipt of the meter, the customer will pay a security deposit equal to the actual cost of the meter. Upon return of the meter in good working condition, the individual or firm will receive a refund equal to 85% of the cost of the original meter reduced by the replacement cost of the any damaged meter components.
- B. Cart Mounted Meter with Backflow Device - The customer will pay \$1,500.00 security deposit upon receipt of the portable meter. Upon return of the meter in good working condition, the individual or firm will receive a refund of the lesser of \$1,275.00 or this amount reduced by replacement cost of the damaged meter and/or other components. All portable meters must be read or usage reported monthly and charged a standard inside commercial water rate based on their meter size plus a \$25.00 monthly processing fee. It is the responsibility of the customer to bring the meter into the Customer Service or Meter Reading Office to be read. Under special circumstances that include semi-permanently installed meters and upon notification of the location of the meter, the City will read the meter on site. If the customer fails to cause the meter to be read on a monthly basis, a penalty equal to two (2) times the estimated usage will be charged. If Portable Water Meters are destroyed, damaged, or abused, the Finance Director or Designee shall notify the utility customer that all future connections to the City water system of any nature shall be made only by City staff and that any future use of portable meters by such utility customer is prohibited. Where abuse has been determined, the utility account established by the customer for a portable meter shall be closed, the meter and backflow prevention device shall be returned to the City immediately, and a penalty equal to three (3) times the estimated dollar amount of the repair plus \$105 will be assessed.

Section 7. Account Service Charges.

- A. There will be a \$40.00 service charge for a new account or reconnect to turn on water where connection to the water system and installation of a meter has previously been made. The charge is not applicable to the original connection to the water system and installation of a meter.

- B. There will be an \$80.00 service charge for a new account or reconnect requiring unscheduled service or service on the same day to turn on water where connection to the water system and installation of a meter have previously been made.
- C. If more than one (1) meter exists at a single location (such as meters for reclaimed water), only one (1) service charge shall apply if all meters at the location are turned on or off during the same service call.
- D. All service charges on an unpaid balance will be computed as if total consumption occurred during the first month after the date the meter was previously read.
- E. If the water meter is tampered with by action of the customer, tampering fees as outlined by City Ordinance and Florida Statute apply. The minimum fee for tampering will be three times the estimated dollar amount of service unlawfully obtained plus a \$105.00 service charge.

Section 8. Extraordinary Service Call Charges.

- A. Extraordinary service calls outside of regular maintenance (for example, locating a meter covered during grading or sodding on the property, unplugging sewer stoppages, or repairing damages attributable to customer activity) shall require a minimum \$40.00 service charge. Additionally, the customer will be billed for the cost of regaining access to the meter and restoring service, and for any damage to the meter or utility system caused by building, construction or other activity on the property or any other reason.
- B. Extraordinary service calls outside of regular maintenance requiring service on Saturdays, Sundays, holidays or after 2:00 p.m., Monday through Friday shall require a \$105.00 service charge together with the additional charges set forth in Paragraph A of this section.
- C. Service charges for extraordinary service calls related to temporary utility reconnection for home inspection shall be paid in advance of the service call. Notice of temporary reconnection shall be provided to the City at least twenty-four (24) hours in advance.

Temporary utility reconnection service shall not exceed four (4) hours in duration during the hours of 10 A.M. to 3:30 P.M.

- D. For rental properties there will be a \$40.00 service charge for a landlord shutoff.

Section 9. Meter Test Charges.

- A. Bench Test
There shall be a \$105.00 service charge for customers requesting a meter bench test for accuracy on a $\frac{3}{4}$ inch meter. All other bench tests are to be billed at cost. If the meter is found to be substantially inaccurate, this charge will not be assessed. Substantially inaccurate shall be construed to mean greater than two and one-half percent ($2\frac{1}{2}\%$) plus or minus from perfect registration.

B. Meter Check – At Service Location

There will be a \$20.00 service charge for a meter check requested by a customer. If the reading is found to be in error or the meter is not functioning properly then there will be no charge.

Section 10. Swimming Pool Service Charges.

To avoid excessive sewer charges when filling swimming pools where sewer service is provided by the City of Port Orange, a credit against the sewer charge will be given for the amount of water used to fill the swimming pool. There shall be a \$40.00 service charge for reading the water meter, if applicable, immediately before and after the pool is filled. There shall be no service charge if the service visit is not required because the customer provides a letter from the pool contractor documenting pool water volume or if pool capacity can be determined using an alternate reasonable process.

Section 11. Backflow Inspection/Testing Charge.

All owners of non-single family backflow prevention devices connected to the City's potable water system are required to inspect and test these devices annually using a licensed professional. Certified test results are to be provided to the City immediately thereafter. If the owner does not inspect and test these devices annually then the City or its agent may elect to provide this service and charge the actual cost of testing (including direct or indirect cost) to the owner.

There shall be a monthly charge of \$2.92 for inspection and testing of each single family residential backflow prevention device by the City.

Section 12. Minimum Tapping Charges.

The following minimum charges shall apply for taps into existing pressure mains and/or sewer manhole coring (potable water main, sewer force main, reclaimed water main, and gravity sewer):

<u>TAP SIZE</u>		<u>PRESSURE MAIN</u>	<u>SEWER MANHOLE CORING</u>
1	inch	\$ 300	N/A
2	inch	340	N/A
4	inch	560	\$ 780
6	inch	560	780
8	inch	560	780
10	inch	615	990
12	inch	670	1,195

The above charges do not include jacking and boring or crossing of City streets, related restoration, permitting, and valves and related parts. If extenuating circumstances exist additional tapping charges may apply.

Section 13. Fire Hydrant Maintenance Charges.

- A. All Fire Hydrants either private or public shall be maintained by the City of Port Orange and charged as noted in paragraphs “B” and “C”.
- B. There shall be a monthly charge of \$9.00 for each fire hydrant located within the City limits and outside of City right-of-way or public utility easements.
- C. There shall be a monthly charge of \$11.25 for each fire hydrant located outside the City limits and outside of City right-of-way or public utility easements.

Section 14. Fire Sprinkler System Charges.

A. Single Family Residential and Multi-Family Residential.

- 1. Fire sprinkler systems with demand requiring a service size of two inches (2”) or smaller, when combined with domestic water system demand, shall utilize one (1) standard meter connection. Monthly charges shall be billed as provided in Section 16 and Section 17 of this resolution. The required backflow prevention device shall be installed on the fire sprinkler system extension after the meter.
- 2. Fire sprinkler systems requiring a service size larger than two inches (2”) may have a connection common with the domestic water system or a separate connection. If the fire sprinkler connection line is metered, monthly charges shall be billed as provided in Section 16 and Section 17 of this resolution. If the fire sprinkler connection is unmetered, a monthly charge shall be billed as provided in paragraph D of this section. The required backflow prevention device shall be installed on the fire sprinkler system line after the domestic water system meter extension, if applicable

B. Motel, Hotel, Commercial and Industrial.

Fire sprinkler systems may have a connection common with the domestic water system or a separate connection. If the domestic fire sprinkler connection is metered, monthly charges shall be billed as provided in Section 16 and Section 17 of this resolution. If the fire sprinkler connection is unmetered, a monthly charge shall be billed as provided in paragraph D of this section. The required backflow prevention device shall be installed on the fire sprinkler system line after the domestic water system meter extension, if applicable.

C. New Fire Sprinkler Service Installations.

Charges for providing fire sprinkler service shall be determined by the work necessary for a complete installation and shall be based on the applicable provisions of Section 3 and Section 12 of this resolution.

The required backflow prevention device shall be installed and tested annually by the customer at the customer’s expense.

D. Monthly Charges for Unmetered Fire Sprinkler Systems.

The following charges shall apply for all unmetered water sprinkler systems for fire protection; and billed monthly as follows:

<u>SERVICE SIZE</u>	<u>INSIDE CITY</u>	<u>OUTSIDE CITY</u>
2 inch	\$ 4.40	\$ 5.50
3 inch	8.25	10.31
4 inch	13.75	17.19
6 inch	27.50	34.38
8 inch	44.00	55.00
10 inch	63.25	79.06
12 inch	118.25	147.81

Section 15. Collections Process Charges.

- A. Any account that is sent to collections will be charged the collection agency fee plus a \$40.00 administration fee.
- B. Any account that has been processed for a lien or satisfaction of lien will be charged the appropriate processing fee charge us by Volusia County for processing plus an additional \$40.00 administration fee.

PART C – WATER AND SEWER CONSUMPTION CHARGES**Section 16. Schedule of Monthly Water Charges.**

The following monthly charges shall apply for the use, or availability for use, of the water service system of the City based on consumption as shown by monthly meter readings to have been delivered. If connection is required pursuant to Section 74-31, Code of Ordinances, City of Port Orange, Florida, water service is deemed available for use. The monthly usage charges shall be computed to the nearest thousand gallons.

A. Residential

- 1. Inside the City limits of Port Orange, the minimum monthly charges shall be \$9.90 for each unit plus usage billed as follows:

Usage:

Block 1 (0 – 2,000 gallons)	\$ 1.48 per thousand gallons
Block 2 (2,001 – 12,000 gallons)	3.88 per thousand gallons
Block 3 (12,001 – 18,000 gallons)	6.70 per thousand gallons
Block 4 (18,000+ gallons)	10.72 per thousand gallons

Non-connected customers will be charged the minimum monthly charge.

- 2. Outside the City limits of Port Orange, the minimum monthly charge shall be \$12.38 for each unit plus usage billed as follows:

Usage:

Block 1 (0 – 2,000 gallons)	\$ 1.85 per thousand gallons
Block 2 (2,001 – 12,000 gallons)	4.85 per thousand gallons
Block 3 (12,001 – 18,000 gallons)	8.38 per thousand gallons
Block 4 (18,000+ gallons)	13.40 per thousand gallons

Non-connected customers will be charged the minimum monthly charge.

B. Multi-Family Residential. – (Apartment, Condominium, Time Share Resort and Mobile Home Park using a public or private utility system with Master Meter).

1. Inside the City limits of Port Orange, the minimum monthly charge shall be \$9.90 for each equivalent living unit plus usage billed at \$3.21 per thousand gallons.
2. Outside the City limits of Port Orange, the minimum monthly charge shall be \$12.38 for each equivalent living unit plus usage billed at \$4.01 per thousand gallons.
3. The total number of equivalent living units includes the total number of individual residences and living sites with utility service (such as residential rooms, apartments, and mobile home and trailer park spaces), plus the number of other individual uses (such as laundry, recreational room, bathhouse, and restroom facilities) with a fixture unit assignment converted to an equivalent living unit basis. Buildings with master meters will be billed, as described in paragraph B1 or paragraph B2 of this section, on the unit basis after the Certificate of Occupancy is issued.

C. Campground and Recreational Park/Private Utility Systems

1. Inside the City limits of Port Orange, the minimum monthly charge shall be \$9.90 for each equivalent living unit plus usage billed at \$3.21 per thousand gallons.
2. Outside the City limits of Port Orange, the minimum monthly charge shall be \$12.38 for each equivalent living unit plus usage billed at \$4.01 per thousand.
3. The total number of equivalent living units includes the total number of individual residences and living sites with utility service, the total number of long-term campsites and spaces with utility service, plus the number of other individual uses (such as laundry, recreation room, bathhouse and restroom facilities) with a fixture unit assignment converted to an equivalent living unit basis. Buildings with master meters will be billed, as described in paragraph C1 or paragraph C2 of this section, on the unit basis after the Certificate of Occupancy is issued.

D. Motel, Hotel, Commercial and Industrial

1. Inside the City limits of Port Orange, the minimum monthly charge shall be determined by the meter size as set forth on the following schedule:

<u>METER SIZE</u>	<u>MONTHLY CHARGE</u>
¾ inch	\$ 9.90
1 inch	16.50
1 ½ inch	33.00
2 inch	52.80
3 inch	99.00
4 inch	165.00
6 inch	330.00
8 inch	528.00
10 inch	759.00

In addition to the minimum monthly charge, each account shall be billed for usage at \$3.21 per thousand gallons.

2. Outside the City limits of Port Orange, the minimum monthly charge shall be determined by the meter size as set forth on the following schedule:

<u>METER SIZE</u>	<u>MONTHLY CHARGE</u>
¾ inch	\$ 12.38
1 inch	20.63
1 ½ inch	41.25
2 inch	66.00
3 inch	123.75
4 inch	206.25
6 inch	412.50
8 inch	660.00
10 inch	948.75

In addition to the minimum monthly charge, each account shall be billed for usage at \$4.01 per thousand gallons.

E. Town of Ponce Inlet.

The Town of Ponce Inlet shall be charged a minimum rate of \$50.00 per month per master meter, plus usage billed at \$4.24 per thousand gallons.

- F. Water service utilized by a customer for any part of a month shall render the customer subject to not less than the minimum monthly charge plus usage billed as provided herein.

Section 17. Schedule of Monthly Sewer Charges.

The following monthly charges shall apply for the use, or availability for use, of the sanitary sewage facilities of the City based on water consumption as shown by monthly meter readings to have been delivered. The monthly usage charges shall be computed to the nearest thousand gallons.

A. RESIDENTIAL

1. Inside the City limits of Port Orange the minimum monthly charge shall be \$11.70 for each unit plus usage billed at \$4.35 per thousand gallons for 0-12,000 gallons. Usage over 12,000 gallons will not be billed. Each non-connected 4 kgal Min unit shall be billed a minimum monthly charge of \$29.10, and non-connected customers shall be billed a minimum monthly charge of \$11.70.
2. Outside the City limits of Port Orange, the minimum monthly charge shall be \$14.63 for each unit plus usage billed at \$5.44 per thousand gallons for 0-12,000 gallons. Usage over 12,000 gallons will not be billed. Non-connected customers shall be billed a minimum monthly charge of \$14.63.

B. MULTI-FAMILY RESIDENTIAL (Apartment, Condominium, Time Share Resort, and Mobile Home Park with Master Meter)

1. Inside the City limits of Port Orange, the minimum monthly charge shall be \$11.70 for each unit plus usage billed at \$4.35 per thousand gallons.
2. Outside the City limits of Port Orange, the minimum monthly charge shall be \$14.63 for each unit plus usage billed at \$5.44 per thousand gallons.
3. The total number of equivalent living units includes the total number of individual residences and living sites with utility service (such as residential rooms, apartments, and mobile home and trailer park spaces), plus the number of other individual uses (such as laundry, recreation room, bathhouse and restroom facilities) with a fixture unit assignment converted to an equivalent living unit basis. Buildings with master meters will be billed, as described in paragraph B1 or paragraph B2 of this section, on the unit basis after the Certificate of Occupancy is issued.

C. Campground and Recreational Park.

1. Inside the City limits of Port Orange, the minimum monthly charge shall be \$11.70 for each equivalent full time or short term unit, plus usage billed at \$4.35 per thousand gallons.
2. Outside the City limits of Port Orange, the minimum monthly charge shall be \$14.63 for each equivalent full time or short term unit plus usage billed at \$5.44 per thousand gallons.

3. The total number of equivalent living units includes the total number of individual residences and living sites with utility service, the total number of long-term campsites and spaces with utility service, plus the number of other individual uses (such as laundry, recreation room, bathhouse and restroom facilities) with a fixture unit assignment converted to an equivalent living unit basis. Buildings with master meters will be billed, as described in paragraph C1 or paragraph C2 of this section, on the unit basis after the Certificate of Occupancy is issued.

D. Motel, Hotel, Commercial and Industrial.

1. Inside the City limits of Port Orange, the minimum monthly charge shall be determined by the meter size as set forth on the following schedule, plus usage billed at \$4.35 per thousand gallons:

Minimum Monthly Charge

¾"	meter	\$ 11.70
1"	meter	19.50
1 ½"	meter	39.00
2"	meter	62.40
3"	meter	117.00
4"	meter	195.00
6"	meter	390.00
8"	meter	624.00
10"	meter	897.00
Non-Connected		11.70

2. Outside the City limits of Port Orange, the minimum monthly charge shall be determined by the meter size as set forth on the following schedule, plus usage billed at \$5.44 per thousand gallons:

Minimum Monthly Charge

¾"	meter	\$ 14.63
1"	meter	24.38
1 ½"	meter	48.75
2"	meter	78.00
3"	meter	146.25
4"	meter	243.75
6"	meter	487.50
8"	meter	780.00
10"	meter	1,121.25
Non-Connected		14.63

E. Dump Stations.

In addition to the charges set forth in Section 17C, for each campground or recreational park with one (1) or more dump station(s), the monthly charge shall be \$60.00 per campground or recreational park. For each dump station at any other location, the

monthly charge shall be \$20.00 per dump station. Direct disposal at the reclaimed water plant shall not be permitted under any circumstances, except where the said septic hauler is working under contract to and on behalf of the City of Port Orange. In such instances any charges shall be defined in the contract.

F. City of Daytona Beach Shores.

The City of Daytona Beach Shores shall be charged usage at \$3.46 per thousand gallons of untreated sewage flow.

- G. Sewage service utilized by a customer for any part of a month shall render the customer subject to sewer billing based on water consumption for that month, not less than the minimum monthly charge plus actual usage billed as provided herein.

Section 18. Minimum Billing for Partial Monthly Service.

The minimum monthly water and sewer utility charges shall apply to all accounts. Minimum monthly charges will be prorated during the initial and final month of service.

Section 19. Voluntary Suspension of Service & Minimum Charges to Vacant Developed Properties.

The minimum monthly water and sewer utility charges shall not be suspended during vacation periods or such periods of time that a property is vacated. Not less than the minimum monthly charges shall be billed as provided and established by this resolution.

In order to prevent unauthorized water usage while a customer is on vacation (for a minimum three months) the customer may request that the City lock off the meter at no cost to the customer. The customer will not be required to pay a reconnect fee if a telephoned request is received the day prior to the need to resume service. If this type of notice is not provided to the City by the customer and service is resumed by action of the customer, tamper fees may apply as outlined in City Ordinance 74.40 and Florida Statute 812.14(2) b & c5. The minimum fee for tampering with utility services will be three times the estimated dollar amount of service unlawfully, obtained plus a \$105.00 service charge or at a minimum the account will be back billed all applicable services for the period of time in question and water usage plus a \$40.00 service charge.

Inactive accounts for vacant lots or spaces in mobile home parks or private utility systems having master meters, when such lots or spaces are billed separately, shall have the minimum monthly charges assessed to the property owner.

Section 20. Reclaimed Water System Charges.

A. Monthly Charges

Monthly charges begin after connection or reconnection to the reclaimed water system. The following monthly charges shall apply for the use of the reclaimed water system of the City based on the meter size and consumption as shown by monthly meter readings to have been delivered. The monthly usage charges shall be computed to the nearest

thousand gallons. The monthly charges shall include a minimum charge as determined by the meter size plus usage charges billed as set forth:

Inside the City

Minimum Monthly Charge (per account):

¾"	meter	\$ 8.75
1"	meter	14.58
1 ½"	meter	29.17
2"	meter	46.67
3"	meter	87.50
4"	meter	145.83
6"	meter	291.67
8"	meter	466.67
10"	meter	670.83

Usage Charges:

Block 1	\$0.22 per thousand gallons
Block 2	0.39 per thousand gallons
Block 3	0.44 per thousand gallons

Outside the City

Minimum Monthly Charge (per account):

¾"	meter	\$ 10.94
1"	meter	18.23
1 ½"	meter	36.46
2"	meter	58.34
3"	meter	109.38
4"	meter	182.29
6"	meter	364.59
8"	meter	583.34
10"	meter	838.54

Usage Charges:

Block 1	\$0.28 per thousand gallons
Block 2	0.48 per thousand gallons
Block 3	0.55 per thousand gallons

RECLAIMED WATER BLOCK RANGES ARE AS FOLLOWS:

<u>METER SIZE</u>	<u>Block 1</u>	<u>Block 2</u>	<u>Block 3</u>
¾ inch	0-12,000	12,001-18,000	18,000+
1 inch	0-20,000	20,001-30,000	30,000+
1 ½ inch	0-40,000	40,001-60,000	60,000+

2	inch	0-64,000	64,001-96,000	96,000+
3	inch	0-120,000	120,001-180,000	180,000+
4	inch	0-200,000	200,001-300,000	300,000+
6	inch	0-400,000	400,001-600,000	600,000+
8	inch	0-640,000	640,001-960,000	960,000+
10	inch	0-920,000	920,000-1,380,000	1,380,000+

B. Interruptible Service Rate.

Customers that have an alternate water source on site for alternate irrigation water supply shall be eligible for an interruptible service rate. Upon approval by the Public Utility Director or his Designee the monthly charges for this rate shall include a minimum charge determined by the meter size as set forth on the schedule in subsection A of this section, plus usage billed at \$0.22 per thousand gallons inside the City and \$0.28 per thousand gallons outside the City.

Service under this category may be interrupted at any time by the City.

Section 21. Irrigation/Sprinkler Charges.

Monthly charges begin after connection or reconnection of an irrigation/sprinkler meter. The following monthly charges shall apply for the use of the reclaimed water system of the City based on the meter size and consumption as shown by monthly meter readings to have been delivered. The monthly usage charges shall be computed to the nearest thousand gallons. The monthly charges shall include a minimum charge as determined by the meter size plus usage charges billed as set forth:

A. Residential

Inside the City limits of Port Orange, the minimum monthly charges shall be billed as follows:

<u>METER SIZE</u>	<u>MONTHLY CHARGE</u>
¾ inch	\$ 9.90
1 inch	16.50
1 ½ inch	33.00
2 inch	52.80

Usage shall be charged at \$5.25 per thousand gallons. The monthly usage charges shall be computed to the nearest thousand gallons.

Outside the City limits of Port Orange, the minimum monthly charges shall be billed as follows:

<u>METER SIZE</u>	<u>MONTHLY CHARGE</u>
¾ inch	\$ 12.38
1 inch	20.63
1 ½ inch	41.25

2 inch 66.00

Usage shall be charged at \$6.56 per thousand gallons. The monthly usage charges shall be computed to the nearest thousand gallons.

- B. Multi-Family Residential. – (Apartment, Condominium, Time Share Resort and Mobile Home Park using a public or private utility system with Master Meter).

Inside the City limits of Port Orange, the minimum monthly charge shall be as follows:

Minimum Monthly Charge (per account):

¾"	meter	\$ 9.90
1"	meter	16.50
1 ½"	meter	33.00
2"	meter	52.80
3"	meter	99.00
4"	meter	165.00
6"	meter	330.00
8"	meter	528.00
10"	meter	759.00

Usage shall be charged at \$5.25 per thousand gallons. The monthly usage charges shall be computed to the nearest thousand gallons.

Outside the City limits of Port Orange, the minimum monthly charge shall be as follows:

Minimum Monthly Charge (per account):

¾"	meter	\$ 12.38
1"	meter	20.63
1 ½"	meter	41.25
2"	meter	66.00
3"	meter	123.75
4"	meter	206.25
6"	meter	412.50
8"	meter	660.00
10"	meter	948.75

Usage shall be charged at \$6.56 per thousand gallons. The monthly usage charges shall be computed to the nearest thousand gallons.

- C. Motel, Hotel, Commercial and Industrial

Inside the City limits of Port Orange, the minimum monthly charge shall be determined by the meter size as set forth on the following schedule:

<u>METER SIZE</u>	<u>MONTHLY CHARGE</u>
¾ inch	\$ 9.90
1 inch	16.50
1 ½ inch	33.00
2 inch	52.80
3 inch	99.00
4 inch	165.00
6 inch	330.00
8 inch	528.00
10 inch	759.00

In addition to the minimum monthly charge, each account shall be billed for usage at \$5.25 per thousand gallons.

Outside the City limits of Port Orange, the minimum monthly charge shall be determined by the meter size as set forth on the following schedule:

<u>METER SIZE</u>	<u>MONTHLY CHARGE</u>
¾ inch	\$ 12.38
1 inch	20.63
1 ½ inch	41.25
2 inch	66.00
3 inch	123.75
4 inch	206.25
6 inch	412.50
8 inch	660.00
10 inch	948.75

In addition to the minimum monthly charge, each account shall be billed for usage at \$6.56 per thousand gallons.

Section 22. Rate Review.

The City Council shall review and assess the rates established herein in accordance with the requirements of outstanding bond resolution and covenants contained therein.

Section 23. Prior Resolutions Superseded.

This Resolution shall supersede all prior rate Resolutions including Resolution No. 09-42 13-41.

Section 23. Effective Date.

This resolution shall become effective for all bills rendered after January 15, 2015.

MAYOR ALLEN GREEN

ATTEST:

Robin L. Fenwick, CMC, City Clerk

CITY OF PORT ORANGE, FLORIDA

WATER, WASTEWATER, AND RECLAIMED WATER RATE STUDY

December 9, 2014

Public Resources Management Group, Inc.
Utility, Rate, Financial and Management Consultants

Public Resources Management Group, Inc.
Utility, Rate, Financial and Management Consultants

December 9, 2014

The Honorable Mayor and
Members of the City Council
City of Port Orange
1000 City Center Circle
Port Orange, FL 32129

Subject: **Water, Wastewater, and Reclaimed Water Rate Study**

Public Resources Management Group, Inc. ("PRMG") has completed our study of the water, wastewater, and reclaimed water rates for the City of Port Orange, Florida (the "City") water, wastewater, and reclaimed water system (the "System") and has summarized the results of our analyses, assumptions, recommendations, and conclusions in this report that is submitted for your consideration. This report summarizes the basis for the restructured rates, fees and charges for water, wastewater and reclaimed water service that are proposed to become effective during the Fiscal Year 2015.

As part of our scope of services, PRMG performed a multi-year forecast of System revenue requirements earlier in the study and communicated the results to the City Council on April 1, 2014. The results of the financial forecast indicated the need for user rate increases phased over a five-year period. However, as a result of new City and utility management, the City is currently re-evaluating the capital needs for the water, wastewater, and reclaimed water systems that were previously communicated to the City Council. Moreover, there is uncertainty on whether the City of Daytona Beach Shores ("Daytona Beach Shores") will remain a bulk wastewater customer of the System or whether Daytona Beach Shores will reduce its (billable) annual wastewater flows to be treated by the City. Because of these variables, PRMG was instructed to focus on restructuring the user rates with the goal of increasing overall retail user rate revenue collections by 3.0%. The proposed rates are not designed to meet the System's revenue requirements over the next several years.

The proposed rates and charges are intended to meet the utility rate structure objectives communicated by the City Council in public meetings on the rate study that were held on November 12, 2013 and April 1, 2014. These objectives include:

- The rates should be simplified; and
- The rates should be fair and reasonable (equitable) among customer classes.

The Honorable Mayor and Members of the City Council
City of Port Orange
December 9, 2014
Page 2

Following this letter, we have provided an executive summary that summarizes the results of our study and outlines our recommendations and conclusions. The remainder of the report provides information on the System customer base and projected revenue under existing rates.

We appreciate the opportunity to be of service to the City.

Respectfully submitted,

Public Resources Management Group, Inc.

Henry L. Thomas
Senior Vice-President

Bryan A. Mantz, CMC, CGFM
Supervising Consultant

Shawn A. Ocasio
Senior Rate Analyst

EXECUTIVE SUMMARY AND RECOMMENDATIONS

CITY OF PORT ORANGE, FLORIDA
WATER, WASTEWATER, AND RECLAIMED WATER RATE STUDY

EXECUTIVE SUMMARY AND RECOMMENDATIONS

GENERAL

The City of Port Orange's (the "City") water, wastewater and reclaimed water utility system (the "System" or the "Utility") is established as an enterprise fund. As such, the System should have revenues equal to the costs of the services provided by the Utility, and the City must establish rates sufficient to cover the cost of operating, maintaining, repairing and financing the System. According to the Governmental Accounting Standards Board, "Enterprise Funds should be used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that cost of providing services to the general public on a continuing basis should be financed or recovered primarily through user charges."

The City's current minimum monthly charges and base usage rates have been in effect since 2008, or about seven (7) years. Since the last user rate adjustment, general inflation as measured by the Consumer Price Index has cumulatively increased by approximately 8.8%.

As part of our scope of services, PRMG performed a multi-year forecast of System revenue requirements earlier in the study and communicated the results to the City Council on April 1, 2014. The results of the financial forecast indicated the need for user rate increases phased over a five-year period. However, as a result of new City and utility management, the City is currently re-evaluating the capital needs for the water and wastewater system that were previously communicated to the City Council. Moreover, there is uncertainty on whether the City of Daytona Beach Shores ("Daytona Beach Shores") will remain a bulk wastewater customer of the System or whether Daytona Beach Shores will reduce its (billable) annual wastewater flows to be treated by the City. Because of these variables, PRMG was instructed to focus on restructuring the user rates with the goal of increasing overall retail user rate revenue collections by 3.0%.

The proposed rates are not designed to meet the System's revenue requirements over the next several years. Since the multi-year forecast previously performed by PRMG indicated that the System revenue deficiencies were primarily related to the wastewater and reclaimed water systems, the overall 3.0% System retail user rate revenue adjustment is proposed to be recovered through increases in the retail wastewater and reclaimed water user rates as shown in the following table:

(Remainder of page intentionally left blank)

Summary of Projected Fiscal Year 2015

Retail User Rate Revenue Under Existing and Proposed Rates [1]

Description	Under Existing User Rates	Under Proposed User Rates	Percentage Increase
Water System	\$10,099,328	\$10,099,328	0.0%
Wastewater System	9,387,898	9,938,029	5.9%
Reclaimed Water System	1,213,600	1,284,717	5.9%
Total Retail Revenues	\$20,700,826	\$21,322,073	3.0%

[1] User rates designed under assumption of being effective for entire Fiscal Year.

PRMG recommends that, once the multi-year capital plan is finalized, the City perform another multi-year financial forecast to evaluate the near-future revenue requirements for the System. The financial risk of not proactively adjusting rates to meet projected revenue requirements is that user rates may be even higher in the future. The capital needs for the System are not anticipated to go away and may be more expensive to address in the future due to inflation in the costs of construction or increasing interest rates.

PRMG also recommends that, once the multi-year capital plan is finalized, the City review its development (impact) fees.

PROPOSED MONTHLY USER RATE DESIGNS

The proposed user rates and charges are intended to meet the utility rate structure objectives communicated by the City Council in public meetings on the rate study that were held on November 12, 2013 and April 1, 2014. These objectives include:

- The rates should be simplified; and
- The rates should be fair and reasonable (equitable) among customer classes.

Rate Structure Objective: Simplify Rates

Based on our discussions with the City Council and staff, to simplify the rates, PRMG proposes the following:

1. Reducing the number of water price blocks for the residential class. For the residential potable water class, PRMG has proposed to reduce the number of water price blocks from six (6) to four (4).
2. Eliminating the minimum gallons billed in the minimum monthly charges for wastewater and reclaimed water service. Typically, rate structures in the State of Florida consist of separate

base charges, which cover a portion of the utility's fixed costs, and usage charges, which recover the remaining costs. This change will also promote rate equity among smaller users.

3. Establishing a uniform usage rate for commercial, multifamily and sprinkler / irrigation potable water usage. The uniform usage rate for the commercial and multifamily classes is based on the System average cost per 1,000 gallons of amounts allocated to be recovered from System usage charges, while the uniform usage rate for the sprinkler / irrigation class targets discretionary usage.
4. Eliminating the tiered wastewater rate structure for residential customers. Conservation incentives are built into the monthly water rates, and a tiered rate structure for wastewater does not reflect the cost of service for wastewater.
5. Eliminating the energy usage charge. The costs of energy will be recovered through usage charges. This change should reduce the City's administrative burden.

Rate Structure Objective: Maintain Equitable Rates

To satisfy the City's objective of implementing equitable rates, PRMG proposes the following:

1. Establishing rates in which customers in each class have a uniform rate structure.
2. Increasing the minimum monthly charges for larger meter sizes for nonresidential / commercial customers based on capacity relationships recognized by the utility industry based on the size of the meter, which equates to the hydraulic capacity of such meter. A greater need for System capacity equates to a higher base charge. The capacity relationships are summarized in the following table:

ERC Factors By Meter Size		
Meter Size	Rated Capacity (gallons per minute)	ERC Factor [*]
3/4"	30	1.00
1"	50	1.67
1-1/2"	100	3.33
2"	160	5.33
3"	300	10.00
4"	500	16.67
6"	1,000	33.33
8"	1,600	53.33
10"	2,300	76.67
[*] Reflects rated hydraulic capacity of meter divided by 30 gallons per minute based on the rated capacity of smallest meter size.		

3. Increasing the rates of higher water use price blocks for the residential class to shift more cost recovery to customers with higher water usage and to encourage water conservation.

Customers with excessive water usage will pay a greater percentage of System costs. The first (lowest) price block is considered a "lifeline" block that covers a portion of indoor / essential usage; the middle price blocks for discretionary usage including some irrigation use; and the last (highest) price block for excessive irrigation usage.

4. Adding a billing cap or maximum of 12,000 gallons to residential wastewater billing. Any usage above 12,000 gallons is assumed to be for irrigation purposes and, as such, does not return to the wastewater system. This is a common practice in the utility industry in Florida.

A summary of the existing and proposed monthly water user rates is shown in Table ES-1 at the end of this executive summary, while Table ES-2 contains the existing and proposed monthly wastewater user rates and Table ES-3 shows the existing and proposed monthly reclaimed water rates. Tables ES-4 through ES-7 show comparisons with other "neighboring" Florida utilities for typical monthly bills for residential water service, wastewater service, combined water and wastewater service, and reclaimed water service, respectively. Figures ES-1 through ES-3 show graphical comparisons at the average monthly usage of 4,000 gallons for water, wastewater and combined service, while Figure ES-4 provides a graphical comparison at the average monthly usage of 12,000 gallons for reclaimed water service. As shown in Tables ES-4 through ES-7 and in Figures ES-1 through ES-4, bills under the proposed monthly water, wastewater, and reclaimed water rates are competitive with those under the rates of the other "neighboring" Florida utilities.

Tables ES-8 through ES-11 provide additional bill comparisons for water, wastewater and reclaimed water service for selected customer types.

PROPOSED MISCELLANEOUS SERVICE CHARGES

Table ES-12 at the end of this executive summary shows existing and proposed miscellaneous service charges. The purpose of the miscellaneous service charges is to recover costs for specific services provided by the City at the request of the customer or by a direct action of the customer as it relates to City policy and procedures. Revenues derived from these charges also reduce the level of expenditures (revenue requirements) that must be recovered from monthly user rates. The costs for the services are directly passed-through to the customers requesting the services.

The proposed fees are based on: i) the City's direct costs (e.g., labor, vehicles/equipment and parts/supplies) of providing such services; and ii) consideration of similar fees charged by other Florida utilities. Table ES-13 at the end of this executive summary provides a limited comparison of selected existing and proposed miscellaneous charges with those of other Florida utilities.

Following the tables and figures at the end of this executive summary, the remainder of this report provides additional information on the System customers and the revenue forecast under existing System monthly user rates.

Footnotes:

- [1] Unless otherwise noted, amounts shown reflect residential rates in effect June 2014 and are exclusive of taxes or franchise fees, if any, and reflect rates charged for inside the city service. All rates are as reported by the respective utility. This comparison is intended to show comparable charges for similar service for comparison purposes only and is not intended to be a complete listing of all rates and charges offered by each listed utility.
- [2] Reflects average usage of a typical single family residential customer with both water and wastewater service within the service area of the City of Port Orange utility system.
- [3] Reflects energy usage charge for water system of \$0.58 per 1,000 gallons
- [4] Utility is currently involved in a rate study, is planning to conduct a rate study, or plans to implement a rate revision or price index / pass-through adjustment within the next twelve months following the comparison preparation date
- [5] Utility bills a separate charge, applied on a "per bill basis," regardless of type of service. Such charge has been included in the rates for water service since this is the predominant service received by utility customers.
- [6] Includes a \$3.00 renewal and replacement fee.

CUSTOMER STATISTICS AND REVENUE FORECAST

CITY OF PORT ORANGE, FLORIDA
WATER, WASTEWATER, AND RECLAIMED WATER RATE STUDY

CUSTOMER STATISTICS AND REVENUE FORECAST

GENERAL

A major task in the development of rates for water, wastewater, and reclaimed water service is the development of a forecast of customers and sales. This section provides a discussion of the forecast of customers, equivalent residential units, sales, water production, and wastewater treatment requirements for the System. The forecast of customers also provides the basis for the determination of the revenues derived from the existing rates of the System. This section also summarizes the existing rates for service and provides a summary of the sales revenues anticipated to be generated from the application of the existing rate revenues.

WATER, WASTEWATER, AND RECLAIMED WATER CUSTOMERS

During the Fiscal Year 2013 (the most recently completed fiscal year at the onset of the study), it is estimated that the City's utility service requirements included providing water service to an average of 27,893 water accounts, wastewater service to 24,608 wastewater accounts, and reclaimed water service to 7,139 accounts as shown in Tables CUST-1, CUST-2, and CUST-3, respectively. A summary of the water accounts and meter equivalents of residential and nonresidential customer classes for the Fiscal Year 2013 (the most recently completed Fiscal Year during the preparation of the Study) is shown as follows:

Total Water System Annual Average Monthly Accounts by Class [1]							
Description	Retail Accounts				Total Retail Water	Bulk Water [2]	Total Retail and Bulk Water
	Residential Single Family, Multi-Family and Apartment		Commercial, Hotel, Motel, and Campground				
	Sprinkler /		Sprinkler /				
	Water Service	Irrigation Service	Water Service	Irrigation Service			
Accounts	25,754	859	1,150	126	27,889	4	27,893
Percent	<u>92.33%</u>	<u>3.08%</u>	<u>4.12%</u>	<u>0.45%</u>	<u>99.99%</u>	<u>0.01%</u>	<u>100.00%</u>
Meter Equivalents	28,151	977	4,046	410	33,583	283	33,866
Percent	<u>83.12%</u>	<u>2.89%</u>	<u>11.95%</u>	<u>1.21%</u>	<u>99.16%</u>	<u>0.84%</u>	<u>100.00%</u>

[1] Amounts derived from Table CUST-1 and are based on billing data provided by the City for the Fiscal Year 2013. Includes both inside-City and outside-City customers.

[2] The City's bulk water customers include the City of New Smyrna Beach and the Town of Ponce Inlet.

As can be seen above with respect to the water system, the residential class is the primary class, and non-irrigation residential customers represented over 92% of the total water accounts served during the Fiscal Year 2013. In addition to the number of average annual accounts served, information regarding the estimated meter equivalents by customer class is also presented. A meter equivalent factor of one (1) is representative of the average daily capacity of a single-family residential unit and generally represents the lowest level and the most common level of use. The estimate of the meter equivalents served provides a more accurate representation of the service provided since it attempts to place all customers on an equivalent basis as to capacity

needs. As shown above, non-irrigation residential customers during the Fiscal Year 2013 accounted for almost 83% of the estimated meter equivalents served by the water system.

A summary of similar information for the wastewater customers of residential and nonresidential customer classes for the Fiscal Year 2013 is shown below:

Total Wastewater System Annual Average Monthly Accounts by Class [1]					
Description	Retail Accounts		Total Retail Wastewater	Bulk Wastewater [2]	Retail and Bulk Wastewater
	Residential Single Family, Multi-Family and Apartment	Commercial, Hotel, Motel, and Campground			
Accounts	23,706	899	24,605	3	24,608
Percent	<u>96.33%</u>	<u>3.65%</u>	<u>99.99%</u>	<u>0.01%</u>	<u>100.00%</u>
Meter Equivalents	25,597	2,941	28,537	54	28,591
Percent	<u>89.53%</u>	<u>10.28%</u>	<u>99.81%</u>	<u>0.19%</u>	<u>100.00%</u>

[1] Amounts derived from Table CUST-2 and are based on billing data provided by the City for the Fiscal Year 2013. Includes both inside-City and outside-City customers.

[2] The City's bulk wastewater customers include the City of Daytona Beach Shores and the Spruce Creek Fly-in Airpark.

As can be seen above, the customer and meter equivalent statistics for the wastewater system for customers located within the corporate limits of the City is generally similar to the service relationships as reported above for the water system.

A summary of reclaimed water customers of residential and nonresidential customer classes for the Fiscal Year 2013 is shown below:

Total Reclaimed Water System Annual Average Monthly Accounts by Class [1]			
Description	Residential Single Family, Multi-Family and Apartment	Commercial	Total
Accounts	6,880	259	7,139
Percent	<u>96.37%</u>	<u>3.63%</u>	<u>100.00%</u>
Meter Equivalents	7,070	1,773	8,842
Percent	<u>79.95%</u>	<u>20.05%</u>	<u>100.00%</u>

[1] Amounts derived from Table CUST-3 and are based on billing data provided by the City for the Fiscal Year 2013. Includes both inside-City and outside-City customers.

WATER, WASTEWATER, AND RECLAIMED WATER USAGE PROFILE

A summary of the reported Fiscal Year 2013 water use of residential and nonresidential customer classes is shown in the following table:

(Remainder of page intentionally left blank)

Total Water System Annual Billed Usage by Class [1]

Description	Retail Accounts				Total Retail Water	Bulk Water [2]	Total Retail and Bulk Water
	Residential Single Family, Multi-Family and Apartment		Commercial, Hotel, Motel, and Campground				
	Water Service	Sprinkler / Irrigation Service	Water Service	Sprinkler / Irrigation Service			
Accounts	1,284,933	49,051	284,297	32,463	1,650,744	186,211	1,836,955
Percent	<u>69.95%</u>	<u>2.67%</u>	<u>15.48%</u>	<u>1.77%</u>	<u>89.86%</u>	<u>10.14%</u>	<u>100.00%</u>

[1] Amounts derived from Table CUST-1 and are based on billing data provided by the City for the Fiscal Year 2013. Includes both inside-City and outside-City customers.

[2] The City's bulk water customers include the City of New Smyrna Beach and the Town of Ponce Inlet.

As can be seen above and as expected, the residential customer class accounted for the majority of the billed water sales.

A summary of the billed wastewater flow (commonly referred to as revenue gallons, which are based on metered water flow at the customers premise) for the wastewater system of residential and nonresidential customer classes is shown in the following table:

Total Wastewater System Annual Billed Flow by Class [1]

Description	Retail Accounts		Total Retail Wastewater	Bulk Wastewater [2]	Retail and Bulk Wastewater
	Residential Single Family, Multi-Family and Apartment	Commercial, Hotel, Motel, and Campground			
Billed Flows (kgal)	1,071,286	215,026	1,286,312	388,575	1,674,887
Percent	<u>63.96%</u>	<u>12.84%</u>	<u>76.80%</u>	<u>23.20%</u>	<u>100.00%</u>

[1] Amounts derived from Table CUST-2 and are based on billing data provided by the City for the Fiscal Year 2013. Includes both inside-City and outside-City customers.

[2] The City's bulk wastewater customers include the City of Daytona Beach Shores and the Spruce Creek Fly-in Airpark.

As can be seen above and as expected, the residential customer class accounted for the majority of the billed wastewater flows.

A summary of the reported Fiscal Year 2013 reclaimed water use of residential and nonresidential customer classes is shown in the following table:

Total Reclaimed Water System Annual Billed Usage by Class [1]

Description	Residential Single Family, Multi-Family and Apartment	Commercial	Total
Billed Usage (kgal)	1,052,388	348,607	1,400,995
Percent	<u>75.12%</u>	<u>24.88%</u>	<u>100.00%</u>

[1] Amounts derived from Table CUST-3 and are based on billing data provided by the City for the Fiscal Year 2013. Includes both inside-City and outside-City customers.

RETAIL WATER CUSTOMER AND SALES FORECAST

Based on discussions with the City staff, a projection of the customer accounts and corresponding usage statistics for the potable water system was developed. This forecast of the

water system customer accounts, ERCs, and billed sales is shown on Table CUST-1 and is summarized as follows:

Summary of Projected Retail Water Statistics					
Fiscal Year Ending September 30, (Projected) [1]	Total System Average Annual Retail Water Accounts	Total System Average Annual Retail Water Meter Equivalents	Total Billed Retail Water Sales (000s of gallons)	Average Monthly Water Use per Retail Account (gallons)	Average Monthly Water Use per Retail Meter Equivalent (gallons)
2013 (Actual)	27,889	33,583	1,650,744	4,932	4,096
2014 (Estimated)	27,989	33,683	1,654,843	4,927	4,094
2015	28,089	33,783	1,658,941	4,922	4,092
2016	28,189	33,883	1,663,040	4,916	4,090
2017	28,289	33,983	1,667,138	4,911	4,088
2018	28,389	34,083	1,671,237	4,906	4,086
2019	28,489	34,183	1,675,335	4,900	4,084
Average Annual Projected Growth Rate [2]	<u>0.36%</u>	<u>0.30%</u>	<u>0.25%</u>	<u>-0.11%</u>	<u>-0.05%</u>

[1] Amounts derived from Table CUST-1.

[2] Compound growth rate calculated from actual Fiscal Year 2013 results.

The projection of water customers, meter equivalents and sales was based on: i) a review of historical trends; ii) the estimated increase in average accounts served for the Forecast Period; iii) discussions with the City staff regarding future development. As can be seen above, the water system is not projected to experience material growth during the Forecast Period due to the lingering effects of the economic downturn and to be generally conservative in the forecast of rate revenues.

Based on recent historical trends in customer growth and water use statistics, discussions with the City staff, and a review of information regarding potential development within the water system service area, it has been assumed that water customers will increase at growth rates that are representative of recent historical trends. Based on data provided by the City, growth is expected to continue to be residential in nature and consistent with the land use requirements of the service area.

RETAIL WASTEWATER CUSTOMER AND SALES FORECAST

Based on discussions with the City staff and as previously presented with respect to the water system, the wastewater service area is also beginning to approach a built-out condition, which is indicative of recent growth trends. The projection of wastewater customer (account) statistics was prepared on a consistent basis as that of the water system and is shown on Table CUST-2 at the end of this section. The forecast of the wastewater system customers and billed flow is summarized as follows:

Summary of Projected Retail Wastewater Statistics

Fiscal Year Ending September 30, (Projected) [1]	Total System Average Annual Retail Wastewater Accounts	Total System Average Annual Retail Wastewater Meter Equivalents	Total Billed Retail Wastewater Revenue Gallons (000s of gallons)	Average Monthly Wastewater Revenue Gallons per Retail Account (gallons)	Average Monthly Wastewater Revenue Gallons per Retail Meter Equivalent (gallons)
2013 (Actual)	24,605	28,537	1,286,312	4,357	3,756
2014 (Estimated)	24,705	28,637	1,290,382	4,353	3,755
2015	24,805	28,737	1,294,452	4,349	3,754
2016	24,905	28,837	1,298,521	4,345	3,752
2017	25,005	28,937	1,302,591	4,341	3,751
2018	25,105	29,037	1,306,661	4,337	3,750
2019	25,205	29,137	1,310,731	4,334	3,749
Average Annual Projected Growth Rate [2]	<u>0.40%</u>	<u>0.35%</u>	<u>0.31%</u>	<u>-0.09%</u>	<u>-0.03%</u>

[1] Amounts derived from Table CUST-2.

[2] Compound growth rate calculated from actual Fiscal Year 2013 results.

The projections of wastewater customers and sales (billed flow) were based on: i) a review of historical trends; ii) the estimated increase in average accounts served for the Forecast Period; and iii) discussions with the City staff about future development. It is anticipated that the growth for the wastewater system will follow the same general trends as the anticipated growth for the water system as previously discussed.

With respect to the billed wastewater flow, such amounts are based on the metered water consumption at a customer's premise. Furthermore, it was assumed that the billed wastewater flow for the Forecast Period would continue to follow the same general trends that are projected for the water system; reflecting minimal growth due to increased conservation measures and other factors.

With respect to the customer growth and usage projections recognized in this report, the increase in average annual customers and wastewater sales has been projected to increase at a compound growth rate of approximately 0.4% during the Forecast Period. As with the water system, this has been based on data provided by the City staff regarding historical trends and building activity anticipated for the wastewater system and is generally consistent with the forecast trends projected for the inside-the-City water system service area. Based on data provided by the City, growth is expected to continue to be residential in nature and consistent with the land use requirements of the service area.

RECLAIMED WATER CUSTOMER AND SALES FORECAST

Based on discussions with the City staff regarding reclaimed water system, a projection of the customer accounts and corresponding usage statistics for the reclaimed water system was developed. This forecast of the customer accounts and sales is shown on Table 2-3 and is summarized as follows:

Summary of Projected Reclaimed Water Statistics					
Fiscal Year Ending September 30, (Projected) [1]	Total System Average Annual Reclaimed Water Accounts	Total System Average Annual Reclaimed Water Meter Equivalents	Total Billed Reclaimed Water Sales (000s of gallons)	Average Monthly Reclaimed Water Use per Account (gallons)	Average Monthly Reclaimed Water Use per Meter Equivalent (gallons)
2013 (Actual)	7,139	8,842	1,400,995	16,354	13,204
2014 (Estimated)	7,139	8,842	1,400,995	16,354	13,204
2015	7,139	8,842	1,400,995	16,354	13,204
2016	7,139	8,842	1,400,995	16,354	13,204
2017	7,139	8,842	1,400,995	16,354	13,204
2018	7,139	8,842	1,400,995	16,354	13,204
2019	7,139	8,842	1,400,995	16,354	13,204
Average Annual Projected Growth Rate [2]	<u>0.00%</u>	<u>0.00%</u>	<u>0.00%</u>	<u>0.00%</u>	<u>0.00%</u>

[1] Amounts derived from Table CUST-3.

[2] Compound growth rate calculated from actual Fiscal Year 2013 results.

As can be seen above, reclaimed water accounts and sales are projected to remain constant over the Forecast Period due, in part, to the lingering effects of the economic downturn and to be generally conservative in the forecast of rate revenues.

PROJECTED RETAIL USER RATE REVENUES UNDER EXISTING RATES

The forecast of the retail user rate revenues under existing rates was based on: i) the forecast of System accounts and corresponding water, wastewater and reclaimed consumption as shown on Tables CUST-1, CUST-2, and CUST-3 for the water, wastewater, and reclaimed water systems, respectively; and ii) the existing rates for monthly water, wastewater, and reclaimed water service as adopted by the City. Based on the assumptions for the customer forecast and recognizing the rates currently in effect, the following estimates in retail rate revenue were assumed for the purposes of this report:

(Remainder of page intentionally left blank)

Summary of Projected Retail User Rate Revenues Under Existing Rates

Fiscal Year Ending September 30, (Projected)	Water System	Wastewater System	Reclaimed Water System	Total System
2013 (Actual)	\$10,054,433	\$9,329,049	\$1,213,600	\$20,597,082
2014 (Estimated)	10,076,881	9,358,473	1,213,600	20,648,954
2015	10,099,328	9,387,898	1,213,600	20,700,826
2016	10,121,775	9,417,322	1,213,600	20,752,698
2017	10,144,223	9,446,747	1,213,600	20,804,569
2018	10,166,670	9,476,171	1,213,600	20,856,441
2019	10,189,117	9,505,596	1,213,600	20,908,313
Average Annual Projected Growth Rate [1]	<u>0.22%</u>	<u>0.31%</u>	<u>0.00%</u>	<u>0.25%</u>

[1] Compound growth rate calculated from actual Fiscal Year 2013 results.

WATER, WASTEWATER, AND RECLAIMED WATER RATE STUDY

Meeting to Review
Proposed Fiscal Year 2015
Monthly User Rates

December 9, 2014

Public Resources Management Group, Inc .

Utility, Rate, Financial and Management Consultants

Rate Study Timeline

- ❖ November 12, 2013: Meeting to Establish City Council Expectations, Direction and Policy
 - Minimum Monthly Charges and Base Usage Rates Unchanged Since 2008
 - Course of Action Discussed: Present Proposed Financial Plan (e.g., Need for Revenue / Rate Increases) and Obtain Council Approval Before Proceeding With Rate Design
- ❖ April 1, 2014: Presentation of Proposed Financial Plan for Utility
 - Identified Need for Rate Adjustments Primarily Due to System Capital Needs
- ❖ Since April Meeting on Utility Rate Study:
 - New City / Utility Management
 - Decision to Reconfirm the Capital Plan
 - Possibility of Losing Daytona Beach Shores as Bulk Wastewater Customer (or at Least Majority of Wastewater Flows from This Customer) Starting in FY 2016

Rate Study Timeline (cont.)

- ❖ Since April Meeting on Utility Rate Study (cont.):
 - Staff Has Proposed to Move Forward With 3% Overall System Retail User Rate Adjustment in FY 2015 While Capital Program Is Reviewed and Daytona Beach Shores Plans Are Confirmed
 - Proposed Rates NOT Designed to Meet System Revenue Requirements Over Next Several Years
 - Rate Design Changes Based on Council Rate Design Objectives
 - ◆ Simplify the Rate Structure
 - ◆ Equitable Rates

Rate Study Timeline (cont.)

- ❖ Since April Meeting on Utility Rate Study (cont.):
 - Since Revenue Deficiencies in Multi-Year Financial Forecast Were Primarily Related to Wastewater and Reclaimed Water Systems, Overall System Retail User Rate Revenue Adjustments Proposed to Be Recovered Through Increases in Wastewater and Reclaimed Water Rates

Objective: Simplify Rates

- ❖ Reduce Number of Water Price Blocks for Residential Class
 - 6 Price Blocks to 4
- ❖ Eliminate Minimum Gallons Billed in Minimum Monthly Charges for Wastewater and Reclaimed Water
 - Typical Rate Structure in State of Florida Is to Separate Base Charges (Recover Portion of Fixed Costs) and Usage Charges (Recover Remaining Costs)
 - Also Promotes Rate Equity Among Smaller Users

Objective: Simplify Rates (cont.)

- ❖ Uniform Usage Rate for Commercial, Multifamily, and Sprinkler / Irrigation Potable Water Usage
 - Uniform Usage Rate for Commercial and Multifamily Classes Based on System Average Cost Per 1,000 Gallons of Amounts Allocated to Be Recovered from System Usage Charges
 - Uniform Usage Rate for Sprinkler / Irrigation Class Targets Discretionary Usage
- ❖ Eliminate Tiered Wastewater Rate Structure for Residential Customers
 - Conservation Incentives Built Into Water Rates
 - Tiered Rate Does Not Reflect Cost of Service for Wastewater
- ❖ Eliminate Energy Usage Charge
 - Costs of Energy Recovered Through Usage Charges
 - Reduces Administrative Burden

Objective: Equitable Rates

- ❖ Customers in Each Class Have a Uniform Rate Structure
- ❖ Minimum Monthly Charges for Larger Meter Sizes for Nonresidential/Commercial Customers Increase Based on Hydraulic Capacity Relationships Recognized By Utility Industry
 - Greater Need for System Capacity = Higher Base Charge

Objective: Equitable Rates (cont.)

- ❖ For Residential Class, Increase Rates of Higher Water Use Price Blocks to Shift More Cost Recovery to Customers with Higher Water Usage and Encourage Water Conservation (Consistent with Water Management District Goals)
 - Customers with Excessive Water Usage Will Pay Greater Percentage of System Costs
 - First (Lowest) Price Block Is Considered "Lifeline " Block for Portion of Indoor/Essential Usage; Middle Price Blocks for Discretionary Usage Including Some Irrigation Use; Last (Highest) Price Block for Excessive Irrigation Usage
- ❖ Add Billing Cap or Maximum of 12,000 Gallons to Residential Wastewater Billing
 - Assumes Usage Above 12,000 Gallons Is for Irrigation Purposes and Does Not Return to Wastewater System

Proposed Monthly Water Rates - Residential

[*] Customers located outside the City are subject to a 25% outside-City surcharge as allowed per Florida Statute 180.191.

Proposed Monthly Water Rates - Multifamily Residential

[*] Customers located outside the City are subject to a 25% outside-City surcharge as allowed per Florida Statute 180.191.

Proposed Monthly Water Rates - Motel, Hotel, Commercial and Industrial

[*] Customers located outside the City are subject to a 25% outside-City surcharge as allowed per Florida Statute 180.191.

Proposed Monthly Water Rates - Irrigation / Sprinkler

[*] Customers located outside the City are subject to a 25% outside-City surcharge as allowed per Florida Statute 180.191.

Proposed Monthly Wastewater Rates - Residential and Multifamily Residential

--	--

[*] Customers located outside the City are subject to a 25% outside-City surcharge as allowed per Florida Statute 180.191.

Proposed Monthly Wastewater Rates - Motel, Hotel, Commercial and Industrial

[*] Customers located outside the City are subject to a 25% outside-City surcharge as allowed per Florida Statute 180.191.

Proposed Reclaimed Water Rates

[*] Customers located outside the City are subject to a 25% outside-City surcharge as allowed per Florida Statute 180.191.

Combined Water and Wastewater User Rate Comparison

❖ Monthly Usage of 4,000 Gallons

- Average Usage of Single Family Residential Customer in System

[*] Utilities in CAPITALIZED letters: i) are involved in rate study; ii) are planning to conduct rate study; or iii) will implement rate revision or price index / pass-through adjustment within twelve months

Reclaimed Water User Rate Comparison

❖ Monthly Usage of 12,000 Gallons

- Average Usage of Single Family Residential Customer with Reclaimed Water Service in System

Miscellaneous Service Charges

- ❖ Proposed Charges Reflect Balance of:
 - Current Utility Costs to Provide Service
 - Comparison with Similar Charges of Other Florida Utilities
- ❖ To the Extent Charges Do Not Recover Cost of Providing Miscellaneous Services, Cost Difference Must Be Paid Through Monthly User Rates

RECOMMENDATIONS

- ❖ Adopt Proposed Water, Wastewater and Reclaimed Water User Rates for Fiscal Year 2015
- ❖ Adopt Proposed Miscellaneous Service Charges
- ❖ Review Future Capital Needs
- ❖ Update Financial Plan and Implement Future Rate Needs
 - Capital Needs Not Anticipated to Go Away But May Be More Expensive to Address in Future Due to Inflation in Costs of Construction and Increasing Interest Rates
 - FINANCIAL RISK: If Rate Needs Not Proactively Addressed, User Rates Could Be Even Higher in Future
 - Confirm Plans of Daytona Beach Shores
 - Calculate Development (Impact Fees) Based on Revised Capital Needs
 - Consider Adjustments to Miscellaneous Service Charges
